ONGOING

ONGOING: Track Maintenance Work at Judah Street and 25th Avenue

As part of the overall Muni rail maintenance project to improve the safety and reliability of the N Judah service once the trains start running again, Muni will resume construction work after temporary suspension due to COVID-19 emergency in March 2020.

Starting on Monday, Jan. 11 and continuing for about a week, SFMTA crews will resume track maintenance work on Judah Street and 25th Avenue. Work is planned from 9 a.m. to 3:30 p.m., Monday through Friday. Weekend work may occur if needed.

During construction:

- Judah Street will remain open.
- Vehicular traffic headed north or south along 25th Avenue will be required to turn right at Judah Street
- Neighbors can expect some noise during demolition.
- Two parking spaces on each side of 25th Avenue, south of the intersection, will be unavailable throughout construction.
- Parking restrictions during work hours only apply to two or three parking spaces on each corner of the intersection. "No Parking" signs will be posted for exact locations.
- Crosswalks and sidewalks may be occasionally closed with detours provided.

ONGOING: L Taraval Improvement Project

Since Aug. 2019, the traffic pattern on lower Great Highway between Ulloa and Santiago streets has been changed. The northbound travel lane on lower Great Highway has been rerouted to 48th Avenue for two blocks between Ulloa and Santiago streets. The southbound travel lane will continue on lower Great Highway as usual. This will be in effect until project completion in fall 2021. For project details, visit [SFMTA.com/LTaraval Project](https://www.sfmta.com/LTaravalProject).

ONGOING: 19th Avenue (CA Route 1) Combined City Project

San Francisco Public Works is leading a multi-agency project to replace aging infrastructure and improve safety along 19th Avenue between Holloway Avenue and Lincoln Way.

Construction work for the first segment of this project along 19th Avenue between Lincoln Way and Noriega Street has begun.

ONGOING: 19th Avenue (CA Route 1) Combined City Project *continued*

As part of the [19th Avenue Combined City Project](#), the SFMTA will implement transit priority and safety improvements for people walking along the route of the 28 19th Avenue. The improvements will make it safer to walk, remove stops to make transit service more reliable, and enhance customers' experiences—on and off the bus.

To improve safety along 19th Avenue, the SFMTA will: **1)** install pedestrian bulbs at 19 intersections and transit bulbs at 13 intersections; **2)** modify traffic and pedestrian signals to give people who walk more time to cross the street; and **3)** extend the bus zone at one intersection. Installing transit bulbs allow Muni vehicles to stop for passengers without having to pull out of traffic, and pedestrian bulbs increase the visibility at intersections of people who walk.

As part of the project, seven Muni stops were removed on 19th Avenue between Irving Street and Ocean Avenue on Oct. 17. **The following Muni routes have been affected with the stop removal:**

- **28 19th Avenue**
- **91 3rd Street/19th Avenue Owl**

To find additional information about the transit reliability and pedestrian safety components, visit sfmta.com/28Rapid. For overall project information, visit sfpublicworks.org/19th-Avenue.
