The Page Neighborway Project is constructing sidewalk bulbouts, stormwater raingardens, and a decorative, raised intersection at Page and Buchanan streets to encourage slower traffic and better pedestrian connectivity between Koshland Park and John Muir Elementary School.

**From Monday Aug .8 to Saturday Aug. 13** (originally scheduled for last week), **the intersection of Page and Buchanan streets will be closed to all vehicular through-traffic**, at all times, in order for the San Francisco Public Works' contractor to elevate the roadway and complete other changes prior to the start of the school year. Motorists should seek alternative routes and otherwise follow detour signs around the construction zone. Pedestrian and bicycle access will be maintained at all times through the intersection with minor detours.

After Saturday, Aug. 13, the intersection will be opened back up to vehicular traffic. Further detours may be needed the following week (more limited, during daytime only) in order to complete final paving and construction activities.

The project also includes sidewalk bulbouts and raingardens at the intersection of Laguna and Gough streets which is anticipated to complete in fall 2022.

The rehabilitation on the westbound platform elevator at Muni Castro Station has begun and will continue for about six months. During this time, the elevator will be closed for upgrades.

The SFMTA is committed to continuously improving safety and reliability for all Muni customers even during the COVID-19 pandemic. The Castro elevator is the eighth of 12 being rehabilitated systemwide as part of the [Muni Elevator Improvement Project](#). ### **ONGOING: 19th Avenue (CA Route 1) Combined City Project**

**San Francisco Public Works is leading a multi-agency project to replace aging infrastructure and improve safety along 19<sup>th</sup> Avenue between Holloway Avenue and Lincoln Way.**

Construction work for the first segment of this project along 19th Avenue between Lincoln Way and Noriega Street has begun.

As part of the [19th Avenue Combined City Project](#), the SFMTA will implement transit priority and safety improvements for people walking along the route of the 28 19th Avenue. The improvements will make it safer to walk, remove stops to make transit service more reliable, and enhance customers' experiences—on and off the bus.

To improve safety along 19<sup>th</sup> Avenue, the SFMTA will: **1)** install pedestrian bulbs at 19 intersections and transit bulbs at 13 intersections; **2)** modify traffic and pedestrian signals to give people who walk more time to cross the street; and **3)** extend the bus zone at one intersection. Installing transit bulbs allow Muni vehicles to stop for passengers without having to pull out of traffic, and pedestrian bulbs increase the visibility at intersections of people who walk.

As part of the project, seven Muni stops were removed on 19th Avenue between Irving Street and Ocean Avenue last October. **The following Muni routes have been affected with the stop removal:**

- **28 19th Avenue**
- **91 3rd Street/19th Avenue Owl**

### **ONGOING: Shared Spaces Program**

The program allows the use of sidewalks, parking space, full or partial streets, or other nearby public spaces like parks and plazas for a wide range of activities responding to the COVID pandemic, as allowed by San Francisco's Public Health Order. For details, locations and updates on street closures related to Shared Spaces, visit [SFMTA.com/SharedSpaces](https://SFMTA.com/SharedSpaces).
