### bayview multimodal community corridor

The Bayview Multimodal Community Corridor is focused on ensuring access to as many types of transportation, or modes, as possible – we hope to increase mobility for all in Bayview Hunters Point, especially when it comes to walking, biking, rolling or taking transit

## centering mobility for all.

Adopted in February of 2020, the Bayview Community Based Transportation Plan (Bayview CBTP) sought to directly link the needs and values of the Bayview Hunters Point community to direct action and commitments by the SFMTA. Following recommendations from the plan, the Bayview Multimodal Community Corridor seeks to improve pedestrian safety and access to community destinations on, and immediately east of, Third Street.

#### project elements

- Speed humps, sidewalk extensions, raised crosswalks and street murals.
- Creation of pedestrianfriendly public spaces with distinct cultural identity through partnership with San Francisco African American Arts & Cultural District (SFAAACD)
- Group bike classes and community rides and walks, in partnership with Bayview YMCA

# project timeline

#### stay connected
