SFMTA Weekend Transit and Traffic Advisory For Saturday, June 23, 2018

San Francisco—The San Francisco Municipal Transportation Agency (SFMTA) releases the following upcoming event-related traffic and transit impacts for this weekend, Friday, June 22 through next Thursday, June 28, 2018. Anyone traveling in San Francisco can check www.sfmta.com or call 311 to find out which of the 83 Muni lines will get them where they want to go. **All road users are encouraged to be aware, share the roadway and to follow all rules to ensure everyone's safety. Whether you are riding Muni, taking a taxi, walking, riding a bike or driving, please remain vigilant to keep everyone safe. If you see suspicious activity, please report it.**

For real-time updates, follow us on www.twitter.com/sfmta_muni or visit <http://www.sfmta.com/signup> to sign up for real-time text messages or email alerts.

For details of Muni re-routes, visit <http://www.sfmta.com/news/alerts>. This website will be updated when it is closer to the event date.

MAJOR TRANSIT IMPACT BEGINS: Twin Peaks Tunnel Improvements Project

Beginning Monday, June 25, the Twin Peaks Tunnel will be closed for approximately two months. With 100 years of service under its belt, the Twin Peaks Tunnel is in need of extensive interior work to continue to operate safely and reliably for years to come.

The vital part of our transit system connects Castro Station to West Portal Station and serves 80,000 K Ingleside, L Taraval and M Ocean View customers every day.

more - more - more

Twin Peaks Tunnel Improvements Project *continued*

The tunnel's infrastructure, including the tracks, walls and drainage systems, must be maintained in a timely manner to keep up with the demands of the Muni system. Twin Peaks Tunnel is currently under a speed restriction, which slows down trains as they travel through. Replacing the tracks will lift the tunnel's speed restriction and keep trains running reliably through the system. Seismic reinforcements will better protect the tunnel's overall structure and stability.

Construction is expected to start on Monday, June 25 with a continuous closure of the tunnel for approximately two months. Work will take place 24 hours a day, 7 days a week. During the closure, Forest Hill and West Portal stations will be closed. The K Ingleside will travel on a shortened route and the bus service will run for the L Taraval and M Ocean View lines. **Nx buses will not operate during the closure**, but there will be additional train service on N Judah line.

Below are details of transit changes:

- Starting Monday, June 25, for two months, the Twin Peaks Tunnel, West Portal Station and Forest Hill Stations will be closed.
- K trains will run a shortened route between Sloat/St. Francis and Balboa Park. Once K Ingleside trains reach Balboa Park, they will continue downtown as J Church trains.
- L buses will run instead of trains between the SF Zoo and Church Station.
- M buses will run instead of trains between Balboa Park and Church Station
- L and M Buses will stop at both Castro and Church stations where customers can transfer to and from Muni Metro underground.
- M and K customers going downtown are encouraged to transfer to BART at Balboa Park. Free BART tickets to Embarcadero will be available Monday through Friday, from 6 to 10 a.m.
- Forest Hill Shuttle will connect Forest Hill to West Portal.
- For Forest Hill Station, use L bus or Forest Hill Shuttle only.
- For West Portal Station, use M bus or Forest Hill Shuttle only.

Garage Parking

If public transit is not a preferred option to attend the event, participants may consider parking in the City's garages at Moscone Center Garage located at 255 3rd Street or at Fifth & Mission Parking Garage located at 833 Mission Street. Both garages are about 15-20 minute walk from AT&T Park. Parking at these garages will be available in the afternoon and evening on most days. Rates listed are per hour:

Moscone Center Garage*

- Noon to 3 p.m.: \$5.50
- 3 to 6 p.m.: \$2.00
- 6 p.m. to Closing: \$1.00

*Garage closes at 9 p.m., Sunday; at 12 a.m., Monday through Thursday; and at 2:30 a.m., Friday and Saturday. For more details, visit [Moscone Center Garage](#).

Fifth & Mission Parking Garage**

- 6 a.m. to Noon: \$3.00
- Noon to 6 p.m.: \$4.00
- 6 p.m. to 6 a.m.: \$3.00

**Garage is open 24/7. For more details, visit [Fifth & Mission / Yerba Buena Garage](#).

As a reminder to fans, in order to reduce congestion on city streets after all events at AT&T Park, the SFMTA will close eastbound King Street between 3rd and 2nd streets from the seventh inning until after the post-game traffic has died down. Additionally, the northbound portion of the 4th Street (Peter R. Maloney) Bridge will be closed to all traffic except streetcars, buses, taxis and bicycles during the post-game period. Giants fans parked south of Mission Creek Channel who are heading north of the channel are encouraged to exit to the south along 3rd or 4th streets in order to avoid congestion on King and 3rd streets after AT&T Park events.

For details about transit service to AT&T Park, including connections from Bay Area transit systems to Muni, visit <http://www.sfmta.com/getting-around/destinations/att-park>.

CONSTRUCTION WORK AND OTHER UPDATES

UPDATE: Van Ness Improvement Project

The Van Ness Improvement Project is a civic improvement project that will bring San Francisco's first Bus Rapid Transit system. To maximize the benefits of construction, the City will also be replacing major utilities including water, sewer and emergency firefighting water systems. Work will also be done to repave Van Ness Avenue, enhance streetlights and landscaping, and install new sidewalk lighting and rain gardens.

Traffic lanes on Van Ness Avenue have been shifted to create two construction zones for upcoming utility work. Because some of this work requires reducing Van Ness Avenue to one lane in each direction, some work is limited to nighttime hours. Neighbors will be notified of night noise 72-hours in advance of night work.

Friday, June 22, between the hours of 8 p.m. and 7 a.m.:

- **From Ellis to O'Farrell streets:** Crews are scheduled to work on water main installation.
- **From Turk to McAllister streets:** Crews are scheduled to work on updating the emergency firefighting water system. Disruptive noise is expected.

Neighbors are advised to anticipate construction-related noise, as crews work diligently to complete necessary night work.

For more project details and the latest construction updates, visit sfmta.com/vanness.

UPDATE: Central Subway Project

Construction of the 4th and Brannan streets surface station platform is ongoing. Until further notice, traffic reroutes will remain in effect.

Sewer replacement work continues at night at 4th and Howard streets. Work hours are from 8 p.m. to 5 a.m. Two through lanes are in place southbound 4th Street. Westbound traffic on Howard Street may be impacted. Utility work on Folsom Street between 4th and 5th streets may occur between 9 p.m. and 5 a.m., reducing Folsom Street to two lanes on this block.

One lane on the south side of Ellis Street is open at all times for eastbound traffic. The parking garage between Ellis and O'Farrell is accessible on the north side of Ellis Street.

more – more - more

Central Subway Project *continued*

Street restoration work is continuing on the north side of the intersection of Ellis and Stockton streets.

Washington Street between Stockton Street and Trenton Alley is under a long-term temporary closure to vehicular traffic as station construction continues. Pedestrian access to Washington Street between Stockton Street and Trenton Alley remains open.

The Central Subway project is the first underground line to link the north and south corridors of the city, and will provide a direct connection to major retail, sporting and cultural venues while efficiently transporting people to jobs, educational opportunities and other amenities throughout San Francisco.

For project updates, visit: <https://www.sfmta.com/projects-planning/projects/central-subway-project>

UPDATE: M Ocean View Safety and Transit Improvement Project

The M Ocean View Improvement Project will repair vital transit infrastructure and improve safety for people who walk and use Muni on 19th Avenue. The improvements include installing vehicle safety measures at the trackway entrances, replacing the rail and upgrading traffic signals. Temporary lane shifts are now active in the area and drivers are advised that travel times may increase.

After successful completion of Phase One, track replacement between Winston and Rossmoor drives as well as pedestrian safety and performance improvements have now begun in Phase 2 of the project. To support this work, some lane shifts on 19th Avenue have already been implemented and will continue throughout the project.

Saturday, June 23: Initial construction is scheduled to take place. In order to create a safer work area, the curb lane will be closed on 19th Avenue between Winston and Rossmoor in the northbound direction. Additionally, crews will be working in the east sidewalk, however pedestrian access will remain open.

The larger track replacement work will coincide with the Twin Peaks Tunnel Improvements Project, during which the M train will be substituted with a bus. [The Twin Peak Tunnel Improvement Project](#) will begin on Monday, June 25 and will continue for approximately two months. Crews plan to take advantage of this bus substitution to work on the rails.

UPDATE: UCSF Mission Bay Arena Platform Project

In anticipation of the new Golden State Warriors' Chase Center and growth in the Mission Bay, the SFMTA is constructing a new center platform along 3rd Street between South and 16th streets. This new, larger platform will service both the inbound and outbound trains and greatly expand transit capacity in preparation for large crowds.

Construction work is ongoing, with decommission of the Muni platform planned for December and a new platform anticipated to be completed and in service in early summer of 2019. Bus substitutions will serve the T-Third line during parts of construction.

For project updates and to sign up for email updates, visit:
<https://www.sfmta.com/projects/ucsf-mission-bay-arena-platform-upgrade>.

ONGOING: Construction of Mission Bay Loop

The SFMTA has resumed construction on 18th, 19th and Illinois streets, the project is expected to be completed in late 2018.

The Mission Bay Loop is a key component for San Francisco's T Third rail line and is critical to operating the T Third Central Subway service plan. The loop provides turn-around capabilities for the T Third Street light rail line via a connection of trackway from 3rd Street to 18th, Illinois and 19th streets, which will allow the SFMTA to operate the necessary service levels needed to support current and planned growth within the eastern portion of San Francisco.

Traffic, including travelling by bike, may be affected by the construction work. All work areas will be clearly marked and there will be flaggers to help direct traffic.

In order to conduct the work, parking on both sides including along the historical Crane Cove Park fence (east side of Illinois Street) will be removed 24 hours, 7 days a week from 18th to 19th and Illinois streets for the duration of the project.

Traffic lanes traveling both north and south will remain open and there will be flaggers posted to help direct traffic.

more – more - more

Construction of Mission Bay Loop *continued*

The northbound bike lane will be converted to a shared roadway. Expect minor delays when traveling around and through the construction area.

Local access to properties along the project site will be maintained. Sewer work is scheduled to be completed by summer 2018.

For project details or to sign up to receive project updates, please visit: <https://www.sfmta.com/missionbayloop>.
