Congestion is Coming Back
Transit and Travel Time Savings During Peak Hours

Time Savings:
- 10% Savings
- 20% Savings
- >30% Savings

Time savings represent the greatest percent reduction observed in each segment across all directions and times of day (AM or PM peak).
Temporary Emergency Transit Lanes

- Install on corridors that normally experience congestion to keep buses moving and reduce crowding
- Allow buses to complete trips in less time and return into service more quickly
- Provide more frequent service with same number of buses, mitigating service reductions
- Are automatically removed within 120 days after emergency order is lifted, unless there is a public process to make a lane permanent
Program Benefits

- **Equity:** Transit lanes reduce the risk of exposure for people who have the fewest travel choices and ensure there is enough capacity on board, especially for lower-income people of color.

- **Public Health:** Reducing crowding on transit is imperative to preventing the spread of COVID-19.

- **Economic Recovery:** A strong economic recovery is dependent on an efficient transit system.
Temporary Emergency Transit Lanes: Proposed Phasing
Existing Design of Mission Street

- **Narrow** travel lanes
- **Part-time** bus lanes
- **Towaway restrictions** when bus lanes are in effect

Temporary Redesign Concept

• Remove parking and loading on one side of the street (side varies from block to block)
• Allow parking and loading at all times on other side
• Make bus lanes full-time

Evaluation and Engagement

• Community input will shape the evaluation framework, tools and monitoring, with a focus on equity, health and economic recovery

• Public engagement and evaluation will guide whether and what longer-term improvements are pursued

• As we evaluate, which metrics are most important to focus on?
What are the most important metrics to evaluate in this project?

A. Safety
B. Parking impacts
C. Curb use and loading zone impacts
D. Transit/travel times and reliability
E. Effects on adjacent streets/traffic diversions
F. Equitable access to transportation
G. All of the above

*Poll now closed*
What is your preferred way to give feedback on the transit lanes?

A. In-person at stops
B. Online survey
C. Text-based survey
D. Automated phone survey
E. Phone call
F. Email
G. Other
