Past and Present

10 years ago
• Original effort did not produce plan

3 years ago
• Reinitiated the effort
  • Data collection confirmed curb congestion—lots of demand for finite supply as was determined in previous effort
  • New approach: Blank slate, new regulation, Working Group, new opportunities to provide feedback (e.g. online survey, office hours)

*PANDEMIC*

Today
• Draft proposal
Why manage parking?

Curb demands—
- Parking—customers, residents, visitors, employees
- Loading—commercial, passenger
- Transit
- Bicycling infrastructure
- Shared Spaces parklets
## Curb parking toolbox
