Appendix A: Cost Report	<b>A1</b>
Appendix B: Schedule Report	В1
Appendix C: Program Overview of Scope and Funding	<b>C</b> 1
Appendix D: Completed Contracts	D1
Appendix E: SBE Participation by Contract (Reported Quarterly)	E1
Central Subway Project Contact Information	<b>E</b> 5

<u>Cover photo:</u> Large river rocks are placed into wet concrete to hinder errant motorists from entering the tunnel portal just north of the 4th and Bryant intersection. This work is part of construction for the top slab inside the tunnel portal. More photos can be found starting on page 37.

<u>Above photo</u>: A thin layer of texured concrete is applied to an overhang inside the north concourse for Union Square/Market Street Station. Other interior finishes such as glass wall panels and terrazzo flooring are being installed.

See the Appendix E final page for CS websites hyperlinks and public outreach on line resources. The Project main web site is at: <a href="http://www.centralsubwaysf.com/">http://www.centralsubwaysf.com/</a>

Workers conduct site cleanup inside one of the upper levels of the Chinatown Station headhouse.

# **Executive Summary**

**Chinatown Station** - Continued installing Stair 5. Continued electrical switchgear, HVAC ductwork, and emergency ventilation fan installation at Headhouse Platform level. Continued shotcrete for slurry walls, installing drain mat and waterproofing for Lower Mezzanine and Upper Mezzanine levels at Headhouse. Continued installing Escalator 1 &2 at North Platform Cavern. Continued construction of PCC 50 Chinatown Plaza walls. Continued street work (minor), monitoring and surveying

**Union Square/Market Street Station** - Platform Station: Continued construction of stairs and elevators. Continued installation of glass enclosure around elevators and escalators. Continued to install overhead plumbing, fire protection piping, and overhead fixture and electrical. Continued installation of unistrut grid for ceiling panels and LED Artwork on Concourse level. South Concourse: Continued installation of overhead electrical, ceiling panels, and crystallized glass at ticket vending machine. Street/Surface: Continued waterproofing and installation of precast architectural concrete elements for USG terrace level. Continued installation of USG Roof level exhaust vent

**Yerba Buena/Moscone Station -** Continued installing Escalators 1 and 2. Continued installing canopy frame and skylight at Headhouse roof. Continued installing terrazzo finish and doors at Headhouse Concourse. Continued installing ceiling and doors in Station Concourse. Continued installing metal wall panels in Station Invert level.

**Surface, Track and Systems**– Continued traction power conduit and other electrical conduit installation inside tunnel. Continued tunnel lighting installation. Continued tunnel cross passages construction. Continued 4th/Brannan platform construction. Completed Continued splicing traction power cables at 4th Street

Total project costs to date are \$1,465.10 million, an increase of \$8.51 million over last month. The total cost to date equals 92.8% of the total project budget of \$1.578 billion. The program is in the process of reevaluating the overall program schedule and cost.

The Stations Contractors' Safety Reports should show any accidents that may occur during the current month. The rates of work site accident incidents by the man hours worked continue to be below industry standards - see tables on page 33.

# **Key Milestones**

# Pouring the top slab inside the tunnel portal

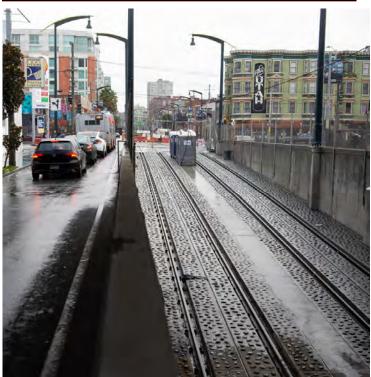

The site is cleaned, and concrete and river rock are brought in.

Workers pour and level concrete in sections between the rails and place river rocks into the wet concrete.

MILESTONE	DATE EXPECTED
General	
Revenue Service	Summer 2021
Contract 1300 Stations, S	Surface, Track, Systems
Notice to Proceed (NTP 1)	June 17, 2013 (A)
Notice to Proceed (NTP 2)	January 12, 2014 (A)
Substantial Completion	June 29, 2020

The bumpy surface ideally acts as a deterrent against confused motorists attempting to enter the portal ramp.

# **Costs and Schedule**

# Costs (See Appendix A for Details)

The Current Cost Estimate (CCE) for the Central Subway Project is **\$1.578 billion** in year of expenditure dollars (\$YOE). This total project cost is shown at the top of Report 7.1, Program Project Budget. This capital cost projection incorporates allocated and unallocated contingencies to cover the risks associated with the project completion. The Program is in the process of evaluating the Program's Estimate at Completion (EAC) as part of a workshop with FTA. When the report is finalized, the Program will adjust the overall Program budget and contingency.

Total net incurred costs for the project are \$1,465.10 million, a \$8.51 million increase over last month. The cost to date figure reflects expenditures through FAMIS 786 Report (\$1,413.27 million) plus the utilities joint trench Form B Reimbursement payment (\$12.51 million), invoices currently being processed (\$33.79 million) and estimates of outstanding pay requests (\$5.55 million). This incurred amount equals 92.8% of the total project budget of \$1.578 billion.

The current funding level to date is \$1,556.74 million and includes Low Carbon Transit Operations Program (LCTOP) Funds FY2019/2020 \$4,000,000 and Proposition B (City of San Francisco Adjusting Transportation Funding for Population Growth) FY2020 \$3,191,063 appropriated in September 2019 . This represents 98.7% of the total project budget and we anticipate the addition of \$21,558,937 to complete the funding of the program.

# **Earned Value Analysis**

In December 2019 Report, the Preliminary Earned Value Analysis reports is based on the SFMTA November Schedule Update. The Planned Value, Earned Value, Actual Cost, Percent Complete and resulting indexes as follows:

#### **Preliminary December Earned Value**

Overall Budgeted Cost:	\$1,578,300,000
Planned Value:	\$1,584,823,442
Earned Value:	\$1,445,549,664
Actual Cost:	\$1,465,096,545
Schedule Performance Index (SPI):	0.91
Cost Performance Index (CPI):	0.99
Percent Complete:	90.7%

<sup>\*</sup>December 2019 Notice: The City continues to experience problems that were caused by error and inaccuracy from the transition from FAMIS to Financial System Project (FSP). An updated methodology has been implemented within the financial reporting that will provide more accurate figures for transactions occurring in fiscal year 2020.

As we continue to address these data quality problems through data cleaning, you will continue to see monthly fluctuations as we detect and remove errors and inconsistencies from data in order to improve on the quality of data so that we will be able to report accurate data.

# Schedule Highlights

The Master Project Schedule (MPS) below includes progress through December 2019. The December 2019 Schedule Update submittal from Contract 1300 Contractor was not submitted as the CN1300 Contractor has not provided the updated corrections to their June 2017 through July 2018 Schedule Updates. The Contract 1300 schedule represented in this report is based on the SFMTA December 2019 Schedule Update.

The MPS shows a forecast Revenue Service Date of Summer 2021 based on a revised assessment of the overall schedule and the current project conditions. The revised schedule will be evaluated with the FTA during a risk schedule and cost workshop in February 2020. Based on the workshop, the Program will revise the Master Project Schedule to reflect the new schedule.

The controlling critical (longest) path of the MPS runs through the electrical activities within the tunnel which are impacting the TPC's Startup and Testing and subsequently the rail activation process. The latest schedule shows the longest path running through the Surface, Tracks and Systems (STS).

SFMTA continues to meet with Contractor to discuss all schedule concerns and comments. TPC has not been able to correctly staff the project which could potentially delay the project. In order to achieve the Baseline work productivity, TPC needs to increase the number of crews assigned to electrical work, allowing concurrent work within the tunnel and stations in order to make this completion date possible. It also requires that the front end portion of ATCS Startup and Testing is performed concurrently with TPC's Startup and Testing followed by ATCS software testing in coordination with SFMTA Operations.

Contract 1300 Contractor submitted fifty-four (54) Schedule Updates from December 2014 to July 2019. SFMTA rejected twenty eight (28) Schedule Updates from January 2016 to April 2016 and June 2016 to June 2018 due to multiple and repetitive issues that vary from incorrect working sequences to unrealistic forecasted completion dates to artificially steering the schedule longest path through certain portions of the project. SFMTA approved as noted December 2014 through December 2015, and May 2016 Schedule Updates. Contractor has been directed to provide a Revised Schedule as required by the overall settlement agreement to maintain the forecasted project completion.

#### Contract 1300 - WP1253 UMS / WP1254R CTS / WP1255 YBM / WP1256 STS:

The Contractor, Tutor Perini Corporation's (TPC) baseline schedule is incorporated into the master program schedule. The preliminary SFMTA Contract 1300 December 2019 schedule is used within the November Report. The SFMTA Contract 1300 December 2019 schedule is based on the approved baseline schedule logic with adjustments made as mentioned above. The SFMTA will continue to use the SFMTA Contract 1300 schedule update as a forecasting tool going forward until the Contract 1300 Contractor submits an acceptable schedule that addresses all of SFMTA scheduling concerns.

A worker rolls by cross-passage 5 on a small rail cart, traveling southbound inside the northbound tunnel near where workers have been installing lighting and electrical systems.

# Schedule Highlights - Continued

#### Work Package P-1254R (CTS) has performed the following work this month:

- Continued installing Stair 5
- Continued electrical switchgear installation on the concrete pads and HVAC ductwork installation at Headhouse Platform level
- Continued Emergency Ventilation fan installation at Headhouse Under Platform level
- Continued CMU wall curb installation on the Headhouse Underplatform Level, Platform Level, Lower Mezanine and Upper mezzanine Levels.
- Continued shotcrete for slurry walls, installing drain mat and waterproofing for Lower Mezzanine, and Upper Mezzanine levels at Headhouse
- Continued installing GFRC panels at North and South Platform Caverns
- Continued installing Escalator 1 & 2 at North Platform Cavern
- Continued construction of PCC 50 Chinatown Plaza walls
- · Continued street work (minor), ongoing monitoring and surveying

#### Work Package P-1253 (UMS) has performed the following work this month:

- Platform Station: Continued construction of stairs and elevators. Continued installation
  of glass enclosure around elevators and escalators. Continued to install overhead
  plumbing, fire protection piping, and overhead fixture and electrical. Continued installation of unistrut grid for ceiling panels and LED Artwork on Concourse Level. Continued installation of ceiling panels. Continued installation of light fixtures and controls. Continued installation of Curved Metal Panel on Platform Strut Level. Continued
  installation of frames for doors on all Levels. Continued preparation for installation of
  terrazzo on Platform level
- North Concourse: Continued construction of stairs and elevators. Continued installation of overhead plumbing, fire protection piping, and overhead fixture and electrical. Continued cement plaster finish in various rooms. Continued installation of glass wall panels
- South Concourse: Continued installation of overhead electrical, ceiling panels, and crystallized glass at ticket vending machine. Continued installation of unistrut for ceiling panels and LED artwork. Continued installation of glass wall panels. Continued installation of terrazzo flooring
- Street/Surface: Continued waterproofing and installation of precast architectural concrete elements for USG terrace level. Continued installation of USG Roof level exhaust vent

#### Work Package P-1255 (YBM) has performed the following work this month:

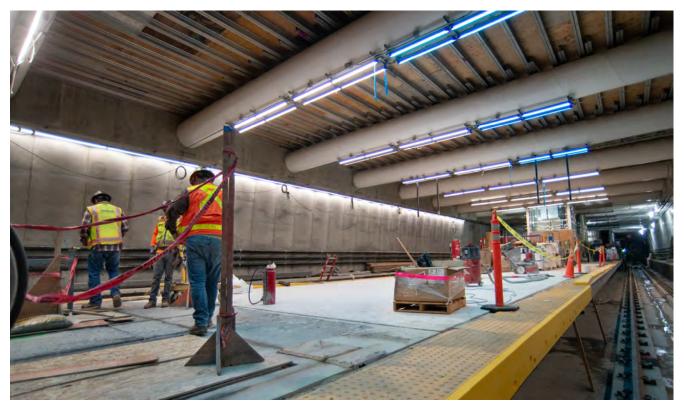

- Continued installing Escalators 1 and 2
- Continued installing canopy frame at Headhouse Roof

# Schedule Highlights - Continued

- · Continued installing skylight at Headhouse Roof
- Continued installing duct work for Vent Shaft
- Continued installing doors at Headhouse Mezzanine
- Continued installing sound dampers at Station Mezzanine
- Continued installing terrazzo finish in Headhouse Concourse
- Continued installing doors at Headhouse Concourse
- Continued installing ceiling in Station Concourse
- Continued installing doors at Station Concourse
- Continued installing metal wall panels in Station Invert level

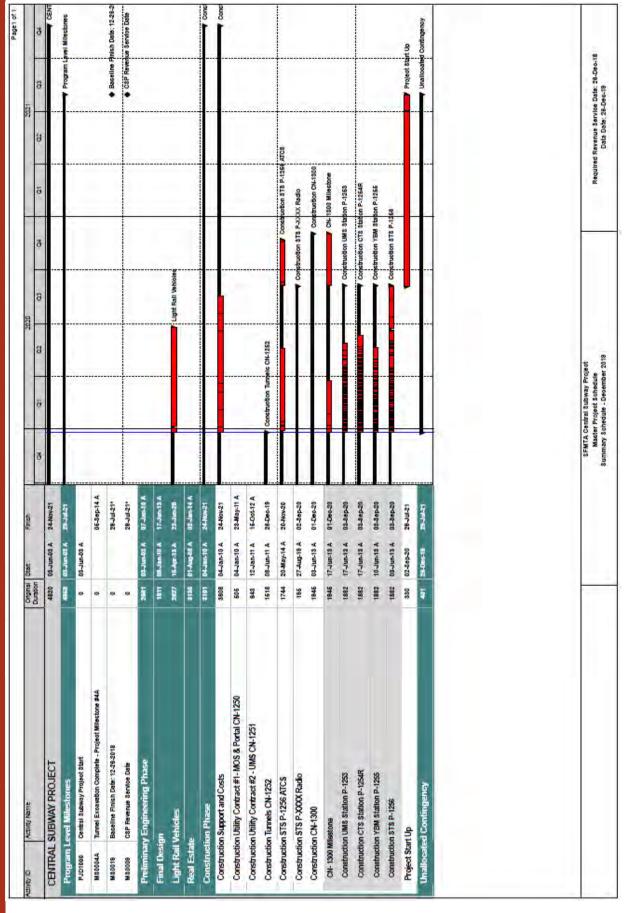

#### Work Package P-1256 (STS) has performed the following work this month:

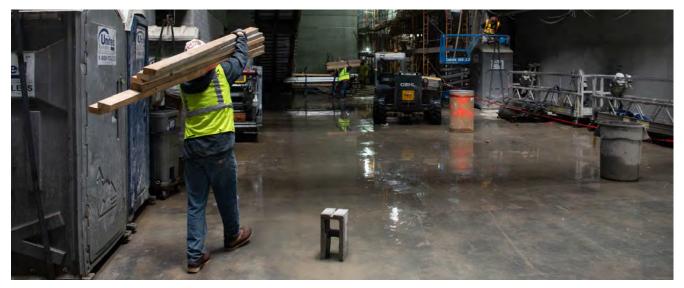

- Continued traction power conduit and other electrical conduit installation inside tunnel
- Continued tunnel lighting installation
- Continued tunnel cross passages construction
- Completed installation of jet fans at 4<sup>th</sup> Street portal
- Continued track pavement installation at 4<sup>th</sup> Street portal
- Continued 4<sup>th</sup>/Brannan platform construction
- Continued splicing traction power cables on 4<sup>th</sup> Street

Permanent lighting has been installed across struts above the platform area for Union Square/Market Street Station.

# Master Project Schedule

Carpenters ferry lumber to be used in concrete form construction on the concourse level for Chinatown Station.

# **Contracts & Construction**

# **Construction Contracts In Progress**

Contract 1300: Combined Work Packages 1253, 1254, 1255, 1256

Contractor: Tutor - Perini Corporation

• Amount: \$888.28 million

Contract Status: 92.31% complete construction

# **Contracts Completed**

See Appendix D

Contract 1250: Moscone Station and Portal Utilities Relocation

Contract 1251: Union Square/Market Street Station Utility Relocation

Contract 1277: Pagoda Theater Site Demolition (Funded separately from the CS Project budget)

Contract 1252: Central Subway Tunneling

Contract SBE Participation (Updated Quarterly) See Appendix E

# Stations, Surface, Track and Systems

# Contract 1300 Contractor: Tutor-Perini Corporation

# **Description of Work**

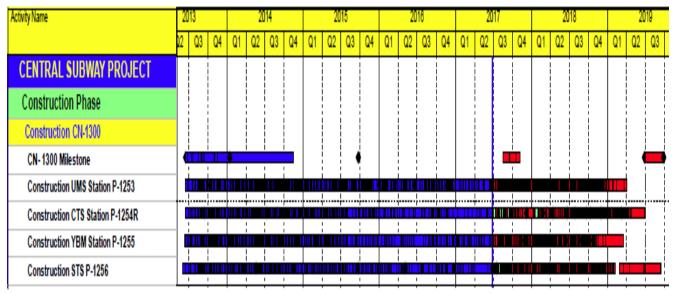

The Contract 1300 scope is to construct the Central Subway's three subway stations, one surface station, construct the 2,000 feet of surface track, and install track and operating systems throughout the new alignment. The separate station and systems work packages are presented in the following pages.

Work includes station finishes, AC and DC substations, elevators, escalators, lighting, emergency ventilation fans, HVAC fire alarm/ suppression/ protection, Cutter Soil Mixing, secant pile bottom up and Sequential Excavation Method construction, settlement monitoring, building protection, connecting to and modifying the BART Powell Street Station, PA, CCTV, signage, installation of fare collection equipment and station start-up and commissioning.

# 1300 Summary Schedule

# **Chinatown Station**

# Contract 1300 - Work Package 1254R

# **Description of Work**

This Work Package is to construct one subway station. Includes station finishes, AC and DC Traction Power substations elevators, escalators, lighting, emergency ventilation fans, HVAC fire alarm/ suppression/ protection, slurry wall top-down construction, settlement monitoring, building protection, PA, CCTV, signage, installation of fare collection equipment and station start-up and commissioning.

- Continued installing Stair 5
- Continued electrical switchgear installation on the concrete pads and HVAC ductwork installation at Headhouse Platform level
- Continued Emergency Ventilation fan installation at Headhouse Under Platform level
- Continued CMU wall curb installation on the Headhouse Underplatform Level, Platform Level, Lower Mezanine and Upper mezzanine Levels.
- Continued shotcrete for slurry walls, installing drain mat and waterproofing for Lower Mezzanine, and Upper Mezzanine levels at Headhouse
- Continued installing GFRC panels at North and South Platform Caverns
- Continued installing Escalator 1 & 2 at North Platform Cavern
- Continued construction of PCC 50 Chinatown Plaza walls
- Continued street work (minor), ongoing monitoring and surveying

### Work Expected Next Month

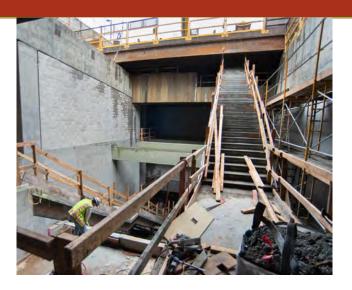

- Complete installing GFRC panels at North and South Platform Caverns
- Continue installing Escalator 1 & 2 at North Platform Cavern
- Complete electrical switchgear installation at Headhouse Platform level
- Complete shotcrete for slurry walls, install drain mat and waterproofing for Lower Mezzanine and Upper Mezzanine levels at Headhouse
- Continue Escalator 1, 2, 3, & 4 installation
- Begin Escalator 5 and 6 installation
- Begin installing traction power equipment at Traction Power room at Platform level
- Begin Arch closure composite wall and GFRC panel installation at Concourse level
- Complete CMU wall construction at all levels of Headhouse
- Continue construction of PCC 50 Chinatown Plaza walls

# **Chinatown Station**

# Contract 1300 - Work Package 1254R

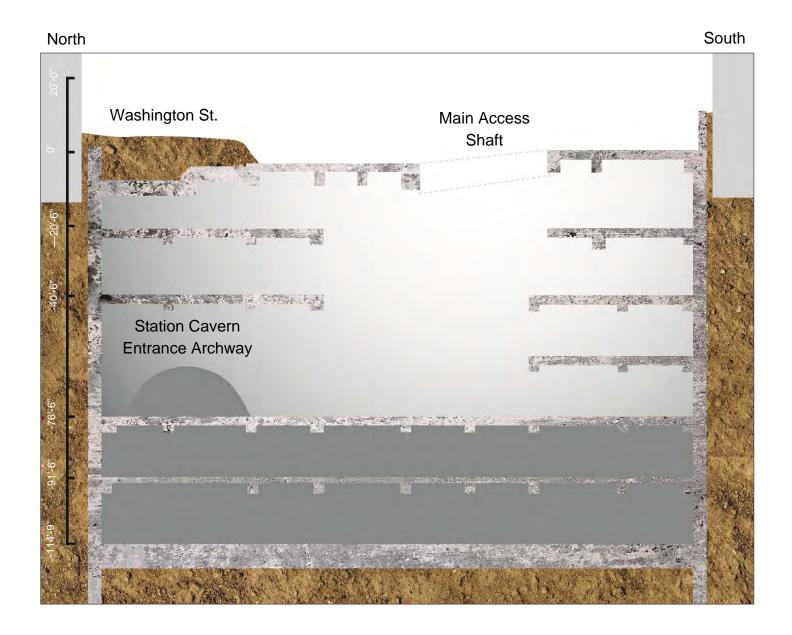

#### Three Month Look

- Complete Escalator 1 & 2 installation
- Complete Escalator 3 & 4, 5 & 6 installation
- Begin installation of Elevators 1 & 2, 3 & 4
- Complete installing mechanical, electrical, plumbing, at Headhouse Underplatform and Platform Levels.
- Complete installing mechanical, electrical, plumbing at Concourse, Intermediate, Lower Mezzanine, and Upper Mezzanine levels at Headhouse
- Complete construction of Street level at Headhouse
- Continue construction of PCC 50 Chinatown Plaza
- Abandon dewatering wells on Stockton Street
- Begin street utility work on Washington Street

# **Station Construction Progress Section**

# **Union Square/Market Street Station**

# Contract 1300 Work Package 1253

# **Description of Work**

This Work Package is to construct one subway station. Includes station finishes, AC and DC Traction Power substations elevators, escalators, lighting, emergency ventilation fans, HVAC fire alarm/ suppression/ protection, slurry wall top-down construction, settlement monitoring, building protection, PA, CCTV, signage, installation of fare collection equipment and station start-up and commissioning.

#### **Current Status This Month**

- Platform Station: Continued construction of stairs and elevators. Continued installation of glass enclosure around elevators and escalators. Continued to install overhead plumbing, fire protection piping, and overhead fixture and electrical. Continued installation of unistrut grid for ceiling panels and LED Artwork on Concourse Level. Continued installation of ceiling panels. Continued installation of light fixtures and controls. Continued installation of Curved Metal Panel on Platform Strut Level. Continued installation of frames for doors on all Levels. Continued preparation for installation of terrazzo on Platform level
- North Concourse: Continued construction of stairs and elevators. Continued installation of overhead plumbing, fire protection piping, and overhead fixture and electrical. Continued cement plaster finish in various rooms. Continued installation of glass wall panels
- South Concourse: Continued installation of overhead electrical, ceiling panels, and crystallized glass at ticket vending machine. Continued installation of unistrut for ceiling panels and LED artwork. Continued installation of glass wall panels. Continued installation of terrazzo flooring
- Street/Surface: Continued waterproofing and installation of precast architectural

concrete elements for USG terrace level. Continued installation of USG Roof level exhaust vent

#### Work Expected Next Month

- Platform Station: Energize main electrical room. Continue construction of stairs and elevators. Continue installation of glass enclosure around elevators. Continue installation of escalators. Continue installation of glass enclosure for escalators. Continue to install overhead plumbing, fire protection piping, and overhead fixture and electrical. Continue installation of unistrut grid for ceiling panels and LED Artwork on Concourse Level. Coninstallation of tinue ceilina els. Continue installation of light fixtures and controls. Continue installation of Curved Metal Panel on Platform Strut Level. Continue installation of frames and begin installation of doors on all Levels. Continue preparation for installation of terrazzo on Platform Level and installation of terrazzo. Begin installation of brackets for Platform level artwork
- North Concourse: Continue construction of stairs and elevators. Continue installation of overhead plumbing, fire protection piping, and overhead fixture and electrical. Continue cement plaster finish in various rooms. Continue installation of glass wall panels

# **Union Square/Market Street Station**

#### Contract 1300 Work Package 1253

- South Concourse: Continue installation of overhead electrical, ceiling panels, and crystallized glass at ticket vending machine. Continue installation of unistrut for ceiling panels and LED artwork. Continue installation of glass wall panels. Continue installation of terrazzo flooring
- Street/Surface: Continue waterproofing and installation of precast architectural concrete elements for USG terrace level. Continue installation of USG Roof level exhaust vent. Continue Ellis Entrance finishes

#### Three Month Look Ahead

- Platform Station: Complete CMU wall construction. Complete deck installation. Complete all structural concrete work. Continue installation of fireproofing. Continue construction of stairs and escalators. Continue terrazzo flooring. Continue installation of artwork on Concourse and Platform level. Continue installation of ceiling panels. Continue installation of light fixtures and controls. Continue installation of overhead plumbing, fire protection piping and overhead fixture and electrical. Continue installation of frames and installation of doors on all levels
- North Concourse: Continue terrazzo flooring. Complete installation of ceiling panels. Begin installation of fire alarm system in USG
- South Concourse: Continue construction of escalators and stairs. Continue terrazzo flooring. Continue installation of ceiling panels
- Street/Surface: Complete installation of granite curb, brick sidewalk, and pedestrian ramps north of Market Street. Complete installation of glass roof walk artwork on USG Terrace level. Complete installation of precast architectural concrete elements for

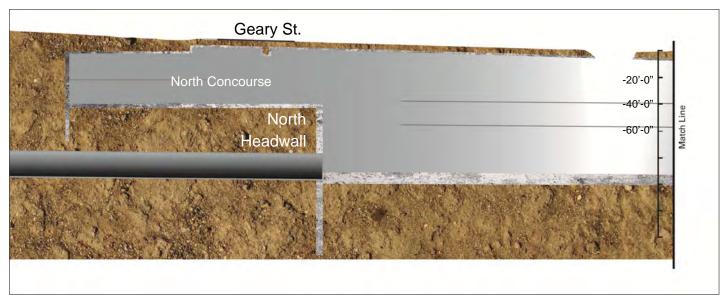

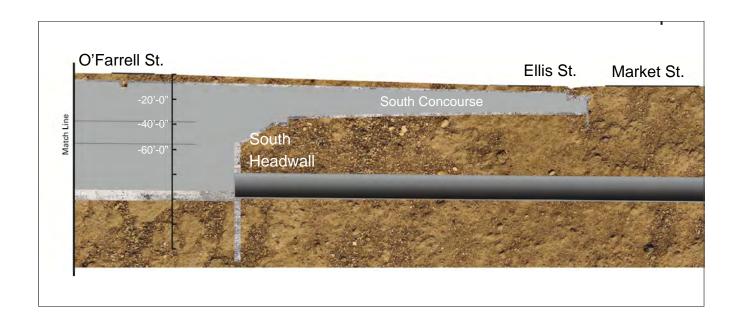

USG terrace level. Begin installation of permanent historic streetlights. Begin installation of traffic cabinets and permanent traffic signals

# **Description of Work**

This Work Package is to construct one subway station. Includes station finishes, AC and DC Traction Power substations elevators, escalators, lighting, emergency ventilation fans, HVAC fire alarm/ suppression/ protection, slurry wall top-down construction, settlement monitoring, building protection, PA, CCTV, signage, installation of fare collection equipment and station start-up and commissioning.

#### **Current Status**

- Continued installing Escalators 1 and 2
- Continued installing canopy frame and skylight at Headhouse Roof
- Continued installing duct work for Vent Shaft
- Continued installing doors at Headhouse Mezzanine
- Continued installing sound dampers at Station Mezzanine
- Continued installing terrazzo finish and doors in Headhouse Concourse
- Continued installing ceiling and doors in Station Concourse
- Continued installing metal wall panels in Station Invert level

#### Work Expected Next Month

- Continue installing Elevators 3 and 4
- Continue installing skylight at Headhouse Roof
- Begin installing insulation at Headhouse Roof
- Continue installation of Headhouse Vent Shaft
- Continue installing duct work for Headhouse Mezzanine
- Continue placing concrete floor at Headhouse Mezzanine
- Continue installing finished floor in Headhouse Concourse

- Continue installing Station Agent Booth at Headhouse Concourse
- Begin installing toilets and lockers in Headhouse Concourse
- Begin installing artwork at Headhouse Concourse
- Continue installing metal wall and ceiling in Station Concourse

#### Three Month Look Ahead

- Continue interior finishes on Mezzanine & Concourse Levels within Station Box
- Continue placement of stairs within Station and Headhouse
- Begin installation of sculpture at Surface level
- Complete installation of artwork in Headhouse Concourse
- Complete installation of Elevators 3 and 4

# YBM Three Month Schedule

Schedule: Contract 1300 December 2019 Update

# Systems, Trackwork, & Surface Station

#### Contract 1300 - Work Package 1256

#### **Description of Work**

This Work Package is to construct one Surface Station. Includes light rail track and systems, track invert, track safety walkways; light rail track and systems constructed on the 2,000 foot surface for the alignment from the tunnel portal, south to the tie-in to the existing Muni T-Line at Fourth and King Streets; and the surface Fourth and Brannan Street (FBS) Station.

#### **Current Status**

- Continued traction power conduit and other electrical conduit installation inside tunnel
- Continued tunnel lighting installation
- Continued tunnel cross passages construction
- Completed installation of jet fans at 4<sup>th</sup> Street portal
- Continued track pavement installation at 4<sup>th</sup> Street portal
- Continued 4<sup>th</sup>/Brannan platform construction
- Continued splicing traction power cables on 4<sup>th</sup> Street

#### Work Expected Next Month

- Continue 4<sup>th</sup>/Brannan platform construction
- Continue traction power conduit and other electrical conduit installation inside tunnel
- Continue tunnel lighting installation
- Continue tunnel cross passages construction
- Start PCS hangar installation inside tunnel
- Continue walkway installation inside tunnel
- Start track pavement construction at tunnel portal
- Continue pulling traction power cables on 4<sup>th</sup> Street

#### Three Month Look Ahead

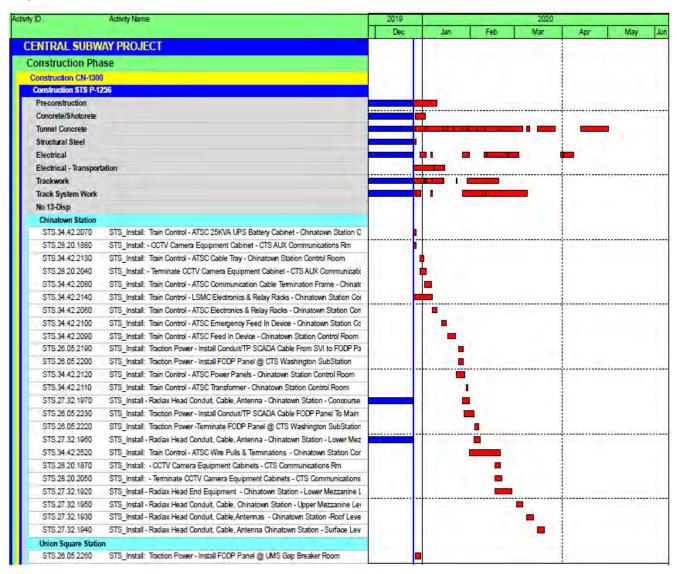

- Complete OCS/street light pole installation
- Continue OCS support/wire installation in tunnel and on 4<sup>th</sup> Street
- Continue 4<sup>th</sup>/Brannan platform construction
- Continue track pavement installation at 4<sup>th</sup> Street portal
- Continue tunnel cross passages construction
- Start tunnel walkway stairs installation
- Continue electrical conduit installation inside tunnel
- Continue tunnel lighting installation
- Continue splicing traction power cables on 4<sup>th</sup> Street
- Start FDC work near 4<sup>th</sup> Street portal

#### Systems, Trackwork, & Surface Station Construction - Continued

# Systems, Track and Surface Station Three Month Schedule

# **Program Components**

# **Community Outreach**

#### Outreach public information, events and presentations for December 2019 include:

- Conducted Chinatown Mechant's Meeting
- Continued noise and dust mitigation meetings with Tutor Perini and community stakeholders
- Ongoing outreach to merchants and residents
- Conducted meetings and face-to-face visits with various merchant stakeholders along the alignment
- Preparation and dissemination of construction notices
- Produced quarterly construction update video and other multimedia content
- Responded to constituent complaints

#### **Outreach in Support of Mitigation and Monitoring**

- Team members participated in weekly progress to address neighborhood concerns
- · Outreach and communication efforts continue in Chinatown, Union Square, and SOMA
- Weekly photo documentation of project work and editing
- Outreach team members met with SF Arts Commission representatives to align public art completion strategy
- Weekly construction update emails sent to list of approximately 700 residents and stakeholders

#### Media Coverage

Central Subway Media Coverage					
Date	Title (with link to story)	Source	Reporter/ Writer		
12/3/2019	Rooftop park the latest point of conflict between Muni and Central Subway contractor	SF Examiner	Joe Fitzgerald Rodriguez

# **Quality Assurance**

Quality Assurance monthly activity of oversight, surveillance, audits, proactive feedback and QA records actively involves the Project construction management staff, the resident engineers, the prime construction contractor and their subcontractors.

#### Stations and Systems Contract CN1300 Quality Assurance Monitoring Activities

- QA observation of all work in progress for all work packages
- QA observations of QC inspection, testing and documentation by Smith Emery for all work packages
- QA observation of station construction at CTS, UMS, and YBM
- QA observation of STS invert and plinth concrete placement and track installation
- QA observation of STS rail preparation and installation
- QA review of TPC's Quality Control (QC) Daily Inspection Reports posted to project records CM13 which includes TPC's Specialty Subcontractor's QC checklists, associated documentation and Smith Emery inspection and testing reports provided by TPC's subcontractor that provides laboratory and inspection services – including special inspections required for the City of San Francisco's Department of Building Inspection (DBI) for all permitted work
- QA participation in definable feature of work preparatory and initial phase meetings as scheduled by the contractor's QC manager
- QA participation in Weekly Work Package Progress Meetings for STS, YBM, UMS and CTS
- QA participation in Monthly Project Risk Mitigation, Safety and Security, and weekly Construction Management Board (CMB) meetings as scheduling constraints allow

#### **Document comment and review:**

- QA staff reviews quality related submittals, other submittals and Requests for Information (RFIs) as needed and requested to support the RE's and CM administration of the QCP
- QA staff performs random checks of the Contractor's independent field testing laboratory reports and results as provided by the Contractor's testing laboratory which includes concrete cylinders, shotcrete cores, and shotcrete C1550 flexural specimens
- Contractor Non Conformance Reports (CNCR) Status as indicated in the TPC QC CNCR Log:
  - Initial: 6 CNCRs are currently posted to the CNCR Log as INITIAL entries. (+1 from November 2019) (C1300 is required to generate a CNCR within 24 hours of becoming aware of what appears to be nonconforming work).
  - Dispositioned (not acceptable): 28 CNCRs are currently posted to the CNCR Log as DIS-POSITIONED (NOT ACCEPTABLE) and have been returned to the Contractor because the RE's review of the Contractor's proposed disposition determined that the proposed disposition is not appropriate and must be revised). (-2 change from November 2019)
    - ♦ Dispositioned: 18 CNCRs are currently posted to the CNCR Log as DISPOSI-TIONED and are being reviewed by associated SFMTA RE to verify that the Con-

# **Quality Assurance - Continued**

- tractor's proposed disposition is appropriate.) (no change from November 2019)
- Approved: 51 CNCRs are currently posted to the CNCR Log as APPROVED because the suggested REPAIR dispositions have been approved and the CNCRs will remain open until the approved REPAIR procedure is performed. (-8 from November 2019)
- Closed: 366 CNCRs are currently posted to the CNCR Log as CLOSED. (+11 from November 2019)
- Voided: 50 CNCRs are currently posted to the CNCR Log as VOIDED (subsequent evaluation of the INITIAL CNCRs determined that a CNCR is not warranted). (no change from November 2019)
- ♦ 517 CNCRs are currently posted to the CNCR Log. (+5 from November 2019)

#### **Notice of Non-compliance (NCN):**

Project QA has issued 29 NCNs

#### **Audits:**

- Previously, Project QA performed an audit of the Contractor's compliance with specified requirements for Project Coordination and Management Staff. The audit resulted in five findings and five Corrective Action Requests
- During this period, Project QA initiated an audit of the Contractor's compliance with document control and quality records requirements for the period

#### **QA** Issues:

- The Contactor does not have the required QC staff.
- The Contractor does not have QC on the site at all times during construction as required by contract
- The Contractor continues to perform work in some instances prior to receipt of approved required submittals (including coordination and shop drawings) and RFIs with or without knowledge of the Contractors QC or responsible production supervision. This presents potential risk

#### **QA Concerns:**

- The contractor continues to furnish and install OCS poles without meeting prerequisite certification requirements. Project QA issued STS NCN 003. The Contractor has not responded to the NCN
- The Contractor continues to VOID CNCRs without demonstrating that the work meets Contract requirements
- The Contractor is not identifying all nonconforming work as required by Contract
- The Contractor continues to perform CNCR repairs prior to receiving approval of the proposed repair procedures
- The untimely identification and mitigation (SFMTA approval) of "last minute items" remains an ongoing challenge to all involved and often generates nonconforming work. Project quality has not suffered to date; however the aforementioned concern remains

# **Quality Assurance - Continued**

- Project schedule compression demands disrupting RE, design staff priorities, and work flows as mentioned above; quality has not suffered but the concern remains
- CNCR 354, which documents that standard strength and not high strength 115 RE rail has been furnished and installed by Tutor Perini Corporation (TPC) the C1300 Contractor. CNCR 354 was dispositioned as Use-As-Is and was then rejected by SFMTA and returned to TPC QC to address the requirements of 34 11 14 Rail. SFMTA wrote a letter to TPC directing the removal of the non-conforming rail. SFMTA QA was informed by TPC's Project Manager that CNCR 354 would be voided. SFMTA QA's concern is that that CNCR 354 was voided by TPC perceived ambiguities in the contract documents without consideration of other contract document requirements. Non-compliance Notice NCN STS-001 was issued, directing TPC to reinstate CNCR 354. The CNCR has not been reinstated. This issue is being closely monitored by SFMTA

#### **Program QA Practices Implemented:**

- Close-out of Corrective Action Requests: Close outs continued as required from Quality Assurance staff's audits, surveillances and PMOC quarterly reviews. The status is tracked in the Corrective Action Log that is available to the project team and the FTA PMOC
- Project QA continues to hold weekly meetings with the Resident Engineers, Assistant Resident Engineers, and QA inspectors of all stations to review project quality assurance procedures and requirements and to discuss contractor quality control requirements

# Risk Management

A Risk Mitigation Management Meeting did not take place in December 2019 and January 2020. The members of the Risk Assessment Committee will reconvene in February 2020 to review the top risks item in accordance with the risk summary sheet, which have been given a rating by The Committee of six and above.

Currently, thirty-four (34) construction risks, two (2) revenue service risk and one (1) remaining requirement risk, are being tracked on the Project's Risk Register; in addition to, establishing strategies for mitigation and evaluating potential unforeseen issues or conditions.

The Committee will continue to follow risks and risks will be monitored and statuses updated with the use of the risk mitigation status sheets, providing monthly updates by the Risk owner to demonstrate the assigned mitigation strategy is being implemented. The program is in the process of evaluating the risk, schedule, and cost with FTA to ensure that the program has sufficient schedule and cost contingency.

#### **Top Risks**

Risk#	Risk Description		Contract
255	Water leaks at YBM station, including water in conduits to both electrical room and TP room	10	YBM
251	Physical activities missing (not defined) in the schedule / identify activities of undefined scope	8	STA
205	Prolong period of CMod's creates additional cost/causes bad blood between Resident Engineer and Contractor	8	STA
257	Systems Test Integration between components does not work; fails	8	RS
253	Do not have adequate (subcontractor) resources defined to perform the work to meet schedule performance	6	STA
238	Quality Program is ineffective in processing the nonconformance items causing schedule impacts	6	STA
229	CN1300 System Acceptance Testing takes a prolonged amount of time		STA
230	SFMTA Commissioning Coordination (inaccurate time for coordination or participation from Muni Ops)		STA
261	Internal Staffing Resource Issue	6	GEN
254	CPUC Field Certification - Not having enough staff to certify the work may slow down the process	6	STA

# **Program Safety & Security**

The San Francisco Municipal Transportation Agency is committed to the highest practical level of safety and security standards and practices in the public transit industry. The Safety and Security Management Plan (SSMP) components are reported on below as appropriate including, Safety and Security Committee, the Fire Life Safety and Security Committee the Construction Conformance Verification and Documentation and Contractor Safety and Security.

#### **Project Management/Construction Management (PMCM) Team**

Safety bulletin boards have subjects covering the daily job briefings. Weekly safety meetings are held on a weekly basis so all staff has an opportunity to attend. We hold a "bagel break" once a month to help generate interest and attendance at the meetings. These monthly meetings have helped to create a real team environment.

#### Safety Summary for the 1300 Stations Systems Track Construction Package

In December, there were a total of six incidents. Two were first aids and four were injuries. They consisted of two incidents of arm lacerations, broken left leg, strained left knee, foreign body in eye, and broken finger.

As a deterrence to reduce crime, TPC management has installed motion detection cameras since September 2019.

#### **Table 1300 Stations Construction Safety Record**

Table 1300 below summarizes the Month to Date and Project to Date for the Stations, Systems and Track Construction contractor and subcontractors.

#### **Next Month Look Ahead**

#### 1300 Contract

- 1. At CTS, we continue to install emergency ventilation fan, stairs, electrical switchgear installation, and waterproofing
- 2. At UMS, we continue to install stairs, elevators, overhead plumbing, fire protection piping, and overhead fixture and electrical
- 3. At the YBM station, we continue to install escalators, doors, duct work, sound dampers, and metal wall panels
- 4. At the STS station, we continue traction power conduit and other electrical conduit installation inside the tunnel.

# Program Safety & Security - continued

#### Project Safety Record - Contract 1300

SAFETY GOALS

Through Month End DEC 2019	Lost Time Cases, <1.6			
JOB TO DATE	Tutor	Subs	Total Project	Rate*
OSHA Recordable Accidents	20	6	26	1.24
Job Transfer or Restricted Duty Cases	0	0	0	0.00
Lost Time Cases	10	1	11	0.52
Total Project Incidents	30		37	1.76
Man Hours Worked Through M/E Dec 2019	1,994,465	2,206,783	4,201,248	

YEAR TO DATE (Month ,Day, Year to Month, Day, Year)	Tutor	Subs	Total Project	Rate*
OSHA Recordable Accidents	21	2	23	5.61
Job Transfer or Restricted Duty Cases	0	0	0	0.00
Lost Time Cases	10	0	0	0.00
Total Project Incidents	1	0	0	0.00
Man Hours Worked Through M/E Dec 2019	389,215	431,062	820,276	

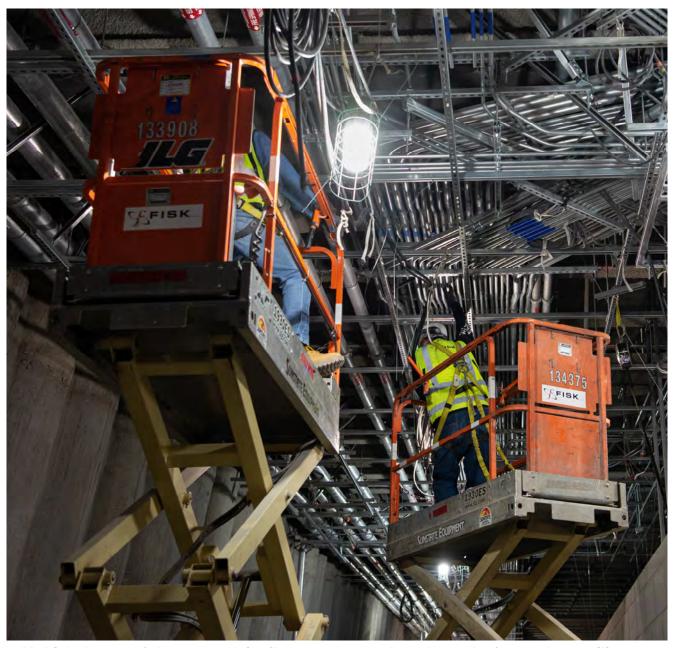

<sup>\*</sup> Rate is calculated based on number of incidents divided by total number of man hours worked multiplied by 200,000 man hours.

OSHA Recordable Accidents - 2008 Construction Industry Rate for Highway, Street, and Bridge Construction = 3.9

<sup>\*</sup>Classifications change at a later date due to additional information becoming available, thereby, changing the numbers on the chart. For example, what was once classified as an accident can become a first aid which leads it to no longer being recordable.

# **Technical Capacity**

In December 2019, the Program continues to increase staffing for Startup and testing. The Program added staff to the Safety & Security team to move the certifiable elements with assistance from CPUC. The Program has identified additional staff to support Startup and testing and will supplement in the near future.

Multiple layers of dense conduits fly past one another above the future drop ceiling inside the Union Square/Market Street Station concourse.

# Staffing

The Central Subway Staffing Table shows Planned and Actual full-time equivalent staff (FTEs) working on the Program by organizational function and responsibility.

	Oct-2	Oct-2019 November 2019 Dec-2019		Oct-2019 November 2019 Dec-2		November 2019		2019

# **Third-Party Agreements**

No activity in this reporting month.

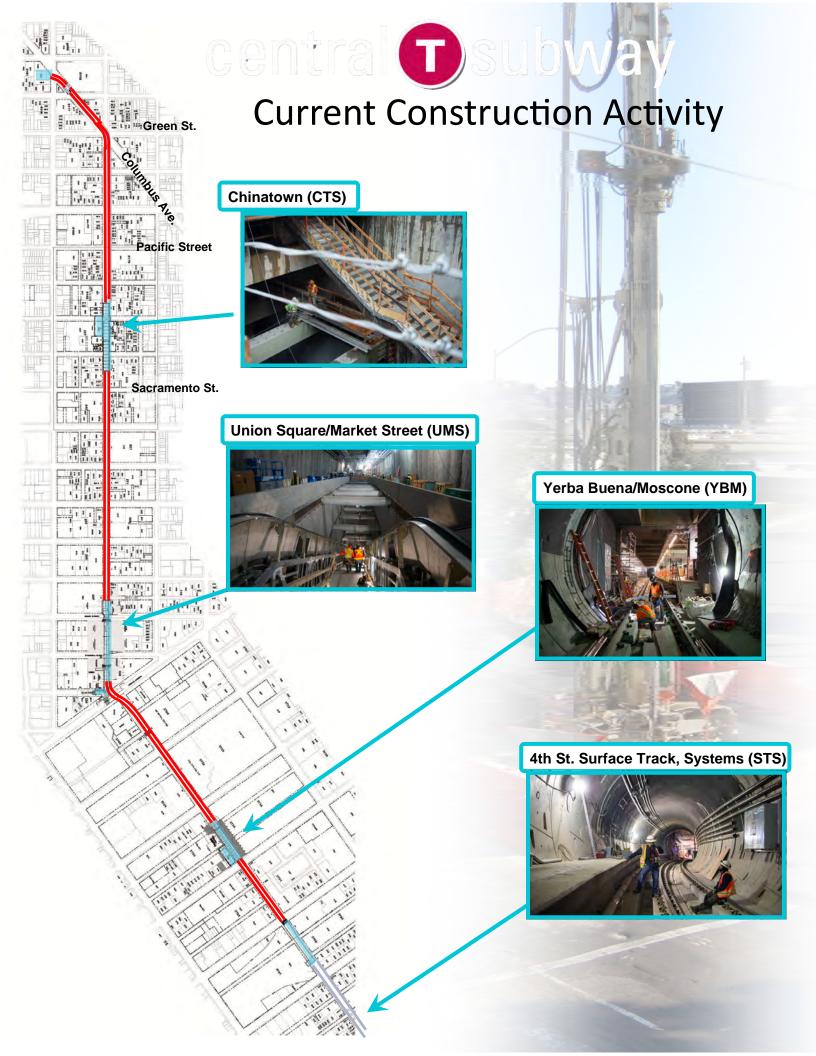

### LRV Procurement

SFMTA has initiated a new light rail vehicle procurement to acquire up to 260 vehicles over the next 15 years. The scope includes the design, manufacture, delivery and testing of up to 260 light rail vehicles together with associated services, spare parts, special tools, training and documentation. This includes an initial delivery of 24 cars, scheduled for delivery from 2017 - 2018 to supplement the fleet when the SFMTA's Third Street Phase 2 - Central Subway Project extension opens.

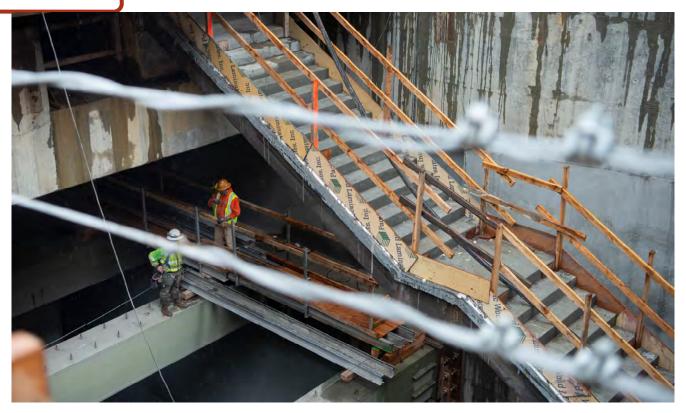

The delivery of 24 vehicles related to Central Subway has been completed.

Workers pour concrete into a recess in the concourse level floor of Yerba Buena/Moscone Station, where utility conduits are being installed.

# **CTS**

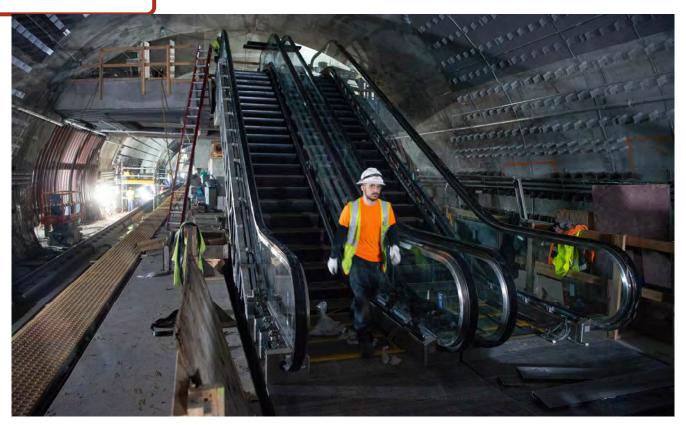

Workers carefully traverse large steel beams to set up temporary scaffolding adjacent to newly-built stairs from the street level to the upper mezzanine.

Initial segments of escalators have been lowered into the concourse level's future lobby area inside Chinatown Station.

CTS—continued

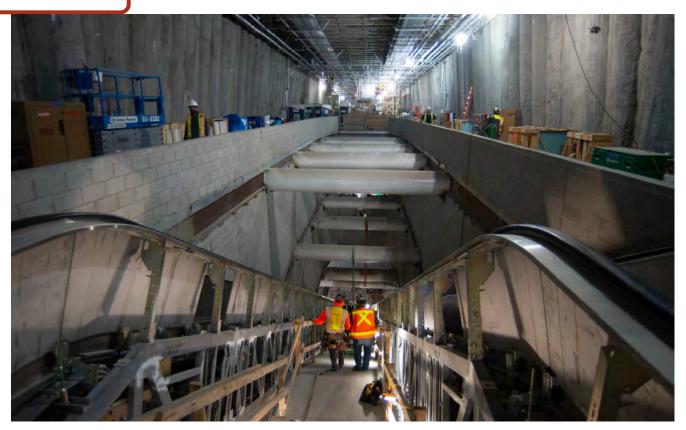

Escalators from the concourse leading down to the station platform level continue to be assembled.

Sealant is sprayed on select pieces of structural concrete at the southwest corner of Chinatown Station's street-level entrance structure.

# UMS

Dual escalators and a center staircase descend from the concourse level to the platform of Union Square/Market Street Station as the station interior continues to be built out.

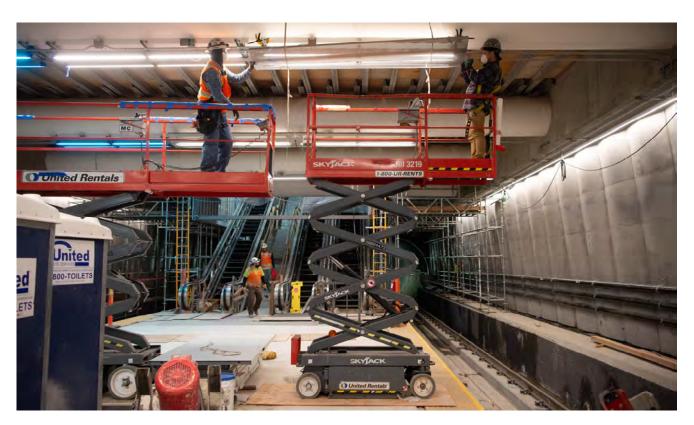

A crew mixes and pours sections of terrazzo floor coating on the east side of the south concourse for Union Square/Market Street Station.

UMS—continued

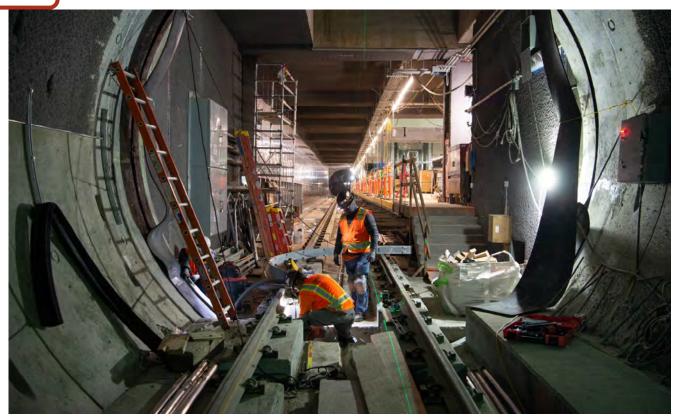

A curved decorative design element suspended above the platform level for Union Square/Market Street Station is coming together piece by piece.

Workers install lighting covers near the south end of the Union Square/Market Street Station platform.

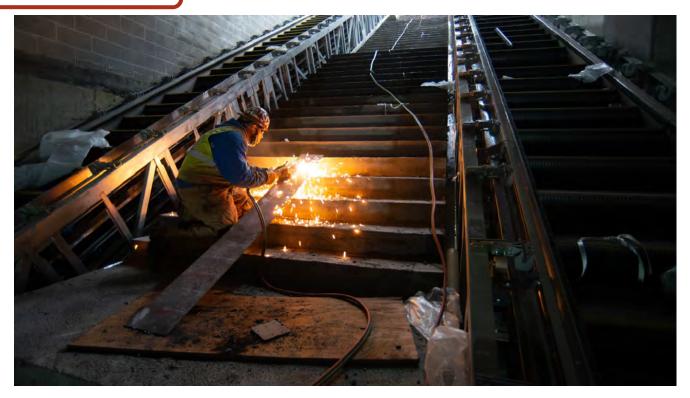

# YBM

A transition joint between the northbound track side of Yerba Buena/Moscone Station and its entrance back into the northbound tunnel continues to be built.

Workers remove sheets of protective plastic coating from stainless steel wall panels on the platform level for Yerba Buena/Moscone Station.

A steel plate is altered for installation on the entrance staircase leading from the street level entrance for Yerba Buena/Moscone Station.

Steel framing has been installed as part of initial elevator installation work between the street level station entrance structure and the concourse lobby for Yerba Buena/Moscone Station.

# STS

Workers continue installing conduits for lighting and electrical systems inside the twin tunnels, seen here inside the northbound tunnel as it approaches Union Square/Market Street Station.

Tracks and the surrounding concrete rail bed have been installed across the 4th and Brannan intersection.

# **STS** - continued

A piece of kinetic public art sculpture entitled Microcosmic has been installed atop the mast at the 4th and Brannan surface station, created by Bay Area artist Moto Ohtake.

New permanent LED lighting has been installed inside the northbound tunnel, as seen operating adjacent to temporary lighting, just south of the Chinatown track crossover cavern. 45

# Appendix A DETAIL COST REPORTS

December 2019

\*December 2019 Notice: The City continues to experience problems that were caused by error and inaccuracy from the transition from FAMIS to Financial System Project (FSP). An updated methodology has been implemented within the financial reporting that will provide more accurate figures for transactions occurring in fiscal year 2020.

#### 1. PROJECT COST

The Current Cost Estimate (CCE) for the Central Subway Project is \$1.578 billion in year of expenditure dollars (\$YOE). This total project cost is shown at the top of Report 7.1, Program Project Budget. This capital cost projection incorporates allocated and unallocated contingencies to cover the risks associated with the project completion. The Program is in the process of evaluating the Program's Estimate at Completion (EAC) as part of a workshop with FTA. When the report is finalized, the Program will adjust the overall Program budget and contingency.

Total net incurred costs for the project are \$1,465.10 million, a \$8.51 million increase over last month. The cost to date figure reflects expenditures through FAMIS 786 Report (\$1,413.27 million) plus the utilities joint trench Form B Reimbursement payment (\$12.51 million), invoices currently being processed (\$33.79 million) and estimates of outstanding pay requests (\$5.55 million). This incurred amount equals 92.8% of the total project budget of \$1.578 billion.

The current funding level to date is \$1,556.74 million and includes Low Carbon Transit Operations Program (LCTOP) Funds FY2019/2020 \$4,000,000 and Proposition B (City of San Francisco Adjusting Transportation Funding for Population Growth) FY2020 \$3,191,063 appropriated in September 2019 . This represents 98.7% of the total project budget and we anticipate the addition of \$21,558,937 to complete the funding of the program.

#### 2. CONTINGENCY ALLOCATIONS AND USAGE

The current Total Project Contingency is negative \$17.24 million. The Contingency Drawdown Curve is shown in Report 7.3. Follows by Report 7.4 Contingency Management Trend Report with the Remaining Contingency after Approved Changes Deducted contingency items in column "i".

In this reporting period, CN1300 Station processed one contract modification in the amount of \$9,360,183. Refer to Report 7.5 for approved contract modifications and potential changes.

#### 3. BUDGET TRANSFERS

No budget transfers in this reporting period.

#### 4. FORM B

The Utilities Joint Trench Form B Details is listed in the Table A2 below. Total utilities joint trench Form B Reimbursement payment to three construction contracts is \$12.51 million.

#### **Earned Value Analysis and Definitions**

**SPI** is a measure of schedule efficiency on a project. It is the ratio of earned value (EV) to planned value (PV). A SPI equal to or greater than one indicates more work was completed than planned and a value of less than one indicates less work was completed than planned. A value of less than 0.9 is unfavorable.

**CPI** is a measure of cost efficiency on a project. It is the ratio of earned value (EV) to actual cost value (AC). A CPI equal to or greater than one indicates a cost under run and a value of less than one indicates a cost overrun. A value of less than 0.9 is unfavorable.

The following earning rules are established for each of the phase:

Cost Element Group	Planned Value (Primavera)	Earned Value (Primavera)	Actual Cost (SFMTA Cost Accounting (SAP)
Prelim. Engineering	Expenditure Plan Level of Effort (LOE)	Equals to Planned Value (LOE)	Time Keeping; Vendor Accruals and Invoices
Final Design	Expenditure Plan Level of Effort (LOE)	Equals to Planned Value (LOE)	Time Keeping; Vendor Accruals and Invoices
Procurement	Planned Delivery Date	Actual Delivery Date	Time Keeping; Vendor Accruals and Invoices
Real Estate	Expenditure Plan Level of Effort (LOE)	Equals to Planned Value (LOE)	Time Keeping; Vendor/ Material Accruals and Invoices
Construction	Schedule of Work	% Complete* x Budget at Completion (BAC)	Vendor Accruals and Invoices
Sub-Total	Performance Measurement Baseline (PMB)	Total Earned Value	Total Actual Cost
Below the Line	+ Contingency		
Total	Approved Budget		

#### 6. FUNDING SUMMARY

The Funding Available Table below shows the total awarded funds to date vs. the total committed funds from the Project's funding sources.

<b>Funding Avail</b>	able Table	
	Fund	ding
	Committed Funding Sources	Total Awarded Funds to Date
Federal		
Sect. 5309-NS	\$942,200	\$942,200
Sect. 5307-OBAG	\$15,980	\$15,980
CMAQ	\$41,025	\$41,025
Federal Subtotal	\$999,205	\$999,205
State		
TCRP	\$14,000	\$14,000
State RIP	\$12,498	\$12,498
Prop. 1B (I-Bond) PTIMSE	\$308,601	\$307,792
Prop. 1A (HSR-Bond)	\$61,308	\$61,308

7.1 P	Program Project Budget
1	The Central Subway Project (CSP) ( SFMTA Capital Program CPT 544 ) is defined in the FTA-SFMTA October 2012 Full Funding
<b>'</b>	Grant Agreement with a budget of \$1.578 billion.
	The TBM Retrieval Shaft Relocation (SFMTA Capital Program CPT 690) is one of four capital projects that is related to CSP. These
2	projects are reported for background information as needed outside of the main body of the Project Monthly Progress Report.
3	The Chinatown Plaza (CPT 718) is for Chinatown Station enhancement capital project. The project has funding outside of the Central
	Subway Project. The construction is carried out in Contract 1300 Contract Modifications.
4	CPT 665 is a Real Estate project to relocation in compliance with California regulations for business relocations but outside of the
	Central Subway Project as defined by the FTA FFGA.  CPT 705 is an SFMTA capital improvement between the Agency and community stakeholders outside of the Central Subway Project.
5	CF1 705 is an Shift Capital improvement between the Agency and community stakeholders outside of the Central Subway Project.
6	Utility company reimbursements (Form B) result in funds received for work carried out on behalf of utilities concurrent to CSP work to
	achieve efficiencies.
7	PG&E Power Feed reimbursement funds are the refunds from PG&E when completion of Stations construction and switch to
	permanent power.  BART Elevator funds are reimbursements for work carried out on behalf of BART to install BART Powell Street Station elevator.
8	BART Elevator funds are reimbursements for work carried out on behalf of BART to Install BART Powell Street Station elevator.
9	The Tutor Perini - CAD Files funds are the result of payments by the contractor for project documentation not included in the
9	contract.
10	SFPUC Sewer Main funds are reimbursements for work carried out on behalf of San Francisco PUC (includes 10% construction
	contingency).  Traffic Effectiveness Project formed Contract Medification #40 for Cultural Street & Sidewalls Restartion in North Reach are
11	Traffic Effectiveness Project funded Contract Modification #40 for Culvert, Street & Sidewalk Restoration in North Beach are reimbursements for work carried out in Contract 1252 on behalf of SFMTA SSD.
	SFPUC 24" Water Main funds are reimbursements for work carried out in Contract 1252 Contract Modification #41 on behalf of San
12	Francisco PUC (includes construction management cost).
13	SFPUC North Beach 24" Water Main Additional Work funds are reimbursements for work carried out in Contract 1252 Contract
13	Modification #48 on behalf of San Francisco PUC (includes construction management cost).
14	CN1300 Contract Modification #6 is funded by Chinatown Plaza (CPT 718) project.
15	Traffic Effectiveness Project funded Contract Modification #51 for support for North Beach Restoration, OCS and Streetlighting which
	are reimbursements for work carried out in Contract 1252.
16	Public Works' funds are for reimbursements for work carried out on behalf of Public Works MOU for Water Line above YBM Station.
	SFWD funded Contract Modification #60 for 8' water line at the intersection of Fourth and Jessie Street which are reimbursements
17	for work carried out in Contract 1252.
	The Chinatown Plaza (CPT 718) is used for Chinatown Station enhancement. The project has funding outside of the Central Subway
17a	Project. The construction is carried out in Contract 1300 Contract Modifications. CMOD#123 is being partially funded by CPT718
	funding.

7.4	Contingency Management Trend Report
18	In Oct 2014 Report, updated Contract 1250 contract cost to segregate contract amount and contract modification amount. Note that September 2013 Supplemental Authorized Contingency "column f" did not include completed contract.
19	In Oct 2014 Report, updated Contract 1251 contract cost to segregate contract amount and contract modification amount. Note that September 2013 Supplemental Authorized Contingency "column f" did not include completed contract.
20	Contract 1252 Original Contract Value "column a" and Original Contingency "column f" did not match September 2013 Supplemental due to Supplemental were used the revised value to reflect Contract Modifications #3-#18. Reduced Contract 1252 contingency to reflect CMod #20 for retrieval shaft relocation cost \$5.15M funded by CPT690, CMod #40 for Culvert, Street & Sidewalk Restoration cost \$694,651 funded by Traffic Effectiveness Project (TEP), and CMod #41 for install 24" Water Main in North Beach cost \$328,860 funded by SFPUC. In August 2015 report, release \$15M CN1252 Tunnel assigned contingency to program unallocated contingency. In March 2106 report, reduced Contract 1252 contingency by \$377,435 cost to reflect certification of five CMODS. CMod#49, #52 and #53 total \$221,967 are funded by CPS. CMod#51 Support for North Beach Restoration, OCS and Streetlighting cost of \$155,468 is being funded by TEP. Released \$155,468 CN1252 allocated contingency to program's unallocated contingency. In May 2016 report, reduced Contract 1252 contingency by \$185,913 cost to reflect certification of two CMODS. In July 2016 report, increased Contract 1252 contingency by \$15,259 cost to reflect certification of one CMOD. In October 2016 report, increased Contract 1252 contingency by \$319,658 to reflect certification of three credit CMODs. In March 2018 report, increased Contract 1252 contingency by \$131,715 cost to reflect certification of two CMODS.
21	BART Elevator scope and SFPUC Sewer Main scope is in Contract 1300; effort will be funded by BART. In January 2015 Report, corrected Station Contract value to match awarded amount. In March 2019, \$18,036,709 was taken out of original contract of \$879,676,400 due to ATCS no longer being done by Tutor hence new revised budget of \$861,639,691. In August 2019, used new methodology to report on the potential changes to our contract cost. See backup via SCC codes. The budget number in cell m14 has also been updated to reflect the true cost.
22	In March 2016 Report, lowered Contract 1300 Stations CTS contingency by \$75,000 because Contract Modification #6 was funded by Project CPT718. In Nov 2016 report, reversed moving contingency.
23	In December 2017 Report, \$1,060,000 Job Readiness Budget is shown as an approved change in Column "b". In March 2019 report, \$18,036,709 taken out of Tutor contract (STS package) and put into unallocated contingency. We then used the same amount from unallocated contingency, \$18,036,709 and moved to its own line for the ATCS (advanced train control system) contract. As of March 2019, Tutor has not given us credit for the \$18,036,709 that is still sitting on the STS AL-14 bid item. That bid item should not be \$25M but instead be \$7,054,078 to reflect amount we have previously paid out. We will continue to monitor the STS-AL bid item to make sure Tutor corrects the amount. In August 2019, we are showing the \$4,841,950 from unallocated program contingency being moved to SCC 50 Systems category.

	In December 2017 Report, there is a change in Column "f" and Column "h" to reflect reporting to include CN1250 and CN1251. Prior
24	to this, Column "f" and Column "h" reporting excluded CN1250 and CN1251.
	In April 2015 report, real estate budget stated in RAMP Rev5 is \$36.7M, including \$1M contingency. The cost workbook ROW &
	contingency budget reflects this with \$36,511,799 and \$1,000,000 respectively. Revised cost book ROW budget & contingency to be
	\$37,511,799. The \$4,265,478 Caltrans lease savings is allocated to ROW allocated contingency. In February 2017, released
25	\$5,265,478 from completed phase Real Estate assigned contingency to program unallocated contingency.
	In Dec 2014 Report, redistributed LRV budget to reflect recent firm bid cost per vehicle (\$3,327,250/unit) from vehicle procurement
	contract award. (SFMTA Board meeting 15JUL14, calendar item #11). Vehicle line item total budget remains unchanged,
	redistributed fund by reducing base amount to \$13,309,000, column "c" and increased allocated contingency column "h", by same
	amount. In Dec 2018 Report, increased LRV budget by \$3,491,000 to reflect final costs of vehicles (\$4,200,000/unit) for vehicle
	procurement contract to \$16,800,000. Reduced LRV contract and transferred the \$9,585,653 from LRV contingency to
26	unprogrammed contingency.
	In July 2018 Report, increased SCC 80 Professional Services category budget by \$2,263,498 due to additional costs related to
	CN1300 stations; cost was transferred from program unallocated contingency. In August 2019 report, we are realigned and adjusted
26a	the allocated contingency for Professional Services and moved to approved changes column.
	In Oct 2014 Report, made two corrections: i) revised Professional Services, Original Contract Value "column a" from \$310,518,041 to
	\$310,618,041, ii) revised Original Cogency. "column f" unallocated contingency from \$3,883,481 to \$3,845,945. In April 2015 report,
	used \$500K program contingency for CS-175 Bayland Soil Process contract. In August 2015 Report, added \$15M from Contract
	1252. In March 2016 Report, the \$155,468 costs funded by other project offset credits added to program's unallocated contingency.
	In August 2016 Report, used \$15M to UMS contingency and \$5M to CTS contingency. In February 2017, increased \$5,265,478 from
	real estate contingency to program unallocated contingency and used \$1M for CN1300 Job Readiness Program contract. In July
	2018 report, used \$2,263,498 to increase SCC 80 Professional Services category regarding matters related to stations from program
	unallocated contingency. In August 2019 report, used \$4,841,950 to increased SCC 50 Systems category regarding matters related
	to CSP Radio from program unallocated contingency.
27	
	The total Central Subway Project budget of \$1.578 billion, based on the October 2012 FFGA with the FTA, is the primary MPR
28	report reference.
29	Estimate at Completion is shown at Column "e".
30	Estimate at Completion vs. Budget variance is shown at Column "k".
7.5 C	ontract Modification/Trend Log - Contract 1300 Stations
	Reported all trend cost for Contractor Change Order Requests and Proposed Contract Change and applied probability to forecasted
31	trends. In April 2016 Report, reviewed probability formula and adjusted cost. In May 2017, updated probability formula and adjusted
	cost.

7.6 B	udget Revisions: Report Sorted by Construction Packages
32	In Dec 2014 Report, reduced CN1252 allocated contingency by \$28K to execute Contract Modification #46, see Report 7.5 Detail Contingency Usage Report. In August 2015 report, release \$15M CN1252 Tunnel assigned contingency to program unallocated contingency. In March 2016 report, five contract modifications certified totaling \$377,435 of which \$155,468 is using another source of funding. Released \$155,648 from CN1252 Tunnel assigned contingency to program unallocated contingency. In May 2016 Report, reduced CN1252 allocated contingency by \$186K to execute Contract Modification #54 and #55, see Report 7.5 Detail Contingency Usage Report. In October 2016 Report, increased CN1252 allocated contingency by \$319,658 to execute three contract modifications (#57, #58 and #59), see Report 7.5 Detail Contingency Usage Report. In March 2018 Report, increased CN1252 allocated contingency by \$131,715 to execute two contract modifications (#61 and #62), see Report 7.5 Detail Contingency Usage Report. In December 2018 Report, released CN1252 allocated contingency of \$966,431 to program unallocated contingency.
33	In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program budget was part of CN1300 base value, a deduction contract modification will lower CN1300 contract value.
	In April 2015, initiated budget from program unallocated contingencies for CS-175 Bayland Soil Process contract, refer to Note 20.
34	
34a	In March 2019, initiated transfer due to budget being withdrawn from Tutor contract (STS package) to fund the Advanced Train Control System contract amount of \$18,036,709. CN1266-2 Advanced Train Control System (ATCS) Implementation for \$14,611,285 and CN1266-1 Advanced Train Control System (ATCS) Equipment for \$3,425,424.
	In December 2018, initiated budget from program unallocated contingencies for AON Risk Insurance, refer to Note 20.
34b	
	In February 2017, released completed phase real estate assigned contingency \$5,265,478 to program unallocated contingency.
35	
36	In Dec 2014 Report, redistributed LRV budget to reflect recent firm bid cost per vehicle (\$3,327,250/unit) from vehicle procurement contract award. (SFMTA Board meeting 15JUL14, calendar item #11). Vehicle line item total budget remains unchanged, redistributed fund by reducing base amount to \$13,309,000 and increased allocated contingency by same amount. In December 2018 Report, adjusted budget from \$13,309,000 to \$16,800,000 from allocated contingency. Took the remaining allocated contingency of \$9,585,653 and moved it to program unallocated contingency.
36a	In August 2019 Report, utilized the contingency of \$16,862,657 from 80.03 Project Management budget and 80.04 Construction Management budget and redistributed funds to align with AECOM budget to reflect true costs plus additional \$12,000,000 in 2019 annual work plan.

In October 2016 report, 1252 program contingency increased by \$319,658 due to execution of three contract modifications as credit offsets. In November 2016 report, took away \$75,000 funding from program's unallocated contingency and moved to CTS allocated contingency. In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program. CN1300 Job Readiness Program budget was part of CN1300 base value, a deduction contract modification will lower CN1300 contract value. Also released \$5,265,478 assigned real estate contingency to program unallocated contingency. In June 2017, initiated budget from Contract 1251's contract value (true final administrative close out cost) to program unallocated contingency, a deduction contract modification that lowered CN1251's contract value by \$125,501. In March 2018 report, 1252 program contingency increased by \$131,715 due to execution of two contract modifications as credit offsets. In July 2018, increased SCC category Professional Services in 80.04 Construction Management by \$2,263,498 by reducing program unallocated contingency. In August 2019, increased SCC category Other Construction in 50.05 CSP Radio by \$4,841,950 by reducing program unallocated contingency.

37 contingency.

38

39

In April 2015 report, program contingency decreased by \$500,000. In August 2015 report, release \$15M CN1252 Tunnel assigned contingency to program unallocated contingency. In March 2016 report, released \$155,468 from Contract 1252 Tunnel assigned contingency and \$75,000 from Contract 1300 Stations assigned contingency totaling \$230,956. In August 2016, released a total of \$20M unassigned contingency to assigned contingency; \$15M to CN1300 UMS station and \$5M to CTS station. In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program. CN1300 Job Readiness Program budget was part of CN1300 base value, a deduction contract modification will lower CN1300 contract value. Also released \$5,265,478 assigned real estate contingency to program unallocated contingency. In July 2017, increased program unallocated contingency by \$125,501 due to CN1251's revised contract value. In July 2018, reduced program unallocated contingency by \$2,263,498 to fund additional costs for SCC category Professional Services in 80.04 Construction Managment. In December 2018, reallocated CN1252 budget of 2,402,247 (due to closeout cmod reduction of 1,435,816 and contingency release of 966,430) and LRV budget contingency of 9,585,653 and released a total of 11,987,900 to unprogrammed contingency. In August 2019, reducted program contingency by \$4,841,950 to fund additional costs for SCC category Other Construction in 50.05 to fund CSP Radio related services.

# 7.7 Budget Expenditures by SCC Codes

In March 2017, added new columns for "Supplemental 2013 Budget" and "Remaining Budget". In April, added new column for "Contingency". In May 2017, added new column for "Report Note". In May 2017, breakdown the combined SCC codes 10 to 50 into individual row for 10, 20, 40, 50 categories. Assigned SCC code to all CN1300 potential changes. Contract 1300 Station assigned contingency SCC are 20.01 and 20.03. The budget transfer is using assigned contingency to process contract modifications. In June 2017, adjusted and realigned SCC codes. In July 2018, the budget transfer is using SCC 90 program unallocated contingency to process an increase in budget for category SCC 80.03-90.04 PM For Design & Construction. In March 2019, added \$18,036,709 from taking out the ATCS from Tutor contract. The budget transfer was used to create a stand alone line for ATCS work in 50.01 under Thales.

# 7.9 Detail Monthly Expenditure Report

#### Phase 1 Preliminary Engineering

In February 2017, line item budget was adjusted to line-up expenditures.

Famis cost for Preliminary Engineering (PE) is \$48,210,903.71. Cost Report for Preliminary Engineering (PE) is \$46,542,060. Some Design cost reported in Famis were moved to Design Phase.

Phase	2 Design Phase
	Famis cost adjustment to transfer Project Management cost from July 2013 to Phase 3 Construction Phase.
	Famis Phase 1 PE Index Code: 357906.CPT5441112 cost is \$10,222,939
42	\$8,949,300 is reported in Cost Report Phase 1 PE and the balance of \$1,273,639 is reported in Phase 2 Design.
	1.2.021.01.080.03 - FD:CTYCO-ARTS COMMISSION [357909ART001.CPT5441227]:
	FAMIS: \$1,425,167
	Cost Report: \$1,425,167 cost is reported in Phase 2 Design, 1.2.021.01.080.03

65	

In March 2016, July 2016 and October 2016, contract 1252 modifications budget and actuals have been realigned and adjusted to reflect actuals costs.

In March 2016, July 2016 and October 2016, contract 1252 modifications budget and actuals have been realigned and adjusted to reflect actuals costs.

68 Revised Contract 1252 allocated contingency SCC code from 040.08 to 010.07.

In July 2015 Report, used Contract 1300 Contractor schedule to report budget and actual cost. The Standard Cost Categories (SCC) allocation changed from previous reports. In August 2015 Report, adjusted some of Contract 1300 Contractor SCC assignment to match most of previous SCC assignment. In March 2016, \$75,000 Cmod#6 subtracted from CN1300 Stations contingency (using CPT718 funding) and transferred to Program contingency; this lead to the total CN1300 Station budget being lowered.

- 70 Revised Contract 1300/UMS allocated contingency SCC code from 040.08 to 020.03.
- 71 In March 2016 Report, reduced Contract 1252 contingency by \$377,435 cost to reflect certification of five CMODS.
- 72 Revised Contract 1300/CTS allocated contingency SCC code from 040.08 to 020.03.
- 73 Negative Current or Prior Monthly expenditure is due to replenish allowance expenses by approved Contract Modifications.
- 74 Revised Contract 1300/YBM allocated contingency SCC code from 040.08 to 020.03.
- 75 Revised Contract 1300/STS allocated contingency SCC code from 040.08 to 020.01.

In August 2019 Report, reallocated and aligned SCC 80 Professional Services category budget by \$2,956,812 due to additional costs; cost was transferred from construction management allocated contingency.

- 76 Revised Form B Reimbursements SCC code from 900.01 to 040.02
- 77 Revised Form B Reimbursements SCC code from 900.01 to 040.02
- 78 Revised Form B Reimbursements SCC code from 900.01 to 040.02
- 79 Revised Form B Reimbursements SCC code from 900.01 to 040.02
- 80 Revised Form B Reimbursements SCC code from 900.01 to 040.02
- 81 Revised Form B Reimbursements SCC code from 900.01 to 040.02
- 82 Revised Form B Reimbursements SCC code from 900.01 to 040.02
- 83 Revised Form B Reimbursements SCC code from 900.01 to 040.02

Increase Program contingency \$1,023,508. Refer to Report Notes #11 and #12. In April 2015 report, program contingency decreased by \$500,000. Refer to Report Notes #20. In August 2015 report, release \$15M CN1252 Tunnel assigned contingency to program unallocated contingency. In March 2016 report, program unallocated contingency increased by \$230,468. In August 2016, released \$20M to CN1300 Construction assigned contingency from program unallocated contingency. In February 2017, used \$1,060,000 for CN1300 Job Readiness Program from unallocated contingency, refer to Note 30. Also, released \$5,265,478 assigned real estate contingency to program unallocated contingency, refer to Note 27. In July 2018 report, used \$2,263,498 to fund SCC 80 Professional Services category regarding matters related to stations from program unallocated contingency. In December 2018, moved \$11,987,900 from CN1252 and LRV contingency to program unallocated contingency. In March 2019, added \$18,036,709 from taking out the ATCS from Tutor contract. The budget transfer was used to create a stand alone line for ATCS work in 50.01 under Thales. In August 2019, used \$4,841,950 from program unallocated contingency to create CSP Radio Design, CSP Radio Cable, and CSP Radio Procurement in SCC 50 Systems category. Waiting for a contract modification to readjust the borrowed contingency from unprogramed contingency.

84

# Appendix B DETAIL SCHEDULE REPORTS

# **SCHEDULE HIGHLIGHTS**

The Master Project Schedule (MPS) below includes progress through December 2019. The December 2019 Schedule Update submittal from Contract 1300 Contractor was not submitted as the CN1300 Contractor has not provided the updated corrections to their June 2017, through July 2018 Schedule Updates. The Contract 1300 schedule represented in this report is based on the SFMTA December 2019 Schedule Update.

The MPS keeps showing a forecast Revenue Service Date of Summer 2021 based on a revised assessment of the overall schedule and the current project conditions.

The controlling critical (longest) path of the MPS runs through the electrical activities within the tunnel which are impacting the TPC's Startup and Testing and subsequently the rail activation process. The latest schedule shows the longest path running through the Surface, Tracks and Systems (STS).

SFMTA continues to meet with Contractor to discuss all schedule concerns and comments. TPC has not been able to correctly staff the project which could potentially delay the project. In order to achieve the Baseline work productivity, TPC needs to increase the number of crews assigned to electrical work, allowing concurrent work within the tunnel and stations in order to make this completion date possible. It also requires that the front end portion of ATCS Startup and Testing is performed concurrently with TPC's Startup and Testing followed by ATCS software testing in coordination with SFMTA Operations.

Contract 1300 Contractor submitted fifty-four (54) Schedule Updates from December 2014 to July 2019. SFMTA rejected twenty-eight (28) Schedule Updates from January 2016 to April 2016 and June 2016 to July 2018 due to multiple and repetitive issues that vary from incorrect working sequences to unrealistic forecasted completion dates to artificially steering the schedule longest path through certain portions of the project. SFMTA approved as noted December 2014 through December 2015, and May 2016 Schedule Updates. Contractor has been directed to provide a Revised Schedule as required by the overall settlement agreement to maintain the forecasted project completion.

#### Contract 1300 - WP1253 UMS / WP1254R CTS / WP1255 YBM / WP1256 STS:

The Contractor, Tutor Perini Corporation's (TPC) baseline schedule is incorporated into the master program schedule. The preliminary SFMTA Contract 1300 December 2019 schedule is used within the November Report. The SFMTA Contract 1300 December 2019 schedule is based on the approved baseline schedule logic with adjustments made as mentioned above. The SFMTA will continue to use the SFMTA Contract 1300 schedule update as a forecasting tool going forward until the Contract 1300 Contractor submits an acceptable schedule that addresses all SFMTA's scheduling concerns.

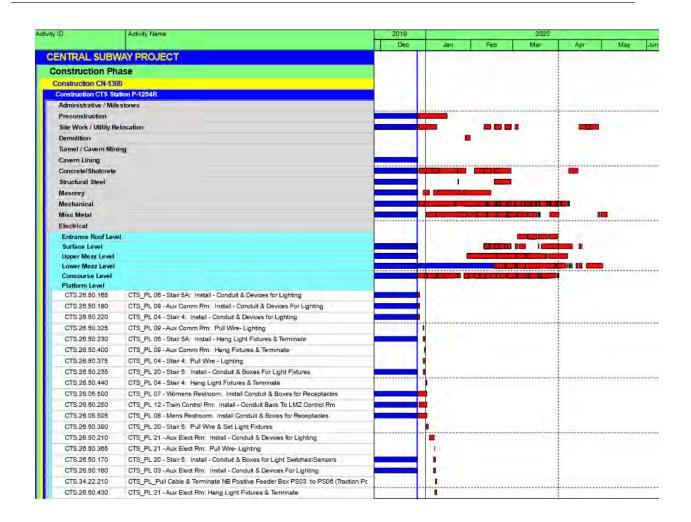

#### Work Package P-1254R (CTS) has performed the following work this month:

- Continued installing Stair 5
- Continued electrical switchgear installation on the concrete pads and HVAC ductwork installation at Headhouse Platform level

- Continued Emergency Ventilation fan installation at Headhouse Under Platform level
- Continued CMU wall curb installation on the Headhouse Underplatform Level,
   Platform Level, Lower Mezanine and Upper mezzanine Levels.
- Continued shotcrete for slurry walls, installing drain mat and waterproofing for Lower Mezzanine, and Upper Mezzanine levels at Headhouse
- Continued construction of South and West walls for PCC 50 Chinatown Plaza
- Continue installing GFRC panels at North and South Platform Caverns
- Continue installing Escalator 1 & 2 at North Platform Cavern
- Continue construction of PCC 50 Chinatown Plaza walls
- Continued street work (minor), ongoing monitoring and surveying

# Work Package P-1254R (CTS) will perform the following work next month:

- Complete installing GFRC panels at North and South Platform Caverns
- Continue installing Escalator 1 & 2 at North Platform Cavern
- Complete electrical switchgear installation at Headhouse Platform level
- Complete shotcrete for slurry walls, install drain mat and waterproofing for Lower Mezzanine and Upper Mezzanine levels at Headhouse
- Continue Escalator 1, 2, 3, & 4 installation
- Begin Escalator 5 and 6 installation
- Begin installing traction power equipment at Traction Power room at Platform level
- Begin Arch closure composite wall and GFRC panel installation at Concourse level
- Complete CMU wall construction at all levels of Headhouse
- Continue construction of PCC 50 Chinatown Plaza walls

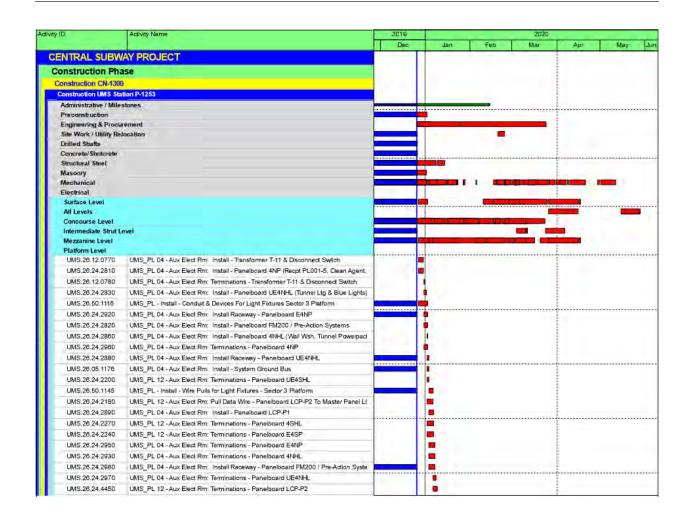

#### Work Package P-1253 (UMS) has performed the following work this month:

- Platform Station: Continued construction of stairs and elevators. Continued installation of glass enclosure around elevators and escalators. Continued to install overhead plumbing, fire protection piping, and overhead fixture and electrical. Continued installation of unistrut grid for ceiling panels and LED Artwork on Concourse Level. Continued installation of ceiling panels. Continued installation of light fixtures and controls. Continued installation of Curved Metal Panel on Platform Strut Level. Continued installation of frames for doors on all Levels. Continued preparation for installation of terrazzo on Platform level
- North Concourse: Continued construction of stairs and elevators. Continued installation of overhead plumbing, fire protection piping, and overhead fixture and electrical. Continued cement plaster finish in various rooms. Continued installation of glass wall panels

- South Concourse: Continued installation of overhead electrical, ceiling panels, and crystallized glass at ticket vending machine. Continued installation of unistrut for ceiling panels and LED artwork. Continued installation of glass wall panels. Continued installation of terrazzo flooring
- Street/Surface: Continued waterproofing and installation of precast architectural concrete elements for USG terrace level. Continued installation of USG Roof level exhaust vent

# Work Package P-1253 (UMS) will perform the following work next month:

- Platform Station: Energize main electrical room. Continue construction of stairs and elevators. Continue installation of glass enclosure around elevators. Continue installation of escalators. Continue installation of glass wall panels for escalators. Continue to install overhead plumbing, fire protection piping, and overhead fixture and electrical. Continue installation of unistrut grid for ceiling panels and LED Artwork on Concourse Level. Continue installation of ceiling panels. Continue installation of light fixtures and controls. Continue installation of Curved Metal Panel on Platform Strut Level. Continue installation of frames and begin installation of doors on all Levels. Continue preparation for installation of terrazzo on Platform Level and installation of terrazzo. Begin installation of brackets for Platform Level Artwork
- North Concourse: Continue construction of stairs and elevators. Continue installation of overhead plumbing, fire protection piping, and overhead fixture and electrical. Continue cement plaster finish in various rooms. Continue installation of glass wall panels
- South Concourse: Continue installation of overhead electrical, ceiling panels, and crystallized glass at ticket vending machine. Continue installation of unistrut for ceiling panels and LED artwork. Continue installation of glass wall panels. Continue installation of terrazzo flooring
- Street/Surface: Continue waterproofing and installation of precast architectural concrete elements for USG terrace level. Continue installation of USG Roof level exhaust vent. Continue Ellis Entrance finishes

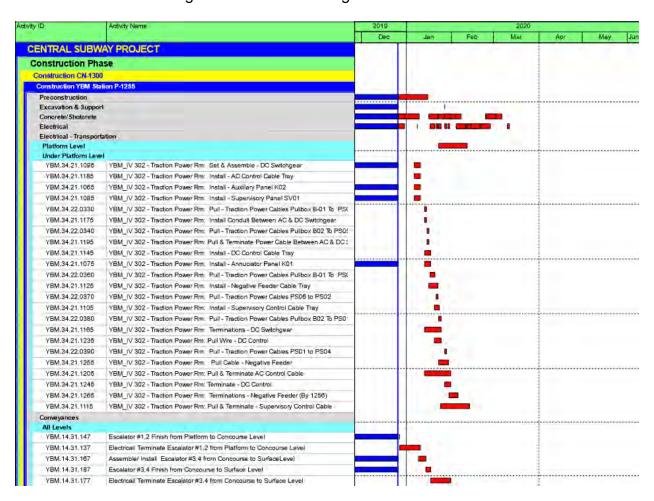

### Work Package P-1255 (YBM) has performed the following work this month:

- Continued installing Escalators 1 and 2
- Continued installing canopy frame at Headhouse Roof
- Continued installing skylight at Headhouse Roof
- Continued installing duct work for Vent Shaft
- Continued installing doors at Headhouse Mezzanine
- Continued installing sound dampers at Station Mezzanine
- Continued installing terrazzo finish in Headhouse Concourse
- Continued installing doors at Headhouse Concourse
- Continued installing ceiling in Station Concourse
- Continued installing doors at Station Concourse
- Continued installing metal wall panels in Station Invert level

#### Work Package P-1255 (YBM) will perform the following work next month:

- Continue installing Elevators 3 and 4
- Continue installing skylight at Headhouse Roof
- Begin installing insulation at Headhouse Roof
- · Continue installation of Headhouse Vent Shaft
- Continued installing duct work for Headhouse Mezzanine
- Continue placing concrete floor at Headhouse Mezzanine
- Continue installing finished floor in Headhouse Concourse
- Continue installing Station Agent Booth at Headhouse Concourse
- Begin installing toilets and lockers in Headhouse Concourse
- Begin installing artwork at Headhouse Concourse
- Continue installing metal wall and ceiling in Station Concourse

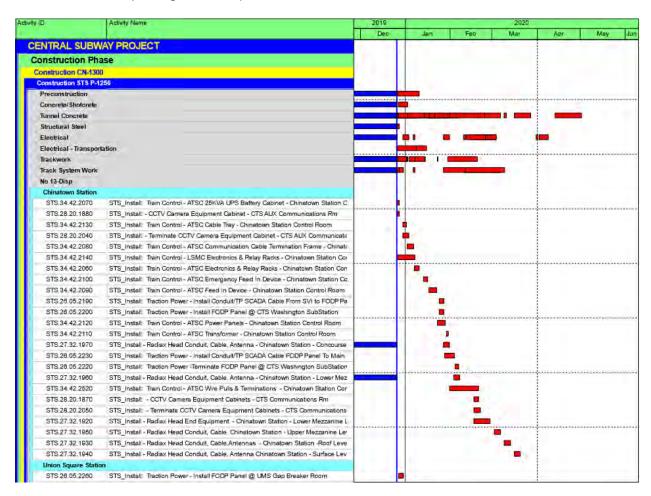

# Work Package P-1256 (STS) has performed the following work this month:

- Continued traction power conduit and other electrical conduit installation inside tunnel
- Continued tunnel lighting installation

- Continued tunnel cross passages construction
- Completed installation of jet fans at 4th Street portal
- Continued track pavement installation at 4<sup>th</sup> Street portal
- Continued 4<sup>th</sup>/Brannan platform construction
- Continued splicing traction power cables on 4<sup>th</sup> Street

# Work Package P-1256 (STS) will perform the following work next month:

- Continue 4<sup>th</sup>/Brannan platform construction
- Continue traction power conduit and another electrical conduit installation inside tunnel
- Continue tunnel lighting installation
- Continue tunnel cross passages construction
- Start OCS hanger installation inside tunnel
- Continue walkway installation inside tunnel
- Start track pavement construction at tunnel portal
- Continue pulling traction power cables on 4<sup>th</sup> Street

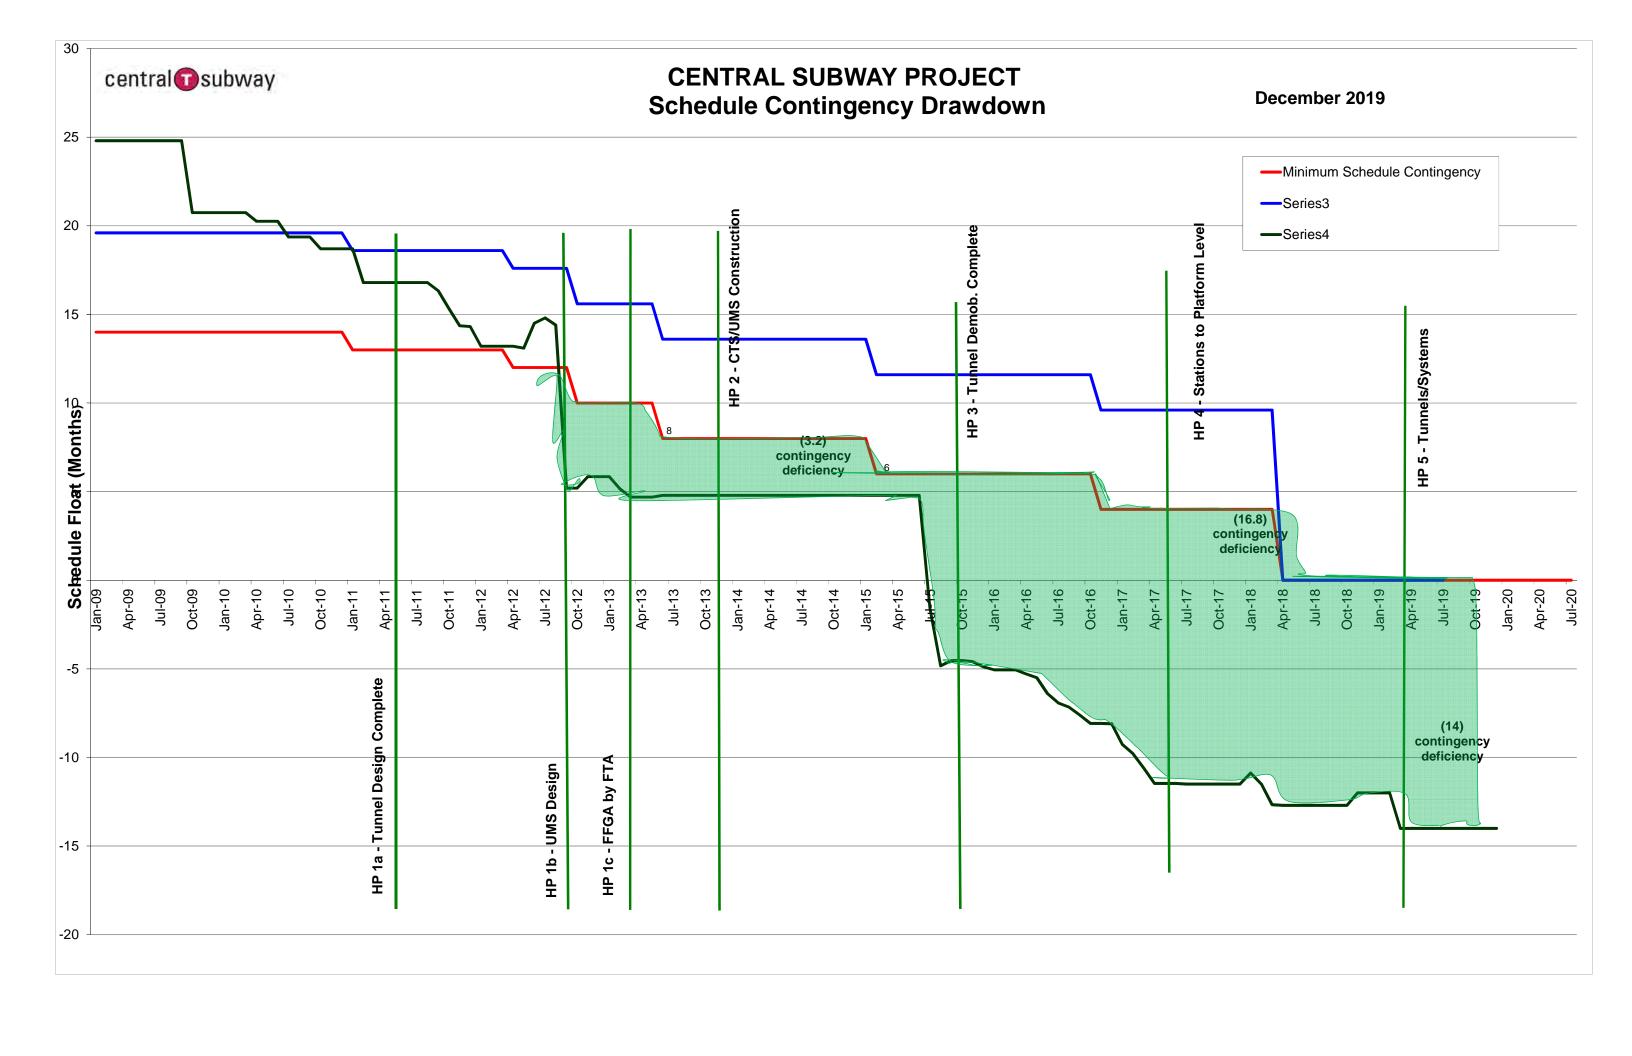

# **SCHEDULE REVISIONS**

The SFMTA Contract 1300 December 2019 schedule update was added this period to the Central Subway Project Master Schedule.

# Appendix C PROJECT SCOPE AND FUNDING OVERVIEW

## **Project Overview**

The Central Subway Project will construct a modern, efficient light-rail line that will improve public transit in San Francisco. This new 1.7-mile extension of Muni's T Third Line will provide direct connections to major retail, sporting and cultural venues while efficiently transporting people to jobs, educational opportunities and other amenities throughout the city.

The Central Subway Project is Phase 2 of the San Francisco Municipal Transportation Agency's (SFMTA) Third Street Light Rail Transit Project. Phase 1 of the project constructed a 5.1-mile light rail line along the densely populated 3rd Street corridor. It began revenue service in April 2007, restoring light-rail service to a high transit-ridership area of San Francisco for the first time in 50 years.

The Central Subway Project will extend the T Third Line from the 4th Street Caltrain Station to Chinatown, providing a direct, rapid transit link from the Bayshore and Mission Bay areas to So-Ma, Union Square and downtown.

Four new stations will be built along the 1.7-mile project alignment—an above-ground station at 4<sup>th</sup> and Brannan streets and three underground stations at Moscone Center, Union Square and Chinatown.

The Central Subway will run through the burgeoning technology and digital-media hub in SoMa, where dozens of companies have taken up residence along the 4th Street corridor. Increased

## Project Overview - continued

transit options will attract new employers – the Central Subway makes travel more convenient throughout the corridor and improves connections to downtown, local and regional rail and the Muni bus system.

The Central Subway Project will contribute to San Francisco's economic competitiveness and help secure the city's status of a regional, national and global hub. It will provide a pollution-free transit option that will reduce the environmental impact of transportation in the city, save natural resources, reduce traffic congestion and improve public transit for thousands of San Franciscans.

## **Funding Overview**

The Central Subway Project is funded by the federal government, the State of California, the Metropolitan Transportation Commission, the San Francisco County Transportation Authority (SFCTA) and the City and County of San Francisco.

The majority of funding for the Central Subway Project is expected to be provided by the Federal Transit Administration's (FTA) New Starts program, with a total commitment over the life of the project of \$942.2 million. To date, \$41 million in Department of Transportation Congestion Mitigation and Air Quality Improvement Program funds have been committed and expended.

With the addition in the December 2013 MPR of work to relocate the retrieval site for two tunnel boring machines (TBMs), the SFMTA's baseline budget for the Central Subway Project is \$1.588 billion. In total, about half of the Third Street Light Rail Transit Project's funding is from federal sources, with the remaining half from state and local sources. This is in line with the expectations of the FTA for New Starts-financed programs.

The table below summarizes the local, state and federal fund sources for both phases of the T Third Line including with the addition of the retrieval shaft to the Phase 2 totals.

	T Third (Phase 1)	Central Subway (Phase 2 + Retrieval Shaft Relocation)	Total (Phase 1 + Phase 2 + Retrieval Shaft Relocation)	Percentage of Total
Federal	\$123.380	\$983.225	\$1,106.605	49.5%
State	\$160.700	\$471.100	\$631.800	28.2%
Local	\$364.380	\$133.675	\$498.055	22.3%
Total	\$648.460	\$1,588.000	\$2,236.460	100.0%

All amounts in millions of dollars

The six charts that follow summarize use of fund sources by phase and with the addition of the retrieval shaft relocation additional budget and funding:

 Phase 1 + Phase 2 of the T Third Line federal, state and local funding percentages previous to the addition of the retrieval shaft relocation budget and funding in December 2013.

## Funding Overview - continued

- Phase 2 Central Subway Project only total funding source percentages previous to the addition of the retrieval shaft relocation budget and funding.
- Phase 2 Central Subway Project only detail of the six State and Local funding sources previous to the addition of the retrieval shaft relocation.
- The next three charts that follow are the above three data sets above with the retrieval shaft relocation budget and funding added to the overall presentation.

# Appendix D COMPLETED CONTRACTS

## **Moscone Station and Portal Utility Relocation**

#### Contract 1250

Contractor: Synergy Project Management, Inc.

Budget/Expenditures							
Category	Amount						
Original Budget	\$11,227,316						
Expenditures Final	\$11,968,150						
Utility Reimbursements	(\$2,275,419)						
Final Program Cost	\$9,692,731						
Budget Impact (Underrun)	(\$1,534,585)						

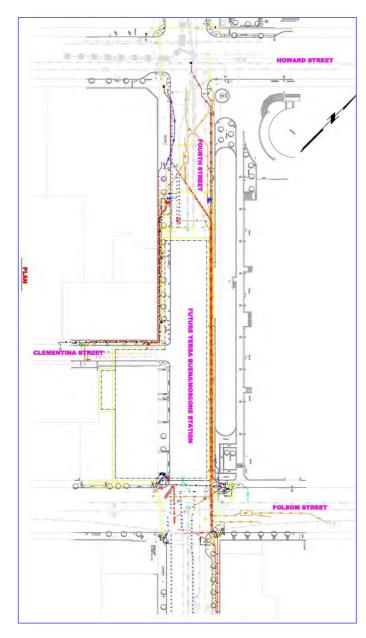

Contract Details					
Contract Awarded: N	ovember 17, 2009				
Notice to Proceed:	January 4, 2010				
Substantial Completion:	June 23, 2011				
Contract Award Value:	\$ 9,273,939				
Modifications Final :	\$ 2,694,211				
Final Contract Value:	\$11,968,150				

#### Status

- Work complete
- Project closeout administration and documentation
- Final Completion Date: June 23, 2011

## Description

This project relocates utilities within the footprint of the proposed Yerba Buena/Moscone Station and the 4th Street Portal where the tunnel boring machines will descend underground. Also included is installation of building protections and monitoring of buildings adjacent to utility trenches.

## **Union Square/Market Street Station Utility Relocation**

#### Contract 1251

Contractor: Synergy Project Management, Inc.

Budget/Expenditures						
Category	Amount					
Original Budget	\$22,199,847					
Expenditures Final	\$20,669,081					
Utility Reimbursements	(7,413,510)					
Final Program Costs	\$13,176,169					
Budget Impact (Underrun)	(\$9,023,678)					

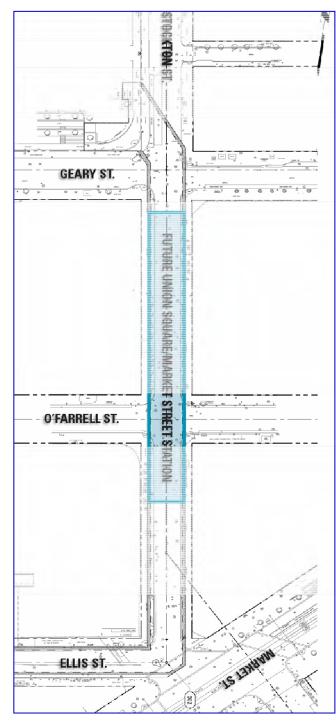

<b>Contract Details</b>	
Contract Awarded:	December 7, 2010
Notice to Proceed:	January 12, 2011
Substantial Completion:	August 16, 2012
Contract Award Value:	\$16,832,550
Modifications Final:	\$3,836,531
Final Contract Value:	\$20,669,081

#### **Status**

- Final completion on October 15, 2012
- Completed punch list work
- Project Final Acceptance on November 15, 2013
- Completed final construction contract administrative closeout in June 2017

### **Description**

This project relocates utilities for the Union Square/Market Street Station and temporarily reroutes existing trolley coach lines around the construction.

## **Central Subway Pagoda Palace Demolition**

#### Contract 1277 Contractor: MH Construction

### Work Description

Demolish and clear the former Pagoda Theater for use the site to recover the tunnel boring machines when tunnels are completed in 2015. Locate and supply contractor facilities and installations. Obtain permits and approvals and coordinate work with City agencies and utility companies. Furnish and install signs and distribute notices to the local community prior to commencing with construction, cleanup and remove of debris from the site.

- · Contract funded by SFMTA Operating funds
- Work was substantially completed September 24, 2013
- Completed administrative closeout in June 2016

Budget/Expenditures						
Category	Amount					
Current Budget	\$648,976					
Expenditures to Date	\$648,976					

Contract Details	
Contract Awarded:	June 12, 2013
Notice to Proceed:	July 15, 2013
Substantial Completion:	Sept. 24, 2013
Contract Award Value:	\$498,995
Modifications to Date:	\$149,981
Current Contract Value:	\$648,976

## **Central Subway Tunneling**

### Contract 1252 Contractor: Barnard Impregilo Healy Joint Venture

#### **Description of Work**

1.5-mile twin bore tunnels from Hwy I-80 to North Beach using two tunnel boring machines (TBMs). Contractor procurement and installation of the TBMs; construction of the TBM launch box and retrieval shaft excavation support; Yerba Buena/Moscone Station and Union Square/Market Street Station end walls; tunnel excavation and installation of precast segmental lining, the 4th Street portal transition to the surface and cross passages. Throughout, settlement monitoring and protection of existing utilities, buildings and BART tunnels.

#### Status

Final Completion Date: May 15, 2015

Completed administrative closeout in November 2018

Budget/Expenditures					
Category	Amount				
Current Budget	\$239,973,354				
Other Project Budget	\$5,150,000				
Other Offset Credits	\$1,312,101				
Expenditures Final	\$233,511,253				

<b>Contract Details</b>						
Contract Awarded:	June 28, 2011					
Notice to Proceed 1:	January 27, 2012					
Notice to Proceed 2:	March 14, 2012					
Partial NTP 3:	April 12, 2012					
Notice to Proceed 3:	October 15, 2012					
Substantial Completion:	April 15, 2015					
Contract Award Value:	\$233,584,015					
Modifications to Date:	\$6,389,339					
Final Contract Value:	\$239,973,354					

## Appendix E SBE PARTICIPATION

**Quarterly Report** 

Current Report: July 2019 - September 2019

#### PROGRAM SUPPORT CONTRACTS - SBE PARTICIPATION

Appendix E presents the Central Subway Program Small Business Enterprise or SBE goals and the actual SBE participation achieved to date – as of September 30, 2019.<sup>1</sup>

#### **CS Program SBE Summary Table for Professional Services and Construction Contracts**

The summary compares the dollar value of the Base Contracts, the SBE Contract Goals, the percent and dollar value expended to date and the SBE actual participation to date.

Appendix E - Monthly Progress Report - Reported Quarterly in 2019

				Α	В	С	D	E	F	G

#### **SBE Summary Table Notes and Sources:**

a) Column A is the base contract amount awarded. Column B is the Agency SBE goal percent for each contract awarded.

The SFMTA SBE Contract Goals are also on the Central Subway web site under the listing of on-going contracts – see "Closed and Awarded Contracts" at this link: http://centralsubwaysf.com/content/closed-and-awarded-contracts

b) Column C shows each contract's current amount expended to date (estimated) including accruals. Column D is the actual SBE percent level of each contract based on payments to date.

Column E is the expected SBE dollar amount when the contract amount is completed and the SFMTA SBE goal achieved using this calculation: Columns A \* B = Column E, the SBE Expected \$ Amount.

Column F is the actual SBE dollar amount out of the total contract expenditure to date:

Columns C \* D = Column F, the SBE Expended \$ Amount.

The source of the SBE Actual percent to date and dollar amounts are Progress Payment

<sup>1</sup> An SBE is a for-profit, small business concern with a three (3) year average gross revenue not exceeding \$14 million or \$12 million, depending on the scope of work to be performed, that is certified under any of the following programs: the State of California's Small Business Program with the Department of General Services ("State Program"), the City and County of San Francisco's LBE Program ("City Program"), or the California Unified Certification Program ("Federal DBE program").

Applications and Contractor's monthly submittals that may include the current estimated accruals. The BIH SBE percent is from the contractor's progress payment #40, Form 6.

- c) Column G, the Contractor's SBE Goal in the submitted bid, is background information that is not calculated in the table. The table source of the Contractor's SBE Goals is from the SFMTA Contract Compliance Office. A Contractor's SBE goal in the bid is one source used by SFMTA Contract Compliance to assess and propose the Agency's SBE goal for a contract.
- d) The three constructions contracts shown in **bold type**, **1250**, **1251 and 1277**, with gray background, are completed contracts. Little to no changes will be shown in future reports.
- e) The SBE Hill International Actual to Date SBE participation is 29.3% for the overall SFMTA contract. The Hill International data is for the Central Subway Task 1 portion of the Hill International contract to provide SFMTA Project Controls services and systems.
- f) The SBE SFMTA goal for Contract 1300 Tutor-Perini is 20% SBE with a provision of 50% for trucking.
  - The 1300 Tutor-Perini SBE percent Actual is based on the SBE data provided in Progress Payment #70, September 2019, SFMTA SBE FORM No. 6.
- g) The SBE SFMTA goal for Contract 1277 MH Construction was based on an SBE set-aside.

#### **SBE Participation Details**

The two tables that follow present the Central Subway's professional services and construction contract amounts, expenditures and SBE levels with additional details.

	% Expended	100%		
	SBE SFMTA Goal	20.0%		
	SBE Participation To Date	87.4%		
Contract:	Pagoda Palace Demolition / Mi	H Construction		
Contract No.				
Status:	Contract is completed and closed out			
	Base Contract Value	\$498,995		
	Approved Change Orders	\$149,981		
	Final Contract Value	\$648,976		
	% Expended	100%		
	SBE SFMTA Goal	100%		
	SBE Participation To Date	100%		
Contract:	Tunnels Barnard/Impregilo/Ha	ley		
Contract No.				
Status:	Contract is completed and clos	sed out		
	Base Contract Value	\$233,584,015		
	Approved Change Orders	\$6,389,339		
	Current Contract Value	\$239,973,354		
	Expended to Date (est.)	\$239,973,354		
	% Expended	100%		
	SBE SFMTA Goal	6.0%		
	SBE Participation To Date	5.8%		
	Stations and Systems / Tutor Perini			
Contract No.				
Status:	On-going			
	Base Contract Value	\$839,676,400		
	Approved Change Orders	\$39,244,142		
	Current Contract Value	\$878,920,542		
	Expended to Date (est.)	\$777,155,930		
	% Expended	88.4%		
	SBE SFMTA Goal	20.0%		
	SBE Participation To Date	21.6%		

Photos on the next page:

(top to bottom) September 2019: At Chinatown Station, rebar and utility conduits can be seen being installed as part of construction to build the last section of the platform. Mechanical elements of escalators at south end of the Union **Square Market Street Station** are being installed. At Yerba Buena/Moscone station, steel has been added indicating the shape of the eventual roof for the station entrance and plaza at 4th Street and Clementina Alley. Sections of alternating red and dark gray tinted topping slabs have been poured along the surface alignment between Bluxome and Bryant at Surface, Track, and Systems.
