Proposal to remove all parking from east side and convert parallel parking to angle parking on west side of Lower Great Highway between Lincoln Way and Kirkham Street, including three blue zones.

Public Comments: Comments in support and in opposition received during public hearing. Comment raised regarding the need for more parking turnover and better access during Upper Great Highway closures. Proposal does not alter the existing overnight parking restriction for long and tall vehicles, which will remain in place. Concerns raised regarding RV displacement and exacerbating homelessness. Suggestion made to consider postponing implementation until a safe parking site is found.

Decision: Approved by the City Traffic Engineer to forward to the SFMTA Board for final approval and implementation.

GENERAL COMMENTS:

- Question raised about in-person meeting.
- Suggestion to consider time-of-day turn restrictions in the City instead of 24/7.

Whether or not the City Traffic Engineer’s decision is considered a Final SFMTA Decision is determined by Division II, Section 203 of the Transportation Code. If the City Traffic Engineer approves a parking or traffic modification, it is considered a Final SFMTA Decision. If the City Traffic Engineer disapproves or declines a parking or traffic modification, a member of the public must request additional review by the SFMTA of that decision which shall be conducted pursuant to Division II, Section 203 of the Transportation Code before the decision becomes a Final SFMTA Decision. Final SFMTA Decisions, whether made by the City Traffic Engineer or the SFMTA Board, can be reviewed by the Board of Supervisors pursuant to Ordinance 127-18. Decisions reviewable by the Board of Supervisors are denoted with a pound (#). Information about the review process can be found at: https://sfbos.org/sites/default/files/SFMTA_Action_Review_Info_Sheet.pdf.
