The Bayview Community Based Transportation Plan (BCBTP) is a community-driven, SFMTA-led planning effort funded through a Caltrans Sustainable Planning Grant. The BCBTP seeks to improve mobility, safety, and opportunity in the culturally rich and resilient Bayview community by identifying transportation solutions tailored to the needs of residents, community-based organizations and businesses.

The SFMTA is focused on delivering on-the-ground transportation improvements to the Bayview within one to five years after completing the BCBTP. Improvements could include:

- Better sidewalks, curb extensions, or intersection treatments, like high visibility crosswalks
- Protected bicycle lanes, neighborways, or bike parking
- Bus bulbs or transit-related signal improvements
- Landscaping, street trees, public art, or pedestrian-scale lighting

This project includes a robust community engagement strategy led by the San Francisco Municipal Transportation Agency (SFMTA), in collaboration with District 10 Supervisor’s office and multiple community-based organizations across the Bayview. At the end of each community outreach phase, the project team will present the results and how community input has informed all recommendations. The final plan will be presented to the Bayview community before being adopted by the SFMTA Board to ensure it reflects community values and priorities.

PARTICIPATORY BUDGETING

The BCBTP will include a Participatory Budgeting (PB) exercise, where Bayview residents come together and decide how to spend $600,000 in Lifeline transportation funds. Residents come up with ideas, develop them into proposals, then the community gets to vote on where the money will go. These funds can be spent on infrastructure (like new bus stops or improved routes to transit) or on programs (like a community shuttle or more frequent night & weekend MUNI service).
