BACKGROUND INFORMATION / COMMENTS

Prior to a paving project along Hayes St, there was a bike corral on the northside of the street. The bike corral was not restored after the paving and the business that had requested it has closed, so this proposal establishes a bike corral on the southside of the street in an existing painted safety zone. SFMTA staff determined bicycle corrals were appropriate at this location based on demonstrate high bicycle parking demand. This proposal would not remove any existing metered parking.
