### ***Special Event Parking Rates***

During baseball games and other major events with more than 10,000 expected attendees at the Oracle Park, **parking meters close to the ballpark will charge a special event rate of \$9\* per hour**. These rates help reduce congestion and keep parking spots available in the neighborhoods near the ballpark, discouraging circling for free or cheap parking. Start times for special event rates vary based on the start time of the event. More information on special event parking regulations can be found on [www.sfmta.com/special-event-parking](http://www.sfmta.com/special-event-parking).

### **ONGOING: Castro Westbound Platform Elevator Closed for Upgrades**

The rehabilitation on the westbound platform elevator at Muni Castro Station has begun and will continue for about six months. During this time, the elevator will be closed for upgrades.

The SFMTA is committed to continuously improving safety and reliability for all Muni customers even during the COVID-19 pandemic. The Castro elevator is the eighth of 12 being rehabilitated systemwide as part of the [Muni Elevator Improvement Project](#). The project will greatly improve accessibility and convenience, especially for wheelchair users, seniors, and others with disabilities who benefit from elevator access.

For information on alternative Castro elevator service, visit [SFMTA.com/Elevator](https://www.sfmta.com/Elevator).

### **ONGOING: 19th Avenue (CA Route 1) Combined City Project**

**San Francisco Public Works is leading a multi-agency project to replace aging infrastructure and improve safety along 19<sup>th</sup> Avenue between Holloway Avenue and Lincoln Way.**

Construction work for the first segment of this project along 19th Avenue between Lincoln Way and Noriega Street has begun.

As part of the [19th Avenue Combined City Project](#), the SFMTA will implement transit priority and safety improvements for people walking along the route of the 28 19th Avenue. The improvements will make it safer to walk, remove stops to make transit service more reliable, and enhance customers' experiences—on and off the bus.

To improve safety along 19<sup>th</sup> Avenue, the SFMTA will: **1)** install pedestrian bulbs at 19 intersections and transit bulbs at 13 intersections; **2)** modify traffic and pedestrian signals to give people who walk more time to cross the street; and **3)** extend the bus zone at one intersection. Installing transit bulbs allow Muni vehicles to stop for passengers without having to pull out of traffic, and pedestrian bulbs increase the visibility at intersections of people who walk.

As part of the project, seven Muni stops were removed on 19th Avenue between Irving Street and Ocean Avenue last October. **The following Muni routes have been affected with the stop removal:**

- **28 19th Avenue**
- **91 3rd Street/19th Avenue Owl**

The program allows the use of sidewalks, parking space, full or partial streets, or other nearby public spaces like parks and plazas for a wide range of activities responding to the COVID pandemic, as allowed by San Francisco's Public Health Order.
