4. Make streets safer for everyone.
5. Deliver reliable and equitable transportation services.
6. Eliminate pollution and greenhouse gas emissions by increasing use of transit, walking, and bicycling.

This action supports the following SFMTA Transit First Policy Principles:

1. To ensure quality of life and economic health in San Francisco, the primary objective of the transportation system must be the safe and efficient movement of people and goods.
2. Public transit, including taxis and vanpools, is an economically and environmentally sound alternative to transportation by individual automobiles. Within San Francisco, travel by public transit, by bicycle and on foot must be an attractive alternative to travel by private automobile.
3. Decisions regarding the use of limited public street and sidewalk space shall encourage the use of public rights of way by pedestrians, bicyclists, and public transit, and shall strive to reduce traffic and improve public health and safety.

### **ITEMS**

The following items were considered at Public Hearing on May 16, 2025

- A. ESTABLISH – TOW AWAY, NO STOPPING ANYTIME, Portola Drive, north side, from Kensington Way to 270 feet easterly (Requested by SFMTA).

Modification A would remove parking to improve safety at the intersection.

### **ENVIRONMENTAL REVIEW**

CEQA provides a categorical exemption from environmental review for operation, repair, maintenance, or minor alteration of existing highways and streets, sidewalks, gutters, bicycle and pedestrian trails, and similar facilities pursuant to Title 14 of the California Code of Regulations Section 15301.

The SFMTA, under authority delegated by the San Francisco Planning Department, has determined that the proposed parking and traffic modification in Item A (Case No. 2025-004100ENV, May 5, 2025) is categorically exempt from CEQA pursuant to Title 14 of the California Code of Regulations Section 15301.
