Muni Forward Transit Priority Projects

As of October 2026

- Approved or built corridor
- Future transit priority corridor
- Pilot project *(undergoing evaluation)*

Transit priority projects include a toolkit of over 20 engineering improvements that enhance travel time and reliability: transit lanes, transit bulbs, boarding islands, traffic signals with transit priority, stop spacing changes, turn pockets, turn restrictions, and more. Learn more at **sfmta.com/MuniForward**.
