210122.01 (Email)	Sue Vaughan	How many MTA staff have tested positive for coronavirus that the MTA is aware of?	Inside SFMTA Covid-19 & Agency updates All Staff email 2/4/21	Complete	To date, 231 staff have tested positive for COVID-19 with over half having been reported since Thanksgiving which mirrors the larger society surge. The 231 employees testing positive represents about 3.9% of our total staff. This is consistent with regional infection rates, and well below the statewide infection rate of about 8.25%. Again, please continue to take personal ownership for physical distancing and mask/face covering usage and facility cleaning.
210122.02 (Email)	Sue Vaughan	How much SFMTA work time has been lost due to staff contracting the coronavirus?	Kimberly Ackerman	Complete	It would be very difficult to determine lost work time due to staff contracting COVID. Due to HIPAA and employee privacy rights we do not and cannot differentiate whether an employee is out because they had surgery or had COVID. Employees can use a type of leave but we don't document their specific illness.
210122.03 (Email)	Sue Vaughan	How many staff deaths due to the coronavirus have there been that the MTA is aware of?	Kimberly Ackerman	Complete	We have had two employees die due to COVID...
210122.04 (Email)	Sue Vaughan	At the January 19, 2021 MTA Board of Directors meeting, Item 11, staff mentioned that the vehicle code created an exemption for paratransit and "blood" vehicles (those transporting blood) to operate in transit-only lanes. What is this vehicle code exception?	Ricardo Olea	Complete	California Vehicle Code Section 21655.5 https://leginfo.ca.gov/faces/codes_displaySection.xhtml?lawCode=VEH&sectionNum=21655.5 .
210122.05 (Email)	Sue Vaughan	What laws govern charging fees and/or taxing private buses for access to red lanes and other transit-only lanes?	Ricardo Olea	Complete	There are no laws that would allow the city to tax certain users to be able to use a transit only lane. If the Agency were to device a lane usage permit system, the Agency could only charge a fee to recover the costs to administer

					that program.
210122.06 (Email)	Sue Vaughan	Is the SFMTA currently considering instituting a charge or tax for private bus access to red lanes?	Ricardo Olea	Complete	No.
210126.01 (Email)	Neil Ballard	How are planners and engineers assigned to projects at SFMTA? For example, are certain planners assigned to schools, while others are assigned to hospitals and medical centers? Are planners and engineers ever assigned by district, neighborhood, or geographic location?	Sarah Jones	Complete	SFMTA Planning is organized into seven sections: Programs and Education; Development & Transportation Integration; Environmental Review Team; Complete Streets; Major Corridors; Policy & Long Range Planning; Innovation. Projects are assigned by type and led from the appropriate section; for example, the transportation work associated with a major development project is coordinated out of Development & Transportation Integration, and a community-based plan is led by Complete Streets. Schools are mainly an ongoing operational program that's led by the Safe Routes to Schools Coordinator in Programs and Education. Hospitals and medical centers are mainly managed through Development & Transportation Integration. Sometimes a planner becomes especially familiar with a certain geographic area and is assigned or involved in other projects in the area, especially "spin off" projects that emerge as a plan evolves. While our goal is to support a place/geographic focus in the work of the agency, our group is not organized into place-based teams, given the broad portfolio of our work. However, the work we do is very much related and almost always involves coordination across multiple teams in Planning.

(Email)	Leifer	bus stop at Church/14th Streets? Considering that the Market Street busses (KLM) are frequently overcrowded by COVID standards, and often experience larger-than-planned service gaps, it makes sense to have another option to get downtown. Since restoring this stop wouldn't deviate the N bus, is there a business reason not to re-instate this stop?			Church/14 th Street stop was temporarily discontinued since the 22 line and J line now stop far side at Church & Market. To be consistent with messaging that the Church/14 th Street stop is no longer active, we also discontinued this stop for the N Bus. Although the N Bus has been used as a regular service route during COVID, the service plan is also intended to match the N Judah rail service route and stops as much as possible. Since the N Judah train does not stop at Church & Market or Church Station this change is also to be consistent in the long term with the N Judah train stop locations.

210204.05 (Email)	Sue Vaughan	Thank you for your response to RFI 201203.01. How many metered parking spaces have been converted into Lyft bicycle stations?	Adrian Leung	Complete	<p>We don't have readily available data for this, primarily because when we permit stations, we focus on linear footage of curb space, not whether they are metered, RPP, or unmetered. This is part of an overall agency strategy to treat curb space as a resource beyond basic car storage, with more uses, including bus zones, loading zones, parklets, bikeshare stations, bike parking corrals, bulbouts, and now shared spaces.</p> <p>When stations go through our legislative process, we don't record metered space removal. This <i>has</i> led to questions about the effect on parking revenue from the implementation of bikeshare revenue. It's instructive to know that our own Curb Management group, which handles meters, permits, loading zones, and other uses, has firmly stated that bikeshare stations are the <u>most valuable</u> possible use of our curb space.</p> <p>Still, I can try and provide a very approximate estimate. We currently have about ~250 stations in SF, and many of them are at general grey curb without meters, or off-street on sidewalks. For a generous assumption, we could assume 75% of stations are in metered areas (~180 stations). If the average station is 60ft, then this adds up to 540 metered spaces across the city which has upwards of 275,000 spaces. 10% of which are metered. So, the impact to metered parking is <2%. With these numbers, the</p>

**S. F. Municipal Transportation Agency Citizens' Advisory Council
City & County of San Francisco
Information/Presentation Requests Matrix – 2021**

Reference Number	By	Request	Staff Responsible	Status	Response
					<p>impact to overall parking is less than .2%</p> <p>Finally, to translate this into parking revenue impact, the SFMTA engages in dynamically priced parking, which means meters are priced corresponding to supply and demand. A drop in the meter supply could lead to higher prices if driving demand stays the same. Keep in mind the benefit of bikeshare, the main goal behind it, is mode shift, providing more people with an alternative option to NOT have to drive. So, bikeshare affects both supply AND demand. If we're successful, any parking spaces we replace will be offset by folks being able to travel to that area with bikeshare. This means it's hard to gauge any station's independent impact on revenue.</p>
210204.06 (Email)	Sue Vaughan	Thank you for your response to RFI 190905.03. How much has the SFMTA spent on construction permits for dock-based bicycle stations?	Adrian Leung	Complete	<p>For this latest expansion effort, starting in 2017, we've paid approximately \$70K to Public Works for construction-related permits, corresponding to our current ~250 stations. This has been completely covered by profit-sharing with the system, along with fees collected in contract agreements for Liquidated Damages based on operator performance.</p> <p>Bay Wheels covers all other construction costs, in addition to operations and hardware for the entire system.</p>
210204.07 (Email)	Sue Vaughan	Thank you for your response to RFI 201203.03. What law or laws permit the SFMTA to charge market rate for use of	Hank Willson	Complete	<p>Since this is a question about law, it might be better directed to the City Attorney. But the main CA provision that governs fees charged by local governments is the CA</p>

		curbs?			Constitution, Article XIII C (the relevant update was Proposition 26 from 2010).
210204.08 (Email)	Sue Vaughan	Regarding Better Market Street: How much of a "done deal" is the forced right turns for taxis? Did you consider allowing taxis to use the red lane on a trial basis to see if it would work?	Mariana Maguire	Complete	<p>We will do data collection on the interaction between taxis, transit and bikes this summer before implementing required right turns for taxis. The goals of this data collection are to understand the impact of taxis on safety, transit travel times, and bike use.</p> <p>Taxis are currently able to use the existing red lanes between 8th and 3rd streets. The center lane between 3rd and Main streets is currently a general traffic lane, but in the coming months will be converting it to a Muni-only lane in which taxis will not be allowed. This is one of the final pieces of the Better Market Street Quick-Build legislated in 2019. After the center lane is converted, we will compare transit travel times and transit/taxi interactions between 8th and 3rd streets, where taxis are allowed in the red center lane, and between 3rd and Main streets where taxis are not allowed.</p> <p>The results of these two studies will help us determine if the required right turns for taxis and center-lane taxi restrictions are necessary.</p>
210204.09 (Email)	Sue Vaughan	Regarding Better Market Street: When will it be implemented? Why are you forcing taxis to turn off Market Street before Muni service returns to pre-pandemic levels?	Mariana Maguire	Complete	First, we need to complete our data collection on the interaction between taxis, transit and bikes, which will help us determine whether or not required right turns for taxis are necessary to achieve Vision Zero safety goals. We

**S. F. Municipal Transportation Agency Citizens' Advisory Council
City & County of San Francisco
Information/Presentation Requests Matrix – 2021**

Reference Number	By	Request	Staff Responsible	Status	Response
					will also need to evaluate the anticipated changes and growth in transit and traffic volumes as the city reopens and the SFMTA's Transit Recovery Plan goes into effect. Any final decision to require right turns for taxis on Market Street will be based on this information.
210204.10 (Email)	Sue Vaughan	Regarding Better Market Street: Would it be possible to allow taxis to drive straight through on Market during off-hours?	Mariana Maguire	Complete	One of the core goals of Better Market Street is to eliminate road death and injuries according to the city's Vision Zero policy. The only realistic way to achieve this is to reduce vehicle traffic. To effectively reduce vehicle traffic, we need some self-enforcing road design. Establishing a part-time required right turn would not permit us to use more effective barriers, such as concrete planters or safe-hit posts, to achieve a self-enforcing design, and we would have to rely on Police to enforce the restrictions during the "on" hours. We don't believe this is a sustainable or effective way to achieve the goals of the project.
210204.11 (Email)	Sue Vaughan	Regarding Better Market Street: It will be difficult to flag a taxi on Market Street. Will anything be done to make it easier for residents and visitors to understand this (and not blame taxis) and tell them how to get a taxi?	Mariana Maguire	Complete	We anticipate that taxi drivers will develop new routes to adapt to the restriction. However, we are interested in working with taxi operators and groups on solutions to help inform residents and visitors about how to get a taxi on or near Market Street, and what to expect when riding a taxi if the customer wants to access Market Street. We welcome any ideas!
210204.12 (Email)	Sue Vaughan	Regarding Better market Street: Will it be possible to undo the forced right turns for	Mariana Maguire	Complete	Yes, if a bicycle lane is added we would revisit the street's design and traffic restrictions and evaluate how they

		taxis if the bicycle lane is built later?			should be modified in light of any proposed changes.
210204.13 (Email) Presentation request	Sue Vaughan	I request a presentation on the SFMTA's plans to convert its rubber-tire fleet to clean air vehicles.	Keka Robinson-Luqman	Complete	This topic is scheduled for the 6/23/21 EMSC meeting.
210204.14 (Email) Presentation request	Sue Vaughan	I request a presentation on the SFMTA's plans and preparations for the reopening of public schools when that happens.	Keka Robinson-Luqman	Complete	This topic will be covered during the Title VI presentation by Sean Kennedy at the 5/6/21 CAC meeting.
210208.01 (Email)	Chris Arvin	I'd like to know what the status is of upgrading stops which are marked only by yellow and black paint to have signs with full route names. This 2015 article, containing a quote from Julie Kirschbaum, indicated that these upgrades were at one point in progress: https://sf.streetsblog.org/2015/04/23/muni-s-yellow-pole-markings-at-transit-stops-will-be-replaced-by-real-signs/	Sean Kennedy	Complete	We are working to restart the Muni Landor program and will have physical signage at every stop in the city. We will begin production and installation again this year. Progress was delayed due to shifting priorities for Service Planning/installation crew due to COVID-19.
210209.01 (Email)	Chris Arvin	I'd like to understand the cost of bringing back additional bus lines. An estimate is fine – as a specific example, I'd be curious what the cost would be to bring back the 31 Balboa line.	Sean Kennedy	Complete	As stewards of Muni, we consider ridership levels, walking distance to all bus routes, key destinations, demographics, and many other factors to work towards expansion of Muni access for as many customers as we can. We understand that every line is important to someone, so it's been challenging to meet every need with a limited number of buses. Right now, and for the foreseeable future, constraints make it much harder to restore service to levels before the pandemic. SFMTA looks at the system

**S. F. Municipal Transportation Agency Citizens' Advisory Council

					<ol style="list-style-type: none"> 1. Public Request – We have a public-facing intake form which allows people to request rack locations. They typically propose an address in their request. 2. Emerging Mobility – With established bikeshare and scootershare programs, we have a growing demand for bike racks. SF is unique with these programs in that we established lock-to requirements EARLY in our pilot efforts. The Lock-To requirement means every trip starts and ends, with the bike or scooter locked to a bike rack. With this larger bike rack need, we add racks where they are needed, using data from citations as well as operator input for where they see user demand. These lock-to requirements have successfully reduced the disorganization that can come with stationless shared mobility systems. Other cities still struggle deeply with theft, vandalism, and unending right-of-way blockages based on user parking misbehavior. Permitted operators also pay a bike rack fee as part of their participation, which means they fund new racks, which are then publicly available for anyone to use.

					<p>3. Proactive Program – in conjunction with the needs of emerging mobility, as our city continues to become more bikeable, for more people in different neighborhoods, a key component is bike parking, and we are steadily looking at how bike parking can fill gaps in the existing landscape to make biking a real alternative mode option, per agency goals.</p> <p>In terms of specific siting guidelines, we have a strict set of rules to follow, specifically to protected sidewalk right of way for ADA use, set back requirements to allow for curbside vehicle access, and a host of considerations to avoid conflicts with other systems—fire hydrants, bus zones, etc. Here’s a link to the SFMTA Bike Parking Standards and Guidelines, along with our Sidewalk Bicycle Rack Placement Guidelines</p> <p>https://www.sfmta.com/sites/default/files/reports-and-documents/2018/06/1_sfmta_bicycle_parking_guidelines_updated-05-15-2018.pdf</p> <p>https://www.sfmta.com/sites/default/files/reports-and-documents/2017/09/sfmta_bicycle_parking_placement_guidelines.pdf</p>

210321.01 (Email)	Aaron Leifer	<p>1) Why are NextBus displays on the J Line displaying "predictions may be unavailable" when the NextBus system is functioning? (I can get estimates via NextMuni for example.) I've noticed this occurring at both the 18th and 20th St inbound stops for some time now.</p> <p>2) When will this be fixed?</p>	Jason Lee Rick Banchemo	Complete	<p>The complete NextBus message you referenced reads as follows:</p> <p style="margin-left: 20px;">Predictions may be unavailable. Svc every 12 to 15 minutes</p> <p>Some of our routes run in “headway mode” – where instead of running on fixed schedules, we strive to maintain consistent spacing between vehicles. As explained in this blog post, when vehicles are operating in headway mode, NextBus predictions are currently generated only after a vehicle leaves the terminal. (For our future Customer Information System, our vendor is updating software so that we will be able to display predictions at terminals.)</p> <p>We added the “predictions may be unavailable” message you referenced since there exists the possibility that customers could see a “No predictions available” message on NextBus or shelter displays especially at the stops closest to the terminals. The thinking was that if customers didn’t see any actual predictions then they could at least still have a general idea about their possible wait time.</p>

					<ul style="list-style-type: none"> • 14,205 rides year to date. • 786 unique Clipper START cards were used on Muni vehicles in February 2021. • 3,873 approved applications (card holders) through 3/12/21.
210403.01 (Email)	Chris Arvin	In the 2021 SFMTA Board Workshop, an SFMTA presentation cited a "Transportation Community Facilities District" as a potential revenue option, providing \$180 million annually. What are the specifics of how that \$180 million number was determined? What would the parcel tax rates need to be to provide that \$180 million?	Jerad Weiner	Complete	<p>To clarify, the item stated up to \$180M. Community Facilities Districts includes "Special Taxes". A Special Tax is considered a type of tax—not a fee, charge or special assessment. Therefore, the amount of the special tax is not limited to the relative benefit it provides to property owners or taxpayers. Typically, they are levied on a per parcels basis either according to the square footage of the parcel or on a flat charge, although the law usually provides flexibility to levy the special tax on any "reasonable basis".</p> <p>To give an example, SFUSD's Prop G expected to raise \$50M with a flat per parcel fee.</p> <p>A community facilities district can include multiple special taxes which could be approved over a period of time.</p>
210427.01 (Email)	Chris Arvin	What pedestrian safety improvements are currently being planned for the intersection of Divisadero & Fell, and what is the timeline?	Ryan Reeves	Complete	Advance limit lines and traffic signal upgrades, including leading pedestrian intervals and installing larger 12" signal heads, were implemented at Divisadero and Fell as

		(slides: https://www.sfmta.com/sites/default/files/reports-and-documents/2020/03/3-3-20_item_13_budget_slide_presentation.pdf)									
210611.02 (Email)	Chris Arvin	Is the SFMTA currently pursuing any efforts to increase the amount of revenue generated by the RPP program?	Hank Willson	Complete	As a cost recovery program, the cost of the permits are tied to the costs of operating the program, thus any new revenue within the program itself can only cover new or increasing costs to operate the program. The cost recovery calculation process is a recurring process and we continue to ensure the accuracy of what is and is not included in that calculation. In 2018, the SFMTA Board approved Pay or Permit parking, which replaces time-limited two-hour free parking for visitors with paid parking. We have expanded that to the upcoming Hayes Valley RPP area and are looking at expanding Pay or Permit further. The revenue collected from these paid parking spaces would go into the meter fund, which funds Muni.						
210618.01 (Email)	Chris Arvin	Can I get the actual numbers behind the projections for ridership return over the next few years that the SFMTA uses in its budget forecasts? E.g., the ridership forecast used in the budget forecast shown at the June 15, 2021 MTAB meeting.	Jerad Weiner	Complete	<p>The ridership data used on this date was based on data submitted to the Metropolitan Transportation Commission, provided below:</p> <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th colspan="2">Total Ridership (all modes, including paratransit) - Actuals and Budget Assumptions for end of a Fiscal Year</th> </tr> </thead> <tbody> <tr> <td>FY 2018-19</td> <td>223,338,056</td> </tr> <tr> <td>FY 2019-20</td> <td>170,594,316</td> </tr> </tbody> </table>	Total Ridership (all modes, including paratransit) - Actuals and Budget Assumptions for end of a Fiscal Year		FY 2018-19	223,338,056	FY 2019-20	170,594,316

210701.02	Sue Vaughan	Requested the link to the TransBASE dashboard.	Michael Jacobson	Complete	https://transbase.sfgov.org
210702.01 (Email)	Chris Arvin	I have a question regarding the newly constructed boarding island at Taraval and Sunset in the eastbound direction. What is the intention of the platform design in regards to access for wheelchair users? It does not seem that the boarding island, with the stop shelter, is wide enough for a wheelchair user to use without being forced onto the strip. My understanding is that in situations like this, the agency used the narrower shelters without the maps.	Lulu Feliciano	Complete	<p>Thank you for your inquiry regarding the boarding island at Taraval and Sunset in the eastbound direction. The main access point for wheelchair users to the ADA-accessible platform is from the crosswalk on the western side of 37th Ave., but of course they may also use this entrance and travel on the detectible warning if needed. The warning strip can be part of the path of travel. Unfortunately, there is limited space and the shelter seating is very important to other passengers with disabilities and a narrower shelter would preclude seating.</p> <p>ADA requires detectible warning on new rail platforms, no matter the height of the platform (even at curb height). They were originally only required on high level platforms. In this project the accessible platform is not new, but the general boarding platform was extended from Sunset to connect to it.</p>
210708.01 (Email)	Chris Arvin	BART has recently announced that they will once again be providing service until midnight starting August 2nd. From my understanding, BART's early closure was the reason that Muni Metro must revert to bus substitutes after around 8pm. With this BART	Julie Kirschbaum	Complete	SFMTA is preparing to extend Muni Metro service to midnight this fall as part of the fall rail schedule implementation. We are currently finalizing the date and will share with the public soon.

210827.02 (Email)	Queena Chen	Are there plans to repave Stockton Street, between Jackson St and Washington St? If so, when will it be paved?	Albert Ko (DPW)	Complete	There are no plans to repave this section of Stockton Street by PW.
210827.03 (Email)	Queena Chen	There is a No Left turn sign on Stockton Street going north bound at the corner of Washington St and Stockton St. It was placed there because Washington, between Stockton and Powell, was not a through street. Since Washington is open again, when will that No left turn sign be taken down?	Cynthia Hui	Complete	We plan to restripe Stockton St and put back that left turn pocket in the summer once we receive the green light from the resident engineer of the Chinatown station.
210902.01	Stephen Cornell	What is the SFMTA doing to ensure compliance with the federal mask mandate on its revenue vehicles?	Kathleen Sakelaris	Complete	<p>The SFMTA has informed customers of the federal mask requirement through: multilingual information on our website; multilingual announcements on our vehicles regarding federal requirements and potential for civil penalties; headsign rotation w/ “Mask + Fare Required” languages; mask decals posted on outside of vehicles; and media advisories and blogs.</p> <p>Internally, operator bulletins have been issued detailing federal mask requirements and protocols for dealing with unmasked passengers, which includes making announcements, reminding passengers of masking requirements and reserving the right to take the vehicle out of service and contact Transportation Management Center for further instructions, including requesting support from SFPD.</p>
210902.02	Dorris	What is the purpose of the angled white lines	Ricardo Olea	Complete	They are lane-narrowing buffer lines. The hatching was

	Vincent	recently added on Palou street?	Felipe Robles		intended to visually narrow the roadway - part of the overall traffic calming strategy that the Palou project implemented, along with the corner bulbs and median islands.
210902.03	Dorris Vincent	Why is there no sidewalk parking enforcement? (Chair Chen requested a presentation on parking enforcement in response to this request.)	Keka Robinson-Luqman	Complete	This topic is scheduled for the April 7, 2022 CAC meeting.
210902.04 Presentation request	Sue Vaughan	1 California TETLs and plans to convert to permanent transit only lanes. (EMSC)	Sean Kennedy	Complete	This TETL project was made permanent at the MTA Board on 1/18. I am planning to come to the CAC in April/May timeframe before going to the MTA Board for a Muni Forward/service update and will include a discussion on the 1 CA TETL project to the CAC at that time.
210907.01 (Email)	Queena Chen	SFMTA currently has reduced rates during the weekend for St. Mary Square and the Vallejo Garage (maybe?), Where is the funding to supplement the lower revenue coming from?	Rob Malone	Complete	No additional funding was provided. The garage is simply receiving less revenue per car from weekend parkers at St. Mary's Square Garage.
210907.02 (Email)	Queena Chen	What are the frequency and schedule for each run for all the Muni routes in January 2020?	Susana Beaumont-Lopez	Complete	This information was sent to the CAC on 1/28/22.
210907.03 (Email)	Queena Chen	Maps of the suggested change in the frequent and hybrid alternatives by individual routes. I want maps that focuses on those individual routes instead of having a big map with all the routes. Example: I would like to see the whole route for the 10 in each of the scenarios. It would be best if I can get these maps ASAP.	Sean Kennedy	Complete	We will have route specific maps in the next several weeks. Basically, we are just showing in the current maps the part of the line that is being discussed. If we do not show a segment of a specific line in the map you can assume it is unchanged from its pre-COVID alignment.
210912.01	Queena	A community member mentioned to me that	Emmett Nelson	Complete	1. How many staff do we have processing the free

(Email)	Chen	<p>her senior age mom submitted a request for the free muni pass back in July and still haven't received a response from SFMTA yet. She tried calling, email, and eventually went in person. While in person, staff told her that the staff in charge of processing the senior free muni applications was out sick for the last two months.</p> <p>My questions are, how many staff do we have processing the free Muni for seniors applications, what is the typical processing time, and how many applications have we processed for the three years (September 1, 2018- August 31, 2021) (please have the data listed by months).</p>			<p>muni for seniors applications?</p> <p>a. 1-2 staff members process the applications</p> <p>2. What is the typical processing time?</p> <p>a. From application receipt to Clipper card in hand is usually 3 weeks.</p> <p>3. Here are our processing stats:</p> <table border="1" data-bbox="1787 760 2601 1349"> <thead> <tr> <th>MONTH</th> <th>Youth Application Approved</th> <th>Senior Application Approved</th> <th>PWD Application Approved</th> <th>Total Applications Approved</th> </tr> </thead> <tbody> <tr> <td>12/1/20</td> <td>31</td> <td>200</td> <td>32</td> <td>263</td> </tr> <tr> <td>1/1/21</td> <td>41</td> <td>248</td> <td>23</td> <td>312</td> </tr> <tr> <td>2/1/21</td> <td>47</td> <td>177</td> <td>8</td> <td>232</td> </tr> <tr> <td>3/1/21</td> <td>66</td> <td>362</td> <td>41</td> <td>469</td> </tr> <tr> <td>4/1/21</td> <td>163</td> <td>485</td> <td>48</td> <td>696</td> </tr> <tr> <td>5/1/21</td> <td>3348</td> <td>257</td> <td>18</td> <td>3623</td> </tr> <tr> <td>6/1/21</td> <td>1400</td> <td>359</td> <td>51</td> <td>1810</td> </tr> <tr> <td>7/1/21</td> <td>*stopped approving application</td> <td>465</td> <td>34</td> <td>499</td> </tr> <tr> <td>8/1/21</td> <td></td> <td>398</td> <td>14</td> <td>412</td> </tr> </tbody> </table>	MONTH	Youth Application Approved	Senior Application Approved	PWD Application Approved	Total Applications Approved	12/1/20	31	200	32	263	1/1/21	41	248	23	312	2/1/21	47	177	8	232	3/1/21	66	362	41	469	4/1/21	163	485	48	696	5/1/21	3348	257	18	3623	6/1/21	1400	359	51	1810	7/1/21	*stopped approving application	465	34	499	8/1/21		398	14	412

		if possible, metrics on how many rides have been taken by Bike Share for All members in a recent timeframe.			
211014.01 presentation request	Sue Vaughan	Requested a presentation on alternative funding opportunities.	Keka Robinson-Luqman	Complete	This information will be incorporated in the FIT presentations at the 2022 CAC meetings regarding the budget.
211027.01	Frank Zepeda	What is the current train set capacity in the subway?	Sean Kennedy	Complete	We currently have about 21 trains an hour in the subway during the peak period. We are returning the J to the subway at 15 min headways on 2/19 and are adding a few subways shuttles so will have around 26-28 trains in the peak hour at that point. We will be monitoring subway performance as we start to schedule additional trains but understanding the specific subway capacity is more of an art than a science and there will not be a distinct breaking point...the subway will just become more unreliable on an incremental basis so we will continue to monitor and make further capital and service proposals to the MTABoard to mitigate those impacts.
211118.01	Sue Vaughan	What is the Shared Spaces program impact to meter revenue?	Monica Munowitch	Complete	As part of the SFMTA Board presentation on May 4th, the Shared Spaces financial impact analysis estimated the codified Shared Spaces program would result in a \$9.6 million annual meter revenue loss. This estimate assumes that all existing curb permits from the temporary program are maintained and applies pre-pandemic meter rates.
211201.01 (Email)	Chris Arvin	How have transit travel times on the 7, 33, and 43 changed since the new traffic lights	Sean Kennedy	Complete	Initial data shows the Muni Forward project has reduced the rate of ped/bike injury collisions by over 80%

		were installed on Haight St in the Upper Haight?			between Stanyan to Laguna. Travel time savings however, have stayed roughly even because of the reduced traffic congestion during COVID, but we expect signals will help retail this travel time savings as congestion returns and we will continue to monitor.
