Muni Service Adjustments During the COVID-19 Shelter-In-Place Order

During the rapidly changing environment caused by COVID-19, the SFMTA has been continuing with reduced service adjustment to Muni service in order to focus our limited resources to the busiest lines and those that most critically serve essential trips. The Core network allows Muni to continue to serve San Francisco's medical facilities and focuses on equity to ensure service for our customers most reliant on transit. The frequency of buses varies by line so that lines experiencing some crowding will have more frequent service than others.

Essential Trip Card Discount Program

To assist people with disabilities and older adults with making essential trips under Muni's temporary transit changes, the SFMTA recently launched the [Essential Trip Card](#) (ETC) Program to address this need. This is a temporary special program that provides two to three round trips at an 80% discount per month, i.e. rider pays \$6 to receive a value of \$30 or pays \$12 to receive a \$60 value. The discount is limited to a value of \$60 taxi service per month per customer.

To qualify for the program: customer must be either age 65 or older or an adult with disabilities. Eligible adults may apply for the ETC program by calling 311 and mentioning the program. Staff will be available between 9 a.m. and 4:45 p.m., Monday through Friday. Visit <https://www.sfmta.com/etc> for additional details and for a list of San Francisco taxi companies, visit <https://www.sfmta.com/taxi/directory>.

Essential Trip Card Discount Program *continued*

SFMTA's pre-existing Shop-a-Round program that offers registered seniors and people with disabilities personalized assistance and rides to and from grocery stores and farmers markets is still available and will continue post public health order. For more information, visit <https://www.sfparatransit.com/shop-a-round>.

Slow Streets Program

On some lower-traffic residential streets, through traffic is being limited to prioritize walking or biking and to provide more space for social distancing during essential travel. Sometimes it is difficult to maintain social distance, especially outside of grocery stores and other essential services. Because of this, many pedestrians are choosing to walk in the street, exposing themselves to vehicle traffic. The SFMTA is implementing the Slow Streets program to allow roadways to be used more as a shared space for foot, bicycle and wheelchair traffic, taking advantage of low vehicle numbers on some roads.

- Streets are not closed completely and local vehicle access is allowed (e.g., driveway access for residents).
- Slow streets are shared streets, all users must give way to others as appropriate. People walking/running/biking do not have exclusive right-of-way over motor vehicles.
- Once installed, Slow Streets corridors will be in effect 24/7.

We plan to install two or three Slow Streets corridors per week. We will continue to monitor the use of Slow Streets to minimize impacts on surrounding streets. Learn more about current and proposed Slow Streets locations by visiting [SFMTA.com/SlowStreets](https://www.sfmta.com/SlowStreets).

Temporary Loading Program

The COVID-19 health crisis is creating a temporary increase in take-out/delivery service for many restaurants and essential businesses. To encourage physical distancing and reduce crowding, the SFMTA is fast-tracking converting some adjacent street parking into temporary loading zones.

There is no fee, simply [complete the form for review and processing](#). Due to high demand on this program, SFMTA staff are working diligently to review and process applications as soon as possible (approximately two weeks).
