ONGOING: L Taraval Improvement Project

As Segment A of the L Taraval Improvement project is approaching the substantial completion, major infrastructure improvements have been completed between San Francisco Zoo and Sunset Boulevard. Ongoing until this summer, streetscape and landscape work is taking place with minimal public impacts. For project details, visit [SFMTA.com/LTaraval Project](https://www.sfmta.com/LTaravalProject).

As Muni Metro service is still not operating in the subway due to COVID-19 pandemic, the L bus will continue serving the L stops between Embarcadero and the SF Zoo. Buses will make regular stops on the curbside.

Since Aug. 2019, the traffic pattern on lower Great Highway between Ulloa and Santiago streets has been changed. The northbound travel lane on lower Great Highway has been rerouted to 48th Avenue for two blocks between Ulloa and Santiago streets. The southbound travel lane will continue on lower Great Highway as usual. This will be in effect until project completion in fall 2021.

ONGOING: 19th Avenue (CA Route 1) Combined City Project

San Francisco Public Works is leading a multi-agency project to replace aging infrastructure and improve safety along 19th Avenue between Holloway Avenue and Lincoln Way.

Construction work for the first segment of this project along 19th Avenue between Lincoln Way and Noriega Street has begun.

As part of the [19th Avenue Combined City Project](#), the SFMTA will implement transit priority and safety improvements for people walking along the route of the 28 19th Avenue. The improvements will make it safer to walk, remove stops to make transit service more reliable, and enhance customers' experiences—on and off the bus.

To improve safety along 19th Avenue, the SFMTA will: **1)** install pedestrian bulbs at 19 intersections and transit bulbs at 13 intersections; **2)** modify traffic and pedestrian signals to give people who walk more time to cross the street; and **3)** extend the bus zone at one intersection. Installing transit bulbs allow Muni vehicles to stop for passengers without having to pull out of traffic, and pedestrian bulbs increase the visibility at intersections of people who walk.
