MUNI'S MISSION

Working together effectively, we serve our community. We provide safe, reliable, clean, accessible, and convenient transportation to any destination in the City. We are dedicated to creating the most satisfying experience possible for our employees and our riders.

By placing people first, Muni strives to offer the maximum opportunity for employees to contribute their best and achieve career growth. We are building a model urban transit organization, internationally recognized for excellence.

We treat each other with respect; develop trust; encourage mutual understanding; and value our diversity. We promote accountability and take pride in our work.

Above all, we are committed to living this Mission daily in our relationships with each and everyone in our community.

MUNICIPAL TRANSPORTATION AGENCY FY2005 GOALS

1. Advance Muni's and DPT's Missions at all levels and divisions within the organization by focused communication, involvement and recognition.
2. Cultivate security awareness and preparedness through drills, training and improved coordination with transit and government agencies.
3. Improve safety for employees, passengers, pedestrians and motorists by training; increased awareness; and improved equipment, facilities and traffic control.
4. Achieve service standards and performance measures, including:
 - On-time performance
 - Service availability
 - System reliability
 - System performance
 - Staffing performance
 - Customer service
5. Improve movement of people and goods throughout San Francisco by close communication and coordination between the Municipal Railway and the Department of Parking and Traffic.
6. Promote professional growth and development for all employees through available training opportunities.
7. Progress the Third Street Project in accordance with the FY05 baseline schedule and budget, including: ongoing construction of line segments and Metro East, continuing preliminary engineering work for Phase II, the Central Subway, and securing funding and community support for the project.
8. Maintain a balanced budget and build a foundation for long-term financial stability through aggressive pursuit of all revenue sources and improved management of resources.
9. Improve customer service by increasing access to timely and accurate information about all MTA services and by speedy resolution of complaints and issues.
10. Increase the use of all alternative modes of travel and reduce travel time without increasing congestion.
11. Finish implementation of the Transit Preferential Streets treatments for Inner Geary, and continue planning and design for transit improvements on Geary, Van Ness, and other corridors, in accordance with the Vision Plan.
12. Continue implementation of the TransLink universal fare card system.

BUDGET INFORMATION, PROCESS, GUIDELINES AND TIMELINE

The operating budget of the Municipal Transportation Agency – Municipal Railway Department (Muni), is proposed by the Executive Director and approved by the Municipal Transportation Agency (MTA) Board of Directors and the San Francisco Board of Supervisors. The Executive Director and the MTA Board certify that the budget is adequate in all respects to allow the department to make substantial progress toward meeting the goals, objectives, and performance standards established pursuant to Section 8A.103 of the San Francisco City Charter.

The FY2005 approved operating budget was created in the context of continued economic difficulties. FY2005 represents the fourth consecutive year of economic downturn. Beginning in FY2002, Muni's revenue sources began to decline, as they are sensitive to economic conditions and factors such as employment levels and tourism levels. At the same time, the fixed costs associated with Muni's core services have continued to rise, such as salary expenditures and fuel costs.

Over the past four years, Muni has made every effort to reduce its expenditures in order to balance its budget. In addition, in FY2004, with rider satisfaction levels increasing and continued progress towards meeting Muni's service standards, the agency looked to both revenue and expenditure solutions in order to balance its budget, adopting a fare increase as well as increases to parking fines, fees, and rates. In FY2005, after implementing expenditure and revenue measures over the previous years and facing a \$32 million deficit, Muni had few viable options remaining to balance its budget. As a result, the FY2005 budget includes difficult measures such as personnel reductions, service adjustments, and the use of capital funds.

While Muni has made progress in increasing its efficiency and maximizing its revenues in recent years, both of these strategies will need to be sustained in order for Muni to operate effectively going forward. In addition, it is important to recognize that a baseline level of resources is necessary in order to sustain service levels. Looking forward, it will be critical to align resources with service provision.

Process

The San Francisco Charter, as amended through Proposition E, approved by the voters in 1999, establishes the Municipal Transportation Agency (MTA) as an enterprise fund department of the City and County of San Francisco. Overseen by the MTA Board of Directors, Muni and the Department of Parking & Traffic make up the MTA and each also functions as an enterprise fund department. In establishing the MTA as an enterprise fund, a stated goal was to achieve a transportation system that is comparable to the best urban transit systems in the world's major cities. The structure is designed to provide the transportation system with the resources, independence, and focus necessary to achieve this goal. Specifically, the Charter amendment intended to strengthen Muni's authority to manage its employees, establish efficient and economical work rules and work practices that maximize Muni's responsiveness to public needs, and protect the right of Muni to

manage its employees. In addition, the amendment helps to provide for a predictable and stable level of funding.

Muni receives a yearly transfer or support from the General Fund, as specified by formula in Prop. E. The transfer amount is based upon the amount given in a base year, plus the percentage change in discretionary revenues for the General Fund.

Muni's budget process is also established in the Charter. After an internal review process, the Executive Director presents the proposed annual operating budget to the MTA Board and the Citizen's Advisory Council (CAC) for review and comment. A public hearing is also held. The MTA Board must approve the budget and forward it to the Mayor and the Board of Supervisors by March 1. As long as Muni stays within the revenue formulas outlined in the Charter, and does not ask for additional General Fund resources or support, the Mayor must forward the budget to the Board of Supervisors as submitted. The Controller's Office is charged with certifying the revenues as presented by Muni. Once received from the Mayor, the Board of Supervisors has three options with Muni's budget. It may approve or reject the budget, but not modify it. Rejecting the budget requires a two-thirds vote. Or, if the Board takes no action by August 1, the budget is deemed approved.

Operating Budget

The budget approved by the MTA Board and the Board of Supervisors is Muni's annual operating budget. With a few exceptions, it does not include capital projects. Capital projects are detailed in the Short Range Transit Plan, which is developed every other year. In addition, the operating budget also details positions funded through grant dollars.

USING THE DOCUMENT

The operating budget is a spending management plan for the use of Muni's resources. Through the use of these resources, Muni provides public transportation services within the City and County of San Francisco. In addition, the budget is the vehicle by which Muni recommends allocation of resources to meet Muni's goals and service standards. An accrual basis of accounting is used to develop Muni's budget.

Document Organization

Muni's budget is divided into 16 separate books, offered through electronic media. The first book is a department-level look at Muni's budget, including an overview of its revenues and appropriations (expenditures), and positions. In addition, there are 15 division-level books that give a more detailed picture of each division, by unit.

Independent of the operating budget is Muni's capital budget, which is contained in the Short Range Transit Plan (SRTP). The SRTP is published every two years and is subject to approval by the MTA Board of Directors, and to appropriation approval by the Board of Supervisors.

Budget Organization

Index Codes/Object/Subobject Codes

As required by the San Francisco Charter, Muni's budget is developed as a line item budget. As such it is organized into index codes, which indicate where in the department the funds are allocated, and object and subobject codes, which indicate what type of expenditure is included. This level of detail can be found in the reports that follow the budget narrative.

Positions

COLAs/Labor Agreements/Equity Adjustments

As codified in the San Francisco Charter, the approved budget must contain in it funding to pay for all anticipated or estimated salary adjustments provided in employee Memoranda of Understanding (MOUs), cost of living adjustments (COLAs), and any other pay equity adjustments. (For the rest of the City, that money is added to departmental budgets after approval of employee MOUs.)

Annualization of Existing Positions

Positions that were added in the previous year's budget (FY2004 operating budget), must be annualized to a full 1.0 full time equivalent (FTE) position from the previously budgeted 0.75 FTE position. The incremental costs associated with these positions must also be budgeted. Because no new positions were added in FY2004, there are no position annualization costs in the FY2005 budget.

New Positions

New positions are pro-rated to reflect the portion of the year the position will be on payroll. The default is to budget new positions at 0.75 of a full position, as the recruitment process takes an average of three months. No new positions were added to the FY2005 budget.

Attrition Savings

It is anticipated that normal departmental attrition results in savings. Attrition savings appear in the budget as a negative position count, which is netted against the total positions in the budget. Thus, the total position count for the department reflects the net funded positions for the department, adjusted for attrition savings.

Other Adjustments

Other salary adjustments included in budgeted position expenditures are those to compensate for a year that has 260, 261 or 262 workdays, for automatic step adjustments, and to adjust for positions not at the top salary step. In addition, salary annualization costs represent the cost of wage adjustments that took place during the prior year.

Fringe Benefits

Fringe benefits include health care for active and retired employees, social security and Medicare contributions, City retirement contribution, City-paid employee retirement contribution (City pick-up), and other benefits provided in employee MOUs.

Organization Charts

Organization charts are included in each budget book. These charts reflect the positions and organizational structure of the agency at the time the FY2005 budget was developed.

Terms

Platform

The term “platform” refers to the 9163 Transit Operator classification.

Miscellaneous

When used in reference to employees, the term “miscellaneous” applies to all non-Transit Operator classifications.

OVERVIEW

**General Manager Division
Operating Fund**

	Approved FY2004	Approved FY2005	FY 2005 Variance
Salaries	\$20,644,121	\$19,385,488	(\$1,258,633)
Mandatory Fringe Benefits	3,639,218	5,220,641	1,581,423
Non Personal Services	1,906,602	1,806,679	(99,923)
Materials & Supplies	295,215	227,324	(67,891)
Capital Outlay	0	90,000	90,000
Allocated Charges	(77,105)	(140,000)	(62,895)
Services Of Other Depts	95,793	98,789	2,996
Total	\$26,503,844	\$26,688,921	\$185,077

Salaries decreased due to the deletion of 22.11 positions. The position deletions are part of Muni's overall strategy to reduce expenditures and close the FY2005 budget gap. Slightly offsetting this reduction is an increase in holiday pay to better reflect actual work assignments and expenditures.

Mandatory fringe benefits increased in FY2005, chiefly due to the restoration of the City contribution to the retirement fund. The increase in fringe benefits also reflects higher costs for employee health benefits and city pick up the 7.5% employee retirement contribution for positions represented by TWU Local 200. Additionally, there was a small decrease in costs for employer match (FICA) associated with the workforce reductions.

Decreases in Non Personal Services and Materials and Supplies reflect Muni's department-wide effort to reduce operating expenditures. The Capital Outlay represents the cost of purchasing two ¾ ton diesel trucks for Street Operations. The increase in Allocated Charges incorporates the source of funding for those trucks as well as a reduction in the expenditure recovery from CalTrain for Traffic Checker activities. Lastly, of the three work orders budgeted in the Services of Other Departments appropriation, only one rose slightly, based on actual expenditures of centralized mail delivery services provided by the Purchasing Department.

**General Manager Division
Capital Reserve Fund**

	Approved FY2004	Approved FY2005	FY 2005 Variance
Capital Projects (CIP)	\$600,000	\$0	(\$600,000)
Total	\$600,000	\$0	(\$600,000)

This appropriation was a one-time expenditure in FY2004 to support implementation of the integrated Vehicle Scheduling System project and is therefore deleted in FY2005. Expenditures from the Capital Reserve Fund are restricted for capital purposes only as provided in the San Francisco Administrative Code.

**General Manager Division
Transit Shelter Program
Special Revenue Fund**

	Approved FY2004	Approved FY2005	FY 2005 Variance
Salaries	\$144,528	\$122,149	(\$22,379)
Mandatory Fringe Benefits	22,750	27,380	4,630
Non Personal Services	2,000	2,000	0
Materials & Supplies	18,649	18,649	0
Services Of Other Depts	31,426	31,426	0
Total	\$219,353	\$201,604	(\$17,749)

The Transit Shelter Program manages the installation and maintenance of transit shelters through a contract with Viacom Outdoor. The budget funds one full-time permanent employee and one half-time temporary employee to administer the program. Administrative costs include salaries, fringe benefits, and services of other departments. The decrease to Salaries is due to reduced funding for Temporary Salaries, in anticipation of limited support to this program in FY2005. The increase in Mandatory Fringe Benefits is chiefly due to the restoration of the City contribution to the retirement fund. Slightly offsetting this increase was a small decrease in costs for employer match (FICA) associated with the reduction in Temporary Salaries. The appropriations for Non Personal Services and Materials & Supplies have not changed as expenditures are anticipated to remain constant. Additionally, funding for Services of Other Departments also remains the same, as there is no projected increase in legal services provided by the City Attorney or bus zone painting provided by the Department of Parking and Traffic.

The Transit Shelter Program is funded through a Special Revenue Fund. Special Revenue Funds are distinct from General Fund revenues because the source of funding is not derived from taxes or other general revenue sources and, in addition, the proceeds are earmarked for a specific purpose.

APPROPRIATIONS AND POSITIONS
DIVISION LEVEL

**MUNICIPAL RAILWAY DEPARTMENT
GENERAL MANAGER DIVISION
FY2005 BUDGET APPROPRIATION NARRATIVE**

Organization And Mission

The mission of the General Manager Division is to provide and maintain the control processes that support the planning, scheduling, monitoring and performance of Municipal Railway operations in order that the Municipal Railway Department achieve its goal of delivering convenient, reliable and safe service.

Division Sections Responsibilities

The General Manager Division is organized into six sections, which have the following responsibilities:

- **Office of the General Manager** provides management oversight and coordinates the activities of the Transportation, Maintenance, Construction, and General Manager Divisions.
- **Operations Administration** is responsible for performance monitoring and reporting; operations analysis; analysis of performance reports and other data to meet Prop E requirements and comply with FTA and NTD reporting requirements; configuration control; and administration.
- **Schedules** collects and analyzes passenger data, service demand, and other data to meet Prop E requirements and comply with FTA and NTD reporting requirements. Additionally, Schedules produces system schedules and manages the scheduling process for all transit vehicle operators, analyzes running time data and recommends routing and schedule changes, and collects other service and performance data to meet special needs of the Transportation and Service Planning divisions.
- **Reproduction** and **Mail Room** units function as part of the Schedules section. Reproduction is responsible for printing Muni schedules and other informational material. Mail Room is responsible for mail distribution throughout Muni.
- **Service Planning** develops short-term and long-term service requirements, proposes and implements routes, stops, and other service changes, advances the Transit Preferential Streets project, and analyzes the City Planning Department's Environmental Impact Reports.
- **Transit Shelter Program** is responsible for managing the installation and maintenance of shelters at Muni transit stops through a vendor contract.

- **Service Operations**

The Office of Service Operations provides managerial oversight for the following work groups responsible for the Prop E goals of schedule adherence and service reliability:

- Metro Rail Transportation is comprised of the Transit Supervisors working out of the Metro Rail Division who monitor service along Muni Metro routes and respond to accidents and other incidents.
- Rail Mobile Response Unit (MRU) is a mobile unit of 13 Electrical Transit Mechanics that provides rapid response capability if mechanical problems occur with Muni Metro rail vehicles in revenue service.
- Street Operations consists of Transit Managers and Transit Supervisors who monitor service on the street, plan and coordinate service for special events and respond to accidents and other incidents. Some Transit Supervisors are assigned to monitor service at fixed post locations, while others are assigned to provide mobile response to service problems throughout the system.
- Central Control provides round-the-clock central coordination of Muni's transit service by monitoring service delivery in real-time, adjusting service as needed to respond to traffic conditions and in-service vehicle mechanical problems, receiving and coordinating responses to reports of emergencies from Muni operators, and recording reported incidents.
- Station Operations provides information to Muni passengers and the general public regarding fares, transit routes, schedules and other related matters at the stations, monitors communications and display devices, responds to accidents, incidents, and delays, monitors fare payments, opens and closes stations, prepares accident reports, monitors surveillance equipment, and makes announcements on the public address system.
- F-Line Light Rail Vehicle Grant is an operating grant that funds salaries for 4.50 Transit Supervisors who monitor F-Line Embarcadero service.

In FY2005, Muni was once again faced with a significant budget shortfall. This is due to reduced revenues resulting from the continued economic downturn as well as mandated increases in operating costs.

Muni's strategy to close the budget gap included both revenue initiatives and cost-saving initiatives to reduce operating expenses. The General Manager Division's FY2005 budget reflects these programs, specifically through the implementation of workforce reductions to reduce labor costs.

✧ OBJECT 001/PERMANENT SALARIES - MISCELLANEOUS ✧

Approved FY2004	Approved FY2005	FY2005 Increase (Decrease)
\$18,818,740	\$17,540,107	(\$1,278,633)

Permanent salaries and positions are allocated among the sections of the General Manager Division as follows:

General Manager Division – Miscellaneous Salaries			
Sections	FY2005 Approved	FY2005 FTE	
Office of the General Manager	\$401,587	4.00	
Operations Administration	367,816	4.51	
Service Operations	14,567,843	213.84	
Schedules	1,992,402	32.76	
Service Planning	210,459	2.34	
Total	\$17,540,107	257.45	

The decrease in permanent salaries for the General Manager Division is composed of the following elements:

Description	Amount
Reassigned Positions	\$121,913
Position Substitutions	15,086
Deleted Positions	(1,394,484)
COLA	9,849
Other Adjustments	(30,997)
Total	(\$1,278,633)

The following sections detail the position changes for the FY2005 budget. The salary amounts shown for reassigned positions and individual substitutions do not reflect COLAs or other FY2005 salary adjustments.

Reassigned Positions \$121,913

Two positions were reassigned to the General Manager Division from the Maintenance Division, to reflect the actual reporting structure. The positions, a 7335 Senior Stationary Engineer and a 1446 Secretary II, provide technical and administrative support to the General Manager.

Position Substitutions**\$15,086**

The following position substitutions were made in the FY2005 budget:

Mail Room				
Index	Class	Title	FTE	Salary
351619	9126	Transit Traffic Checker	(1.00)	(\$53,453)
351619	1404	Clerk	1.00	41,838
PTA		Net Increase (Decrease)	-0-	(\$11,615)

The Muni Mail Room operates with two full-time positions as well as intermittent assistance from light duty operators. In order to better provide continuous delivery of services, a 1404 Clerk is being added to the FY2005 Mail Room budget. This position will be funded through the substitution of a vacant 9126 Transit Traffic Checker from the Data Collection unit.

Street Operations				
Index	Class	Title	FTE	Salary
358186	9160	Transit Operations Specialist	(1.00)	(\$ 86,835)
358186	9141	Transit Manager II	1.00	92,055
PTB		Net Increase (Decrease)	-0-	\$5,220

This position serves as Chief Inspector of Street Operations. The substitution from a supervisory classification to a managerial classification is more appropriate to the needs and organizational structure of Street Operations. Since this position was TXed (temporarily exchanged) in FY2004, the Controller's Office requires that Muni budget this position appropriately in the subsequent fiscal year.

Schedules				
Index	Class	Title	FTE	Salary
358852	9128	Sr. Transit Traffic Checker	(1.00)	(\$57,524)
358852	1827	Administrative Services Manager	1.00	79,005
PTP		Net Increase (Decrease)	-0-	\$21,481

This position serves as administrative and analytical support to the Office of Schedules. An 1827 Administrative Services Manager is the appropriate classification for this work. The position is funded through the substitution of a vacant 9128 Senior Transit Traffic Checker from the Data Collection unit.

Deleted Positions**(\$1,394,484)**

As part of Muni's strategy to address the budget shortfall in FY2005, a number of positions have been deleted in the General Manager Division budget. These workforce reductions were implemented with a goal of minimizing the impact on direct service provision.

Since the position deletions are effective September 1, the deleted position had to be funded for the first two months, or 17%, of the fiscal year. Hence, the net reduction for the position deletion is 83% of the annual salary, or .83 FTE. Eight of the positions deleted in the General Manager Division were vacant, and therefore the reduction was 100% for these positions.

FY2005 General Manager Division Position Deletions

Central Control	1426 Senior Clerk Typist	(0.83)	(39,578)
Station Operations	1426 Senior Clerk Typist	(0.83)	(39,578)
Total		(22.11)	(\$1,394,484)

It should be noted that, at the close of the budget process, Muni was able to rescind some layoffs. While those specific positions were still deleted in the budget due to timing constraints, all employees whose layoffs were rescinded occupy budgeted lines. The appropriate classifications will be restored in the FY2006 budget.

Cost-of-Living Adjustment (COLA)**\$9,849**

There was a small salary adjustment to classes represented by the Municipal Employees Association (MEA). Although these classifications did not receive a wage increase, their budgeted salaries were augmented to reflect the anticipated cost of payment in lieu of the MEA Pay for Performance plan, which was deferred due to the citywide fiscal crisis.

Other Adjustments**(\$30,997)**

These salary adjustments include those calculated by the Controller's Office in their Budget Preparation system. These include leap year adjustments, attrition savings adjustments, and STEP adjustments. Step adjustments represent the annualized cost of step increases that took place during the prior fiscal year. The decrease is due to the net effect of additional attrition savings and the reversal of FY2004 leap year adjustments, offset by a reduction in step adjustment savings.

✧ OBJECT 005/TEMPORARY SALARIES - MISCELLANEOUS ✧

Approved FY2004	Approved FY2005	FY2005 Increase (Decrease)
\$24,726	\$24,726	\$0

Temporary salaries fund a part-time librarian in the Service Planning Section. The librarian manages Muni's Transit Library for use by managers, staff, other agencies and the public.

✧ OBJECT 009/PREMIUM PAY ✧

Approved FY2004	Approved FY2005	FY2005 Increase (Decrease)
\$690,000	\$690,000	\$0

Premium pay includes MOU-authorized premiums such as night differential, lead pay, standby pay, word processing premium and longevity pay. The majority of the miscellaneous premium pay in the General Manager Division is shift differential pay for Transit Supervisors in the Central Control, Metro Rail and Street Operations sections and for Electrical Transit System Mechanics in the Rail Mobile Response Unit. In addition, Transit Supervisors in Central Control are eligible to receive a half-step premium.

Premium Pay Allocation	FY2005
Schedules – Data Collection	40,000
Schedule Development & Production	10,000
Metro Rail Transportation	80,000
Rail Mobile Response Unit	30,000
Street Operations	200,000
Central Control	200,000
Station Operations	130,000

◇ OBJECT 011/OVERTIME ◇

Approved FY2004	Approved FY2005	FY2005 Increase (Decrease)
\$636,655	\$636,655	\$0

The majority of overtime pay in the General Manager Division is allocated for Transit Supervisors in the Metro Rail, Street Operations, and Central Control units. These areas are critical to meeting Prop E standards of service reliability and schedule adherence. In order to perform these functions 24 hours a day, seven days a week, the division requires some overtime funding to offset staffing shortages caused by vacancies, illness and other unscheduled absences. The FY2005 budget carries forward the overtime reductions made in the FY2003 and FY2004 budgets, continuing Muni's expenditure reduction strategy.

Overtime Allocation	FY2005

Street Operations	154,366
Central Control	153,691
Station Operations	39,821
Total	\$636,655

◇ OBJECT 012/HOLIDAY PAY ◇

Approved FY2004	Approved FY2005	FY2005 Increase (Decrease)
\$474,000	\$494,000	\$20,000

Holiday Pay is an MOU-authorized premium used to compensate employees scheduled or assigned to work on one of the eleven scheduled legal holidays. Central Control, Street Operations, Metro Rail and Station Operations function 365 days a year, and therefore eligible Transit Supervisors and Station Agents are entitled to this premium. The Holiday Pay appropriation was adjusted to reflect actual scheduled holiday hours worked by these units.

Holiday Pay Allocation	FY2004	FY2005	FY2005 Incr/(Decr)
Metro Rail Transportation	\$80,000	\$80,000	\$0
Rail Mobile Response Unit	20,000	30,000	10,000

Approved FY2004	Approved FY2005	FY2005 Increase (Decrease)
\$3,639,218	\$5,220,641	\$1,581,423

This appropriation covers mandatory fringe benefit costs for active miscellaneous employees, including social security, health benefits, and City contributions to retirement. The FY2005 increase results from several factors influencing fringe benefits costs. The restoration of the City contribution to the retirement fund increased fringe benefit costs by \$786,000. Additionally, employee health benefit costs have increased by \$47,000. Further, an arbitration award provides that the city pick up the 7.5% employee retirement contribution for positions represented by TWU Local 200, amounting to \$793,000 in the General Manager Division. These increases were slightly offset by a decrease in costs for employer match (FICA) associated with the workforce reductions.

Computer-related training in the Service Planning Section has been reduced in FY2005.

✧ OBJECT 023/EMPLOYEE FIELD EXPENSE ✧

Approved FY2004	Approved FY2005	FY2005 Increase (Decrease)
\$158	\$90	(\$68)

This appropriation funds miscellaneous field expenses such as auto mileage, parking at off-site meetings and related costs for the Office of Schedules. The reduction reflects the deletion of this expense in the Operations Administration budget.

\$1,514,729	\$1,495,518	(\$19,211)

This appropriation funds property rent at 1399 Marin Street and various other locations. The Marin Street property is used for vehicle storage. The indoor and outdoor space at 23rd and Illinois is used by the Materials Management Section to store vehicle parts and materials required to maintain Muni vehicles and infrastructure. At Pier 80, Muni houses the Maintenance Training Section. Muni also uses a portion of the Pier 80 cargo terminal as temporary storage and to house the Signal Maintenance Shop. Additionally, this appropriation covers rental costs for the radio transmitter located on the top of the Bank of

America building, which transmits signals for Central Control. Furthermore, Muni pays site license fees for four antennas, six microwave dishes and GPS equipment at the Clay/Jones location. This equipment is primarily used for the Emergency Communication System now administered by DTIS.

The decrease in Property Rent is the net effect of rent increases and downward adjustments to the budget. There is a 5% COLA rent increase at Pier 72, which is used for long-term storage for major equipment, and the rent increase for the repeater antenna at Clay and Jones which began in February 2004 was annualized for FY2005. A lease extension with the Bank of America resulted in a rent increase for the radio transmitter atop 555 California Street. Offsetting these increases is a small correcting downward adjustment for the Maintenance Training portion of the Pier 80 rent. Additionally, the rent for the operator restrooms was reallocated to the Platform budget. Further, the annual cost of rent for the Service Planning Section at 1145 Market Street is anticipated to decrease as Muni renegotiates the lease for divisions renting space there.

The Rail Mobile Response Unit provides services to vehicles needing emergency repairs while in revenue service. Funding in the amount of \$20,000 is appropriated for maintenance supplies needed to perform minor repairs in the field and thereby return vehicles to service as quickly as possible. The appropriation for equipment maintenance supplies used by the Service Planning Section was eliminated in FY2005, after a review of actual expenditures.

This is an expenditure recovery from CalTrain for activities performed by Muni Traffic Checkers for CalTrain. Muni Traffic Checkers determine ridership levels for the shuttle service Muni provides to CalTrain customers between the CalTrain station at 4th and King Streets and the downtown area. The FY2005 budget for this item was reduced by \$27,105 to reflect the actual recovery projected in FY2004 as well as the actual amount provided by Caltrain in FY2003. In addition, this item incorporates a \$90,000 recovery for the purchase of two trucks for the Street Operations unit. Funding for these trucks will be provided through a construction recovery fund, and is therefore budgeted as an allocated charge.

081PM	Purchasing – Mail Services	31,293	34,289	2,996
	Total	\$95,793	\$98,789	\$2,996

081PK Bus Zone Painting \$62,000

This work order funds the Department of Parking and Traffic to provide citywide bus zone painting so that clearly designated bus zones are maintained for safety, customer service and avoidance of parking disputes due to faded zone markings.

081H4 Human Resources- Employee Assistance Program \$2,500

This work order funds the annual Worksite Climate Analysis by the Employee Assistance Program (EAP). The purpose of this analysis is to evaluate and identify the social and psychological factors in the workplace that may adversely affect employee performance. The Employee Assistance Program was formerly with Community Health Services

(Department of Public Health). As this function was transferred to the Department of Human Resources in FY2005, the workorder with Community Health Services (081HS) has been replaced by one to the Department of Human Resources.

081PM Purchasing – Mail Services \$34,289

This work order funds the Purchasing Department for providing centralized mail delivery services to Muni. In FY2005, the work order to the Purchaser for mail delivery was increased to better reflect the actual cost of this service.

Special Revenue Fund (SRF)

Approved FY2004	Approved FY2005	FY2005 Increase (Decrease)
\$219,353	\$201,604	(\$17,749)

The Transit Shelter Program manages the installation and maintenance of transit shelters through a contract with Viacom. The budget funds one full-time permanent employee and one part-time temporary employee. Service Planning administers the program.

Under an agreement between the City and Viacom Outdoor, transit passenger shelters are constructed throughout the City. Viacom Outdoor pays the City a fee for each shelter (increased by a CPI-adjusted inflation factor) to administer the program. Administering the program involves negotiating amendments to the agreement, advocating for the installation and maintenance of the shelters and handling day-to-day problems. Administrative costs include salaries, fringe benefits, and the services of other departments.

The Transit Shelter Program is funded through a Special Revenue Fund. Special Revenue Funds are distinct from General Fund revenues because the source of funding is not derived from taxes or other general revenue sources and, in addition, the proceeds are earmarked for a specific purpose.

Transit Shelter Program Expenditure Summary

Object	Item	FY2004	FY2005	Incr/(Decr)
001	Permanent Salaries – Misc.	\$115,660	\$115,219	(\$441)
005	Temporary Salaries – Misc.	28,868	6,930	(21,938)

	Total	<u>\$219,353</u>	<u>\$201,604</u>	<u>(\$17,749)</u>

Permanent Salaries \$115,219

The permanent salaries appropriation funds one full-time Transit Planner III. The decrease is due to salary adjustments made by the Controller to reverse the leap year adjustment made in the FY2004 budget.

Temporary Salaries \$6,930

Temporary Salaries funds one part-time Transit Planner III. This funding is reduced in anticipation of limited support to this program in FY2005.

Mandatory Fringe Benefits \$27,380

This appropriation covers mandatory fringe benefit costs for active miscellaneous employees, including social security, health benefits, and City contributions to retirement. The FY2005 increase results from the restoration of the City contribution to the retirement fund and higher employee health benefit costs. These increases were slightly offset by a decrease in costs for employer match (FICA) associated with the decreased funding for the part-time employee.

Other Current Expenses \$2,000

This appropriation funds the purchase of decals and replacement components for transit signs.

Other Materials and Supplies \$18,649

This allocation includes expenditures for office equipment and supplies.

Services of Other Departments \$31,426

This appropriation funds an \$11,426 work order for legal services by the City Attorney and a \$20,000 work order with the Department of Parking and Traffic for bus zone painting related to transit shelter placement.
