

SAN FRANCISCO  
MUNICIPAL TRANSPORTATION AGENCY  
BOARD OF DIRECTORS

RESOLUTION No. 15-082

WHEREAS, The San Francisco Municipal Transportation Agency has proposed traffic modifications to permanently implement transit-only lanes on Church Street as follows:

- A. ESTABLISH – TRANSIT AND TAXI ONLY LANE AT ALL TIMES - Church Street northbound, center lane, from 160 feet south of 16<sup>th</sup> Street to Duboce Avenue; and Church Street southbound, center lane, from 16<sup>th</sup> Street to Duboce Avenue.
- B. ESTABLISH – NO LEFT TURNS EXCEPT TRANSIT AND TAXIS, 7AM TO 7PM, MONDAY THROUGH FRIDAY - Church Street, both directions, at 16<sup>th</sup> Street.
- C. ESTABLISH – NO LEFT TURNS, 7AM TO 7PM, MONDAY THROUGH FRIDAY - Church Street, both directions, at 15<sup>th</sup> Street.

WHEREAS, This project was analyzed in the Transit Effectiveness Project Final Environmental Impact Report (FEIR) certified by the San Francisco Planning Commission in Motion No. 19105 on March 27, 2014, and referred to therein as the TTRP.J; and,

WHEREAS, Approval for the installation of various parking and traffic modifications along the Church Street corridor included in the Transit Effectiveness Project's (TEP) Service-Related Capital Improvements and Travel Time Reduction Proposals (TTRP) relies on said FEIR, and the findings information pertaining to the FEIR and its certification are set forth in a SFMTA Resolution No 14-041, which is on file with the Secretary to the SFMTA Board of Directors and are incorporated herein by reference; and,

WHEREAS, As part of Resolution No. 14-041, the SFMTA Board of Directors adopted findings under the California Environmental Quality Act (CEQA), the CEQA Guidelines, and Chapter 31 of the Administrative Code (CEQA Findings) and a Mitigation Monitoring and Reporting Program (MMRP), which Resolution, CEQA Findings, and MMRP are on file with the Secretary to the SFMTA Board of Directors and are incorporated herein by reference as though fully set forth; and,

WHEREAS, The SFMTA Board adopts additional findings rejecting the TTRP.J Moderate Alternative as infeasible and supporting its approval of the proposed project, due to the fact that, while the Expanded Alternative includes all of the same parking and traffic improvements that are included in the Moderate Alternative, it also includes the implementation of new transit-only lanes in both directions on Church Street, which is not specified within the Moderate Alternative; and,

WHEREAS, Even though the Expanded Alternative is found to have a significant and unavoidable impact at one intersection within the project corridor, it offers substantial benefits that make it more favorable than the Moderate Alternative for implementation; specifically, the new transit-only lanes will provide dedicated lanes of passage for Muni vehicles on Church Street between Duboce Avenue and 16th Street, which is the most congested segment of both the J Church and 22 Fillmore transit corridors; and,

WHEREAS, Traffic congestion in this segment, which has traditionally caused substantial delays for 22 Fillmore and J Church vehicles operating in mixed lanes of traffic, has been shown to be the greatest cause of delays along the entire 22 and J corridors; and,

WHEREAS, With new transit-only lanes, 22 and J vehicles will be able to navigate the segment in dedicated, congestion-free lanes with minimal interaction with non-transit vehicles which will therefore allow reduced travel time and improved service reliability for the entire 22 and J corridors; and,

WHEREAS With more reliable transit service on two of its busiest lines, SFMTA will have fewer needs for last-minute service adjustments, a more stable service environment for resource-need assessment, and will be able to more reliably and effectively allocate transit resources and deliver service overall; and,

WHEREAS, The SFMTA Board has reviewed the FEIR and hereby finds that since certification of the FEIR, no changes have occurred in the proposed project or in the circumstances under which the project would be implemented that would cause new significant impacts or a substantial increase in the severity of impacts identified and analyzed in the FEIR, and that no new information has emerged that would materially change the analyses or conclusions set forth in the FEIR. The actions approved herein would no necessitate implementation or additional or considerably different mitigation measures that those identified in the FEIR; and,

WHEREAS, The public has been notified about the proposed modifications and has been given the opportunity to comment on those modifications through the public hearing process; now, therefore, be it

RESOLVED, The SFMTA Board of Directors has reviewed and considered the TEP EIR and record as a whole, and finds that the proposed approvals herein are within the scope of the TEP and incorporates the CEQA findings contained in Resolution No. 14-041, including the Statement of Overriding Considerations by this reference thereto as though fully set forth, and be it further

RESOLVED, That the San Francisco Municipal Transportation Agency Board of Directors approves traffic modifications set forth in items A through C above to permanently implement transit-only lanes on Church Street, and be it further

RESOLVED, That the San Francisco Municipal Agency Board of Directors amends Transportation Code, Division II, Section 601 to designate a transit-only lane on Church Street between 16<sup>th</sup> Street and Duboce Avenue in both directions; and be it further

RESOLVED, That the SFMTA Board adopts additional findings rejecting the Travel Time Reduction Proposals Moderate Alternative as infeasible.

I certify that the foregoing resolution was adopted by the San Francisco Municipal Transportation Agency Board of Directors at its meeting of June 2, 2015.
