

Project 8-1 19th Avenue Mixed-Use Path, Buckingham Way to Holloway Avenue

This project would add a new route to the City's existing bicycle route network.

This project would involve the installation of a two-way Class I bicycle path between Buckingham Way and Holloway Avenue either along the west side of 19th Avenue or through the San Francisco State University (SFSU) campus. This project includes two design options:

Option 1 would add a two-way Class I bicycle path along the west side of 19th Avenue between Buckingham Way and Holloway Avenue by removing approximately 45 vehicle and 35 motorcycle parking spaces and by shifting the existing sidewalk westerly into the SFSU campus right-of-way. Approximately 300 feet north of Holloway Avenue, the path would shift westerly into the campus to avoid conflicts with the existing transit stop and main pedestrian entrance to campus, and would terminate at Holloway Avenue near Cardenas Avenue.

Option 2 would add a two-way Class I bicycle path through the SFSU campus between Buckingham Way and Holloway Avenue, as called for in the SFSU Campus Master Plan. Long-term SFSU plans include building a new bicycle and pedestrian bridge with a 32-foot wide deck through SFSU. The proposed bridge would connect the student housing complex University Park North, with the north side of Thornton Hall. The proposed bridge would provide two 10-foot sidewalks for pedestrians and two 6-foot Class I unidirectional bicycle paths for bicyclists.
