**SFMTA Weekend Transit and Traffic Advisory  
For Saturday, May 23, 2020**

**Memorial Day Holiday Muni Service**

**Monday, May 25 (Memorial Day Holiday)**, Muni will continue to operate with [Core Service Plan](#).

**Parking Enforcement**

**Effective for the duration of the shelter-in-place order**, the SFMTA will not ticket for mechanical street cleaning. However, it is crucial that we still clean our streets to prevent trash buildup and local flooding. Residents should still move their car for street cleaning if possible.

### Parking Enforcement *continued*

Enforcement is also temporarily suspended for the following:

- 72-hour parking limit and towing
- All time limit parking (e.g., 1-hour, 2-hour, etc.)
- Residential Permit Parking (RPP) permits
- Commuter shuttles
- Peak-hour towaway zones
- Street cleaning

The SFMTA will prioritize enforcing parking rules that impact health and safety:

- Fire hydrant zones
- Red and yellow zones; and "No Stopping" or "No Parking" zones
- White passenger loading zones, except in front of schools while they are out of session
- Blocked driveways, double parking and parking on sidewalks
- Parking in bike or transit lanes

**Parking Meters:** Given the significant shifts in parking demand, the city is implementing a temporary rate change for all parking meters citywide beginning on March 18 through the period of the Public Health Order. Time limits are also being waived on meters citywide. All meters are temporarily reduced to their base rates:

- \$0.50/hour for vehicle parking
- \$0.10/hour for motorcycle parking

We are maintaining a minimal fee to ensure there continues to be turnover around essential services, such as grocery stores, medical facilities and banks.

### **UPDATE: Muni Service Adjustments During the COVID-19 Shelter-In-Place Order**

During the rapidly changing environment caused by COVID-19, the SFMTA has been continuing with reduced service adjustment to Muni service in order to focus our limited resources to the busiest lines and those that most critically serve essential trips. The Core network allows Muni to continue to serve San Francisco's medical facilities and focuses on equity to ensure service for our customers most reliant on transit. The frequency of buses varies by line so that lines experiencing some crowding will have more frequent service than others.

With an increase in staffing availability and additional bus cleaning programs, the SFMTA has been able to provide more frequent service to allow for better physical distancing on higher-ridership routes for essential trips. Decisions about where to increase the frequency of Muni service are based on ridership data:

### **Essential Trip Card Discount Program**

To assist people with disabilities and older adults with making essential trips under Muni's temporary transit changes, the SFMTA recently launched the [Essential Trip Card](#) (ETC) Program to address this need. This is a temporary special program that provides two to three round trips at an 80% discount per month, i.e. rider pays \$6 to receive a value of \$30 or pays \$12 to receive a \$60 value. The discount is limited to a value of \$60 taxi service per month per customer.

**To qualify for the program: customer must be either age 65 or older or an adult with disabilities.** Eligible adults may apply for the ETC program by calling 311 and mentioning the program. Staff will be available between 9 a.m. and 4:45 p.m., Monday through Friday. Visit <https://www.sfmta.com/etc> for additional details and for a list of San Francisco taxi companies, visit <https://www.sfmta.com/taxi/directory>.

**SFMTA's pre-existing Shop-a-Round program that offers registered seniors and people with disabilities personalized assistance and rides to and from grocery stores and farmers markets is still available and will continue post public health order.** For more information, visit <https://www.sfparatransit.com/shop-a-round>.

### **Slow Streets Program**

On some lower-traffic residential streets, through traffic is being limited to prioritize walking or biking and to provide more space for social distancing during essential travel. Sometimes it is difficult to maintain social distance, especially outside of grocery stores and other essential services. Because of this, many pedestrians are choosing to walk in the street, exposing themselves to vehicle traffic. The SFMTA is implementing the Slow Streets program to allow roadways to be used more as a shared space for foot, bicycle and wheelchair traffic, taking advantage of low vehicle numbers on some roads.

- Streets are not closed completely and local vehicle access is allowed (e.g., driveway access for residents).
- Slow streets are shared streets, all users must give way to others as appropriate. People walking/running/biking do not have exclusive right-of-way over motor vehicles.
- Once installed, Slow Streets corridors will be in effect 24/7.

We plan to install two or three Slow Streets corridors per week. We will continue to monitor the use of Slow Streets to minimize impacts on surrounding streets. Learn more about proposed Slow Streets locations by visiting [SFMTA.com/SlowStreets](https://www.sfmta.com/SlowStreets).

### **Temporary Loading Program**

The COVID-19 health crisis is creating a temporary increase in take-out/delivery service for many restaurants and essential businesses. To encourage physical distancing and reduce crowding, the SFMTA is fast-tracking converting some adjacent street parking into temporary loading zones.

If you are engaged in an essential business, there is no fee, simply [complete the form for review and processing](#). Due to high demand on this program, SFMTA staff are working diligently to review applications and to respond as soon as they can.
