**Cover photo:** A section of newly-threaded conduit is carried inside one of the lower levels of Chinatown Station's headhouse structure, where electrical, signaling, and many other systems are being installed. Each system's components are installed and tested rigorously. More photos can be found starting on page 37.

**Above photo:** A worker grabs tools next to a wall being constructed atop the terrace plaza area surrounding the north entrance for Union Square/Market Street Station. These and other concrete segments fill out the inviting atmosphere surrounding the future north station entrance.

See the Appendix E final page for CS websites hyperlinks and public outreach on line resources. The Project main web site is at: <http://www.centralsubwaysf.com/>

***Adhesive matting has been rolled out and placed inside the Union Square/Market Street Station north concourse area ahead of pouring the first layer of terrazzo floor base.***

## Executive Summary

**Coronavirus Pandemic (COVID 19)** - Coronavirus Pandemic (COVID 19) - On March 17, 2020, the Mayor and the City's Health Office issued a Public Health Order to "Shelter-In Place" in response to the COVID-19 pandemic. The City's Health Office has issued adjustment to the health order to ensure safety to the public. Construction of the Central Subway project continues to progress with minimum impact and Construction Management team continues to monitor progress. However, the Contractors have notified the City that due to social distancing requirements production rates have been impacted. The Contractors have implemented a revised site Safety and security plans to incorporate various requirements of the order. The project continues to analyze the impact to the program schedule due to COVID 19 requirements and will share the impacts with our funding partners. Only essential project staff are on site to ensure compliance with the health order and the other staff has transitioned to telecommuting. (For additional discussion, please see Safety and Security section on pg. 33)

**Chinatown Station** - Completed installing electrical panels at Equipment room at Underplatform level. Completed installing structural steel for Station Agent Booth Concourse level. Continued installing Stair 5, 6, and 7. Continued installing storm, sewer, water piping, refrigerant and fire sprinkler piping at all levels. Continued construction of Surface level slabs and PCC 50 Chinatown Plaza walls and stairs. Continued installing Elevators 1, 2, 3, 4 and Escalator 5 and 6. Continued street work (minor), monitoring and surveying

**Union Square/Market Street Station** - Continued construction, installation and testing of stairs, escalators, elevators, overhead plumbing, fire protection piping, overhead fixture and electrical, ceiling panels, light fixtures and controls, HVAC and Power startup and testing, artwork, and pavement renovation at respective levels—Platform Station, North Concourse, South Concourse, and Street/Surface.

**Yerba Buena/Moscone Station** - Continued installing Escalators and Elevators 3 and 4. Continued installing EV controls at Station Mezzanine. Continued installing ceiling at Headhouse Concourse. Began installing artwork at Headhouse Concourse. Systems startup and Acceptance testing.

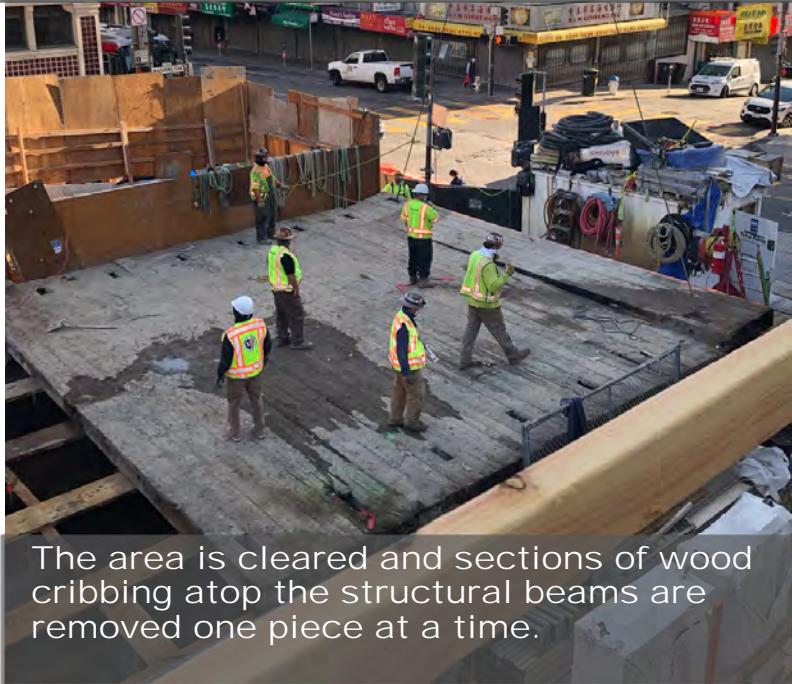

**Surface, Track and Systems**— Continued traction power conduit and other electrical conduit installation inside tunnel. Continued tunnel lighting installation. Continued 4th/Brannan platform construction. Continued OCS hangar installation inside tunnel. Continued mini power center installation.

Total project costs to date are \$1,534.71 million, an increase of \$8.87 million over last month. The total cost to date equals 97.2% of the total project budget of \$1.578 billion. The project continues to review the overall cost. The current Estimate at Completion (EAC) is projected to be \$1.626B which is \$48M over the current budget. The project shows a forecast Revenue Service Date of December 2021. (For additional discussion, please see Costs and Schedule on pg.7)

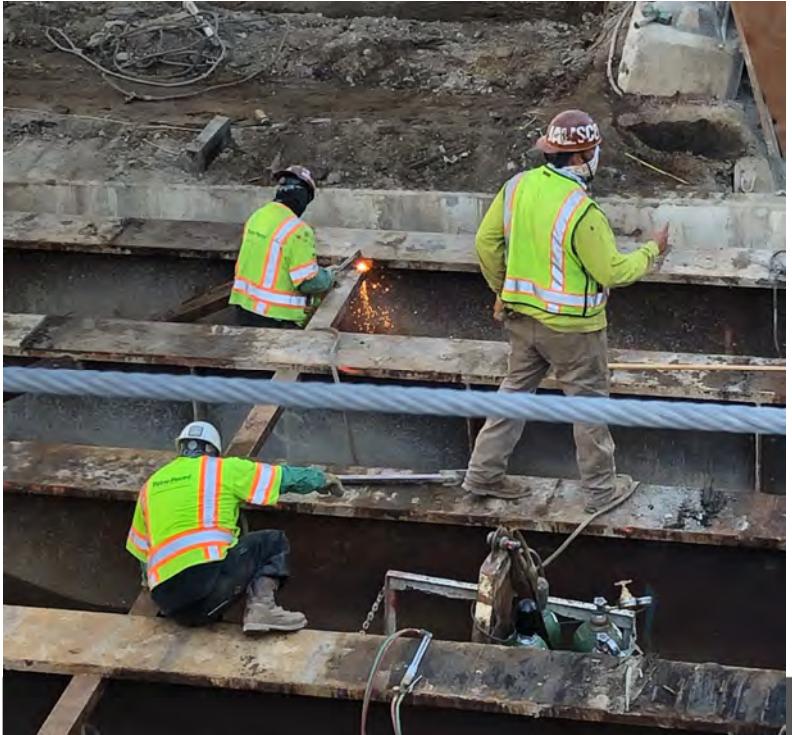

The Stations Contractors' Safety Reports should show any accidents that may occur during the current month. The rates of work site accident incidents by the man hours worked continue to be below industry standards - see tables on page 34.

# Key Milestones

## Removing the temporary roof deck at Rose Pak-Chinatown Station

The area is cleared and sections of wood cribbing atop the structural beams are removed one piece at a time.

Reinforcing for the steel beams is removed, following the massive steel I-beams themselves.

MILESTONE	DATE EXPECTED
<b>General</b>	
Revenue Service	December 2021
<b>Contract 1300 Stations, Surface, Track, Systems</b>	
Notice to Proceed (NTP 1)	June 17, 2013 (A)
Notice to Proceed (NTP 2)	January 12, 2014 (A)
Substantial Completion	December 28, 2020

Additional materials are removed, the area is cleared, and the site is prepared to build the next section of the street-level station entrance structure.

# Costs and Schedule

## Costs (See Appendix A for Details)

The Current Cost Estimate (CCE) for the Central Subway Project is \$1.578 billion in year of expenditure dollars (\$YOE). The project continues to evaluate the Estimate at Completion (EAC) and has presented information to the SFMTA Board. The project is working with SFMTA Finance and Grants to identify these additional source of funds to provide for the shortfall. Currently, the project estimates the EAC to be \$1.626B or \$48M above the current budget. This EAC has not been finalized as additional cost will need to be considered including the potential cost of delay due to the current pandemic crisis. When the EAC and the funds are identified, the team will revised the various cost sheet to reflect the new budget and EAC number along with any impacted appendix. The team anticipates that this will take several report cycles to adjust.

Total net incurred costs for the project are \$1,534.71 million, a \$8.87 million increase over last month. The cost to date figure reflects expenditures through FAMIS 786 Report (\$1,491.58 million) plus the utilities joint trench Form B Reimbursement payment (\$12.51 million), invoices currently being processed (\$38.84 million) and estimates of outstanding pay requests (credit of \$8.18 million). This incurred amount equals 97.2% of the total project budget of \$1.578 billion.

The current funding level to date is \$1,568.38 million and includes Operating funds FY2019/2020 \$7,570,000 and Proposition B (City of San Francisco Adjusting Transportation Funding for Population Growth) FY2020 \$4,070,000 appropriated in May 2020 . This represents 99.4% of the total project budget and we anticipate the addition of \$9,918,937 to complete the funding of the program. The remaining program funds has been jeopardized due to funding reallocation from the COVID 19 pandemic. The project team will continue to work with our financial partners to ensure that impacts to the project are minimized.

## Earned Value Analysis

In May 2020 Report, the Preliminary Earned Value Analysis reports is based on the SFMTA May Schedule Update. The Planned Value, Earned Value, Actual Cost, Percent Complete and resulting indexes as follows:

### Preliminary May Earned Value

Overall Budgeted Cost:	\$1,578,300,000
Planned Value:	\$1,590,311,469
Earned Value:	\$1,467,628,358
Actual Cost:	\$1,547,734,524
Schedule Performance Index (SPI):	0.92
Cost Performance Index (CPI):	0.95
Percent Complete:	92.1%

\*May 2020 Notice: The City continues to experience problems that were caused by error and inaccuracy from the transition from FAMIS to Financial System Project (FSP). An updated methodology has been implemented within the financial reporting that will provide more accurate figures for transactions occurring in fiscal year 2020.

As we continue to address these data quality problems through data cleaning, you will continue to see monthly fluctuations as we detect and remove errors and inconsistencies from data in order to improve

# Schedule Highlights

The Master Project Schedule (MPS) below includes progress through May 2020. The May 2020 Schedule Update submittal from Contract 1300 Contractor was not submitted as the CN1300 Contractor has not provided the updated corrections to their June 2017 through July 2018 Schedule Updates. The Contract 1300 schedule represented in this report is based on the SFMTA May 2020 Schedule Update.

The MPS shows a forecast Revenue Service Date of December 2021 based on a revised assessment of the overall schedule and the current project conditions. The project continues to evaluate this date with potential impact from COVID 19. The schedule team is assessing the risk with this issue and identifying potential mitigation to reduce the risk to the overall schedule. The Contractor is notifying the City that potential delay may occurred due to the social distancing requirement which is impacting production rates.

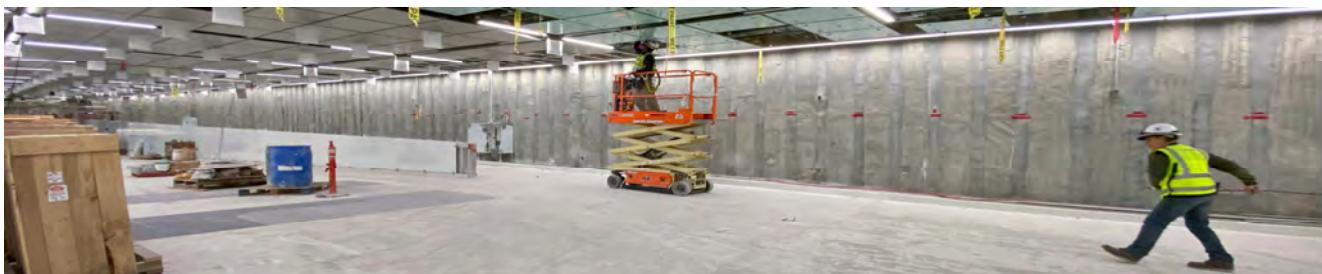

Currently we are experiencing day-to-day delays caused by TPC's electrical work in the tunnel impacted by lack of resources and extended approvals of contract modifications related to Radio and Train Control Systems. These issues have impacted TPC's Substantial Completion date, we have mitigated the delay by accelerating rail activation activities. TPC and SFTMA are working to reach scope and cost agreements for these contract modifications as TPC refuses to commence work without an approved Contract Modification. The controlling critical (longest) path of the MPS runs through the electrical activities within the tunnel which are impacting the TPC's Startup and Testing and subsequently the rail activation process. The latest schedule shows the longest path running through the Surface, Tracks and Systems (STS).

SFMTA continues to meet with Contractor to discuss all schedule concerns and comments. TPC has not been able to correctly staff the project which could potentially delay the project. In order to achieve the Baseline work productivity, TPC needs to increase the number of crews assigned to electrical work, allowing concurrent work within the tunnel and stations in order to make this completion date possible. It also requires that the front end portion of ATCS Startup and Testing is performed concurrently with TPC's Startup and Testing followed by ATCS software testing in coordination with SFMTA Operations.

Contract 1300 Contractor submitted fifty-four (54) Schedule Updates from December 2014 to July 2019. SFMTA rejected twenty eight (28) Schedule Updates from January 2016 to April 2016 and June 2016 to June 2018 due to multiple and repetitive issues that vary from incorrect working sequences to unrealistic forecasted completion dates to artificially steering the schedule longest path through certain portions of the project. SFMTA approved as noted December 2014 through December 2015, and May 2016 Schedule Updates. Contractor has been directed to provide a Revised Schedule as required by the overall settlement agreement to maintain the forecasted project completion.

## **Contract 1300 - WP1253 UMS / WP1254R CTS / WP1255 YBM / WP1256 STS:**

The Contractor, Tutor Perini Corporation's (TPC) baseline schedule is incorporated into the master program schedule. The preliminary SFMTA Contract 1300 May 2020 schedule is used within the November Report. The SFMTA Contract 1300 May 2020 schedule is based on the approved baseline schedule logic with adjustments made as mentioned above. The SFMTA will continue to use the SFMTA Contract 1300 schedule update as a forecasting tool going forward until the Contract 1300 Contractor submits an acceptable schedule that addresses all of SFMTA scheduling concerns.

Glass and metal ceiling panels hide utility conduits inside the south concourse ceiling for Union Square/Market Street Station.

## Schedule Highlights - Continued

### **Work Package P-1254R (CTS) has performed the following work this month:**

- Completed installing Stair 5A
- Continued installing Stair 5, 6, and 7
- Completed installing electrical panels at Equipment Room at Underplatform level
- Continued pulling service wires at Equipment Room at Underplatform level
- Continued installing overhead conduit at Traction Power rooms at Headhouse Platform level
- Continued pulling service wires at Main Electrical and Traction Power rooms at Headhouse Platform level
- Continued constructing structural steel for Elevators 1 & 2 at Platform and Concourse levels
- Continued installing storm, sewer, water piping, refrigerant, and fire sprinkler piping at all levels
- Completed installing structural steel for Station Agent Booth Concourse level
- Continued installing GFRC panels at ticketing hall at Concourse level
- Continued pulling service wires at Main Communication room at Lower Mezzanine level
- Continued installing Elevators 1, 2, 3, and 4
- Continued installing Escalator 5 & 6 at Upper Mezzanine level
- Continued construction of Surface level slabs and PCC 50 Chinatown Plaza walls and stairs
- Began installing structural steel and fire proofing for Plaza level
- Began installing electrical conduits and sprinkler piping at Surface level
- Began HVAC layout at Surface level
- Continued street work (minor), ongoing monitoring and surveying

### **Work Package P-1253 (UMS) has performed the following work this month:**

#### Platform Station:

- Stairs, escalators and elevators – including glass enclosure
- Overhead plumbing, fire protection piping, and overhead fixture and electrical
- Unistrut grid for ceiling panels and LED Artwork on concourse level
- Ceiling panels
- Light fixtures and controls
- Curved metal panel on platform strut level
- Terrazzo on concourse and platform level
- Brackets for artwork on platform strut level
- Fire Alarm /PA / Security System
- Emergency lighting at tunnel tie-in on platform level
- HVAC startup and testing
- Power startup and starting

#### North Concourse:

- Stair, escalator and elevators
- Overhead plumbing, fire protection piping, and overhead fixture and electrical

## Schedule Highlights - Continued

- Cement plaster finish in various rooms
- Glass wall panels
- LED artwork

South Concourse:

- Stair and escalator
- Overhead electrical, light fixtures and controls
- Ceiling panels
- Glass wall panels including ticket vending machine
- Terrazzo flooring
- Rolling and Grille doors

Street/Surface:

- Precast architectural concrete elements at USG terrace level
- Glass roof walk at USG terrace level
- Landscaping and drainage at USG terrace level
- USG Roof level exhaust vent
- Tap room and emergency command post at surface level
- Pavement renovation at northside of Market street
- North sidewalk plaza at USG terrace level

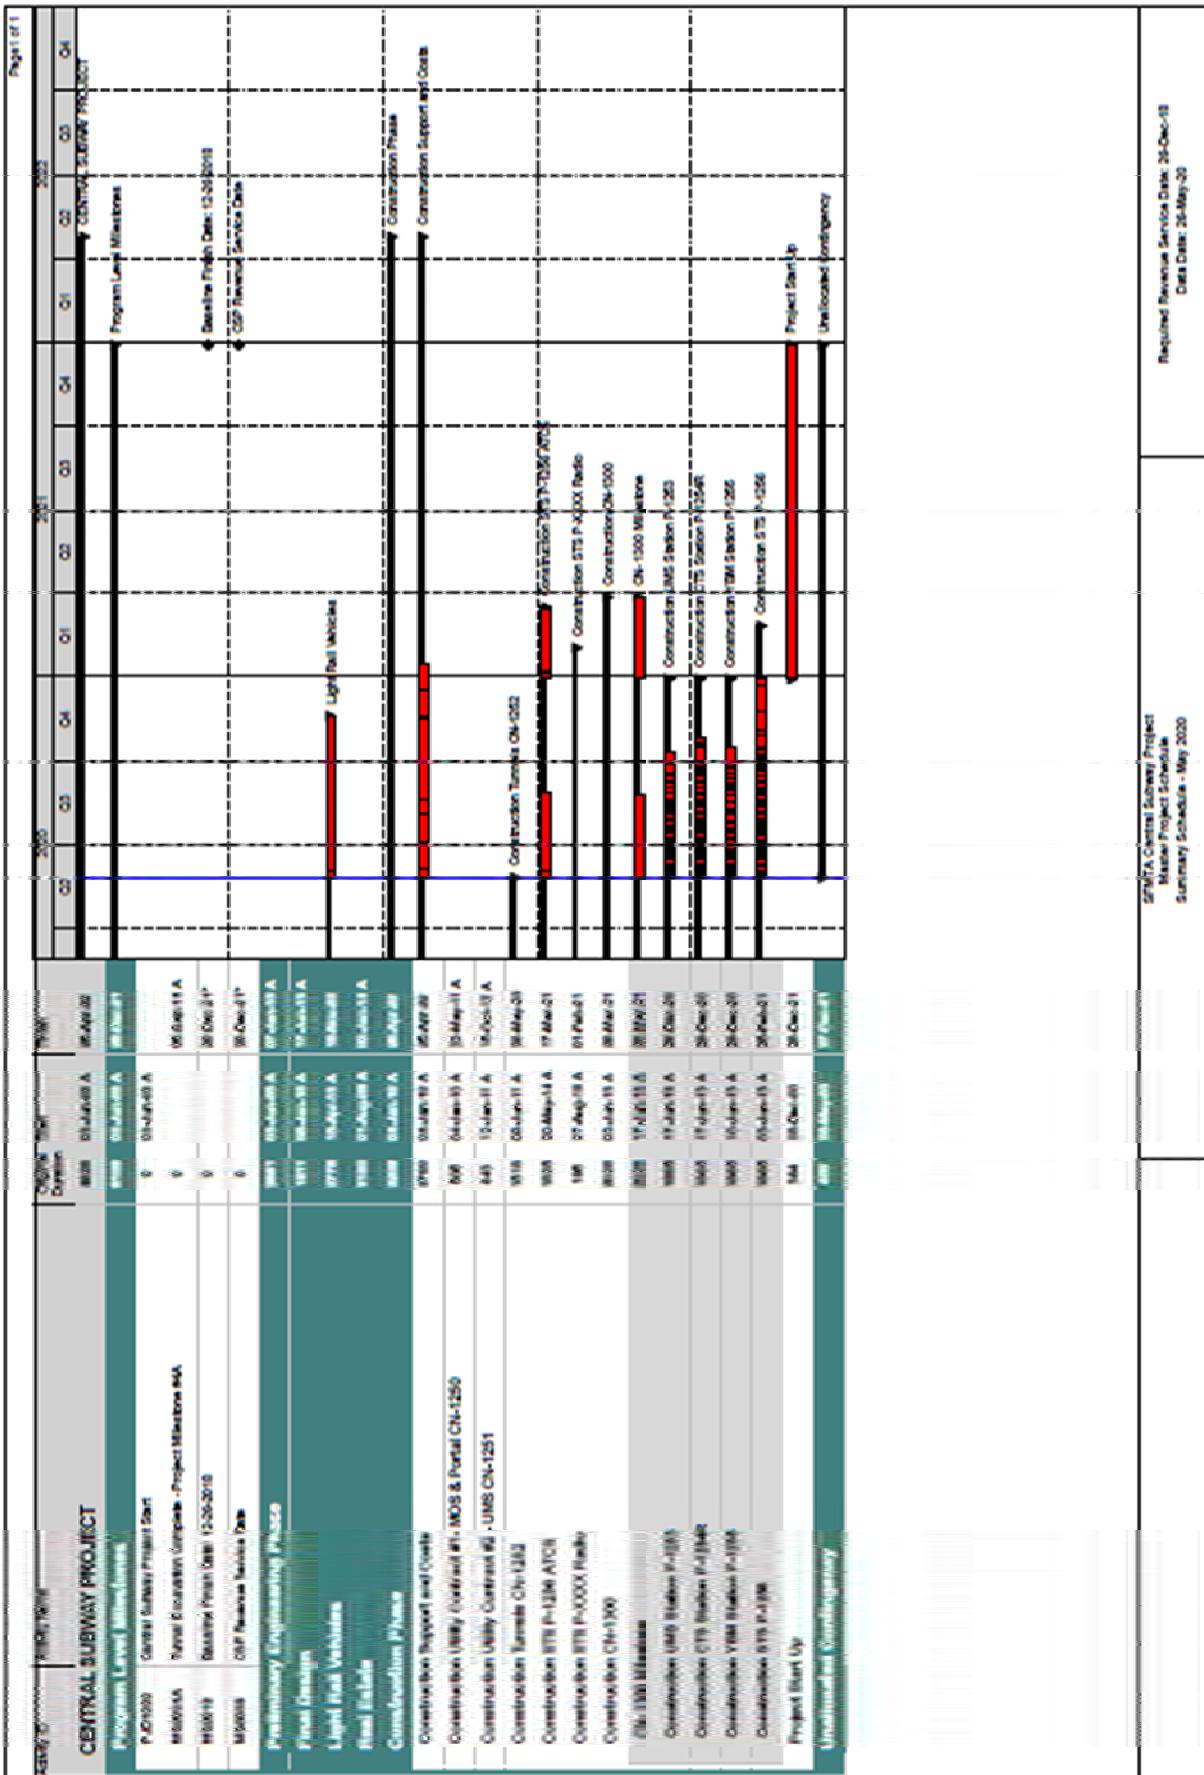

### **Work Package P-1255 (YBM) has performed the following work this month:**

- Continued installing Escalators 3 and 4
- Continued installing Elevators 3 and 4
- Continued installing EV controls at Station Mezzanine
- Continued installing ceiling at Headhouse Concourse
- Began installing artwork at Headhouse Concourse
- Continue installing Station Agent Booth at Headhouse Concourse
- Systems startup and Acceptance Testing

### **Work Package P-1256 (STS) has performed the following work this month:**

- Continue 4<sup>th</sup>/Brannan platform construction
- Continue traction power conduit and other electrical conduit installation inside tunnel for CCTV, telephone, tunnel lighting, and tunnel electrical power
- Started Traction power cable installation and terminations
- Continue tunnel lighting installation
- Continue OCS hanger installation inside tunnel
- Continue mini power center installation
- Continue walkway construction at cross-over cavern
- Continue installation of end of platform emergency stairs at station interfaces

# Master Project Schedule

A carpenter assembles wood framing for a future concrete form atop the Chinatown Station headhouse.

## Contracts & Construction

### Construction Contracts In Progress

#### Contract 1300: Combined Work Packages 1253, 1254, 1255, 1256

- Contractor: Tutor - Perini Corporation
- Amount: \$905.89 million
- Contract Status: 93.18% complete construction

### Contracts Completed

See Appendix D

**Contract 1250: Moscone Station and Portal Utilities Relocation**

**Contract 1251: Union Square/Market Street Station Utility Relocation**

**Contract 1277: Pagoda Theater Site Demolition** (Funded separately from the CS Project budget)

**Contract 1252: Central Subway Tunneling**

**Contract SBE Participation** (Updated Quarterly) See Appendix E

# Stations, Surface, Track and Systems

Contract 1300 Contractor: Tutor-Perini Corporation

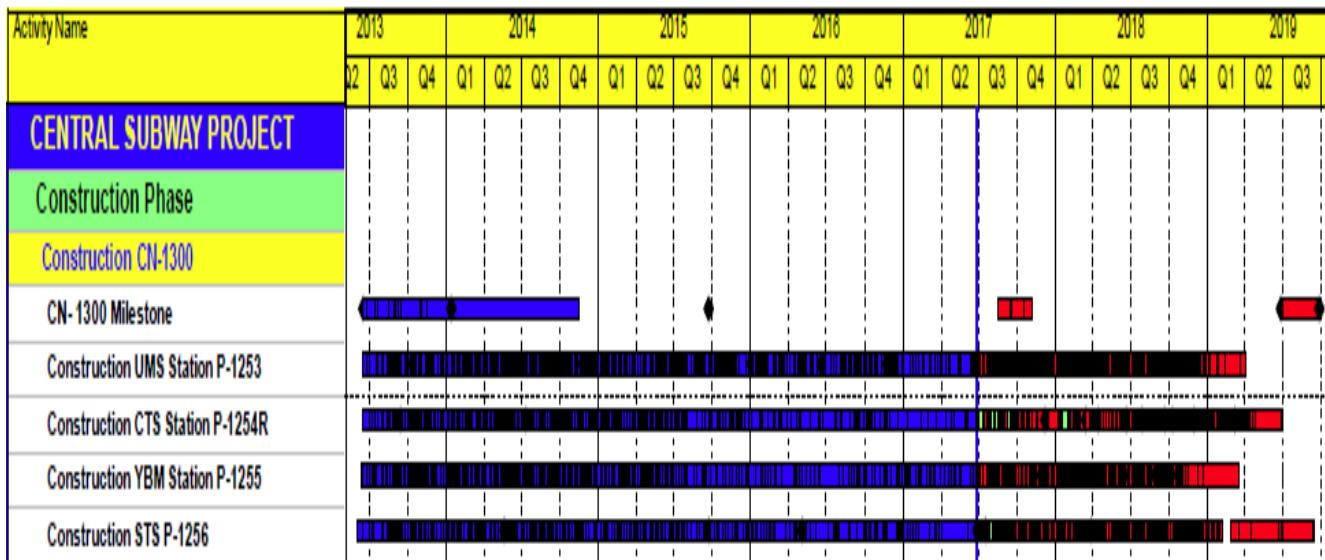

## Description of Work

The Contract 1300 scope is to construct the Central Subway's three subway stations, one surface station, construct the 2,000 feet of surface track, and install track and operating systems throughout the new alignment. The separate station and systems work packages are presented in the following pages.

Work includes station finishes, AC and DC substations, elevators, escalators, lighting, emergency ventilation fans, HVAC fire alarm/ suppression/ protection, Cutter Soil Mixing, secant pile bottom up and Sequential Excavation Method construction, settlement monitoring, building protection, connecting to and modifying the BART Powell Street Station, PA, CCTV, signage, installation of fare collection equipment and station start-up and commissioning.

Contract Details		Budget/Expenditures▲

## 1300 Summary Schedule

# Chinatown Station

## Contract 1300 - Work Package 1254R

### Description of Work

This Work Package is to construct one subway station. Includes station finishes, AC and DC Traction Power substations elevators, escalators, lighting, emergency ventilation fans, HVAC fire alarm/ suppression/ protection, slurry wall top-down construction, settlement monitoring, building protection, PA, CCTV, signage, installation of fare collection equipment and station start-up and commissioning.

### Current Work Status

- Completed installing Stair 5A
- Continued installing Stair 5, 6, and 7
- Completed installing electrical panels at Equipment Room at Underplatform level
- Continued pulling service wires at Equipment Room at Underplatform level
- Continued installing overhead conduit at Traction Power rooms at Headhouse Platform level
- Continued pulling service wires at Main Electrical and Traction Power rooms at Headhouse Platform level
- Continued constructing structural steel for Elevators 1 & 2 at Platform and Concourse levels
- Continued installing storm, sewer, water piping, refrigerant, and fire sprinkler piping at all levels
- Completed installing structural steel for Station Agent Booth Concourse level
- Continued installing GFRC panels at ticketing hall at Concourse level
- Continued pulling service wires at Main Communication room at Lower Mezzanine level
- Continued installing Elevators 1, 2, 3, and 4
- Continued installing Escalator 5 & 6 at Upper Mezzanine level
- Continued construction of Surface level slabs and PCC 50 Chinatown Plaza walls and stairs
- Began installing structural steel and fire proofing for Plaza level
- Began installing electrical conduits and sprinkler piping at Surface level
- Began HVAC layout at Surface level
- Continued street work (minor), ongoing monitoring and surveying

### Work Expected Next Month

- Continued installing Stair 5, 6, and 7
- Continue pulling service wires at Equipment Room at Underplatform level
- Continue installing overhead conduit at Traction Power rooms at Headhouse Platform level
- Continue pulling service wires at Main Electrical and Traction Power rooms at Headhouse Platform level
- Continue constructing structural steel for Elevators 1 & 2 at Platform and Concourse levels
- Continue installing storm, sewer, water

# Chinatown Station

piping, refrigerant, and fire sprinkler piping at all levels

- Continue installing GFRC panels at ticketing hall at Concourse level
- Continue pulling service wires at Main Communication room at Lower Mezzanine level
- Continue installing Elevators 1, 2, 3, and 4
- Complete installing Escalator 5 & 6 at Upper Mezzanine level
- Continued construction of Surface level slabs and PCC 50 Chinatown Plaza walls and stairs
- Continue installing structural steel and fire proofing for Plaza level
- Continue installing electrical conduits and sprinkler piping at Surface level
- Continue HVAC layout at Surface level
- Begin constructing slabs for Roof level
- Begin AWSS pipe construction at intersection of Stockton/Washington Streets
- Continued street work (minor), ongoing monitoring and surveying

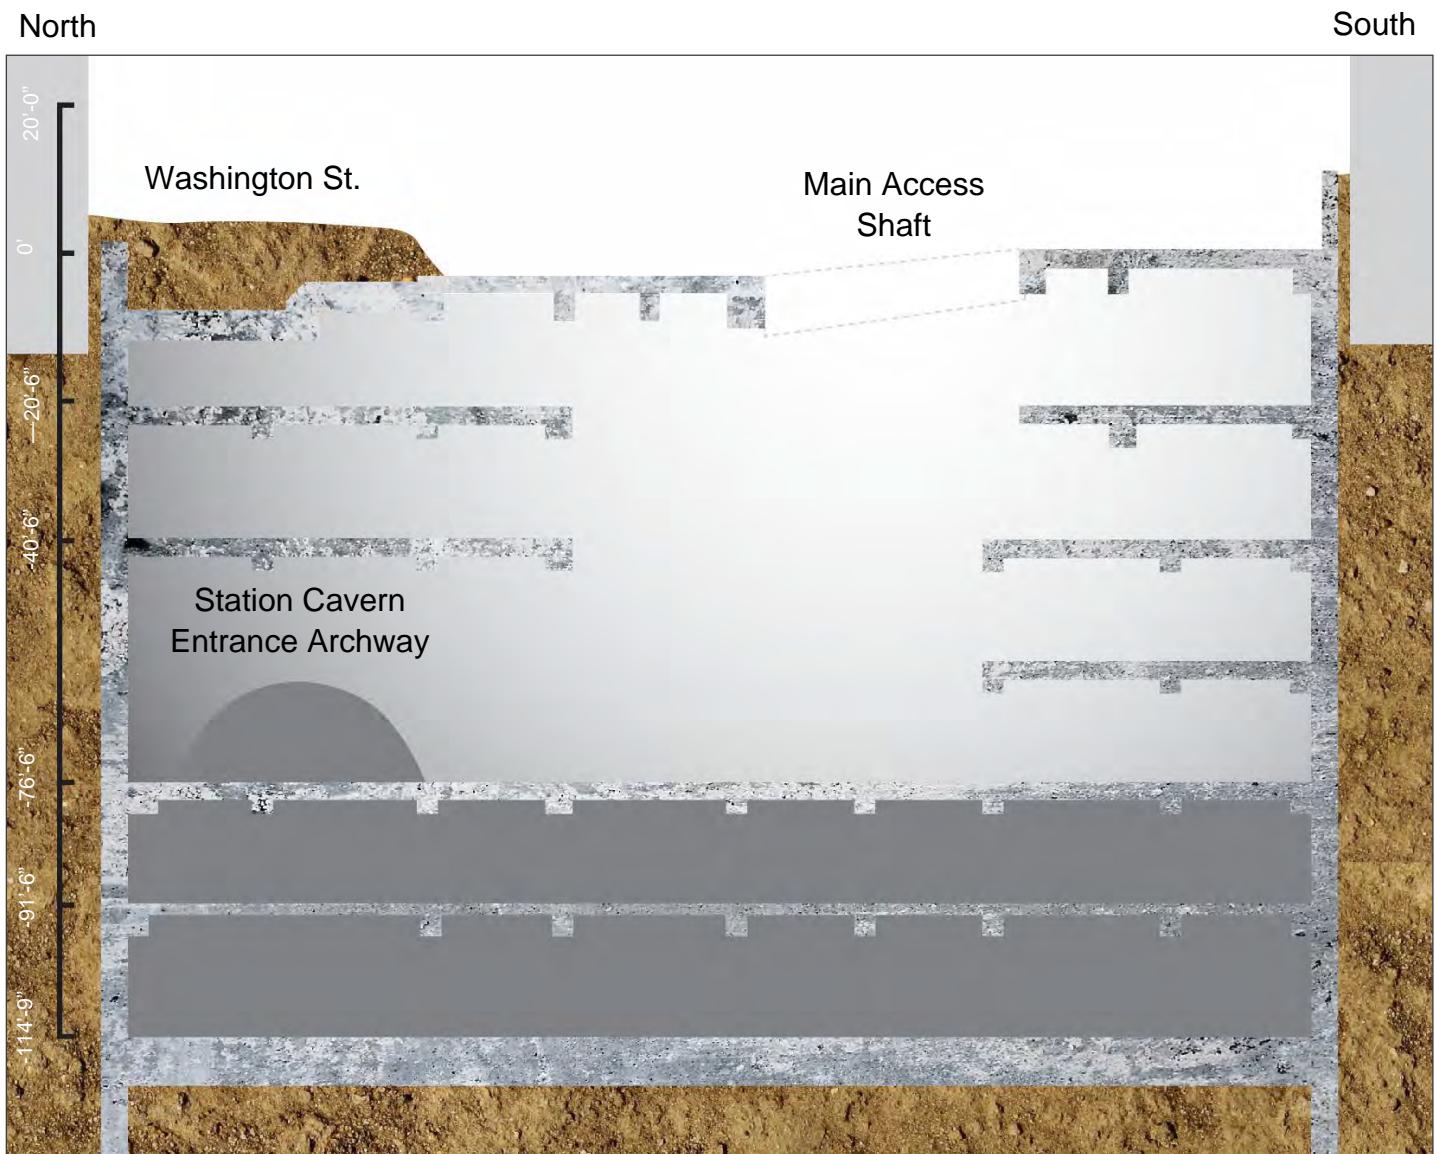

## Three Month Look Ahead

- Complete installation of Elevators 1, 2, 3, and 4
- Complete construction of Surface, Plaza, and Roof levels at Headhouse
- Complete installing mechanical, electrical, plumbing, at Surface, Plaza, and Roof levels at Headhouse
- Complete construction of PCC 50 Chinatown Plaza
- Abandon dewatering wells on Stockton Street
- Complete AWSS pipe construction at intersection of Stockton/Washington Streets
- Complete street utility work on Washington Street

Workers discuss particulars during escalator assembly at the street level entrance for Chinatown Station.

### CTS Three Month Schedule

# Union Square/Market Street Station

## Contract 1300 Work Package 1253

### Description of Work

This Work Package is to construct one subway station and perform related street work. Includes station finishes, AC and DC traction power, substations elevators, escalators, lighting, emergency ventilation fans, HVAC fire alarm/ suppression/ protection, slurry wall top-down construction, settlement monitoring, building protection, PA, CCTV, signage, installation of fare collection equipment and station start-up and commissioning. This work package also involves reconstruction Street work which includes Geary St, O'Farrell St, Ellis Street and Stockton street from Post Street to the intersection of 4<sup>th</sup> / Ellis St / Market St.

### Current Status This Month

Continued construction, installation and testing of the following items at -

#### Platform Station:

- Stairs, escalators and elevators – including glass enclosure
- Overhead plumbing, fire protection piping, and overhead fixture and electrical
- Unistrut grid for ceiling panels and LED Art-work on concourse level
- Ceiling panels
- Light fixtures and controls
- Curved metal panel on platform strut level
- Terrazzo on concourse and platform level
- Brackets for artwork on platform strut level
- Fire Alarm /PA / Security System
- Emergency lighting at tunnel tie-in on platform level
- HVAC startup and testing
- Power startup and starting

#### North Concourse:

- Stair, escalator and elevators
- Overhead plumbing, fire protection piping, and overhead fixture and electrical
- Cement plaster finish in various rooms
- Glass wall panels
- LED artwork

#### South Concourse:

- Stair and escalator
- Overhead electrical, light fixtures and controls
- Ceiling panels
- Glass wall panels including ticket vending machine
- Terrazzo flooring
- Rolling and Grille doors

#### Street/Surface:

- Precast architectural concrete elements at USG terrace level.
- Glass roof walk at USG terrace level
- Landscaping and drainage at USG terrace level
- USG Roof level exhaust vent
- Tap room and emergency command post at surface level
- Pavement renovation at northside of Market street
- North sidewalk plaza at USG terrace level

### Work Expected Next Month

Continued construction, installation and testing of the following items at -

#### Platform Station:

- Stairs, escalators and elevators – includ-

# Union Square/Market Street Station

## Three Month Look Ahead

### Platform Station:

#### Completion of the following:

- CMU wall construction
- Deck installation
- All structural concrete work
- Stairs, elevators and escalators
- Ceiling panels.
- Emergency lighting at tunnel tie-in on platform level
- CCTV/Communication at tunnel tie-in on platform level
- Station agent booth

#### Continued construction / begin installation and testing of the following:

- Fireproofing
- Terrazzo flooring
- Glass wall panels
- Artwork on concourse and platform level
- Light fixtures and controls
- Fire Alarm/ PA/ Security System
- Overhead plumbing, fire protection piping and overhead fixture and electrical
- Frames and pressurized doors at intermediate strut level
- Access controls
- HVAC and EV startup and testing
- Power and Lighting startup and testing
- Fire Alarm /PA / Security System startup and testing

### North Concourse:

#### Completion of the following:

# Union Square/Market Street Station

## Contract 1300 Work Package 1253

- Ceiling panels
- Glass wall panels
- Stair, elevators and escalator

Continued construction / begin installation of the following:

- Terrazzo flooring
- Fire Alarm/ PA/ Security System
- Access controls

### South Concourse:

Completion of the following:

- Ceiling panels
- Glass wall panels
- Stairs and escalator
- Rolling and Grille Doors

following:

- Permanent PG&E historic streetlights at O'Farrell and Stockton Street
- Traffic cabinets

Continued construction / begin installation of the following:

- Terrazzo flooring
- Fire Alarm/ PA/ Security System
- Access controls

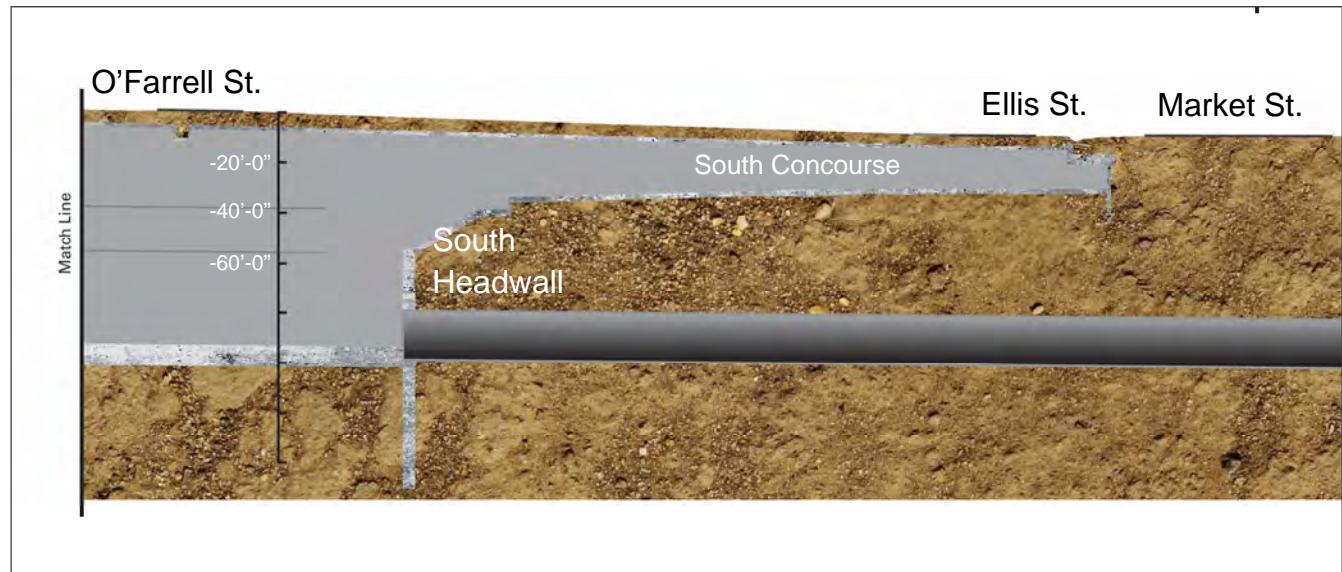

### Street/Surface:

Completion of the following:

- Granite curb, brick sidewalk, and pedestrian ramps north of Market Street.
- Glass roof walk artwork on USG Terrace lev. el.
- Precast architectural concrete elements for USG terrace level
- Landscaping and drainage at USG terrace level.
- USG Roof level exhaust vent
- Tap room and emergency command post at surface level

Continued construction / begin installation of the

### UMS Three Month Schedule

# Yerba Buena/Moscone Station

## Contract 1300 - Work Package 1255

### Description of Work

This Work Package is to construct one subway station. Includes station finishes, AC and DC Traction Power substations elevators, escalators, lighting, emergency ventilation fans, HVAC fire alarm/ suppression/ protection, slurry wall top-down construction, settlement monitoring, building protection, PA, CCTV, signage, installation of fare collection equipment and station start-up and commissioning.

### Current Status

- Continued installing Escalators 3 and 4
- Continued installing Elevators 3 and 4
- Continued installing EV controls at Station Mezzanine
- Continued installing ceiling at Headhouse Concourse.
- Began installing artwork at Headhouse Concourse.
- Continue installing Station Agent Booth at Headhouse Concourse
- Systems startup and Acceptance Testing

- Begin installation of sculpture at Surface level
- Complete installation of Artwork in Headhouse Concourse
- Complete installation of Elevators 3 and 4
- Complete installation of Escalators 3 and 4
- Complete Finish grinding of Platform and Concourse Station Terrazzo Floors
- Complete installation and finish grinding of Concourse Headhouse Terrazzo Floor
- Complete Platform Kiosks
- Complete Station Agent Booth
- Complete Surface Plaza Area
- Complete Systems Start up and Acceptance Testing
- AT&T – Pull in wires to all building levels. Set trim and terminate devices
- Complete FA system
- Set trim and terminate devices – Test
- Complete CU equipment connect and testing

### Work Expected Next Month

- Continue installing Escalators 1 through 4
- Continue installing Elevators 3 and 4
- Continue installing Stairs 2 and 3
- Continue installing EV Controls at Station Mezzanine
- Continue installing Station Agent Booth at Headhouse Concourse
- Continue installing metal wall and Terrazzo floor in Station Concourse
- Continue installing telephone system at Station Platform level
- Systems startup and Acceptance Testing
- Complete F2A Light Fixture installations at Surface Walls
- Continue installing S.S. Metal wall panels at Concourse Sector 3
- Finished Installing MCC-JF in the Main Electrical Room
- Finished Fireproofing Plaza Canopy

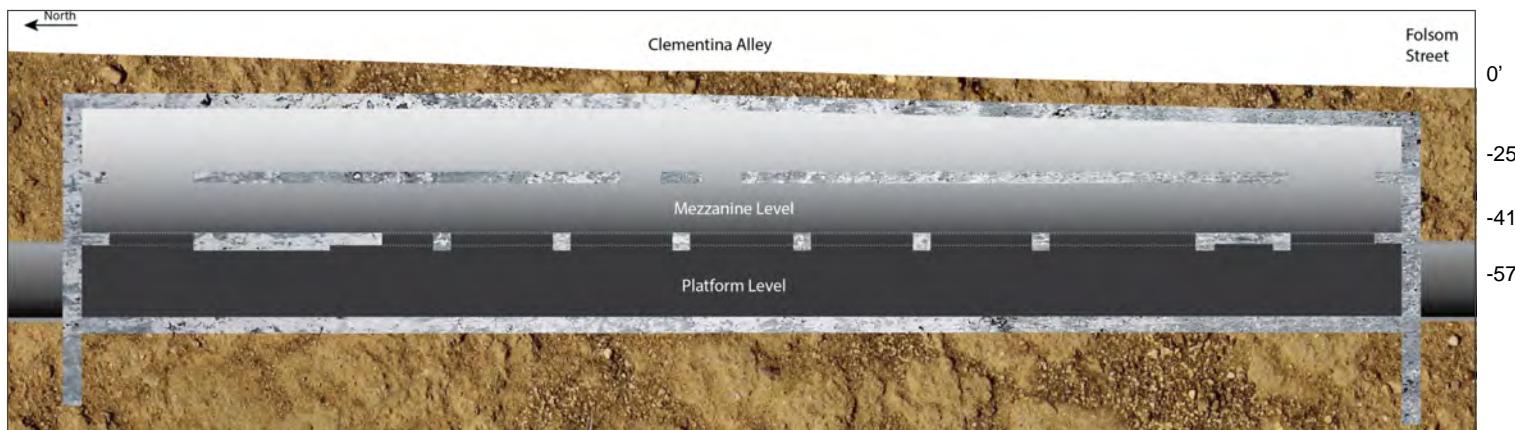

### Three Month Look Ahead

- Continue interior finishes on Mezzanine & Concourse Levels within Station Box

### YBM Three Month Schedule

# Systems, Trackwork, & Surface Station

## Contract 1300 - Work Package 1256

### Description of Work

This Work Package is to construct one Surface Station. Includes light rail track and systems, track invert, track safety walkways; light rail track and systems constructed on the 2,000 foot surface for the alignment from the tunnel portal, south to the tie-in to the existing Muni T-Line at Fourth and King Streets; and the surface Fourth and Brannan Street (FBS) Station.

### Current Status

- Continue 4<sup>th</sup>/Brannan platform construction
- Continue traction power conduit and other electrical conduit installation inside tunnel for CCTV, telephone, tunnel lighting, and tunnel electrical power
- Started Traction power cable installation and terminations
- Continue tunnel lighting installation
- Continue OCS hanger installation inside tunnel
- Continue mini power center installation
- Continue walkway construction at cross-over cavern
- Continue installation of end of platform emergency stairs at station interfaces

- Start installation of ATCS system
- Start installation of blast doors at tunnel Cross-passages

### Three Month Look Ahead

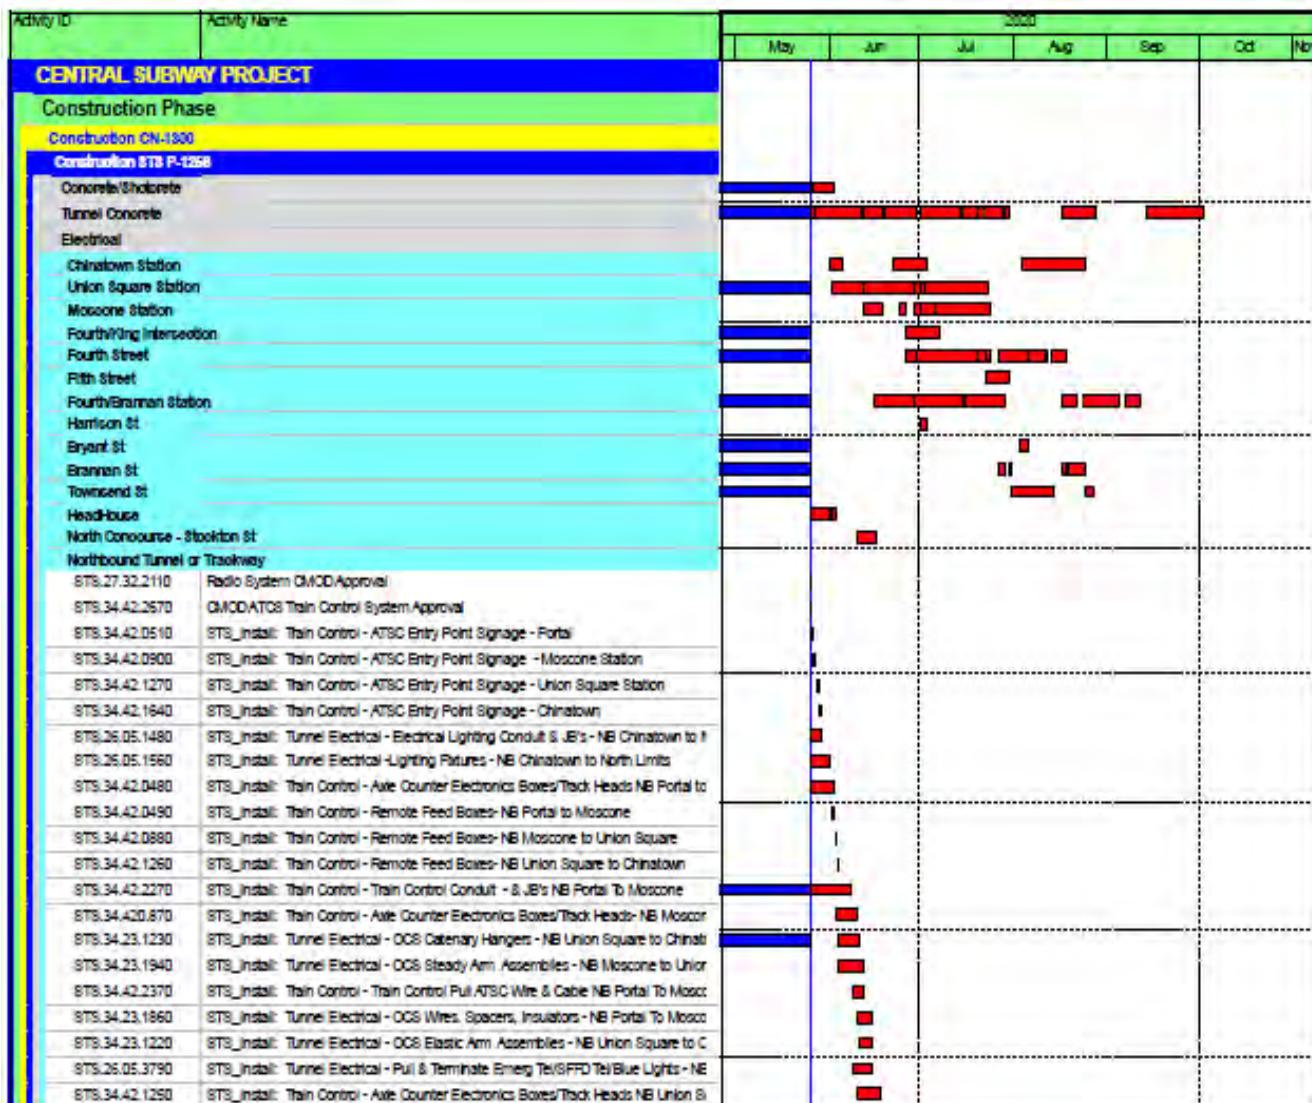

- Complete OCS/street light pole installation
- Continue OCS support/wire installation in tunnel and on 4<sup>th</sup> Street
- Continue 4<sup>th</sup>/Brannan platform construction
- Continue electrical conduit installation inside tunnel for CCTV, telephone, tunnel lighting and tunnel electrical
- Continue tunnel lighting installation
- Continue mini power center installation
- Continue pulling traction power feeder cables on surface
- Continue train case fabrication and testing for 4<sup>th</sup>/King and Bluxome Crossover
- Complete tie in for track work and surface signaling to existing system at 4<sup>th</sup>/King
- Start FDC work near 4<sup>th</sup> Street portal

## Systems, Trackwork, & Surface Station Construction - Continued

Contract Details	
Contract Awarded:	May 21, 2013
Notice to Proceed:	June 17, 2013
Substantial Completion:	December 28, 2020
Contract Award Value:	\$139,989,000
Modifications to Date (\$):	\$1,382,594
Modifications to Date (Days):	1,052
Current Contract Value:	\$141,371,594

Budget/Expenditures	
Current Budget	\$126,952,290
Other Project Offset Credits	\$2,632,766
Expenditures to Date	\$131,083,756

### Systems, Track and Surface Station Three Month Schedule

# Program Components

## Community Outreach

**Outreach public information, events and presentations for May 2020 include:**

- Ongoing outreach to merchants and residents by email and social media
- Produced quarterly construction update video and other multimedia content
- Responded to constituent complaints and questions
- Preparation and dissemination of construction notices

**Outreach in Support of Mitigation and Monitoring**

- Team members participated in weekly teleconference meeting to address neighborhood concerns
- Weekly photo documentation of project work and editing
- Weekly construction update emails sent to list of approximately 700 residents and stakeholders

**No media coverage in May**

# Quality Assurance

Quality Assurance monthly activity of oversight, surveillance, audits, proactive feedback and QA records actively involves the Project construction management staff, the resident engineers, the prime construction contractor and their subcontractors.

## **Stations and Systems Contract CN1300 Quality Assurance Monitoring Activities**

Project Quality Assurance performs the following activities to ensure that the quality program complies with project quality requirements:

- QA observation of all work in progress for all work packages
- QA observations of QC inspection, testing and documentation by Smith Emery for all work packages
- QA observation of station construction at CTS, UMS, and YBM
- QA observation of STS invert and plinth concrete placement and track installation
- QA observation of STS rail preparation and installation
- QA review of TPC's Quality Control (QC) Daily Inspection Reports posted to project records CM13 which includes TPC's Specialty Subcontractor's QC checklists, associated documentation and Smith Emery inspection and testing reports provided by TPC's subcontractor that provides laboratory and inspection services – including special inspections required for the City of San Francisco's Department of Building Inspection (DBI) for all permitted work
- QA participation in definable feature of work preparatory and initial phase meetings as scheduled by the contractor's QC manager
- QA participation in Weekly Work Package Progress Meetings for STS, YBM, UMS and CTS
- QA participation in Monthly Project Risk Mitigation, Safety and Security, and weekly Construction Management Board (CMB) meetings as scheduling constraints allow

### **Document comment and review:**

- QA staff reviews quality related submittals, other submittals and Requests for Information (RFIs) as needed and requested to support the RE's and CM administration of the Quality Assurance Program
- QA staff performs random checks of the Contractor's independent field inspection and testing laboratory reports and results as provided by the Contractor's testing laboratory
- Contractor Non Conformance Reports (CNCR) Status as indicated in the TPC QC CNCR Log:
  - ◊ Initial: 10 CNCRs are currently posted to the CNCR Log as INITIAL entries. (The Contractor is required to generate a CNCR within 24 hours of becoming aware of what appears to be nonconforming work).
  - ◊ Dispositioned (not acceptable): 26 CNCRs are currently posted to the CNCR Log as DISPOSITIONED (NOT ACCEPTABLE) and have been returned to the Contractor because the RE's review of the Contractor's proposed disposition determined that the proposed disposition is not appropriate and must be revised).
  - ◊ Dispositioned: 9 CNCRs are currently posted to the CNCR Log as DISPOSITIONED and are being reviewed by associated SFMTA RE to verify that the Contractor's proposed dis-

# Quality Assurance - Continued

position is appropriate.

- ◊ Approved: 31 CNCRs are currently posted to the CNCR Log as APPROVED because the suggested REPAIR dispositions have been approved and the CNCRs will remain open until the approved REPAIR procedure is performed
- ◊ Closed: 396 CNCRs are currently posted to the CNCR Log as CLOSED.
- ◊ Voided: 53 CNCRs are currently posted to the CNCR Log as VOIDED (subsequent evaluation of the INITIAL CNCRs determined that a CNCR is not warranted)
- ◊ 534 CNCRs are currently posted to the CNCR Log

## **Notice of Non-compliance (NCN):**

- Project QA has issued 33 NCNs

## **Audits:**

- Previously, Project QA performed an audit of the Contractor's compliance with specified requirements for Project Coordination and Management Staff. The audit resulted in five findings and five Corrective Action Requests. These findings remain open
- During this period, Project QA initiated an audit of the Contractor's compliance with document control and quality records requirements for the period

## **QA Issues:**

- The Contractor does not currently have the required number of QC staff. Four (4) full-time Assistant Contractor Quality Managers are required by Contract. Currently there are three vacancies.
- The Contractor does not have a QC manager on the site at all times during construction as required by Contract.
- The Contractor continues to perform work in some instances prior to receipt of approved required submittals (including product information, coordination and shop drawings) and RFIs with or without knowledge of the Contractors QC or responsible production supervision. This presents potential risk

## **QA Concerns:**

- The contractor continues to furnish and install OCS poles without meeting prerequisite certification requirements. Project QA issued STS NCN 003. The Contractor has not responded to the NCN
- The Contractor continues to VOID CNCRs without demonstrating that the work meets Contract requirements
- The Contractor is not identifying all nonconforming work as required by Contract
- The Contractor continues to perform CNCR repairs prior to receiving approval of the proposed repair procedures
- The untimely identification and mitigation (SFMTA approval) of "last minute items" remains an ongoing challenge to all involved and often generates nonconforming work. Project quality has not suffered to date; however the aforementioned concern remains
- Project schedule compression demands disrupting RE, design staff priorities, and work flows as mentioned above; quality has not suffered but the concern remains
- CNCR 354, which documents that standard strength and not high strength 115 RE rail has been furnished and installed by Tutor Perini Corporation (TPC) the C1300 Contractor. CNCR 354 was

# Quality Assurance - Continued

dispositioned as Use-As-Is and was then rejected by SFMTA and returned to TPC QC to address the requirements of 34 11 14 *Rail*. SFMTA wrote a letter to TPC directing the removal of the non-conforming rail. SFMTA QA was informed by TPC's Project Manager that CNCR 354 would be voided. SFMTA QA's concern is that that CNCR 354 was voided by TPC perceived ambiguities in the contract documents without consideration of other contract document requirements. Non-compliance Notice NCN STS-001 was issued, directing TPC to reinstate CNCR 354. The CNCR has not been reinstated. This issue is being closely monitored by SFMTA

## **Program QA Practices Implemented:**

- Close-out of Corrective Action Requests: Close outs continued as required from Quality Assurance staff's audits, surveillances and PMOC quarterly reviews. The status is tracked in the Corrective Action Log that is available to the project team and the FTA PMOC
- Project QA continues to hold weekly meetings with the Resident Engineers, Assistant Resident Engineers, and QA inspectors of all stations to review project quality assurance procedures and requirements and to discuss contractor quality control requirements

# Risk Management

A Risk Mitigation Management Meeting took place on May 5, 2020. The members of the Risk Assessment Committee will reconvene at a later date to review the top risks item in accordance with the risk summary sheet, which have been given a rating by The Committee of six and above. The committee will discuss impacts of COVID 19 to the risk management of the program.

Currently, thirty-four (34) construction risks, two (2) revenue service risk and one (1) remaining requirement risk, are being tracked on the Project's Risk Register; in addition to, establishing strategies for mitigation and evaluating potential unforeseen issues or conditions.

The Committee will continue to follow risks and risks will be monitored and statuses updated with the use of the risk mitigation status sheets, providing monthly updates by the Risk owner to demonstrate the assigned mitigation strategy is being implemented. The program is working with our funding partners to evaluate the current Revenue Service Date (RSD) related to risk, schedule, and cost. The program will issue a revised extension request for the RSD date in compliance with FFGA to ensure that the program has sufficient schedule and cost contingency.

## Top Risks

Risk #	Risk Description	Risk Rating	Contract Phase
255	Water leaks at YBM station, including water in conduits to both electrical room and TP room	10	YBM
251	Physical activities missing (not defined) in the schedule / identify activities of undefined scope	8	STA
205	Prolong period of CMod's creates additional cost/causes bad blood between Resident Engineer and Contractor	8	STA
257	Systems Test Integration between components does not work; fails	8	RS
253	Do not have adequate (subcontractor) resources defined to perform the work to meet schedule performance	6	STA
238	Quality Program is ineffective in processing the nonconformance items causing schedule impacts	6	STA
229	CN1300 System Acceptance Testing takes a prolonged amount of time	6	STA
230	SFMTA Commissioning Coordination (inaccurate time for coordination or participation from Muni Ops)	6	STA
261	Internal Staffing Resource Issue	6	GEN
254	CPUC Field Certification - Not having enough staff to certify the work may slow down the process	6	STA

# Program Safety & Security

**Coronavirus Pandemic (COVID 19)** - On March 17, 2020, the Mayor and the City's Health Office issued a Public Health Order to "Shelter-In Place" in response to the COVID-19 pandemic. The City's Health Office has issued adjustment to the health order to ensure safety to the public. The Contractors have implemented a revised site safety and security plans to incorporate various requirements of the order.

Construction of the Central Subway project continues to progress with minimum impact and Construction Management team continues to monitor progress and to monitor the Contractor and Subcontractors compliance with the site safety plan. Daily verification of labor has indicated that the current workforce levels are consistent with the levels observed pre-COVID-19. However, the Contractors have notified the City that due to social distancing requirement, Contractors have modified their means and methods for some tasks. The CM team has added additional staff to monitor these requirement. The schedule team will also monitor the production rate and compare it against the initial rates prior to COVID pandemic.

The San Francisco Municipal Transportation Agency is committed to the highest practical level of safety and security standards and practices in the public transit industry. The Safety and Security Management Plan (SSMP) components are reported on below as appropriate including, Safety and Security Committee, the Fire Life Safety and Security Committee the Construction Conformance Verification and Documentation and Contractor Safety and Security.

## **Project Management/Construction Management (PMCM) Team**

Safety bulletin boards have subjects covering the daily job briefings. Weekly safety meetings are held on a weekly basis so all staff has an opportunity to attend. We hold a "bagel break" once a month to help generate interest and attendance at the meetings. These monthly meetings have helped to create a real team environment.

## **Safety Summary for the 1300 Stations Systems Track Construction Package**

In May, there were no injuries or recordables. However, there was a break-in and the incident was reported into the police.

## **Table 1300 Stations Construction Safety Record**

Table 1300 below summarizes the Month to Date and Project to Date for the Stations, Systems and Track Construction contractor and subcontractors.

### **Next Month Look Ahead**

#### 1300 Contract

1. At CTS, we continue to install overhead conduit, stairs, water piping, CMU wall, and GFRC panels.
2. At UMS, we continue to install stairs, elevators, overhead plumbing, fire protection piping, and overhead fixture and electrical.
3. At the YBM station, we continue to install escalators, elevators, EV controls, and ceiling.
4. At the STS station, we continue traction power conduit and other electrical conduit installation inside the tunnel.

## Program Safety & Security - continued

### Project Safety Record - Contract 1300

Through Month End May 2020

#### SAFETY GOALS

OSHA Recordable Accidents, <3.4
Lost Time Cases, <1.6

#### JOB TO DATE

	Tutor	Subs	Total Project	Rate*
OSHA Recordable Accidents	32	8	40	1.85
Job Transfer or Restricted Duty Cases	0	0	0	0.00
Lost Time Cases	10	1	11	0.51
Total Project Incidents	42	9	51	2.36
Man Hours Worked Through M/E MAY 2020	2,084,835	2,240,491	4,325,327	

#### YEAR TO DATE

(Month ,Day, Year to Month, Day, Year)

	Tutor	Subs	Total Project	Rate*
OSHA Recordable Accidents	1	2	3	6.64
Job Transfer or Restricted Duty Cases	0	0	0	0.00
Lost Time Cases	0	0	0	0.00
Total Project Incidents	0	0	0	0.00
Man Hours Worked Through M/E MAY 2020	90,345	0	90,345	

\* Rate is calculated based on number of incidents divided by total number of man hours worked multiplied by 200,000 man hours.

OSHA Recordable Accidents - 2008 Construction Industry Rate for Highway, Street, and Bridge Construction = 3.9

\*Classifications change at a later date due to additional information becoming available, thereby, changing the numbers on the chart.

For example, what was once classified as an accident can become a first aid which leads it to no longer being recordable.

## Technical Capacity

The Program continues to identify additional staff for the construction management team. These staff are needed to provide support for the current construction activities and Contract Modification process to ensure that the program catches up to the backlog. These additional staff will supplement the existing staff to properly support ongoing effort to complete the project.

***Steel reinforcing used to hold up the former temporary roof deck for Chinatown Station has been removed piece by piece to allow the next portion of the surface entrance structure to be built.***

## Staffing

The Central Subway Staffing Table shows Planned and Actual full-time equivalent staff (FTEs) working on the Program by organizational function and responsibility.

	Mar-2019		Apr-2019		May-2019	
	Planned	Actual	Planned	Actual	Planned	Actual
<b>Project Management</b>						
Program Management	6.60	4.75	6.60	4.75	6.60	4.75

\*FTE counts may change at a later date due to additional information becoming available, thereby, changing the numbers on the chart.

## Third-Party Agreements

No activity in this reporting month.

## LRV Procurement

SFMTA has initiated a new light rail vehicle procurement to acquire up to 260 vehicles over the next 15 years. The scope includes the design, manufacture, delivery and testing of up to 260 light rail vehicles together with associated services, spare parts, special tools, training and documentation. This includes an initial delivery of 24 cars, scheduled for delivery from 2017 - 2018 to supplement the fleet when the SFMTA's Third Street Phase 2 - Central Subway Project extension opens.

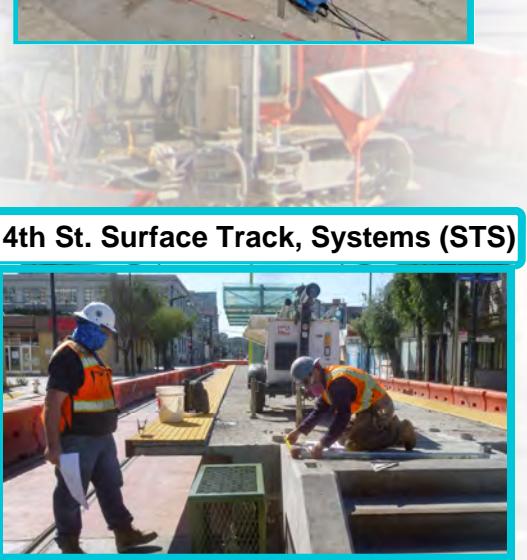

The delivery of 24 vehicles related to Central Subway has been completed.

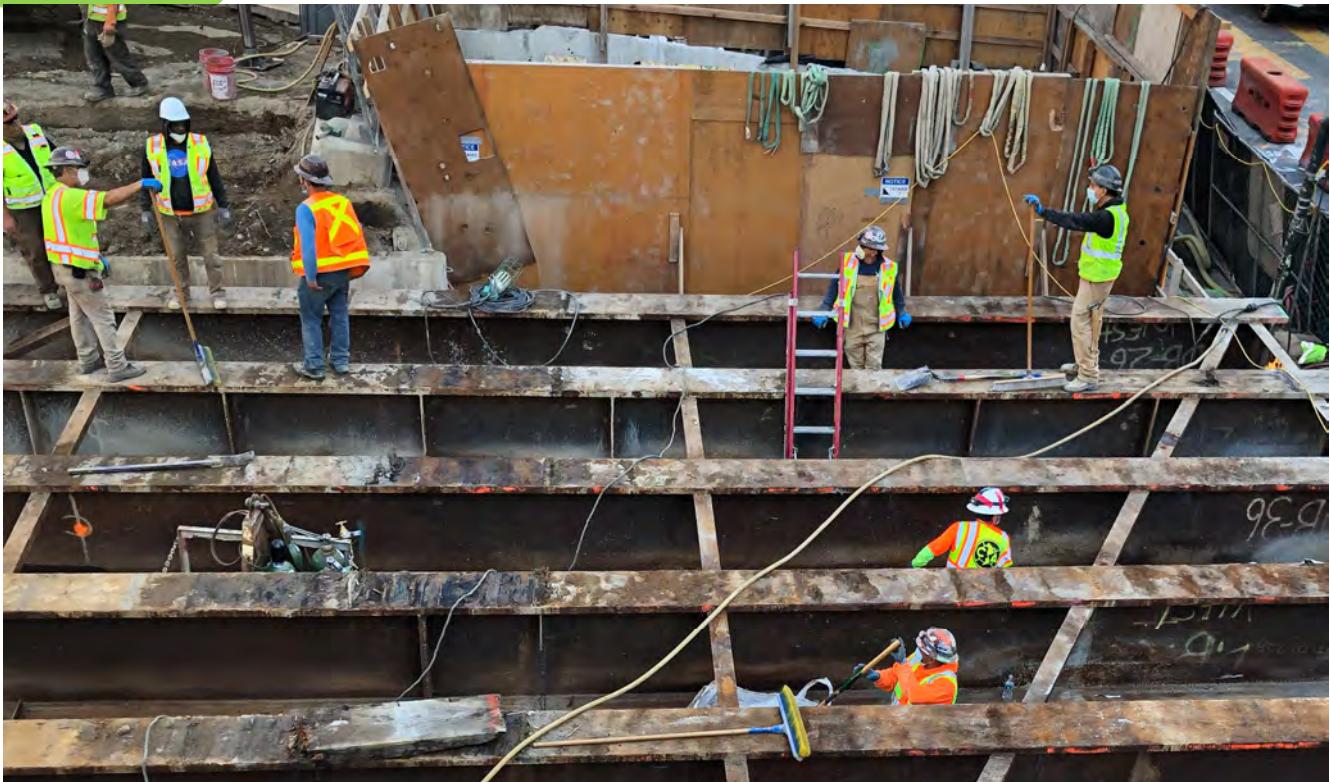

***Mounting brackets and white wall panels have been going in surrounding the north stairs and escalators inside Union Square/Market Street Station.***

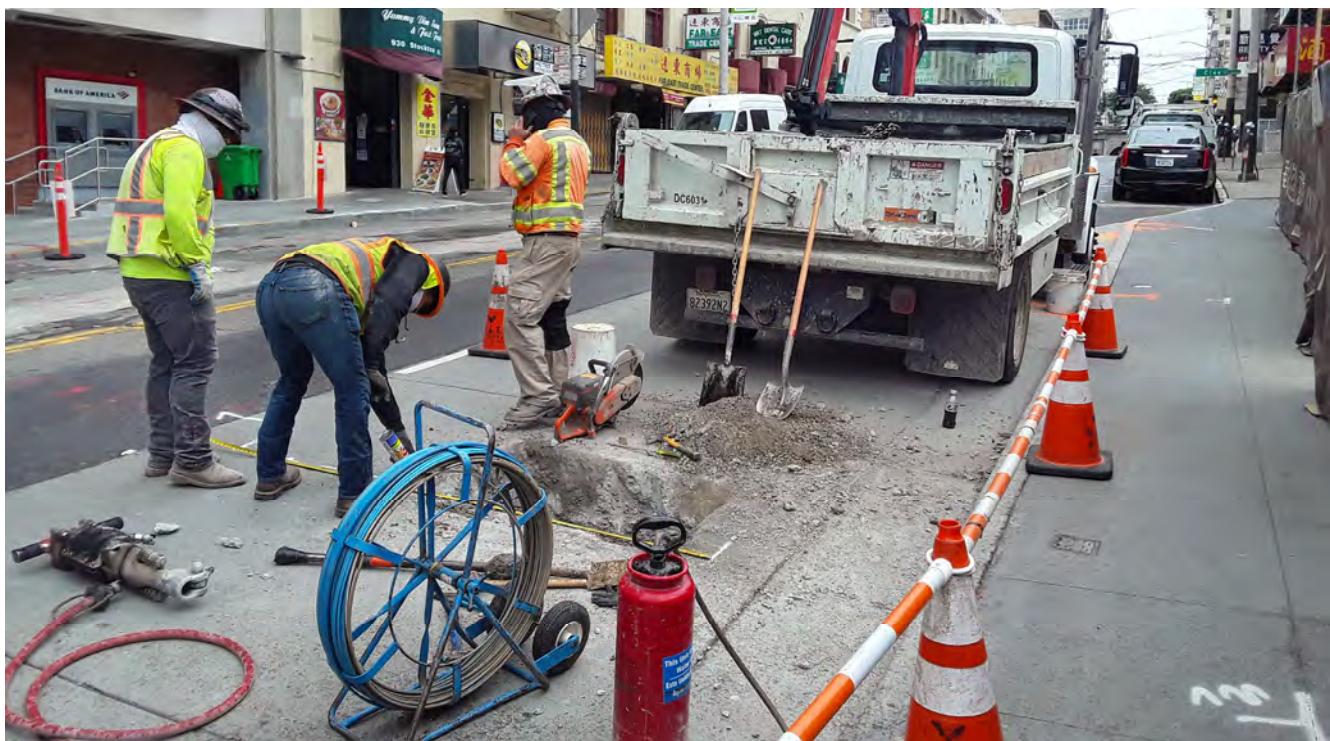

# central T subway

## Current Construction Activity

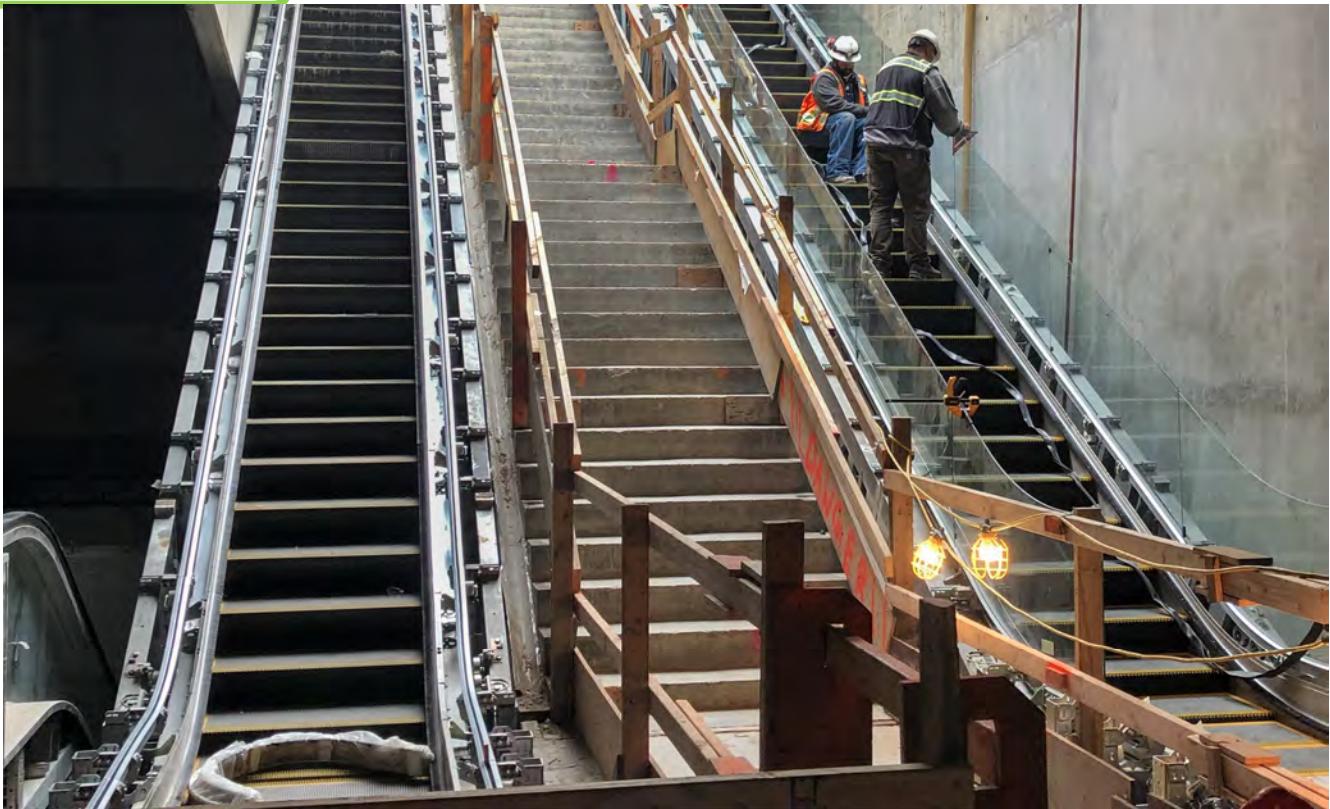

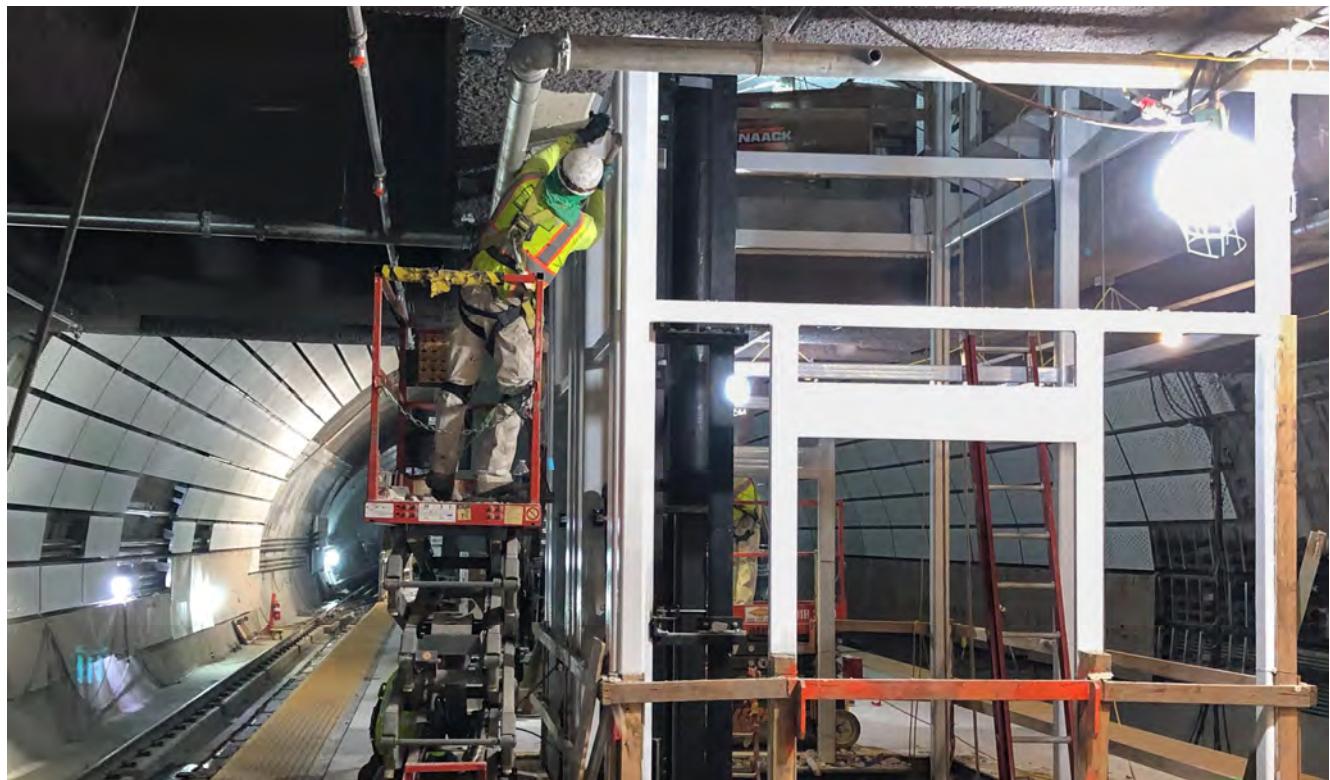

***With the temporary roof deck's wood cribbing now removed, the structural beams and reinforcing steel are being carefully disassembled prior to removal.***

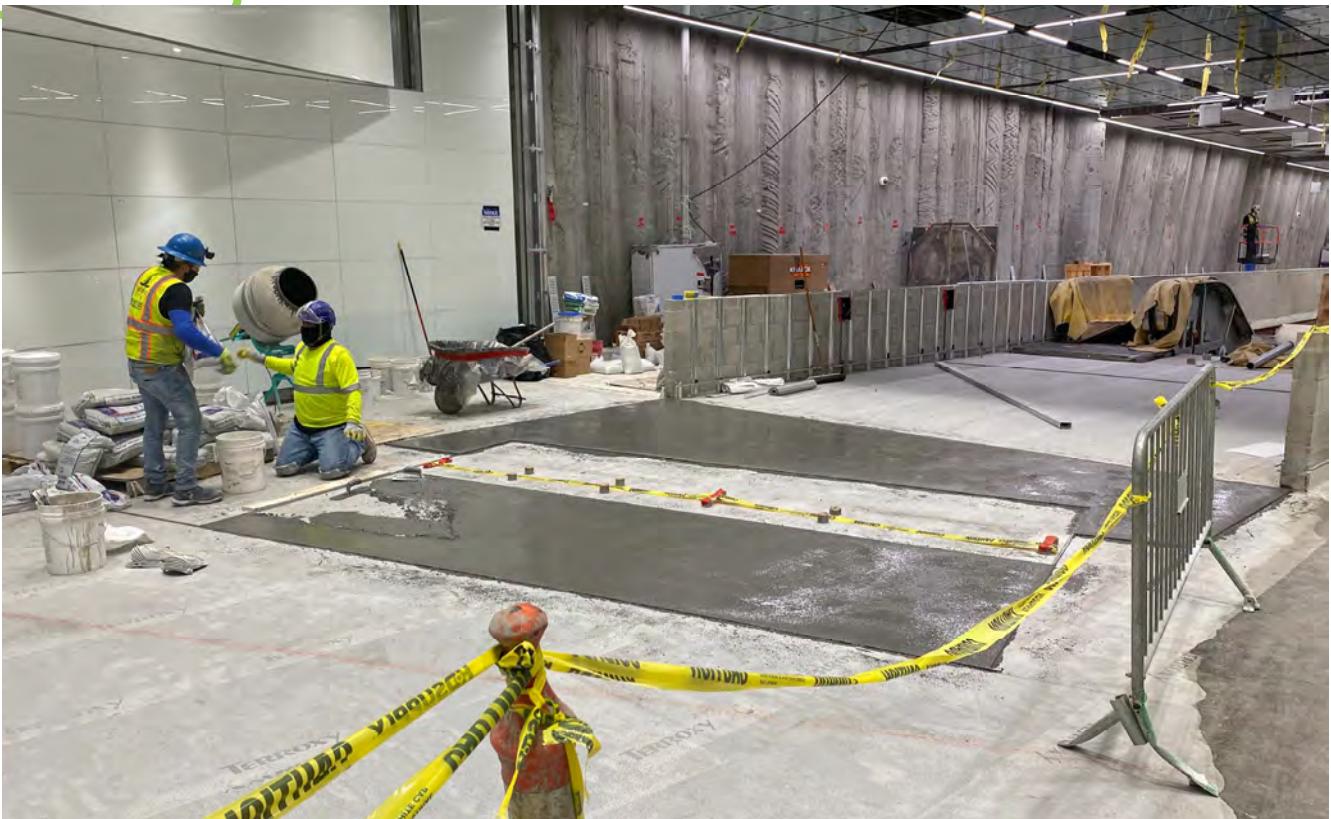

***Potholing and trenching for utility work has commenced on Stockton Street near the surface entrance structure for Chinatown Station.***

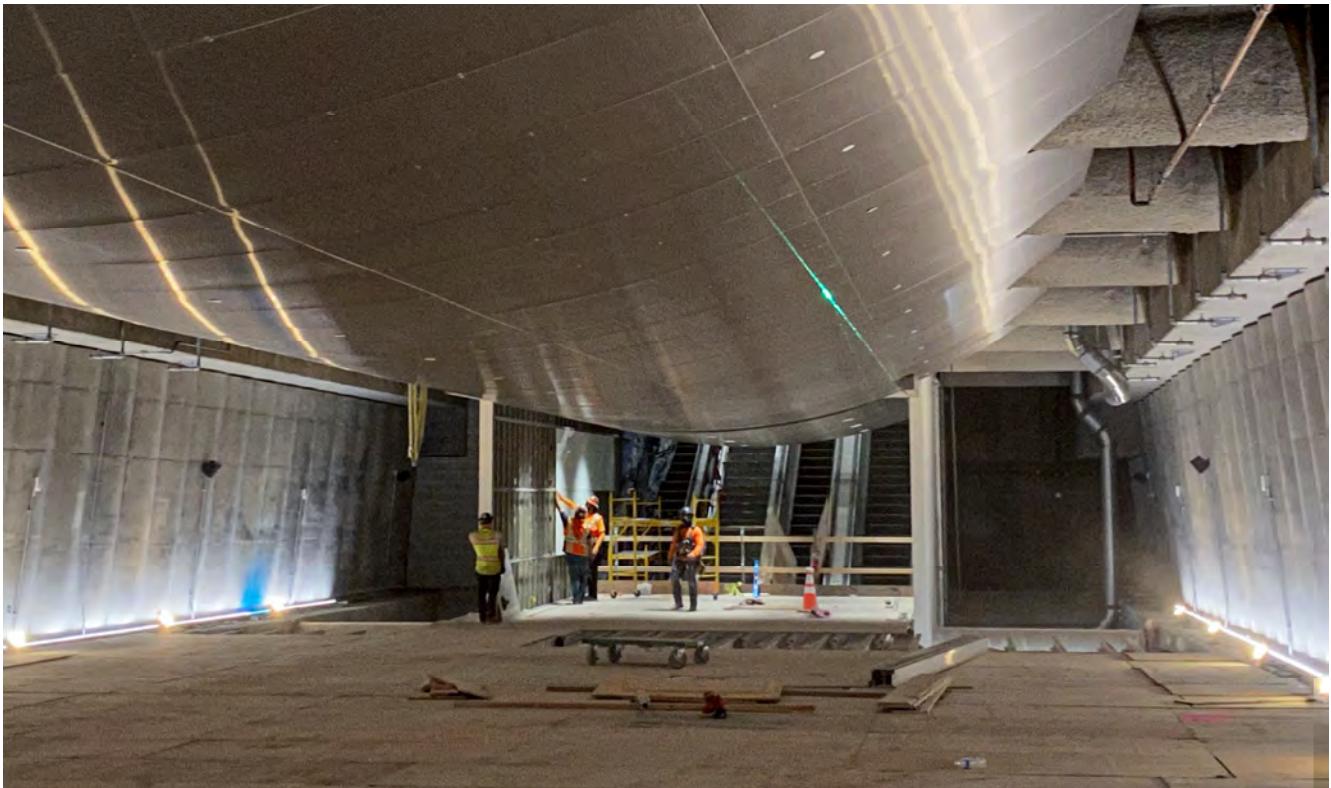

*Glass side panels for the dual escalators are being installed between the street level entrance and upper mezzanine transition for Chinatown Station.*

*Steel framing for Chinatown Station's concourse-to-platform elevators has been constructed, and workers have begun building out the elevators themselves.*

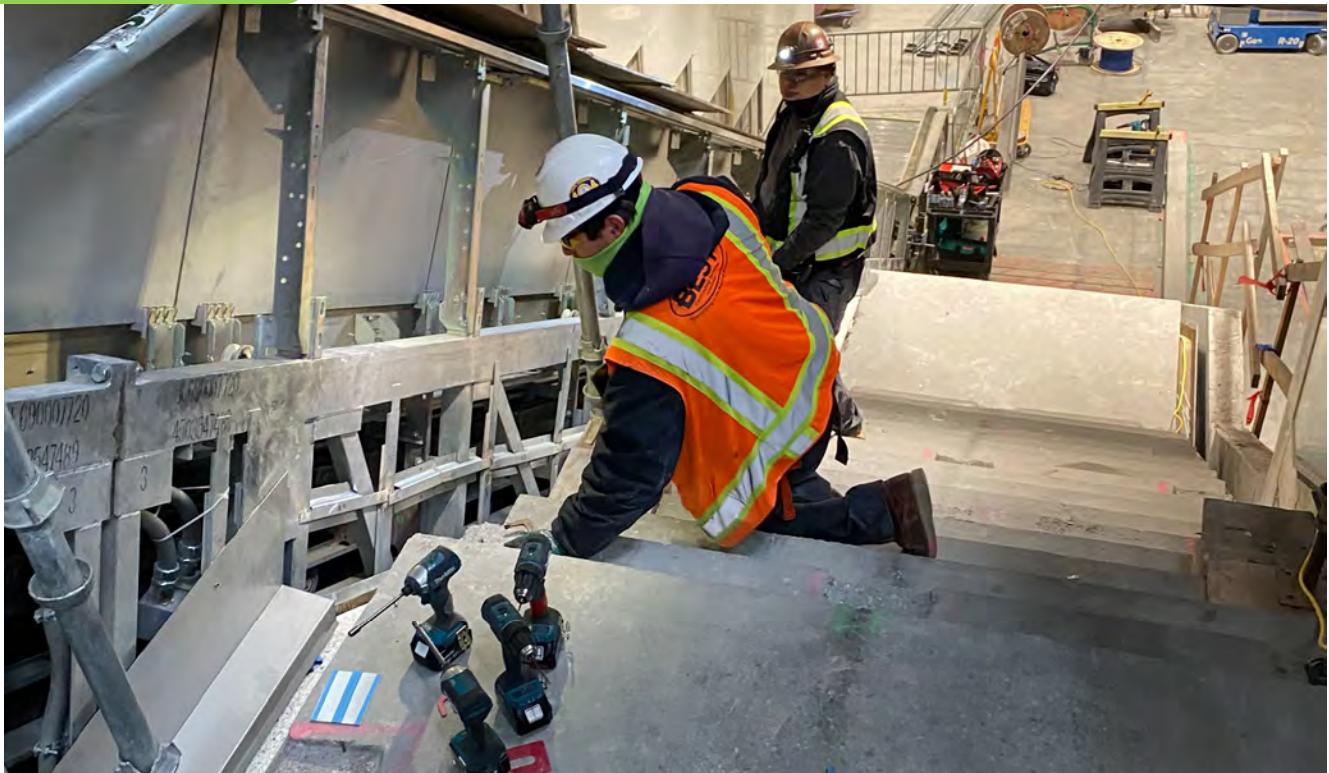

*Alternating sections of dark floor shapes being poured will lead the way to the north escalators inside the Union Square/Market Street Station north concourse.*

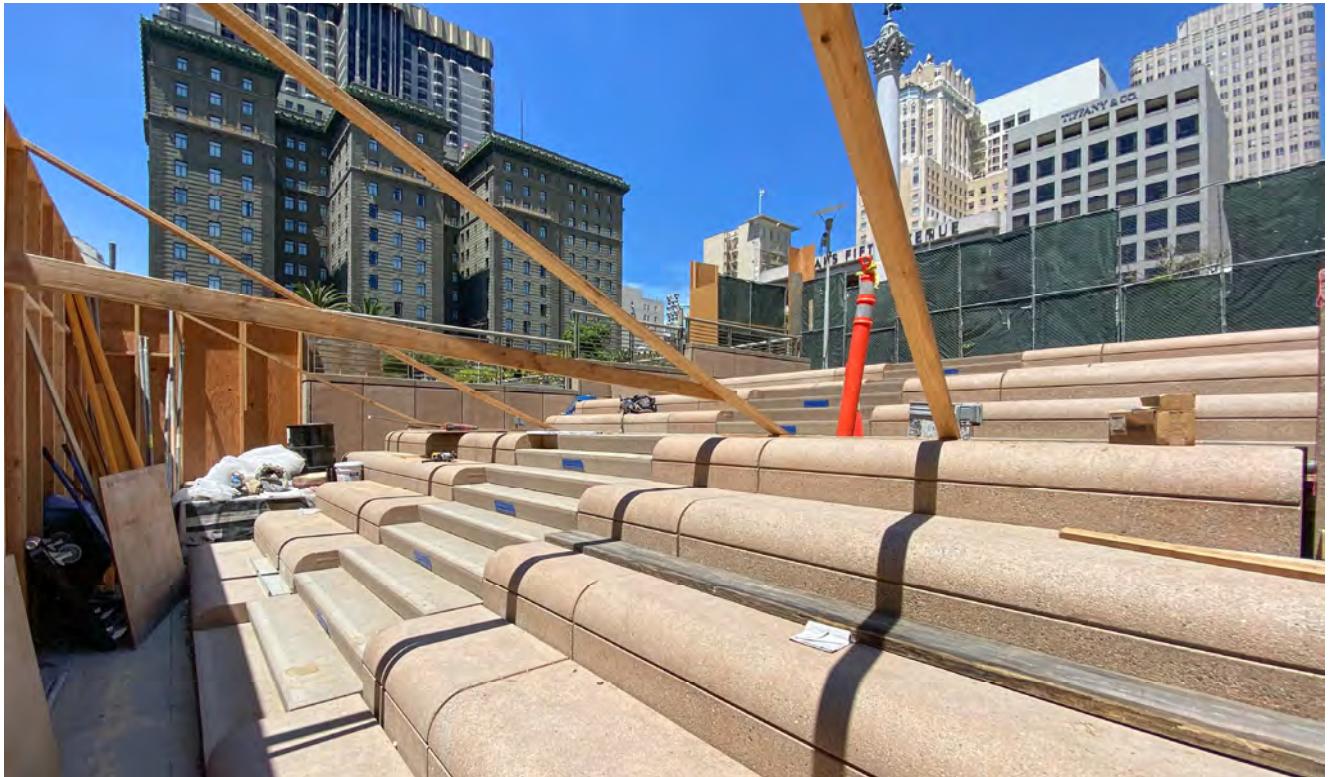

*An immense curved structure above the platform area for Union Square/Market Street Station evokes the underside of a large ship, stretching the entire length of the platform area.*

## UMS—continued

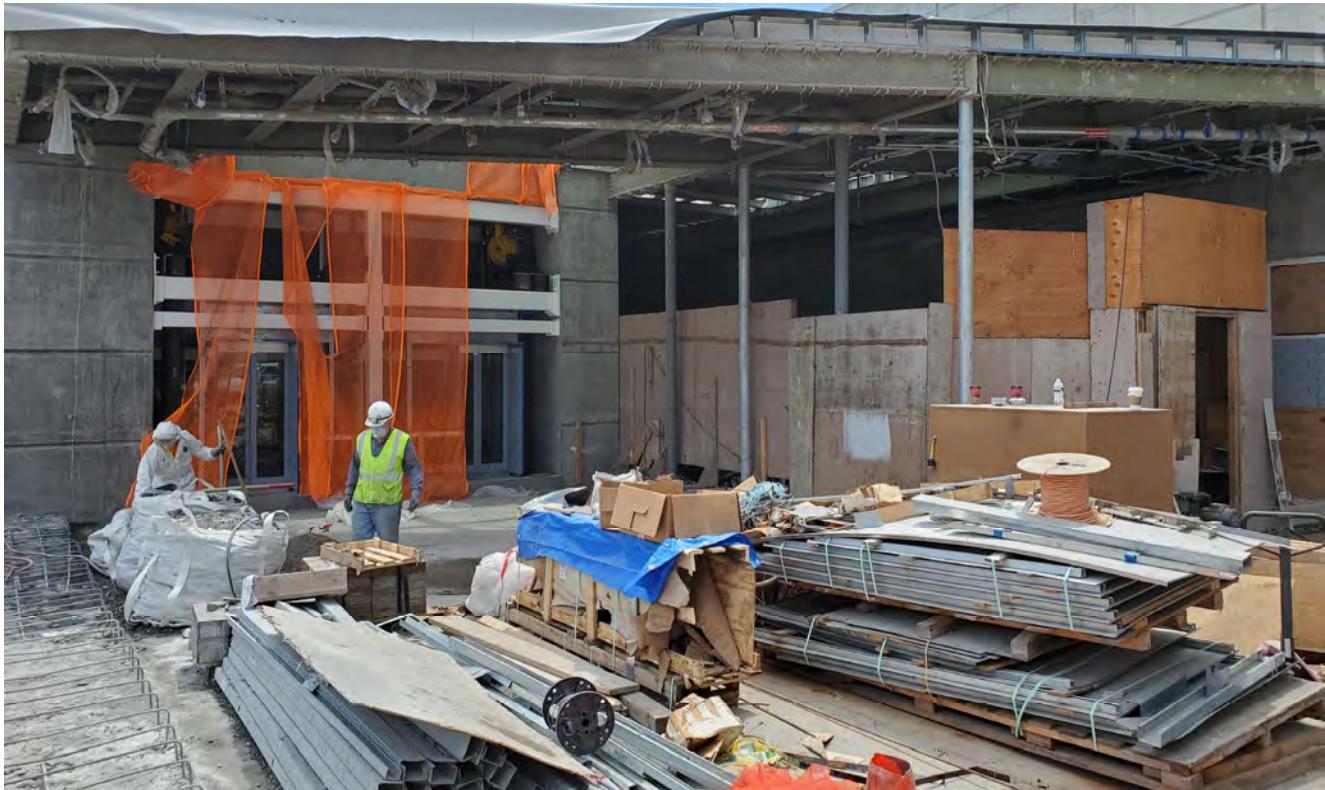

*A worker grabs tools next to a wall being constructed atop the plaza terrace surrounding the north entrance for Union Square/Market Street Station.*

*The Dewey Monument at Union Square oversees recently-placed terrace blocks adjacent to the north entrance for Union Square/Market Street Station.*

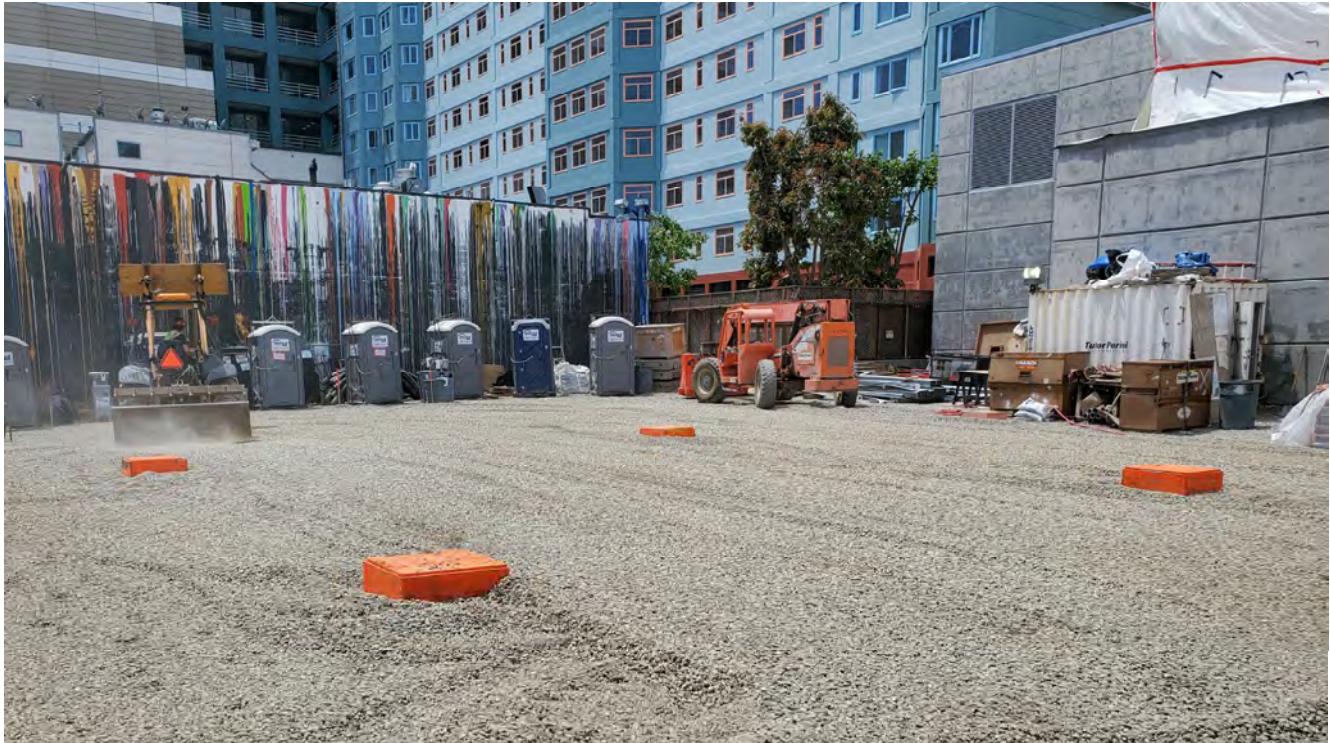

***With steel framing and glass windows now in place, the future station attendant booth is coming together inside the Yerba Buena/Moscone Station concourse lobby.***

***Framing, wall panels, and other materials slated for the station interior are staged in the future entrance plaza for Yerba Buena/Moscone Station.***

## **YBM** - continued

***Supplies and equipment have been temporarily cleared from the site atop the southern half of the Yerba Buena/Moscone headhouse roof so crews can grade a layer of gravel.***

***Air conditioners and other systems have now been installed, with these units placed atop the Yerba Buena/Moscone Station headhouse roof.***

***Two workers go over plans to build steel brackets for mounting utilities at the 4th and Brannan surface station platform.***

***Crews continue building a raised walkway across the switchover tracks inside the cross-over cavern just south of Chinatown Station.***

*HVAC systems, large diameter conduits, and massive fans have been installed for inside the lower level of Chinatown Station's headhouse structure.*

*Steel railings have been installed along the raised walkway inside the northbound tunnel, seen here near a cross-passage just north of Union Square/Market Street Station.*

Connecting people. Connecting communities.

## *Appendix A*

### **DETAIL COST REPORTS**

\*May 2020 Notice: The City continues to experience problems that were caused by error and inaccuracy from the transition from FAMIS to Financial System Project (FSP). An updated methodology has been implemented within the financial reporting that will provide more accurate figures for transactions occurring in fiscal year 2020.

## **1. PROJECT COST**

The Current Cost Estimate (CCE) for the Central Subway Project is \$1.578 billion in year of expenditure dollars (\$YOE). The project continues to evaluate the Estimate at Completion (EAC) and has presented information to the SFMTA Board. The project is working with SFMTA Finance and Grants to identify these additional source of funds to provide for the shortfall. Currently, the project estimates the EAC to be \$1.626B or \$48M above the current budget. This EAC has not been finalized as additional cost will need to be considered including the potential cost of delay due to the current pandemic crisis. When the EAC and the funds are identified, the team will revised the various cost sheet to reflect the new budget and EAC number along with any impacted appendix. The team anticipates that this will take several report cycles to adjust.

Total net incurred costs for the project are \$1,534.71million, a \$8.87 million increase over last month. The cost to date figure reflects expenditures through FAMIS 786 Report (\$1,491.58 million) plus the utilities joint trench Form B Reimbursement payment (\$12.51 million), invoices currently being processed (\$38.84 million) and estimates of outstanding pay requests (credit of \$8.18 million). This incurred amount equals 97.2% of the total project budget of \$1.578 billion. The project continues to review the overall cost. The current Estimate at Completion (EAC) is projected to be \$1.626B which is \$48M over the current budget. The project shows a forecast Revenue Service Date of December 2021.

The current funding level to date is \$1,568.38 million and includes Operating funds FY2019/2020 \$7,570,000 and Proposition B (City of San Francisco Adjusting Transportation Funding for Population Growth) FY2020 \$4,070,000 appropriated in May 2020 . This represents 99.4% of the total project budget and we anticipate the addition of \$9,918,937 to complete the funding of the program.

CONTRACT	PP NO	PP PERIOD	TO	PROG PYMT AMOUNT
CS155.1*	70	6/30/2016	\$ 24,327.00

## **2. CONTINGENCY ALLOCATIONS AND USAGE**

The current Total Project Contingency is negative \$34.85 million. The Contingency Drawdown Curve is shown in Report 7.3. Follows by Report 7.4 Contingency Management Trend Report with the Remaining Contingency after Approved Changes Deducted contingency items in column "i".

In this reporting period, CN1300 Station processed four contract modification in the amount of \$17,612,380. Refer to Report 7.5 for approved contract modifications and potential changes.

Refer to Report 7.5 for approved contract modifications and potential changes.

### **3. BUDGET TRANSFERS**

CN1300 Station processed two contract modification in the amount of \$20,840,631 in SCC 40 category and two contract modifications in the credit amount of \$3,228,251 in SCC 20 category. There is a net budget transfer of \$0 in this reporting period due to the further drill down of SCC 10-50 categories; allocated contingency is in SCC 20 category. When a contract modification is processed, the funds are drawn from allocated contingency. Refer to Report 7.7 Column C for budget transfers.

### **4. FORM B**

The Utilities Joint Trench Form B Details is listed in the Table A2 below. Total utilities joint trench Form B Reimbursement payment to three construction contracts is \$12.51 million.

<b>TABLE A2: UTILITIES JOINT TRENCH FORM B DETAILS</b>	<b>[A] Mar 2015 BUDGET</b>	<b>[B] EXPENDED TO DATE</b>	<b>Associated Cost Account</b>

## Earned Value Analysis and Definitions

**SPI** is a measure of schedule efficiency on a project. It is the ratio of earned value (EV) to planned value (PV). A SPI equal to or greater than one indicates more work was completed than planned and a value of less than one indicates less work was completed than planned. A value of less than 0.9 is unfavorable.

**CPI** is a measure of cost efficiency on a project. It is the ratio of earned value (EV) to actual cost value (AC). A CPI equal to or greater than one indicates a cost under run and a value of less than one indicates a cost overrun. A value of less than 0.9 is unfavorable.

The following earning rules are established for each of the phase:

Cost Element Group	Planned Value (Primavera)	Earned Value (Primavera)	Actual Cost (SFMTA Cost Accounting (SAP))
Prelim. Engineering	Expenditure Plan Level of Effort (LOE)	Equals to Planned Value (LOE)	Time Keeping; Vendor Accruals and Invoices
Final Design	Expenditure Plan Level of Effort (LOE)	Equals to Planned Value (LOE)	Time Keeping; Vendor Accruals and Invoices
Procurement	Planned Delivery Date	Actual Delivery Date	Time Keeping; Vendor Accruals and Invoices
Real Estate	Expenditure Plan Level of Effort (LOE)	Equals to Planned Value (LOE)	Time Keeping; Vendor/ Material Accruals and Invoices
Construction	Schedule of Work	% Complete* x Budget at Completion (BAC)	Vendor Accruals and Invoices
<b>Sub-Total</b>	Performance Measurement Baseline (PMB)	Total Earned Value	Total Actual Cost
<b>Below the Line</b>	+ Contingency		
<b>Total</b>	Approved Budget		

## **6. FUNDING SUMMARY**

The Funding Available Table below shows the total awarded funds to date vs. the total committed funds from the Project's funding sources.

<b>Funding Available Table</b>		
	<b>Funding</b>	
	<b>Committed Funding Sources</b>	<b>Total Awarded Funds to Date</b>
<b>Federal</b>		
Sect. 5309-NS	\$942,200	\$942,200
Sect. 5307-OBAG	\$15,980	\$15,980
CMAQ	\$41,025	\$41,025
<b>Federal Subtotal</b>	<b>\$999,205</b>	<b>\$999,205</b>
<b>State</b>		
TCRP	\$14,000	\$14,000
State RIP	\$12,498	\$12,498
Prop. 1B (I-Bond)	\$308,601	\$307,792
PTIMSE		
Prop. 1A (HSR-Bond)	\$61,308	\$61,308
<b>State Subtotal</b>	<b>\$396,407</b>	<b>\$395,598</b>
<b>Local</b>		
LCTOP	\$4,000	\$4,000
Operating	\$4,970	\$7,570
MTA	\$0	\$0
Prop. B Pop Baseline	\$26,985	\$20,125
Prop. K	\$143,542	\$138,692

7.1 Program Project Budget	
1	The Central Subway Project (CSP) ( SFMTA Capital Program CPT 544 ) is defined in the FTA-SFMTA October 2012 Full Funding Grant Agreement with a budget of \$1.578 billion.
2	The TBM Retrieval Shaft Relocation (SFMTA Capital Program CPT 690) is one of four capital projects that is related to CSP. These projects are reported for background information as needed outside of the main body of the Project Monthly Progress Report.
3	The Chinatown Plaza (CPT 718) is for Chinatown Station enhancement capital project. The project has funding outside of the Central Subway Project. The construction is carried out in Contract 1300 Contract Modifications.
4	CPT 665 is a Real Estate project to relocation in compliance with California regulations for business relocations but outside of the Central Subway Project as defined by the FTA FFGA.
5	CPT 705 is an SFMTA capital improvement between the Agency and community stakeholders outside of the Central Subway Project.
6	Utility company reimbursements (Form B) result in funds received for work carried out on behalf of utilities concurrent to CSP work to achieve efficiencies.
7	PG&E Power Feed reimbursement funds are the refunds from PG&E when completion of Stations construction and switch to permanent power.
8	BART Elevator funds are reimbursements for work carried out on behalf of BART to install BART Powell Street Station elevator.
9	The Tutor Perini - CAD Files funds are the result of payments by the contractor for project documentation not included in the contract.
10	SFPUC Sewer Main funds are reimbursements for work carried out on behalf of San Francisco PUC (includes 10% construction contingency).
11	Traffic Effectiveness Project funded Contract Modification #40 for Culvert, Street & Sidewalk Restoration in North Beach are reimbursements for work carried out in Contract 1252 on behalf of SFMTA SSD.
12	SFPUC 24" Water Main funds are reimbursements for work carried out in Contract 1252 Contract Modification #41 on behalf of San Francisco PUC (includes construction management cost).
13	SFPUC North Beach 24" Water Main Additional Work funds are reimbursements for work carried out in Contract 1252 Contract Modification #48 on behalf of San Francisco PUC (includes construction management cost).
14	CN1300 Contract Modification #6 is funded by Chinatown Plaza (CPT 718) project.
15	Traffic Effectiveness Project funded Contract Modification #51 for support for North Beach Restoration, OCS and Streetlighting which are reimbursements for work carried out in Contract 1252.
16	Public Works' funds are for reimbursements for work carried out on behalf of Public Works MOU for Water Line above YBM Station.
17	SFWD funded Contract Modification #60 for 8' water line at the intersection of Fourth and Jessie Street which are reimbursements for work carried out in Contract 1252.
17a	The Chinatown Plaza (CPT 718) is used for Chinatown Station enhancement. The project has funding outside of the Central Subway Project. The construction is carried out in Contract 1300 Contract Modifications. CMOD#123 is being partially funded by CPT718 funding.

7.4 Contingency Management Trend Report	
18	In Oct 2014 Report, updated Contract 1250 contract cost to segregate contract amount and contract modification amount. Note that September 2013 Supplemental Authorized Contingency "column f" did not include completed contract.
19	In Oct 2014 Report, updated Contract 1251 contract cost to segregate contract amount and contract modification amount. Note that September 2013 Supplemental Authorized Contingency "column f" did not include completed contract.
20	Contract 1252 Original Contract Value "column a" and Original Contingency "column f" did not match September 2013 Supplemental due to Supplemental were used the revised value to reflect Contract Modifications #3-#18. Reduced Contract 1252 contingency to reflect CMOD #20 for retrieval shaft relocation cost \$5.15M funded by CPT690, CMOD #40 for Culvert, Street & Sidewalk Restoration cost \$694,651 funded by Traffic Effectiveness Project (TEP), and CMOD #41 for install 24" Water Main in North Beach cost \$328,860 funded by SFPUC. In August 2015 report, release \$15M CN1252 Tunnel assigned contingency to program unallocated contingency. In March 2106 report, reduced Contract 1252 contingency by \$377,435 cost to reflect certification of five CMODS. CMOD#49, #52 and #53 total \$221,967 are funded by CPS. CMOD#51 Support for North Beach Restoration, OCS and Streetlighting cost of \$155,468 is being funded by TEP. Released \$155,468 CN1252 allocated contingency to program's unallocated contingency. In May 2016 report, reduced Contract 1252 contingency by \$185,913 cost to reflect certification of two CMODS. In July 2016 report, increased Contract 1252 contingency by \$15,259 cost to reflect certification of one CMOD. In October 2016 report, increased Contract 1252 contingency by \$319,658 to reflect certification of three credit CMODs. In March 2018 report, increased Contract 1252 contingency by \$131,715 cost to reflect certification of two CMODS.
21	BART Elevator scope and SFPUC Sewer Main scope is in Contract 1300; effort will be funded by BART. In January 2015 Report, corrected Station Contract value to match awarded amount. In March 2019, \$18,036,709 was taken out of original contract of \$879,676,400 due to ATCS no longer being done by Tutor hence new revised budget of \$861,639,691. In August 2019, used new methodology to report on the potential changes to our contract cost. See backup via SCC codes. The budget number in cell m14 has also been updated to reflect the true cost.
22	In March 2016 Report, lowered Contract 1300 Stations CTS contingency by \$75,000 because Contract Modification #6 was funded by Project CPT718. In Nov 2016 report, reversed moving contingency.
23	In December 2017 Report, \$1,060,000 Job Readiness Budget is shown as an approved change in Column "b". In March 2019 report, \$18,036,709 taken out of Tutor contract (STS package) and put into unallocated contingency. We then used the same amount from unallocated contingency, \$18,036,709 and moved to its own line for the ATCS (advanced train control system) contract. As of March 2019, Tutor has not given us credit for the \$18,036,709 that is still sitting on the STS AL-14 bid item. That bid item should not be \$25M but instead be \$7,054,078 to reflect amount we have previously paid out. We will continue to monitor the STS-AL bid item to make sure Tutor corrects the amount. In August 2019, we are showing the \$4,841,950 from unallocated program contingency being moved to SCC 50 Systems category.

## Connecting people. Connecting communities.

24	In December 2017 Report, there is a change in Column "f" and Column "h" to reflect reporting to include CN1250 and CN1251. Prior to this, Column "f" and Column "h" reporting excluded CN1250 and CN1251.
25	In April 2015 report, real estate budget stated in RAMP Rev5 is \$36.7M, including \$1M contingency. The cost workbook ROW & contingency budget reflects this with \$36,511,799 and \$1,000,000 respectively. Revised cost book ROW budget & contingency to be \$37,511,799. The \$4,265,478 Caltrans lease savings is allocated to ROW allocated contingency. In February 2017, released \$5,265,478 from completed phase Real Estate assigned contingency to program unallocated contingency.
26	In Dec 2014 Report, redistributed LRV budget to reflect recent firm bid cost per vehicle (\$3,327,250/unit) from vehicle procurement contract award. (SFMTA Board meeting 15JUL14, calendar item #11). Vehicle line item total budget remains unchanged, redistributed fund by reducing base amount to \$13,309,000, column "c" and increased allocated contingency column "h", by same amount. In Dec 2018 Report, increased LRV budget by \$3,491,000 to reflect final costs of vehicles (\$4,200,000/unit) for vehicle procurement contract to \$16,800,000. Reduced LRV contract and transferred the \$9,585,653 from LRV contingency to unprogrammed contingency.
27	In July 2018 Report, increased SCC 80 Professional Services category budget by \$2,263,498 due to additional costs related to CN1300 stations; cost was transferred from program unallocated contingency. In August 2019 report, we are realigned and adjusted the allocated contingency for Professional Services and moved to approved changes column.
28	In Oct 2014 Report, made two corrections: i) revised Professional Services, Original Contract Value "column a" from \$310,518,041 to \$310,618,041, ii) revised Original Cogency. "column f" unallocated contingency from \$3,883,481 to \$3,845,945. In April 2015 report, used \$500K program contingency for CS-175 Bayland Soil Process contract. In August 2015 Report, added \$15M from Contract 1252. In March 2016 Report, the \$155,468 costs funded by other project offset credits added to program's unallocated contingency. In August 2016 Report, used \$15M to UMS contingency and \$5M to CTS contingency. In February 2017, increased \$5,265,478 from real estate contingency to program unallocated contingency and used \$1M for CN1300 Job Readiness Program contract. In July 2018 report, used \$2,263,498 to increase SCC 80 Professional Services category regarding matters related to stations from program unallocated contingency. In August 2019 report, used \$4,841,950 to increased SCC 50 Systems category regarding matters related to CSP Radio from program unallocated contingency.
29	The total Central Subway Project budget of \$1.578 billion, based on the October 2012 FFGA with the FTA, is the primary MPR report reference.
30	Estimate at Completion is shown at Column "e".
31	Estimated at Completion vs. Budget variance is shown at Column "k".

**7.5 Contract Modification/Trend Log - Contract 1300 Stations**

Reported all trend cost for Contractor Change Order Requests and Proposed Contract Change and applied probability to forecasted trends. In April 2016 Report, reviewed probability formula and adjusted cost. In May 2017, updated probability formula and adjusted cost.

7.6 Budget Revisions: Report Sorted by Construction Packages	
32	In Dec 2014 Report, reduced CN1252 allocated contingency by \$28K to execute Contract Modification #46, see Report 7.5 Detail Contingency Usage Report. In August 2015 report, release \$15M CN1252 Tunnel assigned contingency to program unallocated contingency. In March 2016 report, five contract modifications certified totaling \$377,435 of which \$155,468 is using another source of funding. Released \$155,648 from CN1252 Tunnel assigned contingency to program unallocated contingency. In May 2016 Report, reduced CN1252 allocated contingency by \$186K to execute Contract Modification #54 and #55, see Report 7.5 Detail Contingency Usage Report. In October 2016 Report, increased CN1252 allocated contingency by \$319,658 to execute three contract modifications (#57, #58 and #59), see Report 7.5 Detail Contingency Usage Report. In March 2018 Report, increased CN1252 allocated contingency by \$131,715 to execute two contract modifications (#61 and #62), see Report 7.5 Detail Contingency Usage Report. In December 2018 Report, released CN1252 allocated contingency of \$966,431 to program unallocated contingency.
33	In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program. CN1300 Job Readiness Program budget was part of CN1300 base value, a deduction contract modification will lower CN1300 contract value.
34	In April 2015, initiated budget from program unallocated contingencies for CS-175 Bayland Soil Process contract, refer to Note 20.
34a	In March 2019, initiated transfer due to budget being withdrawn from Tutor contract (STS package) to fund the Advanced Train Control System contract amount of \$18,036,709. CN1266-2 Advanced Train Control System (ATCS) Implementation for \$14,611,285 and CN1266-1 Advanced Train Control System (ATCS) Equipment for \$3,425,424.
34b	In December 2018, initiated budget from program unallocated contingencies for AON Risk Insurance, refer to Note 20.
35	In February 2017, released completed phase real estate assigned contingency \$5,265,478 to program unallocated contingency.
36	In Dec 2014 Report, redistributed LRV budget to reflect recent firm bid cost per vehicle (\$3,327,250/unit) from vehicle procurement contract award. (SFMTA Board meeting 15JUL14, calendar item #11). Vehicle line item total budget remains unchanged, redistributed fund by reducing base amount to \$13,309,000 and increased allocated contingency by same amount. In December 2018 Report, adjusted budget from \$13,309,000 to \$16,800,000 from allocated contingency. Took the remaining allocated contingency of \$9,585,653 and moved it to program unallocated contingency.
36a	In August 2019 Report, utilized the contingency of \$16,862,657 from 80.03 Project Management budget and 80.04 Construction Management budget and redistributed funds to align with AECOM budget to reflect true costs plus additional \$12,000,000 in 2019 annual work plan.

37	In October 2016 report, 1252 program contingency increased by \$319,658 due to execution of three contract modifications as credit offsets. In November 2016 report, took away \$75,000 funding from program's unallocated contingency and moved to CTS allocated contingency. In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program. CN1300 Job Readiness Program budget was part of CN1300 base value, a deduction contract modification will lower CN1300 contract value. Also released \$5,265,478 assigned real estate contingency to program unallocated contingency. In June 2017, initiated budget from Contract 1251's contract value (true final administrative close out cost) to program unallocated contingency, a deduction contract modification that lowered CN1251's contract value by \$125,501. In March 2018 report, 1252 program contingency increased by \$131,715 due to execution of two contract modifications as credit offsets. In July 2018, increased SCC category Professional Services in 80.04 Construction Management by \$2,263,498 by reducing program unallocated contingency. In August 2019, increased SCC category Other Construction in 50.05 CSP Radio by \$4,841,950 by reducing program unallocated contingency.			
38	In April 2015 report, program contingency decreased by \$500,000. In August 2015 report, release \$15M CN1252 Tunnel assigned contingency to program unallocated contingency. In March 2016 report, released \$155,468 from Contract 1252 Tunnel assigned contingency and \$75,000 from Contract 1300 Stations assigned contingency totaling \$230,956. In August 2016, released a total of \$20M unassigned contingency to assigned contingency; \$15M to CN1300 UMS station and \$5M to CTS station. In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program. CN1300 Job Readiness Program budget was part of CN1300 base value, a deduction contract modification will lower CN1300 contract value. Also released \$5,265,478 assigned real estate contingency to program unallocated contingency. In July 2017, increased program unallocated contingency by \$125,501 due to CN1251's revised contract value. In July 2018, reduced program unallocated contingency by \$2,263,498 to fund additional costs for SCC category Professional Services in 80.04 Construction Management. In December 2018, reallocated CN1252 budget of 2,402,247 (due to closeout crmod reduction of 1,435,816 and contingency release of 966,430) and LRV budget contingency of 9,585,653 and released a total of 11,987,900 to unprogrammed contingency. In August 2019, reduced program contingency by \$4,841,950 to fund additional costs for SCC category Other Construction in 50.05 to fund CSP Radio related services.			
39	<b>7.7 Budget Expenditures by SCC Codes</b> In March 2017, added new columns for "Supplemental 2013 Budget" and "Remaining Budget". In April, added new column for "Contingency". In May 2017, added new column for "Report Note". In May 2017, breakdown the combined SCC codes 10 to 50 into individual row for 10, 20, 40, 50 categories. Assigned SCC code to all CN1300 potential changes. Contract 1300 Station assigned contingency SCC are 20.01 and 20.03. The budget transfer is using assigned contingency to process contract modifications. In June 2017, adjusted and realigned SCC codes. In July 2018, the budget transfer is using SCC 90 program unallocated contingency to process an increase in budget for category SCC 80.03-90.04 PM For Design & Construction. In March 2019, added \$18,036,709 from taking out the ATCS from Tutor contract. The budget transfer was used to create a stand alone line for ATCS work in 50.01 under Thales.			
40	<b>7.9 Detail Monthly Expenditure Report</b> <b>Phase 1 Preliminary Engineering</b> In February 2017, line item budget was adjusted to line-up expenditures. Famis cost for Preliminary Engineering (PE) is \$48,210,903.71. Cost Report for Preliminary Engineering (PE) is \$46,542,060. Some Design cost reported in Famis were moved to Design Phase.			

<b>Phase 2 Design Phase</b>	
41 Famis cost adjustment to transfer Project Management cost from July 2013 to Phase 3 Construction Phase.	
Famis Phase 1 PE Index Code: 357906.CPT5441112 cost is \$10,222,939	
42 \$8,949,300 is reported in Cost Report Phase 1 PE and the balance of \$1,273,639 is reported in Phase 2 Design.	
1.2.021.01.080.03 - FD:CTYCO-ARTS COMMISSION [357909ART001.CPT5441227]:	
FAMIS: \$1,425,167	
Cost Report: \$1,425,167 cost is reported in Phase 2 Design, 1.2.021.01.080.03	
Cost Transfer: Remaining cost is reported in Phase 3 Construction, 1.3.021.01.080.03 - ARTS:CTYCO-ARTS COMMISSION	
43 [357909ART001.CPT5441227]	
In December 2016 Report, Central Subway Project has re-activated CSA Audit Work Order to perform overhead audit for three consultant forms.	
1.2.055.01.080.02 - FD:ODCs - 651 BRANNAN STREET [35CPT5441241.CPT5441241]:	
FAMIS: \$2,294,910	
Cost Report: \$2,294,910 1.2.055.01.080.02

52 Cost Transfer: any future costs to 1.3.021.01.080.03	

53	In January 2017 Report, revised SCC Code from 1.2.032.02.080.02 -1424J-BOE LABOR [PWE1X5MPFUNA.CPT544112B112] to 1.3.032.06.080.04 to correct incorrect SCC assignment for DPW support to construction phase.
54	In January 2017 Report, revised SCC Code from 1.2.032.02.080.02 -1424J-BOE LABOR [PWE1X5MPFUNA.CPT544112D112] to 1.3.032.06.080.04 to correct incorrect SCC assignment for DPW support to construction phase.
55	In January 2017 Report, revised SCC Code from 1.2.032.02.080.02 -1424J-BOE LABOR [PWE1X5MPFUNA.CPT544112E112] to 1.3.032.06.080.04 to correct incorrect SCC assignment for DPW support to construction phase.
56	In January 2017 Report, revised SCC Code from 1.2.032.02.080.02 -1424J-BOE LABOR [PWE1X5MPFUNA.CPT544112F112] to 1.3.032.06.080.04 to correct incorrect SCC assignment for DPW support to construction phase.
57	In January 2017 Report, revised SCC Code from 1.2.032.02.080.02 -1424J-BOE LABOR [PWE1X5MPFUNA.CPT544112G112] to 1.3.032.06.080.04 to correct incorrect SCC assignment for DPW support to construction phase.
58	1.3.055.01.080.02 - FD:ODCs - 651 BRANNAN STREET [35CPT5441241.CPT5441241]: FAMIS: \$2,294,910 Cost Report: \$2,294,910 1.2.055.01.080.02 - FD:ODCs - 651 BRANNAN STREET [35CPT5441241.CPT5441241] 59 Cost Transfer: Future costs to be allocated to 1.3.055.01.080.02 1.3.063.01.080.03 - AECOM.CS149 OM-EPC JV CS149-PM [68CPT544133D.CPT544133D]: FAMIS: \$4,698,167 Cost Report: \$4,698,167 on 1.2.063.01.080.03 60 Cost Transfer: Future costs to 1.3.063.01.080.03 - AECOM.CS149 OM-EPC JV CS149-PM [68CPT544133D.CPT544133D] In February 2017, transferred \$1,060,000 from programs unallocated contingency to initiate CN1300 JOB READINESS contracts, 61 (cost account code 1.3.064.06.040.08). A deductive Construction Modification to CN1300 will process. 62 Used \$500K program contingency for CS-175 Bayland Soil Process contract. Refer to Report Notes #20.
63	1.3.072.01.080.04 - FD:FINAL DESIGN-DP1 [35CPT5441232.CPT5441232]: FAMIS: \$5,608,147 Cost Report: \$5,469,336 63 Cost Transfer: \$138,811 to 1.3.071.01.080.04 - FD:FINAL DESIGN-DP1 [35CPT5441233.CPT5441233]: FAMIS: \$26,268,511 COST REPORT: \$26,220,609 64 COST TRANSFER: \$47,902 to 1.3.072.01.080.04 - FD:FINAL DESIGN-DP2 [35CPT5441233.CPT5441233] Contract 1251 Final cost is \$20,794,582. 65

## Connecting people. Connecting communities.

66	In March 2016, July 2016 and October 2016, contract 1252 modifications budget and actuals have been realigned and adjusted to reflect actuals costs.
67	In March 2016, July 2016 and October 2016, contract 1252 modifications budget and actuals have been realigned and adjusted to reflect actuals costs.
68	Revised Contract 1252 allocated contingency SCC code from 040.08 to 010.07.
69	In July 2015 Report, used Contract 1300 Contractor schedule to report budget and actual cost. The Standard Cost Categories (SCC) allocation changed from previous reports. In August 2015 Report, adjusted some of Contract 1300 Contractor SCC assignment to match most of previous SCC assignment. In March 2016, \$75,000 Cmod#6 subtracted from CN1300 Stations contingency (using CPT718 funding) and transferred to Program contingency; this lead to the total CN1300 Station budget being lowered.
70	Revised Contract 1300/UMS allocated contingency SCC code from 040.08 to 020.03.
71	In March 2016 Report, reduced Contract 1252 contingency by \$377,435 cost to reflect certification of five CMODS.
72	Revised Contract 1300/CTS allocated contingency SCC code from 040.08 to 020.03.
73	Negative Current or Prior Monthly expenditure is due to replenish allowance expenses by approved Contract Modifications.
74	Revised Contract 1300/YBM allocated contingency SCC code from 040.08 to 020.03.
75	Revised Contract 1300/STS allocated contingency SCC code from 040.08 to 020.01.
76	In August 2019 Report, reallocated and aligned SCC 80 Professional Services category budget by \$2,956,812 due to additional 75a costs; cost was transferred from construction management allocated contingency.
77	Revised Form B Reimbursements SCC code from 900.01 to 040.02
78	Revised Form B Reimbursements SCC code from 900.01 to 040.02
79	Revised Form B Reimbursements SCC code from 900.01 to 040.02
80	Revised Form B Reimbursements SCC code from 900.01 to 040.02
81	Revised Form B Reimbursements SCC code from 900.01 to 040.02
82	Revised Form B Reimbursements SCC code from 900.01 to 040.02
83	Revised Form B Reimbursements SCC code from 900.01 to 040.02
84	Increase Program contingency \$1,023,508. Refer to Report Notes #11 and #12. In April 2015 report, program contingency decreased by \$500,000. Refer to Report Notes #20. In August 2015 report, release \$15M CN1252 Tunnel assigned contingency to program unallocated contingency. In March 2016 report, program unallocated contingency increased by \$230,468. In August 2016, released \$20M to CN1300 Construction assigned contingency from program unallocated contingency. In February 2017, used \$1,060,000 for CN1300 Job Readiness Program from unallocated contingency, refer to Note 30. Also, released \$5,265,478 assigned real estate contingency to program unallocated contingency, refer to Note 27. In July 2018 report, used \$2,263,498 to fund SCC 80 Professional Services category regarding matters related to stations from program unallocated contingency. In December 2018, moved \$11,987,900 from CN1252 and LRV contingency to program unallocated contingency. In March 2019, added \$18,036,709 from taking out the ATCS from Tutor contract. The budget transfer was used to create a stand alone line for ATCS work in 50.01 under Thales. In August 2019, used \$4,841,950 from program unallocated contingency to create CSP Radio Design, CSP Radio Cable, and CSP Radio Procurement in SCC 50 Systems category. Waiting for a contract modification to readjust the borrowed contingency from unprogrammed contingency.

Connecting people. Connecting communities.

## *Appendix B*

### **DETAIL SCHEDULE REPORTS**

## **SCHEDULE HIGHLIGHTS**

The Master Project Schedule (MPS) below includes progress through May 2020. The May 2020 Schedule Update submittal from Contract 1300 Contractor was not submitted as the CN1300 Contractor has not provided the updated corrections to their June 2017, through July 2018 Schedule Updates. The Contract 1300 schedule represented in this report is based on the SFMTA May 2020 Schedule Update.

The MPS shows a forecast Revenue Service Date of December 2021 based on a revised assessment of the overall schedule and the current project conditions. The project continues to evaluate this date with potential impact from COVID 19. The schedule team is assessing the risk with this issue and identifying potential mitigation to reduce the risk to the overall schedule. The Contractor is notifying the City that potential delay may occurred due to the social distancing requirement which is impacting production rates.

Currently we are experiencing day-to-day delays caused by TPC's electrical work in the tunnel impacted by lack of resources and extended approvals of contract modifications related to Radio and Train Control Systems. These issues have impacted TPC's Substantial Completion date. TPC and SFTMA are working to reach scope and cost agreements for these contract modifications as TPC refuses to commence work without an approved Contract Modification. The controlling critical (longest) path of the MPS runs through the electrical activities within the tunnel which are impacting the TPC's Startup and Testing and subsequently the rail activation process. The latest schedule shows the longest path running through the Surface, Tracks and Systems (STS).

SFMTA continues to meet with Contractor to discuss all schedule concerns and comments. TPC has not been able to correctly staff the project which could potentially delay the project. In order to achieve the Baseline work productivity, TPC needs to increase the number of crews assigned to electrical work, allowing concurrent work within the tunnel and stations in order to make this completion date possible. It also requires that the front end portion of ATCS Startup and Testing is performed concurrently with TPC's Startup and Testing followed by ATCS software testing in coordination with SFMTA Operations.

Contract 1300 Contractor submitted fifty-four (54) Schedule Updates from December 2014 to July 2019. SFMTA rejected twenty-eight (28) Schedule Updates from January 2016 to April 2016 and June 2016 to July 2018 due to multiple and repetitive issues that vary from incorrect working sequences to unrealistic forecasted completion dates to artificially steering the schedule longest path through certain portions of the project. SFMTA approved as noted December 2014 through December 2015, and May 2016 Schedule Updates. Contractor has been directed to provide a Revised Schedule as required by the overall settlement agreement to maintain the forecasted project completion.

### **Contract 1300 - WP1253 UMS / WP1254R CTS / WP1255 YBM / WP1256 STS:**

The Contractor, Tutor Perini Corporation's (TPC) baseline schedule is incorporated into the master program schedule. The preliminary SFMTA Contract 1300 May 2020 schedule is used within the May Report. The SFMTA Contract 1300 May 2020 schedule is based on the approved baseline schedule logic with adjustments made as mentioned above. The SFMTA will continue to use the SFMTA Contract 1300 schedule update as a forecasting tool going forward until the Contract 1300 Contractor submits an acceptable schedule that addresses all SFMTA's scheduling concerns.

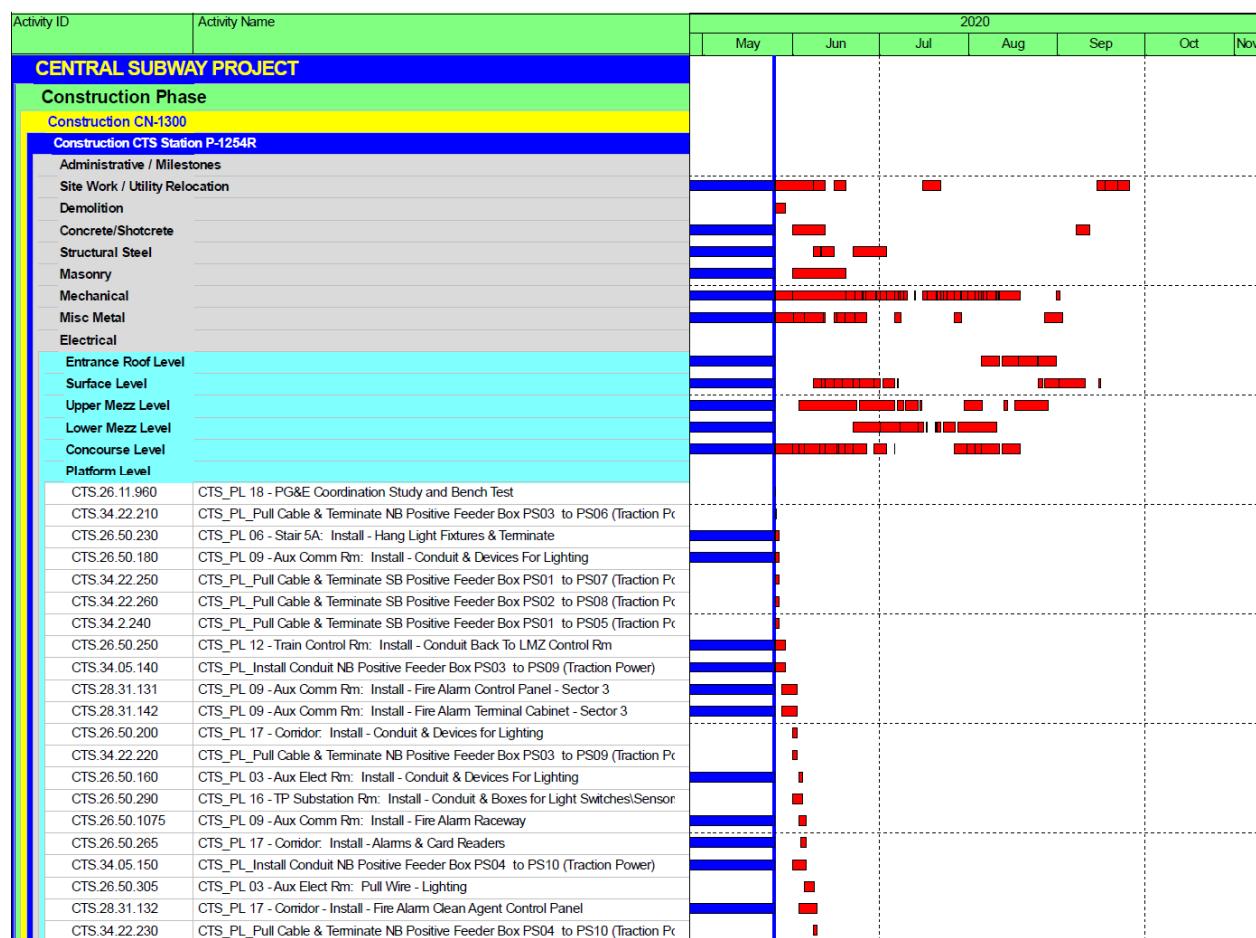

**Work Package P-1254R (CTS) has performed the following work this month:**

- Completed installing Stair 5A
- Continued installing Stair 5, 6, and 7
- Completed installing electrical panels at Equipment Room at Underplatform level
- Continued pulling service wires at Equipment Room at Underplatform level
- Continued installing overhead conduit at Traction Power rooms at Headhouse Platform level
- Continued pulling service wires at Main Electrical and Traction Power rooms at Headhouse Platform level
- Continued constructing structural steel for Elevators 1 & 2 at Platform and Concourse levels
- Continued installing storm, sewer, water piping, refrigerant, and fire sprinkler piping at all levels
- Completed installing structural steel for Station Agent Booth Concourse level
- Continued installing GFRC panels at ticketing hall at Concourse level
- Continued pulling service wires at Main Communication room at Lower Mezzanine level
- Continued installing Elevators 1, 2, 3, and 4
- Continued installing Escalator 5 & 6 at Upper Mezzanine level
- Continued construction of Surface level slabs and PCC 50 Chinatown Plaza walls and stairs
- Began installing structural steel and fire proofing for Plaza level
- Began installing electrical conduits and sprinkler piping at Surface level
- Began HVAC layout at Surface level
- Continued street work (minor), ongoing monitoring and surveying

**Work Package P-1254R (CTS) will perform the following work next month:**

- Continued installing Stair 5, 6, and 7
- Continue pulling service wires at Equipment Room at Underplatform level
- Continue installing overhead conduit at Traction Power rooms at Headhouse Platform level
- Continue pulling service wires at Main Electrical and Traction Power rooms at Headhouse Platform level
- Continue constructing structural steel for Elevators 1 & 2 at Platform and Concourse levels
- Continue installing storm, sewer, water piping, refrigerant, and fire sprinkler piping at all levels
- Continue installing GFRC panels at ticketing hall at Concourse level
- Continue pulling service wires at Main Communication room at Lower Mezzanine level
- Continue installing Elevators 1, 2, 3, and 4

- Complete installing Escalator 5 & 6 at Upper Mezzanine level
- Continued construction of Surface level slabs and PCC 50 Chinatown Plaza walls and stairs
- Continue installing structural steel and fire proofing for Plaza level
- Continue installing electrical conduits and sprinkler piping at Surface level
- Continue HVAC layout at Surface level
- Begin constructing slabs for Roof level
- Begin AWSS pipe construction at intersection of Stockton/Washington Streets
- Continued street work (minor), ongoing monitoring and surveying

### **Work Package P-1253 (UMS) has performed the following work this month:**

- Continued construction, installation and testing of the following items:

Platform Station:

- Stairs, escalators and elevators – including glass enclosure

- Overhead plumbing, fire protection piping, and overhead fixture and electrical
- Unistrut grid for ceiling panels and LED Artwork on concourse level
- Ceiling panels
- Light fixtures and controls
- Curved metal panel on platform strut level
- Terrazzo on concourse and platform level
- Fire Alarm /PA / Security System
- Emergency lighting at tunnel tie-in on platform level
- CCTV/Communication at tunnel tie-in on platform level
- Station Agent Booth
- HVAC startup and testing
- Power startup and starting

North Concourse:

- Stair, escalator and elevators
- Overhead plumbing, fire protection piping, and overhead fixture and electrical
- Cement plaster finish in various rooms
- Glass wall panels
- LED artwork

South Concourse:

- Stair and escalator
- Overhead electrical, light fixtures and controls
- Ceiling panels
- Glass wall panels including ticket vending machine
- Terrazzo flooring
- Rolling and Grille doors

Street/Surface:

- Precast architectural concrete elements at USG terrace level
- Glass roof walk at USG terrace level
- Landscaping and drainage at USG terrace level
- USG Roof level exhaust vent
- Tap room and emergency command post at surface level
- Pavement renovation at northside of Market street
- North sidewalk plaza at USG terrace level

**Work Package P-1253 (UMS) will perform the following work next month:**

Continued construction, installation and testing of the following items:

Platform Station:

- Stairs, escalators and elevators – including glass enclosure and glass wall panels

- Overhead plumbing, fire protection piping, and overhead fixture and electrical
- Unistrut grid for ceiling panels and LED Artwork on concourse level
- Ceiling panel
- Light fixtures and controls
- Terrazzo on concourse and platform level
- Artwork on platform strut level
- Fire Alarm /PA / Security System
- Emergency lighting at tunnel tie-in on platform level
- CCTV/Communication at tunnel tie-in on platform level
- Station Agent Booth
- HVAC and EV startup and testing
- Power startup and testing
- Fire Alarm System startup and testing

North Concourse

- Stairs, escalator, elevators
- Overhead plumbing, fire protection piping, and overhead fixture and electrical
- Cement plaster finish in various rooms
- LED artwork

South Concourse:

- Stair and escalator
- Overhead electrical, light fixtures and controls
- Ceiling panels
- Rolling and Grille doors

Street/Surface:

- Precast architectural concrete elements at USG terrace level
- Glass roof walk at USG terrace level
- Landscaping and drainage at USG terrace level
- USG Roof level exhaust vent
- Tap room and emergency command post at surface level

### Work Package P-1255 (YBM) has performed the following work this month:

- Continued installing Escalators 3 and 4
- Continued installing Elevators 3 and 4
- Continued installing EV controls at Station Mezzanine
- Continued installing ceiling at Headhouse Concourse
- Began installing artwork at Headhouse Concourse
- Continue installing Station Agent Booth at Headhouse Concourse
- Systems startup and Acceptance Testing

### Work Package P-1255 (YBM) will perform the following work next month:

- Continue installing Escalators 1 through 4
- Continue installing Elevators 3 and 4
- Continue installing Stairs 2 and 3
- Continue installing EV Controls at Station Mezzanine
- Continue installing Station Agent Booth at Headhouse Concourse
- Continue installing metal wall and Terrazzo floor in Station Concourse

- Continue installing telephone system at Station Platform level
- Systems startup and Acceptance Testing
- Complete F2A Light Fixture installations at Surface Walls
- Continue installing S.S. Metal wall panels at Concourse Sector 3
- Finished Installing MCC-JF in the Main Electrical Room
- Finished Fireproofing Plaza Canopy

#### Work Package P-1256 (STS) has performed the following work this month:

- Continue 4<sup>th</sup>/Brannan platform construction
- Continue traction power conduit and other electrical conduit installation inside tunnel for CCTV, telephone, tunnel lighting, and tunnel electrical power
- Started Traction power cable installation and terminations
- Continue tunnel lighting installation
- Continue OCS hanger installation inside tunnel
- Continue mini power center installation
- Continue walkway construction at cross-over cavern

- Continue installation of end of platform emergency stairs at station interfaces

**Work Package P-1256 (STS) will perform the following work next month:**

- Continue 4<sup>th</sup>/Brannan platform construction
- Continue traction power conduit and other electrical conduit installation inside tunnel for CCTV, telephone, tunnel lighting, and tunnel electrical
- Continue Traction Power Cable installation and terminations
- Continue tunnel lighting installation
- Continue OCS hanger installation inside tunnel
- Continue mini power center installation
- Complete walkway construction at cross-over cavern
- Complete installation of end of platform emergency stairs at station interfaces
- Start installation of ATCS system
- Start installation of blast doors at tunnel Cross-passages

## ***Appendix C***

### **PROJECT SCOPE AND FUNDING OVERVIEW**

## Project Overview

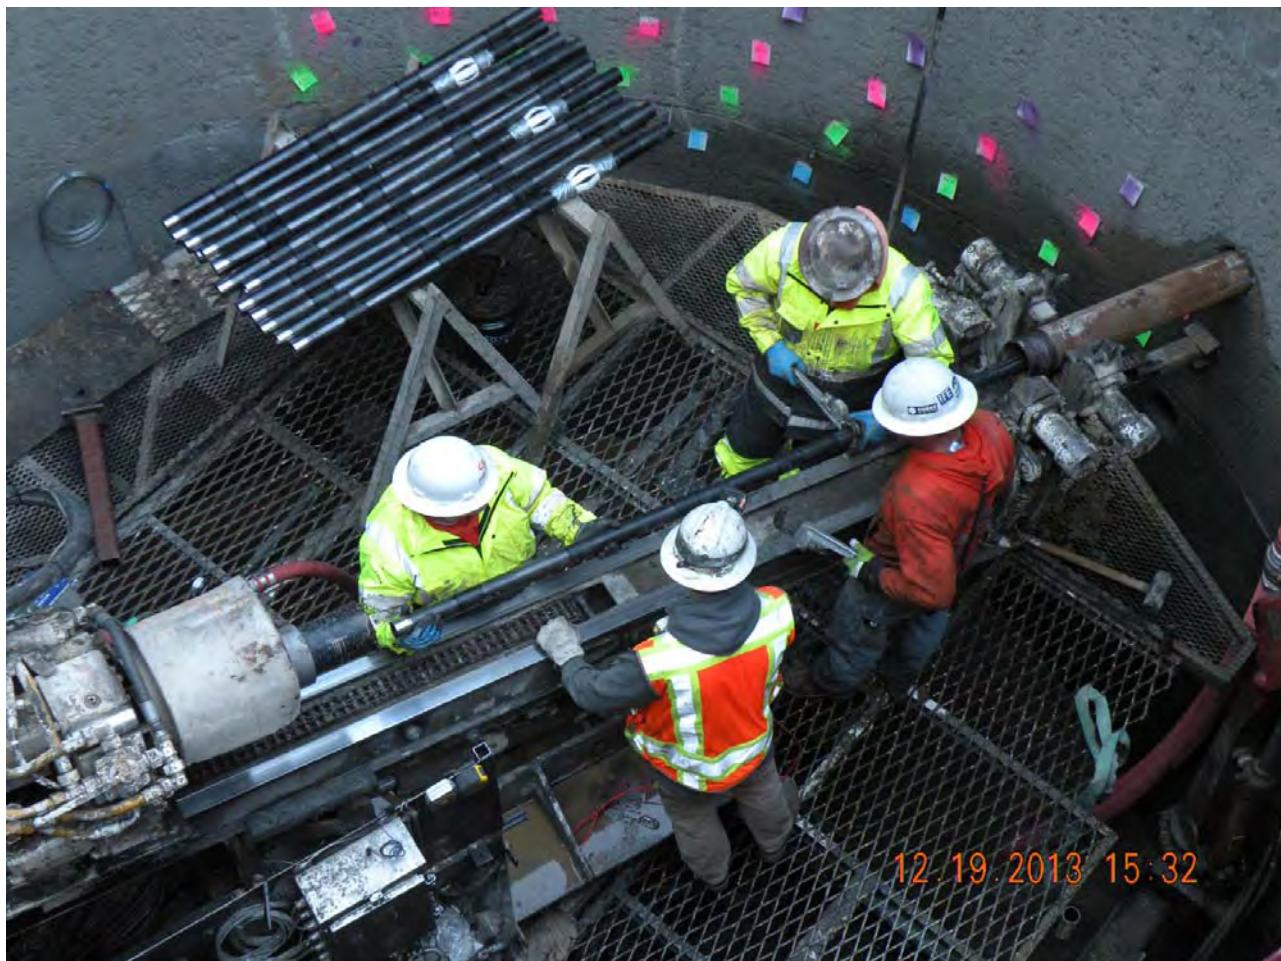

The Central Subway Project will construct a modern, efficient light-rail line that will improve public transit in San Francisco. This new 1.7-mile extension of Muni's T Third Line will provide direct connections to major retail, sporting and cultural venues while efficiently transporting people to jobs, educational opportunities and other amenities throughout the city.

The Central Subway Project is Phase 2 of the San Francisco Municipal Transportation Agency's (SFMTA) Third Street Light Rail Transit Project. Phase 1 of the project constructed a 5.1-mile light-rail line along the densely populated 3rd Street corridor. It began revenue service in April 2007, restoring light-rail service to a high transit-ridership area of San Francisco for the first time in 50 years.

The Central Subway Project will extend the T Third Line from the 4th Street Caltrain Station to Chinatown, providing a direct, rapid transit link from the Bayshore and Mission Bay areas to SoMa, Union Square and downtown.

Four new stations will be built along the 1.7-mile project alignment—an above-ground station at 4<sup>th</sup> and Brannan streets and three underground stations at Moscone Center, Union Square and Chinatown.

The Central Subway will run through the burgeoning technology and digital-media hub in SoMa, where dozens of companies have taken up residence along the 4th Street corridor. Increased

## Project Overview - continued

transit options will attract new employers – the Central Subway makes travel more convenient throughout the corridor and improves connections to downtown, local and regional rail and the Muni bus system.

The Central Subway Project will contribute to San Francisco's economic competitiveness and help secure the city's status of a regional, national and global hub. It will provide a pollution-free transit option that will reduce the environmental impact of transportation in the city, save natural resources, reduce traffic congestion and improve public transit for thousands of San Franciscans.

## Funding Overview

The Central Subway Project is funded by the federal government, the State of California, the Metropolitan Transportation Commission, the San Francisco County Transportation Authority (SFCTA) and the City and County of San Francisco.

The majority of funding for the Central Subway Project is expected to be provided by the Federal Transit Administration's (FTA) New Starts program, with a total commitment over the life of the project of \$942.2 million. To date, \$41 million in Department of Transportation Congestion Mitigation and Air Quality Improvement Program funds have been committed and expended.

With the addition in the December 2013 MPR of work to relocate the retrieval site for two tunnel boring machines (TBMs), the SFMTA's baseline budget for the Central Subway Project is \$1.588 billion. In total, about half of the Third Street Light Rail Transit Project's funding is from federal sources, with the remaining half from state and local sources. This is in line with the expectations of the FTA for New Starts-financed programs.

The table below summarizes the local, state and federal fund sources for both phases of the T Third Line including with the addition of the retrieval shaft to the Phase 2 totals.

T Third (Phase 1)	Central Subway (Phase 2 + Retrieval Shaft Relocation)	Total (Phase 1 + Phase 2 + Retrieval Shaft Relocation)	Percentage of Total
Federal	\$123.380	\$983.225	\$1,106.605 49.5%
State	\$160.700	\$471.100	\$631.800 28.2%
Local	\$364.380	\$133.675	\$498.055 22.3%
<b>Total</b>	<b>\$648.460</b>	<b>\$1,588.000</b>	<b>\$2,236.460 100.0%</b>

*All amounts in millions of dollars*

The six charts that follow summarize use of fund sources by phase and with the addition of the retrieval shaft relocation additional budget and funding:

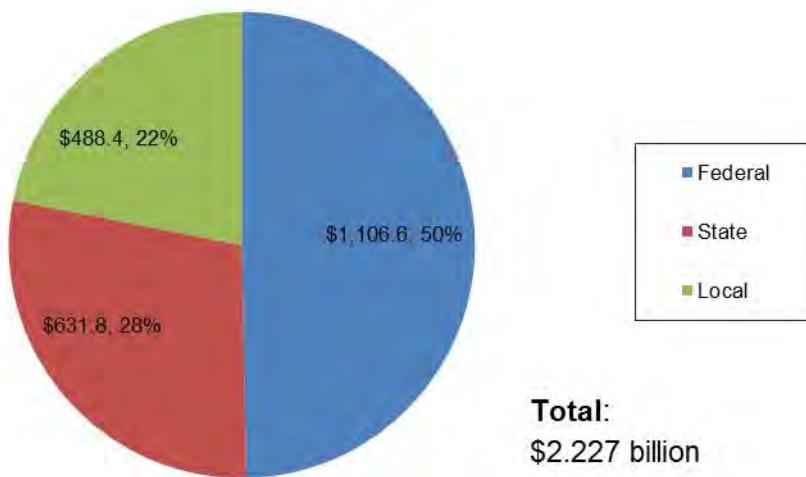

- Phase 1 + Phase 2 of the T Third Line federal, state and local funding percentages previous to the addition of the retrieval shaft relocation budget and funding in December 2013.

## Funding Overview - continued

- Phase 2 Central Subway Project only total funding source percentages previous to the addition of the retrieval shaft relocation budget and funding.
- Phase 2 Central Subway Project only detail of the six State and Local funding sources previous to the addition of the retrieval shaft relocation.
- The next three charts that follow are the above three data sets above with the retrieval shaft relocation budget and funding added to the overall presentation.

## *Appendix D*

### **COMPLETED CONTRACTS**

# Moscone Station and Portal Utility Relocation

## Contract 1250

Contractor: Synergy Project Management, Inc.

Budget/Expenditures	
Category	Amount
Original Budget	\$11,227,316
Expenditures Final	\$11,968,150
Utility Reimbursements	(\$2,275,419)
Final Program Cost	\$9,692,731
<b>Budget Impact (Underrun)</b>	<b>(\$1,534,585)</b>

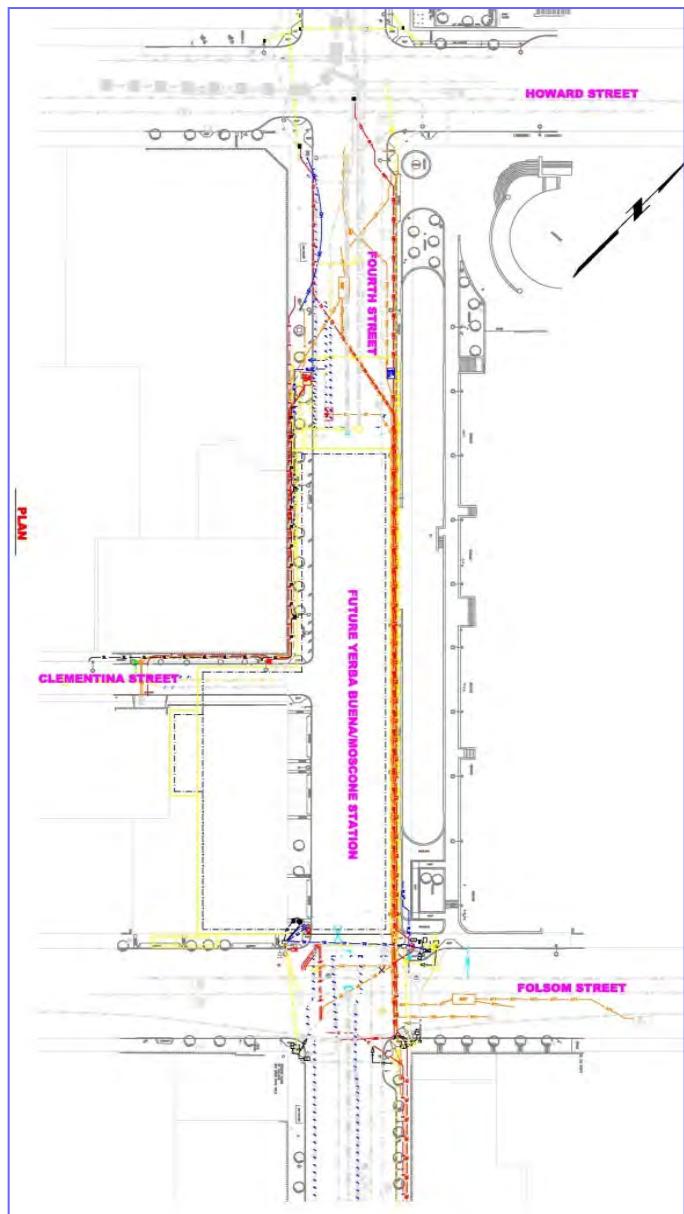

## Description

This project relocates utilities within the footprint of the proposed Yerba Buena/Moscone Station and the 4th Street Portal where the tunnel boring machines will descend underground. Also included is installation of building protections and monitoring of buildings adjacent to utility trenches.

Contract Details	
<b>Contract Awarded:</b>	November 17, 2009
<b>Notice to Proceed:</b>	January 4, 2010
<b>Substantial Completion:</b>	June 23, 2011
<b>Contract Award Value:</b>	\$ 9,273,939
<b>Modifications Final :</b>	\$ 2,694,211
<b>Final Contract Value:</b>	\$11,968,150

## Status

- Work complete
- Project closeout administration and documentation
- Final Completion Date: June 23, 2011

# Union Square/Market Street Station Utility Relocation

## Contract 1251

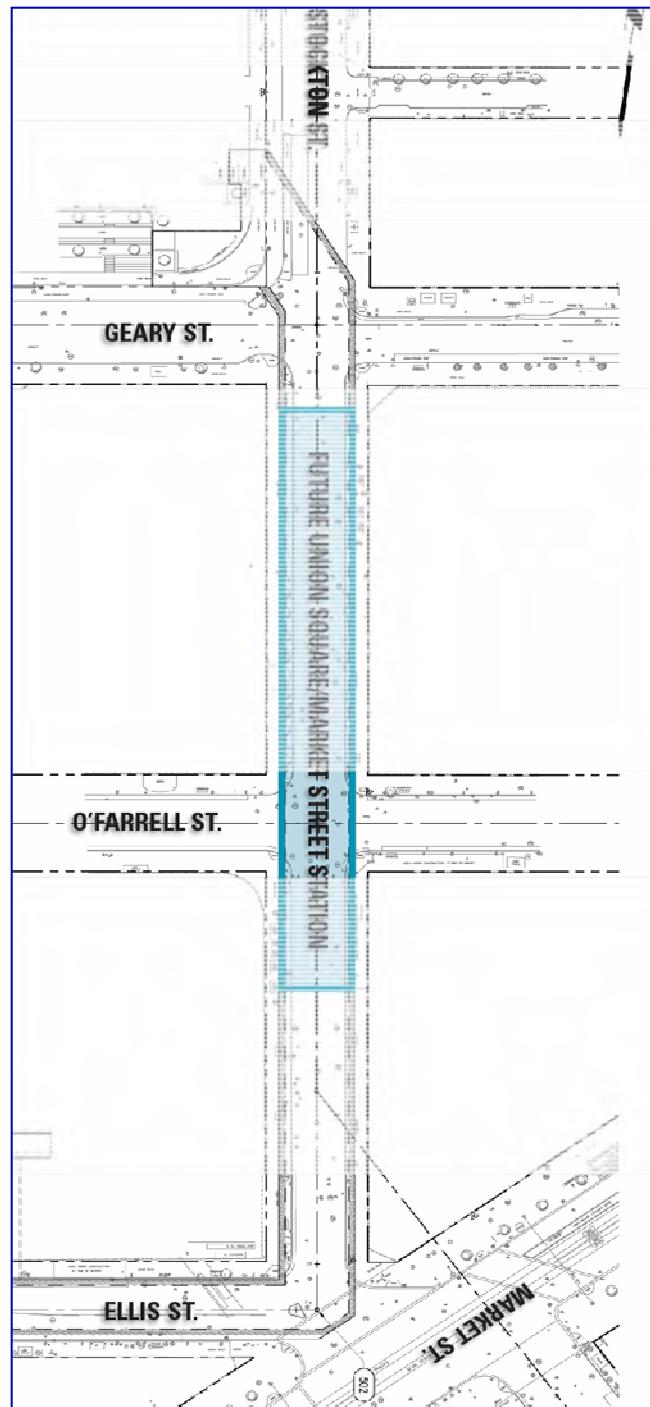

Contractor: Synergy Project Management, Inc.

### Budget/Expenditures

Category	Amount
Original Budget	\$22,199,847
Expenditures Final	\$20,669,081
Utility Reimbursements	(7,413,510)
Final Program Costs	\$13,176,169
<b>Budget Impact (Underrun)</b>	<b>(\$9,023,678)</b>

### Description

This project relocates utilities for the Union Square/Market Street Station and temporarily reroutes existing trolley coach lines around the construction.

### Contract Details

<b>Contract Awarded:</b>	December 7, 2010
<b>Notice to Proceed:</b>	January 12, 2011
<b>Substantial Completion:</b>	August 16, 2012
<b>Contract Award Value:</b>	\$16,832,550
<b>Modifications Final:</b>	\$3,836,531
<b>Final Contract Value:</b>	\$20,669,081

### Status

- Final completion on October 15, 2012
- Completed punch list work
- Project Final Acceptance on November 15, 2013
- Completed final construction contract administrative closeout in June 2017

# Central Subway Pagoda Palace Demolition

Contract 1277 Contractor: MH Construction

## Work Description

Demolish and clear the former Pagoda Theater for use the site to recover the tunnel boring machines when tunnels are completed in 2015. Locate and supply contractor facilities and installations. Obtain permits and approvals and coordinate work with City agencies and utility companies. Furnish and install signs and distribute notices to the local community prior to commencing with construction, cleanup and remove of debris from the site.

- Contract funded by SFMTA Operating funds
- Work was substantially completed September 24, 2013
- Completed administrative closeout in June 2016

Budget/Expenditures	
Category	Amount
Current Budget	\$648,976
Expenditures to Date	\$648,976

Contract Details	
<b>Contract Awarded:</b>	June 12, 2013
<b>Notice to Proceed:</b>	July 15, 2013
<b>Substantial Completion:</b>	Sept. 24, 2013
<b>Contract Award Value:</b>	\$498,995
<b>Modifications to Date:</b>	\$149,981
<b>Current Contract Value:</b>	\$648,976

# Central Subway Tunneling

Contract 1252 Contractor: Barnard Impregilo Healy Joint Venture

## Description of Work

1.5-mile twin bore tunnels from Hwy I-80 to North Beach using two tunnel boring machines (TBMs). Contractor procurement and installation of the TBMs; construction of the TBM launch box and retrieval shaft excavation support; Yerba Buena/Moscone Station and Union Square/Market Street Station end walls; tunnel excavation and installation of precast segmental lining, the 4th Street portal transition to the surface and cross passages. Throughout, settlement monitoring and protection of existing utilities, buildings and BART tunnels.

## Status

- Final Completion Date: May 15, 2015
- Completed administrative closeout in November 2018

Budget/Expenditures	
Category	Amount
Current Budget	\$239,973,354
Other Project Budget	\$5,150,000
Other Offset Credits	\$1,312,101
Expenditures Final	\$233,511,253

Contract Details	
Contract Awarded:	June 28, 2011
Notice to Proceed 1:	January 27, 2012
Notice to Proceed 2:	March 14, 2012
Partial NTP 3:	April 12, 2012
Notice to Proceed 3:	October 15, 2012
Substantial Completion:	April 15, 2015
Contract Award Value:	\$233,584,015
Modifications to Date:	\$6,389,339
Final Contract Value:	\$239,973,354

#### **SBE Summary Table Notes and Sources:**

- a) Column A is the base contract amount awarded. Column B is the Agency SBE goal percent for each contract awarded.  
The SFMTA SBE Contract Goals are also on the Central Subway web site under the listing of on-going contracts – see “**Closed and Awarded Contracts**” at this link:  
<http://centralsubwaysf.com/content/closed-and-awarded-contracts>
- b) Column C shows each contract’s current amount expended to date (estimated) including accruals. Column D is the actual SBE percent level of each contract based on payments to date.  
Column E is the expected SBE dollar amount when the contract amount is completed and the SFMTA SBE goal achieved using this calculation: Columns A \* B = Column E, the SBE Expected

<sup>1</sup> An SBE is a for-profit, small business concern with a three (3) year average gross revenue not exceeding \$14 million or \$12 million, depending on the scope of work to be performed, that is certified under any of the following programs: the State of California's Small Business Program with the Department of General Services ("State Program"), the City and County of San Francisco's LBE Program ("City Program"), or the California Unified Certification Program ("Federal DBE program").

Connecting people. Connecting communities.

\$ Amount.

Column F is the actual SBE dollar amount out of the total contract expenditure to date:

Columns C \* D = Column F, the SBE Expended \$ Amount.

The source of the SBE Actual percent to date and dollar amounts are Progress Payment Applications and Contractor's monthly submittals that may include the current estimated accruals. The BIH SBE percent is from the contractor's progress payment #40, Form 6.

- c) Column G, the Contractor's SBE Goal in the submitted bid, is background information that is not calculated in the table. The table source of the Contractor's SBE Goals is from the SFMTA Contract Compliance Office. A Contractor's SBE goal in the bid is one source used by SFMTA Contract Compliance to assess and propose the Agency's SBE goal for a contract.
- d) The three constructions contracts shown in **bold type**, **1250, 1251 and 1277**, with gray background, are completed contracts. Little to no changes will be shown in future reports.
- e) The SBE Hill International Actual to Date SBE participation is 29.3% for the overall SFMTA contract. The Hill International data is for the Central Subway Task 1 portion of the Hill International contract to provide SFMTA Project Controls services and systems.
- f) The SBE SFMTA goal for Contract 1300 Tutor-Perini is 20% SBE with a provision of 50% for trucking.  
The 1300 Tutor-Perini SBE percent Actual is based on the SBE data provided in Progress Payment #76 March 2020, SFMTA SBE FORM No. 6.
- g) The SBE SFMTA goal for Contract 1277 MH Construction was based on an SBE set-aside.

## SBE Participation Details

The two tables that follow present the Central Subway's professional services and construction contract amounts, expenditures and SBE levels with additional details.

Current Contract Value		\$888,280,726
Expended to Date (est.)		\$854,736,169
% Expended		96.2%
SBE SFMTA Goal		20.0%
SBE Participation To Date		19.9%

Photos on the next page:

(top to bottom) March 2020:  
At Chinatown Station, perforated metal panels are installed against the arched walls and ceiling for the platform cavern. Crews install lighting, ceiling panels, and a public art LED array inside the south concourse for Union Square Market Street Station. At Yerba Buena/Moscone Station, recently poured terrazzo floor coating is being ground and smoothed on the concourse level. Large river rocks are placed into wet concrete to hinder errant motorists from entering the tunnel portal just north of the 4<sup>th</sup> and Brannan intersection at Surface, Track, and Systems.
