Federal Law Requires Face Masks on Muni

To help stop the spread of COVID-19, [federal law requires wearing a mask](#) in Muni stations and while riding transit. Violations can result in denial of boarding or removal from Muni and may carry federal penalties. Face coverings like scarves and bandanas do not meet this requirement. Under guidelines issued by the Centers for Disease Control and Prevention, taxi drivers are required to wear a face covering while transporting passengers. For more information, please visit sfmta.com/COVID.

The SFMTA is committed to continuously improving safety and reliability for all Muni customers even during the COVID-19 pandemic. The Castro elevator is the eighth of 12 being rehabilitated systemwide as part of the [Muni Elevator Improvement Project](#). The project will greatly improve accessibility and convenience, especially for wheelchair users, seniors, and others with disabilities who benefit from elevator access.

For information on alternative Castro elevator service, visit [SFMTA.com/Elevator](https://www.sfmta.com/Elevator).

ONGOING: Upper Market Street Safety Project

Tuesday, Feb. 22 through Saturday, March 12: The SFMTA, in partnership with the San Francisco Public Works (SFPW), will be substituting motorized buses for the F Market & Wharves historic streetcar route for three weeks, starting Feb. 22 through March 12. During this time, F Line service will be modified to accommodate construction activities for the Upper Market Safety Project as well as other essential track repair and maintenance. Published service hours and frequencies should not be affected.

Within the Upper Market Safety Project area (between Octavia Boulevard and Castro Street), there will also be temporary closures of individual streetcar stops to support construction activities, including the installation of decorative MUNI railings. Temporary closures will occur on a rolling basis starting on Tuesday, Feb. 22 through spring 2022, with most stops affected for approximately one week. Signs and notices will be posted in advance of each stop closure to alert the public and suggest alternative routing for the closest available F Line stops.

The Upper Market Street Safety Project is a multi-phased effort to improve the safety and comfort of Market Street between Octavia Boulevard and Castro Street for all roadway users. The project's final construction phase, led by San Francisco Public Works and private contractor Esquivel Grading & Paving, Inc., began last July and should reach substantial completion by summer 2022.

ONGOING: L Taraval Improvement Project

The SFMTA is leading a multi-agency collaboration with the San Francisco Public Works (SFPW) and the San Francisco Public Utilities Committee (SFPUC) to replace and rehabilitate the aging infrastructure along Taraval Street. The [L Taraval Improvement Project](#) will replace worn rails, overhead wires, water, and sewer lines and repave the entire street along the L Taraval Line, from West Portal to the SF Zoo to make pedestrian crossing safer, increase accessibility and improve transit reliability.

Work to replace and upgrade track, sewer and water lines will require substantial construction and occasional detours along Taraval Street.

Segment B work has begun starting at Sunset Boulevard to West Portal.

To improve safety, 10 new transit boarding islands and five new high-level accessible platforms will be installed in Segment B work. Three existing transit boarding islands will be extended. The comprehensive transit and pedestrian safety features will enhance the safety of passengers getting on and off Muni and make the L Taraval Line more reliable.

Construction is scheduled to take place from 8 a.m. to 5 p.m., Monday through Friday.

For additional project details, visit [SFMTA.com/LTaraval Project](https://sfmta.com/LTaravalProject). For project updates of work between for the weeks Feb. 22 through March 15, 2022, visit [www.sfmta.com/L-Taraval Improvement Project](https://www.sfmta.com/L-TaravalImprovementProject).

ONGOING: 19th Avenue (CA Route 1) Combined City Project

San Francisco Public Works is leading a multi-agency project to replace aging infrastructure and improve safety along 19th Avenue between Holloway Avenue and Lincoln Way.

Construction work for the first segment of this project along 19th Avenue between Lincoln Way and Noriega Street has begun.

more – more - more

ONGOING: 19th Avenue (CA Route 1) Combined City Project *continued*

As part of the [19th Avenue Combined City Project](#), the SFMTA will implement transit priority and safety improvements for people walking along the route of the 28 19th Avenue. The improvements will make it safer to walk, remove stops to make transit service more reliable, and enhance customers' experiences—on and off the bus.

To improve safety along 19th Avenue, the SFMTA will: **1)** install pedestrian bulbs at 19 intersections and transit bulbs at 13 intersections; **2)** modify traffic and pedestrian signals to give people who walk more time to cross the street; and **3)** extend the bus zone at one intersection. Installing transit bulbs allow Muni vehicles to stop for passengers without having to pull out of traffic, and pedestrian bulbs increase the visibility at intersections of people who walk.

As part of the project, seven Muni stops were removed on 19th Avenue between Irving Street and Ocean Avenue last October. **The following Muni routes have been affected with the stop removal:**

- **28 19th Avenue**
- **91 3rd Street/19th Avenue Owl**

To find additional information about the transit reliability and pedestrian safety components, visit sfmta.com/28Rapid. For overall project information, visit sfpublicworks.org/19th-Avenue.
