San Francisco Municipal Transportation Agency

CITY CHARTER PROVISIONS

---

**Creation**

The San Francisco Charter, amended through Propositions E and A which were approved by the voters in 1999 and 2007 respectively, established the San Francisco Municipal Transportation Agency (SFMTA) as a separate agency of the City and County of San Francisco. The Municipal Railway, Parking and Traffic, Parking Authority, and Taxi Service make up the SFMTA. The Charter stated goals for the SFMTA is to “manage San Francisco’s transportation system – which includes automobile, freight, transit, bicycle, and pedestrian networks” to help the City achieve “an effective, efficient, and safe transportation system...” to support “its goals for quality of life, environmental sustainability, public health, social justice, and economic growth”. Specifically, the Charter provides SFMTA with a level of governance; financial, operating and administrative independence; and authority to manage its employees and to establish efficient and economical work rules and work practices to maximize responsiveness to public needs.

**Governance**

SFMTA is governed by a board of 7 directors who may serve 2 year terms and who are appointed by the Mayor and confirmed after public hearing by the Board of Supervisors. At least four of the directors must be regular riders of public transit and must continue to be regular riders during their terms. The directors must possess significant knowledge of or professional experience in, one or more of the fields of government, finance, or labor relations. At least two of the directors must possess significant knowledge of, or professional experience in, the field of public transportation. During their terms, all directors are required to ride the system on the average once a week.

**Service Standards**

The Charter includes minimum standards for on-time public transit performance and service delivery standards for SFMTA as follows:

- “1. On-time performance: At least 85 percent of vehicles must run on-time, where a vehicle is considered on-time if it is no more than one minute early or four minutes late as measured against a published schedule that includes time points; and
2. Service delivery: 98.5 percent of scheduled service hours must be delivered, and at least 98.5 percent of scheduled vehicles must begin service at the scheduled time.”

**Budget Process**

The City Charter requires that the SFMTA must submit a two-fiscal year budget in even-numbered years and it may submit budget amendments for the second fiscal year in odd-numbered years. SFMTA’s budget must be presented to the Citizen’s Advisory Council (CAC) and the public for review and comment. No later than May 1<sup>st</sup> of each even-numbered year, the proposed budget must be submitted for each of the next two fiscal years to the Mayor and the Board of Supervisors. As long as SFMTA stays within the revenue formulas outlined in the Charter, and does not ask for additional General Fund resources or support, the Mayor must forward the budget to the Board of Supervisors as submitted. The Board of Supervisors may allow the SFMTA’s budget to take effect without any action or its part or it may reject the budget in its entirety by a seven-eleventh’s vote. Additionally, by May 1<sup>st</sup> of each odd-numbered year, the SFMTA can submit any budget amendment for the second year of the two-year budget to the Mayor and the Board of Supervisors. Finally, the SFMTA can move funds within its budget and hire personnel as long as SFMTA remains within its budget as deemed by the Controller.

**THE CITY BUDGET GUIDELINES**

---

***Budget Structure***

SFMTA's budget is developed as a line item budget. As such it is organized into Sub-funds and index codes, which indicate where in the department the funds are allocated, and object and subobject codes, which indicate what type of expenditure is included. The budget is also organized by divisions to indicate the Agency's organizational responsibility.

***Positions***

*COLAs/Labor Agreements/Equity Adjustments.* As codified in the San Francisco Charter, the approved budget must contain funding to pay for all anticipated or estimated salary adjustments provided in employee Memoranda of Understanding (MOUs), cost of living adjustments (COLAs), and any other pay equity adjustments.

*Annualization of Existing Positions.* Positions that were added in the previous year's budget (FY 2009-2010 operating budget), must be annualized to a full 1.0 full time equivalent (FTE) position from the previously budgeted partial position (see *New Positions* below). The incremental costs associated with these positions must also be budgeted.

*New Positions.* New positions are pro-rated to reflect the portion of the year the position will be on payroll. The default is to budget new positions at 0.77 of a full position, as the recruitment process takes an average of three months.

*Attrition Savings.* It is anticipated that normal departmental attrition results in savings. Attrition savings appear in the budget as a negative position count, which is netted against the total positions in the budget. Thus, the total position count for the department reflects the net funded positions for the department, adjusted for attrition savings.

To minimize the impact from continued economic downturn and balance its budget, the SFMTA has defunded many of its vacant positions in FY 2010-2011 and the resulted savings are included in attrition savings.

*Other Adjustments.* Other salary adjustments included in budgeted position expenditures are those to compensate for a year that has 260, 261 or 262 workdays, for automatic step adjustments, and for positions that are not at the top salary step. In addition, salary annualization costs represent the cost of wage adjustments that took place during the prior year.

*Fringe Benefits.* Fringe benefits include health care for active and retired employees, social security and Medicare contributions, City retirement contribution, City-paid employee retirement contribution (City pick-up), and other benefits provided in employee MOUs.

**Terms**

*Platform.* The term "platform" refers to the 9163 Transit Operator classification.

*Miscellaneous.* When used in reference to employees, the term "miscellaneous" applies to all non-Transit Operator classifications.

The table below summarizes the actual revenues collected in FY 2009, revenues included in FY 2010 Amended Budget, revenues recorded in FY 2010 Year End Unaudited Results, and revenues budgeted for FY 2011 and FY 2012.

The table below summarizes actual expenditures incurred in FY 2009, expenditures budgeted in FY 2010 Amended Budget, expenditures incurred in FY 2010 Year End Unaudited Results, and expenditures included in FY 2011 and FY 2012 Operating Budgets.

## Percentage of Expenditure Total by Category

In the table below, the percentage of each expenditure category for FY 2009 Actual Results, FY 2010 Amended Budget, FY 2010 Unaudited Results, and FY 2011 and FY 2012 Operating Budgets are shown. Salaries and fringe benefits are projected to decline as a percentage of the total operating budget between FY 2010 Amended Budget and FY 2011 and FY 2012 Operating Budgets. These expenditures make up approximately two-thirds of operating costs. Services from City Departments, Contracts and other Services, and Insurance and Claims collectively are projected to account for 26.1% and 27.2% respectively of Approved FY 2011 and FY 2012 Operating Budgets. A significant effort was made to reduce costs from inter-departmental services.

Changes in LTF receipts from year-to-year are mostly due to varying economic conditions affecting annual LTF revenue. This appropriation funds salary costs for budgeted positions within this organizational area.

Changes in salary appropriation for miscellaneous employees for FY 2010-2011 and FY 2011-2012 can be attributed to the following budget process: the annualization of positions funded in FY 2009-2010's budget; position transfers and reclassifications within the department to reflect the Agency's latest organizational structure; position elimination and defunding to close SFMTA's projected budget deficits; and a giveback of 12 unpaid furlough days per year for the next two years based on the collective bargaining agreements by most unions included in the Public Employees Committee (PEC).

-----	------------	--------	--------	--------	--------	-------	-------	-------

Calculated by the Controller's Office, this line item includes the cost of contributions the City makes to the Employee Retirement System for the positions budgeted in this organizational area. The budget includes two types of contributions: the employer retirement contribution and the participating employee-paid retirement contribution picked up by the City for certain labor unions based on the labor agreements between the City and those unions.

For FY 2010-2011, the employer retirement contribution rate for the City Miscellaneous Retirement for all classifications is 13.56% of the payroll cost; the rate for FY 2011-2012 is 16.50%. The increase in retirement costs is attributed to lower projected earnings in retirement assets and a projected growth rate in successive years.

014	SOCIAL SECURITY	21,878	33,884	34,050	12,006	54.9%	166	0.5%
-----	-----------------	--------	--------	--------	--------	-------	-----	------

This appropriation funds mandatory employer contributions. The rates for the two-year budget are estimated to be, 6.20% for Social Security and 1.45% for Medicare. These amounts are calculated by the Controller's Office.

015	HEALTH SERVICE	29,888	30,542	33,290	654	2.2%	2,748	9.0%
-----	----------------	--------	--------	--------	-----	------	-------	------

The City Charter establishes an employer contribution to the Health Service Trust Fund that covers health and dental insurance costs for current employees and their dependents. Each year, the health benefit rates are reviewed and determined by the San Francisco Health Service Board and calculated by the Controller's Office. Health service premiums for employees are estimated to increase on average by 6.3% in FY 2010-2011 and 9% in FY 2011-2012. For dependent care coverage, the Controller's Office has changed the methodology it calculates the rates to distinguish between employees with one dependent and those with two or more dependents. This change has resulted in moderate savings for dependent care cost.

<b>013 MANDATORY FRINGE BENEFITS</b>						
015	HEALTH SERVICE	329,420	0	0	(329,420) -100.0%	0 0.0%
The City Charter establishes an employer contribution to the Health Service Trust Fund that covers health and dental insurance costs for current employees and their dependents. Each year, the health benefit rates are reviewed and determined by the San Francisco Health Service Board and calculated by the Controller's Office. Health service premiums for employees are estimated to increase on average by 6.3% in FY 2010-2011 and 9% in FY 2011-2012. For dependent care coverage, the Controller's Office has changed the methodology it calculates the rates to distinguish between employees with one dependent and those with two or more dependents. This change has resulted in moderate savings for dependent care cost.						
016	DENTAL COVERAGE	45,564	1	(1)	(45,563) -100.0%	(2) -200.0%
Like the health benefit rates, the Charter-required employer contribution to employee dental benefit is determined annually by the Health Service Board and calculated by the Controller's Office. The premium for dental coverage is projected to increase by 13% in FY 2011-2012 and 9% in FY 2011-2012.						
017	UNEMPLOYMENT INSURANCE	4,862	0	1	(4,862) -100.0%	1 0.0%
Unemployment insurance coverage is mandated by the State of California. For FY 2010-2011 the rate for unemployment insurance will increase from 0.20% to 0.25%. In FY 2011-2012, the rate is projected to increase from 0.25% to 0.30%. These amounts are calculated by the Controller's Office. Item is reallocated to Finance & Information Technology Division.						
019	OTHER FRINGE BENEFITS	13,159	0	(1)	(13,159) -100.0%	(1) 0.0%
Other Fringe Benefits include the cost of flexible benefit plans that are currently authorized for Municipal Executive Association (MEA) represented employees. This appropriation funds salary costs for budgeted positions within this organizational area.

Changes in salary appropriation for miscellaneous employees for FY 2010-2011 and FY 2011-2012 can be attributed to the following budget process: the annualization of positions funded in FY 2009-2010's budget; position transfers and reclassifications within the department to reflect the Agency's latest organizational structure; position elimination and defunding to close SFMTA's projected budget deficits; and a giveback of 12 unpaid furlough days per year for the next two years based on the collective bargaining agreements by most unions included in the Public Employees Committee (PEC).

013	RETIREMENT	279,980	103,096	121,861	(176,884)	-63.2%	18,765	18.2%
-----	------------	---------	---------	---------	-----------	--------	--------	-------

Calculated by the Controller's Office, this line item includes the cost of contributions the City makes to the Employee Retirement System for the positions budgeted in this organizational area. The budget includes two types of contributions: the employer retirement contribution and the participating employee-paid retirement contribution picked up by the City for certain labor unions based on the labor agreements between the City and those unions.

For FY 2010-2011, the employer retirement contribution rate for the City Miscellaneous Retirement for all classifications is 13.56% of the payroll cost; the rate for FY 2011-2012 is 16.50%. The increase in retirement costs is attributed to lower projected earnings in retirement assets and a projected growth rate in successive years.

014	SOCIAL SECURITY	169,474	32,741	32,162	(136,733)	-80.7%	(579)	-1.8%
-----	-----------------	---------	--------	--------	-----------	--------	-------	-------

This appropriation funds mandatory employer contributions. The rates for the two-year budget are estimated to be, 6.20% for Social Security and 1.45% for Medicare. These amounts are calculated by the Controller's Office. The decrease in this appropriation reflects position transfers due to reorganization within the department.

015	HEALTH SERVICE	249,464	40,723	42,810	(208,741)	-83.7%	2,087	5.1%
-----	----------------	---------	--------	--------	-----------	--------	-------	------

The City Charter establishes an employer contribution to the Health Service Trust Fund that covers health and dental insurance costs for current employees and their dependents. Each year, the health benefit rates are reviewed and determined by the San Francisco Health Service Board and calculated by the Controller's Office. Health service premiums for employees are estimated to increase on average by 6.3% in FY 2010-2011 and 9% in FY 2011-2012. For dependent care coverage, the Controller's Office has changed the methodology it calculates the rates to distinguish between employees with one dependent and those with two or more dependents. This change has resulted in moderate savings for dependent care cost.

016	DENTAL COVERAGE	34,556	6,519	6,868	(28,037)	-81.1%	349	5.4%
-----	-----------------	--------	-------	-------	----------	--------	-----	------

Like the health benefit rates, the Charter-required employer contribution to employee dental benefit is determined annually by the Health Service Board and calculated by the Controller's Office. The premium for dental coverage is projected to increase by 13% in FY 2011-2012 and 9% in FY 2011-2012.

017	UNEMPLOYMENT INSURANCE	5,050	1,540	1,818	(3,510)	-69.5%	278	18.1%
-----	------------------------	-------	-------	-------	---------	--------	-----	-------

Unemployment insurance coverage is mandated by the State of California. For FY 2010-2011 the rate for unemployment insurance will increase from 0.20% to 0.25%. In FY 2011-2012, the rate is projected to increase from 0.25% to 0.30%. These amounts are calculated by the Controller's Office. The decrease in this appropriation reflects position transfers due to reorganization within the department.

019	OTHER FRINGE BENEFITS	31,381	9,337	9,976	(22,044)	-70.2%	639	6.8%

Other Fringe Benefits include the cost of flexible benefit plans that are currently authorized for Municipal Executive Association (MEA) represented employees. Costs of Long Term Disability Insurance are also included in this appropriation. These amounts are calculated by the Controller's Office. The decrease in this appropriation reflects position transfers due to reorganization within the department.

This appropriation funds salary costs for budgeted positions within this organizational area.

Changes in salary appropriation for miscellaneous employees for FY 2010-2011 and FY 2011-2012 can be attributed to the following budget process: the annualization of positions funded in FY 2009-2010's budget; position transfers and reclassifications within the department to reflect the Agency's latest organizational structure; position elimination and defunding to close SFMTA's projected budget deficits; and a giveback of 12 unpaid furlough days per year for the next two years based on the collective bargaining agreements by most unions included in the Public Employees Committee (PEC).

This program offers entry level training to General Assistance Workfare participants and provides these individuals with the skills, training certificates and experience necessary to qualify for 9102 Transit Car Cleaner and 7410 Automotive Service Worker positions within Muni, at other transit agencies and in the private sector.

Calculated by the Controller's Office, this line item includes the cost of contributions the City makes to the Employee Retirement System for the positions budgeted in this organizational area. The budget includes two types of contributions: the employer retirement contribution and the participating employee-paid retirement contribution picked up by the City for certain labor unions based on the labor agreements between the City and those unions.

For FY 2010-2011, the employer retirement contribution rate for the City Miscellaneous Retirement for all classifications is 13.56% of the payroll cost; the rate for FY 2011-2012 is 16.50%. The increase in retirement costs is attributed to lower projected earnings in retirement assets and a projected growth rate in successive years.

014	SOCIAL SECURITY	3,320,983	2,861,159	2,846,898	(459,824)	-13.8%	(14,261)	-0.5%
-----	-----------------	-----------	-----------	-----------	-----------	--------	----------	-------

This appropriation funds mandatory employer contributions. The rates for the two-year budget are estimated to be, 6.20% for Social Security and 1.45% for Medicare. These amounts are calculated by the Controller's Office.

015	HEALTH SERVICE	5,821,064	5,182,668	5,527,083	(638,396)	-11.0%	344,415	6.6%
-----	----------------	-----------	-----------	-----------	-----------	--------	---------	------

The City Charter establishes an employer contribution to the Health Service Trust Fund that covers health and dental insurance costs for current employees and their dependents. Each year, the health benefit rates are reviewed and determined by the San Francisco Health Service Board and calculated by the Controller's Office. Health service premiums for employees are estimated to increase on average by 6.3% in FY 2010-2011 and 9% in FY 2011-2012. For dependent care coverage, the Controller's Office has changed the methodology it calculates the rates to distinguish between employees with one dependent and those with two or more dependents. This change has resulted in moderate savings for dependent care cost.

016	DENTAL COVERAGE	742,720	742,193	791,533	(527)	-0.1%	49,340	6.6%
-----	-----------------	---------	---------	---------	-------	-------	--------	------

Like the health benefit rates, the Charter-required employer contribution to employee dental benefit is determined annually by the Health Service Board and calculated by the Controller's Office. The premium for dental coverage is projected to increase by 13% in FY 2011-2012 and 9% in FY 2011-2012.

017	UNEMPLOYMENT INSURANCE	87,156	93,684	111,846	6,528	7.5%	18,162	19.4%
-----	------------------------	--------	--------	---------	-------	------	--------	-------

Unemployment insurance coverage is mandated by the State of California. For FY 2010-2011 the rate for unemployment insurance will increase from 0.20% to 0.25%. In FY 2011-2012, the rate is projected to increase from 0.25% to 0.30%. These amounts are calculated by the Controller's Office.

019	OTHER FRINGE BENEFITS	164,262	126,570	136,737	(37,692)	-22.9%	10,167	8.0%
-----	-----------------------	---------	---------	---------	----------	--------	--------	------

Other Fringe Benefits include the cost of flexible benefit plans that are currently authorized for Municipal Executive Association (MEA) represented employees. Costs of Long Term Disability Insurance are also included in this appropriation. These amounts are calculated by the Controller's Office.

This appropriation funds salary costs for budgeted positions within this organizational area.

Changes in salary appropriation for miscellaneous employees for FY 2010-2011 and FY 2011-2012 can be attributed to the following budget process: the annualization of positions funded in FY 2009-2010's budget; position transfers and reclassifications within the department to reflect the Agency's latest organizational structure; position elimination and defunding to close SFMTA's projected budget deficits; and a giveback of 12 unpaid furlough days per year for the next two years based on the collective bargaining agreements by most unions included in the Public Employees Committee (PEC).

-----	------------	-----------	-----------	-----------	---------	-------	---------	-------

Calculated by the Controller's Office, this line item includes the cost of contributions the City makes to the Employee Retirement System for the positions budgeted in this organizational area. The budget includes two types of contributions: the employer retirement contribution and the participating employee-paid retirement contribution picked up by the City for certain labor unions based on the labor agreements between the City and those unions.

For FY 2010-2011, the employer retirement contribution rate for the City Miscellaneous Retirement for all classifications is 13.56% of the payroll cost; the rate for FY 2011-2012 is 16.50%. The increase in retirement costs is attributed to lower projected earnings in retirement assets and a projected growth rate in successive years.

The City Charter establishes an employer contribution to the Health Service Trust Fund that covers health and dental insurance costs for current employees and their dependents. Each year, the health benefit rates are reviewed and determined by the San Francisco Health Service Board and calculated by the Controller's Office. Health service premiums for employees are estimated to increase on average by 6.3% in FY 2010-2011 and 9% in FY 2011-2012. For dependent care coverage, the Controller's Office has changed the methodology it calculates the rates to distinguish between employees with one dependent and those with two or more dependents. This change has resulted in moderate savings for dependent care cost.

-----	-----------------	---------	---------	---------	--------	-------	--------	------

Like the health benefit rates, the Charter-required employer contribution to employee dental benefit is determined annually by the Health Service Board and calculated by the Controller's Office. The premium for dental coverage is projected to increase by 13% in FY 2011-2012 and 9% in FY 2011-2012.

Unemployment insurance coverage is mandated by the State of California. For FY 2010-2011 the rate for unemployment insurance will increase from 0.20% to 0.25%. In FY 2011-2012, the rate is projected to increase from 0.25% to 0.30%. These amounts are calculated by the Controller's Office.

Other Fringe Benefits include the cost of flexible benefit plans that are currently authorized for Municipal Executive Association (MEA) represented employees. Costs of Long Term Disability Insurance are also included in this appropriation. These amounts are calculated by the Controller's Office.

Calculated by the Controller's Office, this line item includes the cost of contributions the City makes to the Employee Retirement System for the positions budgeted in this organizational area. The budget includes two types of contributions: the employer retirement contribution and the participating employee-paid retirement contribution picked up by the City for certain labor unions based on the labor agreements between the City and those unions.

For FY 2010-2011, the employer retirement contribution rate for the City Miscellaneous Retirement for all classifications is 13.56% of the payroll cost; the rate for FY 2011-2012 is 16.50%. The increase in retirement costs is attributed to lower projected earnings in retirement assets and a projected growth rate in successive years.

The City Charter establishes an employer contribution to the Health Service Trust Fund that covers health and dental insurance costs for current employees and their dependents. Each year, the health benefit rates are reviewed and determined by the San Francisco Health Service Board and calculated by the Controller's Office. Health service premiums for employees are estimated to increase on average by 6.3% in FY 2010-2011 and 9% in FY 2011-2012. For dependent care coverage, the Controller's Office has changed the methodology it calculates the rates to distinguish between employees with one dependent and those with two or more dependents. This change has resulted in moderate savings for dependent care cost.

-----	-----------------	-------	-------	-------	---------	--------	-------	--------

Like the health benefit rates, the Charter-required employer contribution to employee dental benefit is determined annually by the Health Service Board and calculated by the Controller's Office. The premium for dental coverage is projected to increase by 13% in FY 2011-2012 and 9% in FY 2011-2012.

Unemployment insurance coverage is mandated by the State of California. For FY 2010-2011 the rate for unemployment insurance will increase from 0.20% to 0.25%. In FY 2011-2012, the rate is projected to increase from 0.25% to 0.30%. These amounts are calculated by the Controller's Office.

Other Fringe Benefits include the cost of flexible benefit plans that are currently authorized for Municipal Executive Association (MEA) represented employees. Costs of Long Term Disability Insurance are also included in this appropriation. These amounts are calculated by the Controller's Office.

Calculated by the Controller's Office, this line item includes the cost of contributions the City makes to the Employee Retirement System for the positions budgeted in this organizational area. The budget includes two types of contributions: the employer retirement contribution and the participating employee-paid retirement contribution picked up by the City for certain labor unions based on the labor agreements between the City and those unions.

For FY 2010-2011, the employer retirement contribution rate for the City Miscellaneous Retirement for all classifications is 13.56% of the payroll cost; the rate for FY 2011-2012 is 16.50%. The increase in retirement costs is attributed to lower projected earnings in retirement assets and a projected growth rate in successive years.

The City Charter establishes an employer contribution to the Health Service Trust Fund that covers health and dental insurance costs for current employees and their dependents. Each year, the health benefit rates are reviewed and determined by the San Francisco Health Service Board and calculated by the Controller's Office. Health service premiums for employees are estimated to increase on average by 6.3% in FY 2010-2011 and 9% in FY 2011-2012. For dependent care coverage, the Controller's Office has changed the methodology it calculates the rates to distinguish between employees with one dependent and those with two or more dependents. This change has resulted in moderate savings for dependent care cost.

Calculated by the Controller's Office, this line item includes the cost of contributions the City makes to the Employee Retirement System for the positions budgeted in this organizational area. The budget includes two types of contributions: the employer retirement contribution and the participating employee-paid retirement contribution picked up by the City for certain labor unions based on the labor agreements between the City and those unions.

For FY 2010-2011, the employer retirement contribution rate for the City Miscellaneous Retirement for all classifications is 13.56% of the payroll cost; the rate for FY 2011-2012 is 16.50%. The increase in retirement costs is attributed to lower projected earnings in retirement assets and a projected growth rate in successive years.

The City Charter establishes an employer contribution to the Health Service Trust Fund that covers health and dental insurance costs for current employees and their dependents. Each year, the health benefit rates are reviewed and determined by the San Francisco Health Service Board and calculated by the Controller's Office. Health service premiums for employees are estimated to increase on average by 6.3% in FY 2010-2011 and 9% in FY 2011-2012. For dependent care coverage, the Controller's Office has changed the methodology it calculates the rates to distinguish between employees with one dependent and those with two or more dependents. This change has resulted in moderate savings for dependent care cost.

This appropriation funds salary costs for budgeted positions within this organizational area.						
Changes in salary appropriation for miscellaneous employees for FY 2010-2011 and FY 2011-2012 can be attributed to the following budget process: the annualization of positions funded in FY 2009-2010's budget; position transfers and reclassifications within the department to reflect the Agency's latest organizational structure; position elimination and defunding to close SFMTA's projected budget deficits; and a giveback of 12 unpaid furlough days per year for the next two years based on the collective bargaining agreements by most unions included in the Public Employees Committee (PEC).

The increase in retirement costs is attributed to lower projected earnings in retirement assets and a projected growth rate in successive years.

Calculated by the Controller's Office, this line item includes the cost of contributions the City makes to the Employee Retirement System for the positions budgeted in this organizational area. The budget includes two types of contributions: the employer retirement contribution and the participating employee-paid retirement contribution picked up by the City for certain labor unions based on the labor agreements between the City and those unions.

For FY 2010-2011, the employer retirement contribution rate for the City Miscellaneous Retirement for all classifications is 13.56% of the payroll cost; the rate for FY 2011-2012 is 16.50%. The increase in retirement costs is attributed to lower projected earnings in retirement assets and a projected growth rate in successive years.

015	HEALTH SERVICE	80,382	82,096	89,485	1,714 2.1%	7,389 9.0%
The City Charter establishes an employer contribution to the Health Service Trust Fund that covers health and dental insurance costs for current employees and their dependents. Each year, the health benefit rates are reviewed and determined by the San Francisco Health Service Board and calculated by the Controller's Office. Health service premiums for employees are estimated to increase on average by 6.3% in FY 2010-2011 and 9% in FY 2011-2012. For dependent care coverage, the Controller's Office has changed the methodology it calculates the rates to distinguish between employees with one dependent and those with two or more dependents. This change has resulted in moderate savings for dependent care cost.						
016	DENTAL COVERAGE	11,190	12,666	13,808	1,476 13.2%	1,142 9.0%
Like the health benefit rates, the Charter-required employer contribution to employee dental benefit is determined annually by the Health Service Board and calculated by the Controller's Office. The premium for dental coverage is projected to increase by 13% in FY 2011-2012 and 9% in FY 2011-2012.

Calculated by the Controller's Office, this line item includes the cost of contributions the City makes to the Employee Retirement System for the positions budgeted in this organizational area. The budget includes two types of contributions: the employer retirement contribution and the participating employee-paid retirement contribution picked up by the City for certain labor unions based on the labor agreements between the City and those unions.

For FY 2010-2011, the employer retirement contribution rate for the City Miscellaneous Retirement for all classifications is 13.56% of the payroll cost; the rate for FY 2011-2012 is 16.50%. The increase in retirement costs is attributed to lower projected earnings in retirement assets and a projected growth rate in successive years.

-----	-----------------	--------	--------	--------	-----------------	------------

This appropriation funds mandatory employer contributions. The rates for the two-year budget are estimated to be, 6.20% for Social Security and 1.45% for Medicare. These amounts are calculated by the Controller's Office.

015	HEALTH SERVICE	103,023	21,012	22,904	(82,011) -79.6%	1,892 9.0%

The City Charter establishes an employer contribution to the Health Service Trust Fund that covers health and dental insurance costs for current employees and their dependents. Each year, the health benefit rates are reviewed and determined by the San Francisco Health Service Board and calculated by the Controller's Office. Health service premiums for employees are estimated to increase on average by 6.3% in FY 2010-2011 and 9% in FY 2011-2012. For dependent care coverage, the Controller's Office has changed the methodology it calculates the rates to distinguish between employees with one dependent and those with two or more dependents. This change has resulted in moderate savings for dependent care cost.

016	DENTAL COVERAGE	13,987	3,167	3,452	(10,820) -77.4%	285 9.0%
-----	-----------------	--------	-------	-------	-----------------	----------

Like the health benefit rates, the Charter-required employer contribution to employee dental benefit is determined annually by the Health Service Board and calculated by the Controller's Office. The premium for dental coverage is projected to increase by 13% in FY 2011-2012 and 9% in FY 2011-2012.

Changes in salary appropriation for miscellaneous employees for FY 2010-2011 and FY 2011-2012 can be attributed to the following budget process: the annualization of positions funded in FY 2009-2010's budget; position transfers and reclassifications within the department to reflect the Agency's latest organizational structure; position elimination and defunding to close SFMTA's projected budget deficits; and a giveback of 12 unpaid furlough days per year for the next two years based on the collective bargaining agreements by most unions included in the Public Employees Committee (PEC).

## Safety Division

### Overview

FY 2010-2011 and FY 2011-2012

---

#### MISSION

The Safety, Training and Workers' Compensation Division is committed to providing a safe environment for riders, employees, and the citizens of the City and County of San Francisco by promoting a safety culture and enhanced safety awareness through training and regular communications.

#### STRATEGIC PLAN GOALS AND OBJECTIVES

Safety Division activities support achievement of the following Strategic Plan goals and objectives:

##### Goal 1: Customer Focus

*To provide safe, accessible, clean, environmentally sustainable service and encourage the use of auto-alternative modes through the Transit First Policy*

- Improve safety across all modes of transportation
- Increase percentage of trips using more sustainable modes (such as transit, walking, bicycling, and rideshare)

##### Goal 2: System Performance

*To get customers where they want to go, when they want to be there*

- Transit Reliability: Improve on-time performance to 85%

#### DIVISIONAL TACTICS AND INITIATIVES

The Safety Division will employ the following tactics and initiatives to support fulfillment of the Strategic Plan:

- Provide training for transit operators, transit supervisors and other operations personnel
- Reduce workers compensation costs through claims management and the Return to Work Program
- Reduce Collisions and Passenger Accidents
- Educate all new employees on Injury & Illness Prevention Program (IIPP)

#### ORGANIZATION

The Safety, Training and Workers' Compensation Division is comprised of the following Sections and Units:

- **Safety Administration/TransitSafe** provides management and administrative support, compiles safety data utilizing TransitSafe as the system of record for all accidents/incidents, hazards, internal safety audits and corrective action plans. This data collection provides information which the SFMTA uses to produce safety performance reports and statistical trend analysis. In addition, the data is required by the California Public Utilities Commission under General Order 164-D (please verify that it is in fact 164 and not 143-B).

Changes in salary appropriation for miscellaneous employees for FY 2010-2011 and FY 2011-2012 can be attributed to the following budget process: the annualization of positions funded in FY 2009-2010's budget; position transfers and reclassifications within the department to reflect the Agency's latest organizational structure; position elimination and defunding to close SFMTA's projected budget deficits; and a giveback of 12 unpaid furlough days per year for the next two years based on the collective bargaining agreements by most unions included in the Public Employees Committee (PEC).

The increase in retirement costs is attributed to lower projected earnings in retirement assets and a projected growth rate in successive years.

This appropriation funds salary costs for budgeted positions within this organizational area.

Changes in salary appropriation for miscellaneous employees for FY 2010-2011 and FY 2011-2012 can be attributed to the following budget process: the annualization of positions funded in FY 2009-2010's budget; position transfers and reclassifications within the department to reflect the Agency's latest organizational structure; position elimination and defunding to close SFMTA's projected budget deficits; and a giveback of 12 unpaid furlough days per year for the next two years based on the collective bargaining agreements by most unions included in the Public Employees Committee (PEC).

This appropriation funds salary costs for budgeted positions within this organizational area.

Changes in salary appropriation for miscellaneous employees for FY 2010-2011 and FY 2011-2012 can be attributed to the following budget process: the annualization of positions funded in FY 2009-2010's budget; position transfers and reclassifications within the department to reflect the Agency's latest organizational structure; position elimination and defunding to close SFMTA's projected budget deficits; and a giveback of 12 unpaid furlough days per year for the next two years based on the collective bargaining agreements by most unions included in the Public Employees Committee (PEC).

-----	------------	---------	---------	---------	--------	------	-----------	--------

Calculated by the Controller's Office, this line item includes the cost of contributions the City makes to the Employee Retirement System for the positions budgeted in this organizational area. The budget includes two types of contributions: the employer retirement contribution and the participating employee-paid retirement contribution picked up by the City for certain labor unions based on the labor agreements between the City and those unions.

For FY 2010-2011, the employer retirement contribution rate for the City Miscellaneous Retirement for all classifications is 13.56% of the payroll cost; the rate for FY 2011-2012 is 16.50%. The increase in retirement costs is attributed to lower projected earnings in retirement assets and a projected growth rate in successive years.

014	SOCIAL SECURITY	313,699	272,493	284,161	(41,206)	-13.1%	11,668	4.3%
-----	-----------------	---------	---------	---------	----------	--------	--------	------

This appropriation funds mandatory employer contributions. The rates for the two-year budget are estimated to be, 6.20% for Social Security and 1.45% for Medicare. These amounts are calculated by the Controller's Office.

015	HEALTH SERVICE	640,162	582,756	624,025	(57,406)	-9.0%	41,269	7.1%
-----	----------------	---------	---------	---------	----------	-------	--------	------

The City Charter establishes an employer contribution to the Health Service Trust Fund that covers health and dental insurance costs for current employees and their dependents. Each year, the health benefit rates are reviewed and determined by the San Francisco Health Service Board and calculated by the Controller's Office. Health service premiums for employees are estimated to increase on average by 6.3% in FY 2010-2011 and 9% in FY 2011-2012. For dependent care coverage, the Controller's Office has changed the methodology it calculates the rates to distinguish between employees with one dependent and those with two or more dependents. This change has resulted in moderate savings for dependent care cost.

016	DENTAL COVERAGE	88,969	90,316	96,714	1,347	1.5%	6,398	7.1%
-----	-----------------	--------	--------	--------	-------	------	-------	------

Like the health benefit rates, the Charter-required employer contribution to employee dental benefit is determined annually by the Health Service Board and calculated by the Controller's Office. The premium for dental coverage is projected to increase by 13% in FY 2011-2012 and 9% in FY 2010-2011.

017	UNEMPLOYMENT INSURANCE	8,274	8,927	11,168	653	7.9%	2,241	25.1%
-----	------------------------	-------	-------	--------	-----	------	-------	-------

Unemployment insurance coverage is mandated by the State of California. For FY 2010-2011 the rate for unemployment insurance will increase from 0.20% to 0.25%. In FY 2011-2012, the rate is projected to increase from 0.25% to 0.30%. These amounts are calculated by the Controller's Office.

-----	-----------------------	--------	--------	--------	---------	--------	-------	-------

Other Fringe Benefits include the cost of flexible benefit plans that are currently authorized for Municipal Executive Association (MEA) represented employees. Costs of Long Term Disability Insurance are also included in this appropriation. These amounts are calculated by the Controller's Office.

ADOPTED OPERATING BUDGET**

**SFMTA WIDE**

**JULY 1, 2010**

**SFMTA WIDE  
Overview  
FY 2010-2011 and FY 2011-2012**

---

**MISSION**

The mission of this division is threefold: 1) first, to honor SFMTA's commitments to other transit agencies; 2) to account for costs which affect the entire organization; and 3) to estimate and budget for costs which are unknown at budget submission but which the organization anticipates during the fiscal year.

**GOALS AND OBJECTIVES**

The goals and objectives of this division are to ensure appropriate budget and fund disbursement for the following:

- **Cal Train Joint Powers Board:** The City and County of San Francisco, the San Mateo County Transit District, and the Santa Clara Valley Transportation Authority are member agencies of CalTrain Peninsula Corridor Joint Powers Board (JPB) and as such, provide annual county share funding to the JPB. This line item includes the City and County's share for CalTrain's operating budget
- **Fast Pass on BART:** Based on the current contract between SFMTA and BART, SFMTA reimburses BART \$1.02 per trip when users of the Adult Fast Pass make trips on BART within San Francisco. This rate is reviewed and adjusted when the contract is renewed on January 1 each year. BART has proposed raising the reimbursement rate to \$1.19 retroactive to January 1, 2010. The SFMTA is currently in negotiations with BART on a new contract
- **Legal:** This line item funds department-wide costs from legal services provided by the City Attorney's Office. It also funds all litigation expenses, court settlements, and insurance payments
- **SFMTA-Wide Benefits:** It funds employee incentive programs, negotiated labor cost increases, Charter-mandated health service costs for retirees and their families, and judgments and claims. The workers compensation program has been moved to the Safety Division since this is the division responsible for the administration of this program beginning in FY 2010-2011
- **Services of other City departments:** SFMTA pays for a variety of services provided by other City departments. The cost and level of these services are negotiated between SFMTA and the performing departments, and are included in the budget as work orders
- **Overhead Allocation:** Proposition E approved by the voters in 1999 mandated administrative consolidation and efficiencies across SFMTA. This line item includes the overhead allocation for organization wide support
- **Other Miscellaneous Unallocated:** Funds department-wide training, rental costs, and any unanticipated expenses

This appropriation funds one-time payments such as individual and group performance and attendance incentive programs. It also funds vacation and vested sick time payments to retirees.

Individual and Group Performance Incentive Program: The SFMTA Performance Incentive Program was established for service- critical employees. Service standard (at the division, mode and SFMTA-wide levels) were developed for each occupational group, and performance goals were established for each service standard. Progress towards performance goals is tracked daily and published quarterly in the Service Standard Report. When a performance goal is achieved, incentive bonuses are paid to eligible employees in the applicable division mode or occupational group.

Attendance Incentive Program: The SFMTA Attendance Incentive Program was established for miscellaneous service-critical employees in the Maintenance, Operations and Administration areas, with the goal of promoting attendance and wellness among these employees. Incentive payments are made annually to eligible employees in exchange for accrued and unused sick leave at the end of each qualifying period.

Wellness Incentive Program: The City and County of San Francisco established a Wellness Incentive Program to promote workforce attendance. This benefit is eliminated in FY 2011.

Calculated by the Controller's Office, this line item includes the cost of contributions the City makes to the Employee Retirement System for the salaries budgeted in this organizational area. The budget includes two types of contributions: the employer retirement contribution and the participating employee-paid retirement contribution picked up by the City for certain labor unions based on the labor agreements between the City and those unions.

For FY 2010-2011, the employer retirement contribution rate for the City Miscellaneous Retirement for all classifications is 13.56% of the payroll cost; the rate for FY 2011-2012 is 16.50%. The increase in retirement costs is attributed to lower projected earnings in retirement assets and a projected growth rate in successive years.

The City Charter establishes an employer contribution to the Health Service Trust Fund that covers health and dental insurance costs for current employees and their dependents. The Federal Office of Management and Budget Circular A-87 (OMB-87) defines cost principles and procedures for establishing cost allocation plans and indirect cost rates for federal grants and contracts. SFMTA has developed a central services cost allocation plan and an indirect cost rate needed to distribute central support (or indirect) costs as outlined in A-87. The plan was prepared in accordance with the full costing concepts that recognize and incorporate all expenses, with the exception of capital outlays, recoveries from other agencies, intra-fund transfers, and judgments and claims. Based on the calculated rate, SFMTA assigns support service costs, allowing recovery of the appropriate share of those costs from federal grants. This line item represents recoveries of expenditures for central support costs and the recoveries are budgeted as negative appropriations.

The City Charter establishes an employer contribution to the Health Service Trust Fund that covers health and dental insurance costs for current employees and their dependents. Each year, the health benefit rates are reviewed and determined by the San Francisco Health Service Board and calculated by the Controller's Office. Health service premiums for employees are estimated to increase on average by 6.3% in FY 2010-2011 and 9% in FY 2011-2012. For dependent care coverage, the Controller's Office has changed the methodology it calculates the rates to distinguish between employees with one dependent and those with two or more dependents. This change has resulted in moderate savings for dependent care cost.

The second portion of the overhead budget represents the cost of SFMTA's agency-wide administrative support allocated to the Parking and Traffic operating fund.
