

Bus Terminal Relocation & Parking Changes at Newhall & Hudson Streets

The SFMTA is considering relocating Muni’s 15 Bayview Hunters Point Express terminal from Palou Avenue to Newhall and Hudson streets to improve reliability and safety. The current terminal on Palou Avenue is frequently blocked by private vehicles, causing delays and disrupting Muni service.

Benefits of the terminal relocation

- **More reliable service and better connections:**
Being able to access available space for buses at the end of the route and near a restroom means that operators can be ready to start their next trip on time after a short break.
- **Operator wellbeing & enhanced safety:**
The new terminal location allows operators to take necessary breaks and park safely.

What This Means for You

Five parking spaces would be removed at Newhall Street and Hudson Street to accommodate the new terminal; however, four new parking spaces will be added at Palou Avenue. Since the existing bus terminal on Newhall Street already serves the 54 Felton, no other major changes will occur. While this change may affect parking availability, it is necessary to improve Muni service reliability.

If approved, the new terminal would be implemented by **summer 2025**.
