ISLAIS CREEK
MOTOR COACH
MAINTENANCE &
OPERATIONS FACILITY
Phase II
Lisa Chow
Project Manager
Construction of a two-story, 66,000 square foot operations and maintenance facility for the diesel-electric hybrid articulated buses.
Progress:

- Perform utility relocation
- Drive piles for the north and south buildings
- Began erecting steel for south building

Next Steps:

- Continue with pile cap and grade beam, and electrical pullbox installation and erection of steel structure.
