210122.01 (Email)	Sue Vaughan	How many MTA staff have tested positive for coronavirus that the MTA is aware of?	Inside SFMTA Covid-19 & Agency updates All Staff email 2/4/21	Complete	To date, 231 staff have tested positive for COVID-19 with over half having been reported since Thanksgiving which mirrors the larger society surge. The 231 employees testing positive represents about 3.9% of our total staff. This is consistent with regional infection rates, and well below the statewide infection rate of about 8.25%. Again, please continue to take personal ownership for physical distancing and mask/face covering usage and facility cleaning.
210122.02 (Email)	Sue Vaughan	How much SFMTA work time has been lost due to staff contracting the coronavirus?	Kimberly Ackerman	Complete	It would be very difficult to determine lost work time due to staff contracting COVID. Due to HIPAA and employee privacy rights we do not and cannot differentiate whether an employee is out because they had surgery or had COVID. Employees can use a type of leave but we don't document their specific illness.
210122.03 (Email)	Sue Vaughan	How many staff deaths due to the coronavirus have there been that the MTA is aware of?	Kimberly Ackerman	Complete	We have had two employees die due to COVID...
210122.04 (Email)	Sue Vaughan	At the January 19, 2021 MTA Board of Directors meeting, Item 11, staff mentioned that the vehicle code created an exemption for paratransit and "blood" vehicles (those transporting blood) to operate in transit-only lanes. What is this vehicle code exception?	Ricardo Olea	Complete	California Vehicle Code Section 21655.5 https://leginfo.ca.gov/faces/codes_displaySection.xhtml?lawCode=VEH&sectionNum=21655.5 .
210122.05 (Email)	Sue Vaughan	What laws govern charging fees and/or taxing private buses for access to red lanes and other transit-only lanes?	Ricardo Olea	Complete	There are no laws that would allow the city to tax certain users to be able to use a transit only lane. If the Agency were to device a lane usage permit system, the Agency could only charge a fee to recover the costs to administer

**S. F. Municipal Transportation Agency Citizens' Advisory Council

					that program.
210122.06 (Email)	Sue Vaughan	Is the SFMTA currently considering instituting a charge or tax for private bus access to red lanes?	Ricardo Olea	Complete	No.
210126.01 (Email)	Neil Ballard	How are planners and engineers assigned to projects at SFMTA? For example, are certain planners assigned to schools, while others are assigned to hospitals and medical centers? Are planners and engineers ever assigned by district, neighborhood, or geographic location?	Sarah Jones	Pending	
210129.01 (Email)	John Lisovsky	What is the annual operating cost of the cable cars and the historic streetcars? How much fare revenue do they bring in? And is there some estimate of the economic activity they bring to the local economy via tourism?	Jonathan Rewers	Pending	
210201.01 (Email)	Aaron Leifer	Why was service pulled from the inbound N-bus stop at Church/14th Streets? Considering that the Market Street busses (KLM) are frequently overcrowded by COVID standards, and often experience larger-than-planned service gaps, it makes sense to have another option to get downtown. Since restoring this stop wouldn't deviate the N bus, is there a business reason not to re-instate this stop?	Sean Kennedy	Complete	As part of the J Church Transfer Improvement project the Church/14 th Street stop was temporarily discontinued since the 22 line and J line now stop far side at Church & Market. To be consistent with messaging that the Church/14 th Street stop is no longer active, we also discontinued this stop for the N Bus. Although the N Bus has been used as a regular service route during COVID, the service plan is also intended to match the N Judah rail service route and stops as much as possible. Since the N Judah train does not stop at Church & Market or Church Station this change is also to be consistent in the long term

		developed into housing?			
210204.02	Neil Ballard	What enforcement has taken place regarding the over 100 complaints to 311 regarding double and triple parking on Keith and Thomas streets?	Shawn McCormick	Complete	The specific location by the grocery store has been problematic and people move quickly when we approach. We have citations for double parking on these two streets. The numbers don't match the number of calls as people move quickly when we approach to avoid receiving a citation.
210204.03	Neil Ballard	What is the timeline for deciding which Slow Streets will remain and which ones will go away and when will those decisions begin to be implemented?	Shannon Hake	Complete	We recently released a blog post on this very topic here: https://www.sfmta.com/blog/slow-streets-path-permanence We're currently preparing evaluation materials for all temporary Slow Streets to determine the level of support among residents for a permanent designation. Surveys to residents living within ¼ mile of a Slow Street will be sent in March and we'll analyze the results in April. By the early summer, we'll be back to the MTA Board of Directors with a list of potential Slow Streets that are recommended for permanence beyond the pandemic. We'd then follow up with community outreach processes in those neighborhoods later this year and in 2022.
210204.04	John Lisovsky	What does it cost annually to operate the cable cars, and how much income do they generate? What does it cost annually to operate the historic street cars and how much annual income do they generate?	Jonathan Rewers	Pending	
210204.05	Sue	Thank you for your response to RFI	Adrian Leung	Complete	We don't have readily available data for this, primarily

(Email)	Vaughan	201203.01. How many metered parking spaces have been converted into Lyft bicycle stations?			<p>because when we permit stations, we focus on linear footage of curb space, not whether they are metered, RPP, or unmetered. This is part of an overall agency strategy to treat curb space as a resource beyond basic car storage, with more uses, including bus zones, loading zones, parklets, bikeshare stations, bike parking corrals, bulbouts, and now shared spaces.</p> <p>When stations go through our legislative process, we don't record metered space removal. This <i>has</i> led to questions about the effect on parking revenue from the implementation of bikeshare revenue. It's instructive to know that our own Curb Management group, which handles meters, permits, loading zones, and other uses, has firmly stated that bikeshare stations are the <u>most valuable</u> possible use of our curb space.</p> <p>Still, I can try and provide a very approximate estimate. We currently have about ~250 stations in SF, and many of them are at general grey curb without meters, or off-street on sidewalks. For a generous assumption, we could assume 75% of stations are in metered areas (~180 stations). If the average station is 60ft, then this adds up to 540 metered spaces across the city which has upwards of 275,000 spaces. 10% of which are metered. So, the impact to metered parking is <2%. With these numbers, the impact to overall parking is less than .2%</p>

City & County of San Francisco
Information/Presentation Requests Matrix – 2021**

Reference Number	By	Request	Staff Responsible	Status	Response
					Finally, to translate this into parking revenue impact, the SFMTA engages in dynamically priced parking, which means meters are priced corresponding to supply and demand. A drop in the meter supply could lead to higher prices if driving demand stays the same. Keep in mind the benefit of bikeshare, the main goal behind it, is mode shift, providing more people with an alternative option to NOT have to drive. So, bikeshare affects both supply AND demand. If we're successful, any parking spaces we replace will be offset by folks being able to travel to that area with bikeshare. This means it's hard to gauge any station's independent impact on revenue.
210204.06 (Email)	Sue Vaughan	Thank you for your response to RFI 190905.03. How much has the SFMTA spent on construction permits for dock-based bicycle stations?	Adrian Leung	Complete	For this latest expansion effort, starting in 2017, we've paid approximately \$70K to Public Works for construction-related permits, corresponding to our current ~250 stations. This has been completely covered by profit-sharing with the system, along with fees collected in contract agreements for Liquidated Damages based on operator performance. Bay Wheels covers all other construction costs, in addition to operations and hardware for the entire system.
210204.07 (Email)	Sue Vaughan	Thank you for your response to RFI 201203.03. What law or laws permit the SFMTA to charge market rate for use of curbs?	Hank Willson	Complete	Since this is a question about law, it might be better directed to the City Attorney. But the main CA provision that governs fees charged by local governments is the CA Constitution, Article XIIIC (the relevant update was

(Email) Presentation request	Vaughan	and preparations for the reopening of public schools when that happens.			by Sean Kennedy at the 5/6/21 CAC meeting.
210208.01 (Email)	Chris Arvin	I'd like to know what the status is of upgrading stops which are marked only by yellow and black paint to have signs with full route names. This 2015 article, containing a quote from Julie Kirschbaum, indicated that these upgrades were at one point in progress: https://sf.streetsblog.org/2015/04/23/muni-s-yellow-pole-markings-at-transit-stops-will-be-replaced-by-real-signs/	Sean Kennedy	Complete	We are working to restart the Muni Landor program and will have physical signage at every stop in the city. We will begin production and installation again this year. Progress was delayed due to shifting priorities for Service Planning/installation crew due to COVID-19.
210209.01 (Email)	Chris Arvin	I'd like to understand the cost of bringing back additional bus lines. An estimate is fine – as a specific example, I'd be curious what the cost would be to bring back the 31 Balboa line.	Sean Kennedy	Complete	As stewards of Muni, we consider ridership levels, walking distance to all bus routes, key destinations, demographics, and many other factors to work towards expansion of Muni access for as many customers as we can. We understand that every line is important to someone, so it's been challenging to meet every need with a limited number of buses. Right now, and for the foreseeable future, constraints make it much harder to restore service to levels before the pandemic. SFMTA looks at the system as a network to balance our limited resources (operators and buses) with increasing demand for our diverse services. Federal funding of about \$715 million is temporary infusion for two fiscal years (to 2023) for the entire agency will help with one time funding source but we cannot restore on going service with one time money

					but will be conducting outreach over the summer and fall for a post pandemic system and discussing tradeoffs with stakeholders city wide.
210223.01 (Email)	Neil Ballard	I have noticed in two recent outreach surveys that the Ingleside neighborhood is lumped in with surrounding neighborhoods—in a survey gauging interest in Slow Streets, Ingleside was included in "Oceanview/Parkside" and on the Vision Zero SF Action Strategy Update survey, the closest neighborhood to Ingleside is Oceanview. Is there a reason that Ingleside is not an available neighborhood to select for these and other survey	Shannon Hake	Complete	This may be a question for SF Planning. The Ingleside neighborhood isn't formally recognized by the SF Planning Neighborhoods Map, and that map is what we use for our SFMTA project boundaries. You can see the map here: https://sfplanning.org/resource/neighborhood-group-organizations and there's some contact information on that page for a planner who may be able to help.
210308.01 (Email)	Chris Arvin	Requested a presentation on the Shared Spaces Program.	Keka Robinson-Luqman	Complete	This topic is scheduled for the April 1 st CAC meeting.
210318.01	Sue Vaughan	How is it decided where bicycle racks are installed?	Adrian Leung	Complete	<p>Bike rack implementation is mostly based on three separate input streams, each with their own siting component.</p> <ol style="list-style-type: none"> 1. Public Request – We have a public-facing intake form which allows people to request rack locations. They typically propose an address in their request. 2. Emerging Mobility – With established bikeshare and scootershare programs, we

**S. F. Municipal Transportation Agency Citizens' Advisory Council
 City & County of San Francisco

Reference Number	By	Request	Staff Responsible	Status	Response
					<p>have a growing demand for bike racks. SF is unique with these programs in that we established lock-to requirements EARLY in our pilot efforts. The Lock-To requirement means every trip is starts and ends, with the bike or scooter locked to a bike rack. With this larger bike rack need, we add racks where they are needed, using data from citations as well as operator input for where they see user demand. These lock-to requirements have successfully reduced the disorganization that can come with stationless shared mobility systems. Oher cities still struggle deeply with theft, vandalism, and unending right-of-way blockages based on user parking misbehavior. Permitted operators also pay a bike rack fee as part of their participation, which means they fund new racks, which are then publicly available for anyone to use.</p> <p>3. Proactive Program – in conjunction with the needs of emerging mobility, as our city continues to become more bikeable, for more people in different neighborhoods, a key component is bike parking, and we are steadily looking at how bike parking can fill</p>

**S. F. Municipal Transportation Agency Citizens' Advisory Council

Information/Presentation Requests Matrix – 2021**

Reference Number	By	Request	Staff Responsible	Status	Response
					<p style="text-align: right;">gaps in the existing landscape to make biking a real alternative mode option, per agency goals.</p> <p>In terms of specific siting guidelines, we have a strict set of rules to follow, specifically to protected sidewalk right of way for ADA use, set back requirements to allow for curbside vehicle access, and a host of considerations to avoid conflicts with other systems—fire hydrants, bus zones, etc. Here’s a link to the SFMTA Bike Parking Standards and Guidelines, along with our Sidewalk Bicycle Rack Placement Guidelines</p> <p>https://www.sfmta.com/sites/default/files/reports-and-documents/2018/06/1_sfmta_bicycle_parking_guidelines_updated-05-15-2018.pdf</p> <p>https://www.sfmta.com/sites/default/files/reports-and-documents/2017/09/sfmta_bicycle_parking_placement_guidelines.pdf</p> <p>Generally, there is a need to implement bike racks all over in both commercial and residential areas, and since they fit in the furnishing space on the sidewalk, we consider them akin to the implementation and public good provided by parking meters, lamp posts and sign posts.</p>

210321.01 (Email)	Aaron Leifer	<p>1) Why are NextBus displays on the J Line displaying "predictions may be unavailable" when the NextBus system is functioning? (I can get estimates via NextMuni for example.) I've noticed this occurring at both the 18th and 20th St inbound stops for some time now.</p> <p>2) When will this be fixed?</p>	Jason Lee Rick Banchemo	Complete	<p>The complete NextBus message you referenced reads as follows:</p> <div style="border: 1px solid black; padding: 5px; margin: 10px 0;"> <p>Predictions may be unavailable. Svc every 12 to 15 minutes</p> </div> <p>Some of our routes run in “headway mode” – where instead of running on fixed schedules, we strive to maintain consistent spacing between vehicles. As explained in this blog post, when vehicles are operating in headway mode, NextBus predictions are currently generated only after a vehicle leaves the terminal. (For our future Customer Information System, our vendor is updating software so that we will be able to display predictions at terminals.)</p> <p>We added the “predictions may be unavailable” message you referenced since there exists the possibility that customers could see a “No predictions available” message on NextBus or shelter displays especially at the stops closest to the terminals. The thinking was that if customers didn’t see any actual predictions then they could at least still have a general idea about their possible wait time.</p>

					Overall, we have not received any significant complaints about that message and available predictions. We thank you for your feedback that these messages might no longer be needed because prediction times are more reliable or consistent and consider what changes can be made to the message within the constraints of the existing NextBus technology.
210401.01	Neil Ballard	What is the status of sign maintenance for Muni bus stops at Daly City Bart?	Cecilia Martinez-Rios		
210401.02	Sue Vaughan	How are ambassadors deployed to make sure people go to the correct bus stops?	Julie Kirschbaum	Complete	Ambassadors are not typically used for this purpose. They may be used at busy stops to distribute masks and provide COVID support. During new service changes we also deploy ambassadors where service is changing and customers may be doing something new or unexpected.
210401.03	Sue Vaughan	Is the SFMTA looking into re-engineering the bicycle lane network to accommodate the rise of heavy e-bikes and e-cargo bikes to handle the additional speeds, weights and bulk of these sport utility bicycles?	Mike Sallaberry	Complete	We generally try to make bikeways wide enough to allow cyclists to ride side by side or pass others, which naturally accommodates wider/faster bikes better.
210402.01 (Email)	Chris Arvin	How many people are currently enrolled in the Lifeline program?	Emmett Nelson	Complete	53,357
210402.02 (Email)	Chris Arvin	How many people have used Clipper START with Muni?	Emmett Nelson	Complete	Stats we have are through March 2021.: <ul style="list-style-type: none"> • 26,859 rides since the program began in late summer 2020 • 14,205 rides year to date.

					<ul style="list-style-type: none"> 786 unique Clipper START cards were used on Muni vehicles in February 2021. 3,873 approved applications (card holders) through 3/12/21.
210403.01 (Email)	Chris Arvin	In the 2021 SFMTA Board Workshop, an SFMTA presentation cited a "Transportation Community Facilities District" as a potential revenue option, providing \$180 million annually. What are the specifics of how that \$180 million number was determined? What would the parcel tax rates need to be to provide that \$180 million?	Diana Hammons	Pending	
210427.01 (Email)	Chris Arvin	What pedestrian safety improvements are currently being planned for the intersection of Divisadero & Fell, and what is the timeline?	Ryan Reeves	Pending	
210428.01	Frank Zepeda	Is there a policy for turning the heat on in the buses? Is it at the operator's discretion? The windows are often open on the bus to increase airflow because of COVID and it can get extremely cold on the buses. Are there plans to create a policy regarding heating the buses?	Michael Johnson	Complete	<p>There is no policy in place for turning the heat on in the buses. It is left up to the driver's discretion, based on the weather and the needs of the customers. There are no plans to create a policy to heating the buses. Our goal is to keep passengers safe and comfortable. I have reached out to other Transit Agencies (four to be exact-see below) to see if they have such policy and no one has one in place.</p> <ul style="list-style-type: none"> Golden Gate Transit/Marin Ca Golden Empire Transit/ Bakersfield Ca
