The goal of the Lower Great Highway Pedestrian Improvements Project is to increase pedestrian safety and comfort along Lower Great Highway by implementing near- and medium-term pedestrian improvements and traffic calming measures. Community feedback on the near-term proposal was collected at an Open House in April and a Public Hearing on July 20th. Based on the feedback we heard, the proposal was revised to reduce parking impacts. The changes below represent the revised proposal, which will go back to Public Hearing on September 14th for additional feedback. The proposal includes:

- **Red Visibility Zones** (-20 parking spaces)
- **Painted Safety Zones** (-12 parking spaces)
- **Back-in angled parking** (+18 parking spaces)

In total, the revised proposal would reduce 14 parking spaces over the entire 2 mile, 18 intersection corridor.

Visit sfmta.com/lowergreathighway to see a map of the proposal, as well as a diagram of the back-in angled parking.
