

Vision Zero Quick-Build Project Updates

April 2024

Under Construction

17th Street Quick-Build Project

The 17th Street Quick-Build Project was approved by the San Francisco Municipal Transportation Agency Board of Directors on March 5, 2024 and construction has begun this month. Work this month included outlining the future roadway striping and parking meter relocations. You may notice temporary tow-away signs on blocks that have upcoming survey, marking, and paint work. This will generally proceed block-by block. The project extents are 17th Street for 13 blocks, from Potrero Avenue to Mississippi Street. The Potrero Hill community is home to a variety of eateries, parks, retail and commercial services, manufacturing, and nightlife. This project will improve an active bicycle network connection. The project also focuses on improvements to pedestrian safety on the corridor.

Next Up for Approvals

Planning in Progress

Frida Kahlo Way Quick Build Project

The Frida Kahlo Quick Build is on its way to the San Francisco Municipal Transportation Agency Board of Directors for considerations of project approvals on Tuesday, May 7, 2024. The project supports implementing goals and priorities identified in the recently completed District 7 Ocean Avenue Mobility Action Plan, previous planning efforts in the area, and SFMTA's Vision Zero Program. The proposed changes aim to improve safety for people walking and bicycling on Frida Kahlo Way and Judson Avenue west of Foerster Street while also improving transit reliability and access. Through an extended outreach period, staff have worked to include the many different stakeholders and consider the concerns of neighbors, CCSF faculty and staff, and CCSF students.

Larkin Street Quick-Build Project

The Larkin Street Quick-Build team kicked off project design and planning this month, with outreach planned for this summer. The project extents are Larkin Street from Market Street to Sutter Street. This project is part of a network of quick-build improvements in the Tenderloin and connects to the proposed Sutter Street Quick-Build Project. The project is working to improve pedestrian safety along the corridor. This north-south corridor is very active with many pedestrians and all types of uses including government agencies, civic amenities, housing, retail, restaurants, and services to name a few. In addition to high levels of foot and vehicle traffic, the 19 Polk bus route is on the corridor from Hayes Street to Geary Street. The project team will be coordinating with other city departments working on concurrent projects in the area.
