

8 Bayshore: Visitacion

Safer, more comfortable bus stops

Welcome to our open house for the 8 Bayshore: Visitacion Valley more about the project from the information on these posters. let us know what you think.

This project proposes to upgrade seven bus stops for the 8 Bays The project would widen the sidewalk at six stops to create more would also add a boarding island and protected bike lane at one

Project Goals

- Provide more comfortable and improved bus stops with wider

8 Bayshore: Visitation

How would the project improve bus stops?

At the upgraded stops there would be more space for shelters, signs and bus stop lighting. The project would install:

- A new Muni sign at each bus stop to improve visibility
- New bus shelters at up to four stops if space permits to improve waits
- Solar transit stop lights to improve safety for riders waiting for the bus after dark, if space permits
