The 6th Street corridor has one of the highest concentrations of pedestrian collisions, injuries, and fatalities in San Francisco. In support of San Francisco’s Vision Zero initiative, the 6th Street Pedestrian Safety Project aims to create a safe and inviting place for people to walk by transforming 6th Street with wider sidewalks, new traffic signals, and streetscape improvements.

In collaboration with the Tenderloin community, the San Francisco Municipal Transportation Agency (SFMTA) has developed a new vision for Taylor Street between Market and Sutter streets that improves transportation safety and livability for all users of this corridor. Based on input from Tenderloin residents, merchants, social services and advocacy groups, the project was approved by the SFMTA Board of Directors and will begin construction in 2020.
You’re invited!

As part of the 6th Street Pedestrian Improvement Project & Safer Taylor Street Project, the San Francisco Municipal Transportation Agency (SFMTA) and San Francisco Public Works (SFPW) have been working with members of the community and businesses to design streetscape elements that reflect the identity of both corridors. At this open house, project teams will be presenting various design elements like decorative crosswalks and street furnishings. We look forward to hearing from you and seeing you there!

Open House Details

Bayanihan Recreation Center
88 6th Street
San Francisco, CA 94103

Thursday, July 25, 2019

4:30 p.m. to 6:30 p.m. drop-in anytime!
