Re: Proposal to Build One Operator Restroom at 6th Avenue between California and Cornwall streets

Hello Neighbors,

The Operator Convenience Facility Project is a citywide program to secure safe and reliable restroom access for our 2,512 Muni operators and reduce unplanned bus service disruptions. As a result, the San Francisco Municipal Transportation Agency (SFMTA) has constructed 15 operator restrooms throughout San Francisco and Daly City.

Please join us to discuss a proposal to build one operator restroom behind the existing bus shelter at 6th Avenue between California and Cornwall streets. During the meeting, we will discuss two proposed options as shown on page 2.

Meeting Details:

Date – Wednesday, October 21
Time – 6 pm to 8 pm
Location – Zoom meeting

Visit SFMTA.com/RestroomMeeting for meeting details.

If you are unable to attend, you can reach out to the project team (contact information can be found on page 2) to schedule an individual meeting. Community comments will be received until Friday, November 6.

Existing Conditions and Proposal
Three bus routes currently stop between 7th and 5th avenues:

- 28 Geary (shortened route)
- 28R Geary
- 44 O’Shaughnessy

The proposed restroom configurations include:
